DEFINITIONS

DURATION	is the number of uninterrupted weeks each claimant has during his/her current spell of unemployment.
RACE	refers to the racial or cultural group an individual may most closely identify with within a community as designated by the claimant. (Previously called Ethnicity.)
INDUSTRY	refers to the classification of the claimant's last employer or the employer for whom the claimant earned the greatest wage during the base period.
INSURED UNEMPLOYED	represents the weekly number of covered workers, totally or partially unemployed, who have filed unemployment insurance claims.
INTERSTATE	refers to those claimants filing for benefits in Hawaii (agent state) against wage credits earned in another state, Canada, Puerto Rico, or the Virgin Islands (liable state).
INTRASTATE	refers to those claimants filing for benefits in Hawaii against wage credits earned in Hawaii or from Hawaii based employers.
OCCUPATIONS	refers to the type of work the claimant is seeking or the occupation he/she was last employed in.

This report sketches the characteristics of the insured unemployed -- those covered by the Unemployment Insurance Law. Although this report can be used as a general indicator of the economic situation, some caution should be exercised as the data represent only a portion of the total "unemployed." Approximately 90 percent of Hawaii's workers are covered under the law. Exceptions are the self-employed, family employees, certain employees of nonprofit organizations, some domestic workers, newspaper carriers under 18, student nurses and interns, casual laborers, regularly enrolled students performing services for the school, college or university, ordained members of the church, insurance agents and real estate salespersons remunerated solely by commissions and agricultural workers on small farms. New graduates, re-entrants to the work force, newly arrived immigrants, persons who quit their jobs or have refused suitable work or were fired for misconduct are some examples of job seekers whose numbers are absent from this report.

The data shows characteristics of claims for benefit payments made for the week containing the 12th of each month. It includes jobless persons filing claims for unemployment insurance under the Hawaii Employment Security Law and persons filing claims in the State of Hawaii against another state. The data excludes those claimants filing under the Extended Benefit program, and federal programs covering ex-federal workers and ex-military personnel.

Beginning with the 2001-2002 Characteristics of the Insured Unemployed publication, there is a new format for the Industry and Occupation categories. The Standard Occupational Classification (SOC) system replaced the Dictionary of Occupational Titles (DOT) coding system for occupations. The North American Industry Classification System (NAICS) is being used to designate the different industries instead of the Standard Industrial Classification (SIC) system. For trend analysis purposes, the data may not be comparable.
