DEFINITIONS

Attendant Services	Cost of services of an attendant for a totally disabled employee.
Average Cost Per Case	Total compensation costs divided by the number of processed cases with cost.
Compensation Orders	Decisions made on controverted cases, on awarding of permanent partial disability and disfigurement, and on reopening cases.
Costs	All payments accorded to a claimant to include disability, death, disfigurement, vocational rehabilitation, attendant services, and medical payments.
Days Lost	Number of compensated (calendar) days in which injured workers were not able to work because of temporary total disability. This excludes the three-day waiting period.
Disfigurement	Scar, deformity, discoloration, or other disfiguring consequences resulting from the injury or caused by medical, surgical, and hospital treatment of the employee. This is separate from permanent partial disability.
Employment	That portion of the work force covered by Workers' Compensation law. Annual average taken from the "Employment and Payrolls in Hawai'i" report excluding federal government employees.
Event or Exposure	Identifies the circumstance, which directly resulted in the injury or illness.
Industry	Identifies employers by the major type of activity in which they are engaged.
Medical	Physicians and hospital costs and costs for services and supplies.
Nature of Injury or Illness	Identifies the injury or illness in terms of its principal physical characteristic.
Occupation	Identifies the nature of work of the employee.
Part of Body	Identifies the part of the worker's body directly affected by the injury or illness.
Permanent Partial Disability	Injury or illness which results in the complete loss or loss of any member or part of the body or any permanent impairment of functions of the body or part thereof, regardless of any pre-existing disability.
Permanent Total Disability	Any injury or illness other than death, which permanently and totally incapacitates an employee from following any gainful occupation.
Processed Cases	Reported injuries or illnesses during the report year and all prior years on the Disability Compensation Information System database for which an action has occurred during the report year. Actions on a case includes having been subject to a screening procedure having the injury or illness medically evaluated, and/or medical costs and/or workers' compensation payments occurred. For example a case initially reported on a WC-1 in 1990, where payments were made in 2014, would be counted as a 2014 processed case and a case reported in 2014 with or without payments will be counted as a 2014 reported case and 2014 processed case.
Reported Injuries and Illnesses (Reported Cases)	All injuries and illnesses reported to the Disability Compensation Division. These reported injuries or illnesses may not have occurred during the report year, due to the change in close date (See Technical Notes, #5) to process a reported case.
Reported Fatalities	Any death resulting from an on-the-job injury or illness reported to the Disability Compensation Division.
Source of Injury or Illness	Identifies the object, substance, exposure, or bodily motion, which directly produced or inflicted the injury or illness.
Temporary Partial Disability	A work injury or illness which causes partial rather than total disability for temporary periods. The injured worker is paid a weekly benefit amount of 66-2/3 percent of the difference between his average weekly wages before the injury and his weekly earnings thereafter for the duration of the disability.
Temporary Total Disability	A common type of disability where the work injury or illness causes total disability for temporary periods. The employer or insurance carrier, for the duration of the disability, but not including the first three days, pays the injured worker a weekly benefit amount of 66-2/3 percent of his average weekly wages, but not more than the maximum weekly benefit amount nor less than the minimum weekly benefit amount, or if his average weekly wages are less than the minimum weekly benefit amount, at a rate of 100 percent of his average weekly wages.
Vocational Rehabilitation	Cost of vocational rehabilitation services.

TECHNICAL NOTES

The Workers' Compensation Data Book is based on the annual accumulation of data in the State of Hawai'i, Disability Compensation database.

1. The following coding systems and locally revised versions were used to categorize data:
 - a) Industrial attachment is determined by the principal activity of the employer as defined in the **North American Industry Classification System 2002 (NAICS)**. The new NAICS industry groupings better reflect the workings of the U.S. economy, particularly in the services sector. NAICS, developed using a production oriented conceptual framework, groups establishments into industries based on the activity in which they are primarily engaged. It is not an update of the Standard Industrial Classification (SIC) system. NAICS focuses on how products and services are created. More information on NAICS is available at the U.S. Census Bureau website at <http://www.census.gov/epcd/www/naics.html>.
 - b) Codes and definitions used to categorize Nature of Injury or Illness, Part of Body Affected, Source of Injury or Illness, and Event or Exposure were modeled after the **1992 Bureau of Labor Statistics (BLS) Occupational Injury and Illness Classification Structures (OIICS)**. Starting with 1996 data, BLS OIICS data codes were locally modified to 2 digits instead of 4 digits, making the data less detailed.
 - c) Occupational groups are based on the **1990 Alphabetical Index of Industries and Occupations**, developed and published by the Bureau of the Census, Washington, D.C., U.S. Government Printing Office. Starting with 1996 data, the occupation classifications were locally modified, making the data less detailed.
2. From 1999, the employment data source used in the **Worker's Compensation Data Book** has been changed. Instead of the **Labor Force Data Book** employment we are using the **Employment and Payrolls in Hawai'i** statistics. Employment data from the later publication may be more in line with workers covered under the Workers' Compensation program. Caution should be taken when reviewing the employment and frequency data for trend analysis prior to 1999.
3. From 2000, the table Hearings and Decisions Issued (previously called Compensation Orders Issued and Number of Hearings) has changed to include Act 59 settlements and attorney fees. The combined category Permanent Partial & Disfigurement no longer exists. Figures are reported under the category with the highest severity. For example: a case with disability payments and disfigurement award would be counted in the disability category and not in disfigurement.
4. Beginning with the **2002 Workers' Compensation Data Book**, there is a new format for the Industry category. The North American Industry Classification System (NAICS) is being used to designate the different industries instead of the Standard Industrial Classification (SIC) system. For trend analysis purposes, the data may not be comparable.
5. Effective with the **2004 Workers' Compensation Data Book**, the close date to process a "reported case" for the preceding calendar year was changed from January 31 to December 31 to accommodate the filing of electronic "WC-1 Employers Report of Industrial Injury". For trend analysis purposes, the data for 2004 may not be comparable.
6. From 2014, Financial Activities in the Industry group replaced Finance, Insurance, Real Estate, Rent & Leasing; Finance, Ins, Real Estate, Rent, & Leasing; and Fin, Ins, Real Est, Rent, & Leasing.
