HOISTING MACHINE OPERATORS **ADVISORY BOARD**

PURPOSE

The Hawaii State Legislature created the Hoisting Machine Operators' Advisory Board for the purpose of assuring the safe operation of hoisting machines in the State of Hawaii by establishing a certification program for operators. The Board is administratively attached to the Hawaii Occupational Safety and Health Division of the Department of Labor and Industrial Relations for the purpose of developing rules for the certification of hoisting machine operators in Hawaii.

GOVERNANCE

Established in 1998 by the Hawaii State Legislature (Act 165) (Hawaii Revised Statutes § 396-19), the Hoisting Machine Operators' Advisory Board is a five member board appointed by the Governor and confirmed by the Senate. The advisory board first met in May 1999 and promulgated Administrative Rules that became effective December 6, 2002.

FUNDING

The Hoisting Machine Operators' Certification Revolving Fund, established in 1998, supports the process for certifying hoisting machine operators in the State of Hawaii. The fund covers personnel and operating expenses for the advisory board to ensure that national certification standards are met for Hawaii hoisting machine operators. The funds also cover the cost of preparing and disseminating information on the hoisting machine operators' certification process, public outreach programs when necessary, and costs associated with annual reporting on the program's accomplishments. The program is self-supporting, although the Board receives support from staff in the Department of Labor and Industrial Relations.

ADMINISTRATIVE RULES

Under Hawaii Administrative Rules, Chapter 12-48, a hoisting machine operator certificate is required to operate any hoisting machine in the State of Hawaii with a lifting capacity of more than five tons and used to perform construction work. The certification process includes a written and practical exam and requires operators to produce evidence (certificate) showing they passed a physical examination that will allow them to safely operate a hoisting machine. This certification program ensures public and worker safety by requiring operators to document training, experience and physical ability before receiving a certificate to operate a hoisting machine in the State of Hawaii.

The certification process requires a prospective hoisting machine operator to submit an application along with a non-refundable \$50.00 application fee. Once approved, the applicant must pay a \$500.00 certification fee for a five-year certificate. There is a renewal fee of \$500.00. The Board is responsible for ensuring that the costs of this program are borne by hoisting machine operators and not the taxpayers of the State of Hawaii. The Board established fees considered affordable to individuals wishing to operate hoisting machines in State of Hawaii.

Hoisting machine operator training is an integral part of an overall certification process. Worker and public safety is enhanced with effective training. The certification process ensures minimum competency levels for operators and provides assurance to employers that the hoisting machine operators they employ have the appropriate training and experience to operate a hoisting machine. This process benefits workers, employers, and the public.

During the fiscal year, the Board worked with the State Attorney General's Office and the Department of Labor to complete revisions to Chapter 12-48, proposing changes that would bring these Rules into compliance with the federal standard adopted August 9, 2010.

CERTIFICATION

Since December 6, 2002, the Department of Labor and Industrial Relations has certified eight hundred and one (801) crane operators statewide and in fiscal year 2011 deposited \$29,987 in collected certification fees. For Fiscal Year 2011, 51 crane operator renewal certifications and 8 special certifications were issued. There are 359 crane operators that have current certifications.

Financial Statement Fiscal Year 2011

	Beginning Balance	\$329,264
Revenues		
	Certification Fees Collected	\$ 29,987
	Interest	\$ 38,980
	Gross Revenue in FY 2011	\$ 68,967
Expenses		
	Personnel Costs	\$ 32,672
	Deputy AG Fees	\$ -
	Operating Expenses, Equipment, etc.	\$ 762
	Total Expenses in FY 2011	\$ 33,434
Status of Fund at the end of FY 2011		\$364,797

Executive Board

General administrative responsibilities for the Hoisting Machine Operator's Advisory Board rest with a five-member executive board. The board is appointed by the Governor for four year staggered terms. The board includes representatives from both organized labor and management employers.

Thomas S. Vendetta is the Chairman of the Advisory Board. He has over 37 years of government experience. As a licensed civil engineer, he has worked in various capacities for the City and County of Honolulu in the areas of planning, design, construction and operations. He currently is the program administrator for the City's Division of Industrial Safety and Workers' Compensation.

Joaquin M. Diaz has been a safety professional over a decade after receiving his Bachelors in Science in Occupational Safety and Health. He is an active and contributing member of the Hawaii Occupational Safety and Health (HIOSH) Advisory Committee, which promotes safe workplaces in Hawaii by providing advice and guidance to the State director of labor. He is currently the Safety Director for Hawaiian Dredging Construction Company.

Edward G. Sanchez has two decades of experience with cranes. He has served as an operator, a crane load test director, and license examiner. In 2006, he retired as a crane operator supervisor from the Pearl Harbor Naval Shipyard.

Jim Weander has over 42 years of experience in the hoisting and rigging industry. He is a former crane operator and an engineer currently designing lifting apparatus and lifting configurations for Grace Pacific Rocky Mountain Prestress as a consulting engineer. He has extensive experience with some of the largest cranes in the world and has consulted on designs for some of the major crane manufacturers.

Personnel

Lora Lee P. Contreras is the Executive Director for the Advisory Board. She has been appointed to various administrative positions for the past 29 years, including 12 years on various boards and commissions. She also worked for 11 years in the Hawaii State Legislature administratively.
