
A BILL FOR AN ACT

RELATING TO EDUCATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that children living in
2 poverty who have one or more parents incarcerated, are the
3 victims of abuse or neglect, or are homeless often experience a
4 range of traumatic and toxic stress. This stress can harm the
5 child's brain development and physical, social, mental,
6 emotional, and behavioral health and well-being.

7 The legislature further finds that in 2013, the Healthcare
8 Association of Hawaii conducted a comprehensive study on Kauai
9 to, among other things, uncover the needs of vulnerable
10 populations, many of which have individuals of native Hawaiian
11 ancestry. The study revealed that teens who drop out of school
12 have a diminished ability to advocate for their own health and
13 wellness compared to their peers still enrolled in school.
14 Compounding this problem is that in 2017, 14.2 per cent of the
15 students in department of education schools dropped out,
16 amounting to 25,546 students.

17 The legislature finds that since high school dropouts are
18 more likely to experience incarceration and poverty, it is

1 imperative that the department of education identify vulnerable
2 students who are likely to drop out, assess their needs, and
3 provide them with the services they need to succeed.

4 The purpose of this Act is to require the department of
5 education to establish a task force to create a system for
6 evaluating and assessing all children and those who are
7 exhibiting emergent or persistent behaviors, academic
8 challenges, or chronic absenteeism and are in need of
9 appropriate supports and interventions accessible within the
10 continuum of a multi-tiered system of supports.

11 SECTION 2. (a) The department of education shall
12 establish a task force to create a system for evaluating and
13 assessing all children and those who are exhibiting emergent or
14 persistent behaviors, academic challenges, or chronic
15 absenteeism and are in need of appropriate supports and
16 interventions accessible within the continuum of a multi-tiered
17 system of supports.

18 (b) The following individuals shall serve as members of
