Coordination with Programs Serving Individuals At-Risk of or Experiencing Homelessness WIOA places a strong emphasis on planning across multiple partner programs to ensure alignment and collaboration in service delivery. A key goal of WIOA is to develop effective partnerships across programs and community-based providers to provide individuals access to the employment, education, and training services they need to obtain skills and employment. Providing quality services to individuals at risk of or experiencing homelessness is an important opportunity to strengthen services to the priority populations of the WIOA Adult program (recipients of public assistance, other low-income individuals, and individuals who are basic skills-deficient), all of which include individuals at risk of or experiencing homelessness. Effective partnership is essential to maximizing resources and aligning critical services with career pathways and sector strategies.

The table below includes examples of federally funded programs that provide services to individuals at risk of or experiencing homelessness and can provide access to resources and services that may be made available for individuals that are eligible for services under the WIOA Adult program. Local Workforce Development Boards (WDBs) or individual American Job Centers (AJCs) are encouraged to partner with grantees/awardees of these programs to better serve individuals at-risk of or experiencing homelessness in their local area. (Note: Funding for the programs identified below may not be available in all communities. For information about local efforts to prevent and end homelessness, including availability of federal grant funding, please contact your local Continuum of Care.)

<p><i>Homeless Veterans Reintegration Program (HVRP)</i></p>	<p>The Department of Labor funds programs that provide employment, job training, and related support services to veterans experiencing homelessness.
