WIOA BULLETIN NO. 17-18

DATE: March 6, 2018

TO: WIOA Partners

SUBJECT: 2017 Lower Living Standard Income Level Guidelines

Purpose

The purpose of this bulletin is to transmit the 2017 Lower Living Standard Income Level (LLSIL) guidelines.

Background

Criteria for local areas to determine whether a person is a low-income individual for Workforce Innovation and Opportunity Act (WIOA) Title I programs, is set forth in Section (§) 3(36)(A) of the statute. These criteria include use of two sets of data: the poverty guidelines, as published by United States Department of Health and Human Services (HHS), Attachment 1, and 70% of the Lower Living Standard Income Level (LLSIL), as determined by the United States Department of Labor (USDOL). Employed workers making less than 225% of LLSIL are eligible for training services. USDOL revises the LLSIL Guidelines annually to reflect cost of living increases. The revision for 2017 was published in the Federal Register, Vol. 82, No. 98, on Friday, May 23, 2017.

Policy

Effective immediately, when determining an individual's WIOA eligibility based on low-income status as defined in WIOA § 3(36)(A), service providers must use the higher of income guidelines issued by either USDOL, 70% of the LLSIL, Attachment 2, or the Poverty Guidelines from the HHS.

The Program Year (PY) 2017 chart for 225% of LLSIL, Attachment 2, should be used to determine eligibility for training of employed workers. Both charts attached to this bulletin will be updated annually.

Procedures

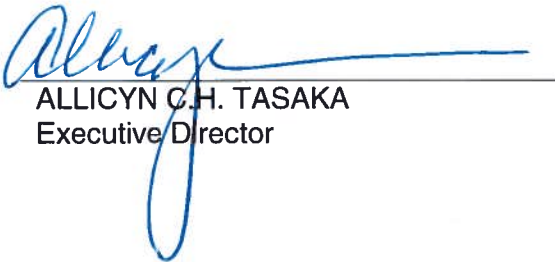

Use the higher of either the 70% of LLSIL or the poverty guideline for the appropriate family size to determine low-income status, and the 225% of LLSIL to assess eligibility of employed workers to access training. Refer to the *Appendix* for definitions related to this guidance.
