I. WIOA State Plan Type and Executive Summary

A. WIOA State Plan Type

This is a unified plan.

B. Plan Introduction

The State of Hawai'i, under the leadership of Governor Josh Green, M.D., is proud to present its 2024-2027 Workforce Innovation and Opportunity Act (WIOA) Unified Workforce Development Plan (Plan) which is required by WIOA sec. 102 (29 U.S. Code § 3112). The State of Hawai'i is choosing to submit a Unified State Plan which outlines a four-year strategy for the six core WIOA programs.

- the Adult Program (Title I of WIOA),
- the Dislocated Worker program (Title I),
- the Youth program (Title I),
- the Adult Education and Family Literacy Act program (Title II),
- the Wagner-Peyser Act Employment Service program (authorized under the Wagner-Peyser Act, as amended by title III),
- the Vocational Rehabilitation program (authorized under Title I of the Rehabilitation Act of 1973, as amended by Title IV).

Hawai'i, with its magical scenery, fine weather, and diverse and friendly people, has been called a "Pacific Paradise". However, just under the surface lies a grim reality. Why is 42% of our population unable to afford the basics and secure jobs that pay a sustainable wage? And why are 35,000 people, many of whom are skilled and talented, including Native Hawai'ians, moving to other places each year in search of a better life for themselves and their families? Great challenges create great opportunities.

Unemployment numbers are low but Hawai'i is also a predominantly low skill and low wage, service-based economy with a small job market and the highest cost of living in the nation. Numerous attempts by policy makers to diversify the economy in the last few decades have not worked so far. The problem is exacerbated by an extremely tight housing market and other barriers to employment.

Nonetheless, there are positive signals on the horizon, particularly from the efforts of valiant stakeholders on the workforce development landscape, who are devoting time, energy, and resources towards this end.

For example, with funding through the Good Jobs Initiative, the University of Hawai'i (through its community colleges) and the Chamber of Commerce have organized Sector Partnerships with emphasis on key employment sectors. The Hawai'i State Department of Education has created the Workforce Development Branch which is dedicated to "coordinating educational opportunities with Hawai'i's business sectors to help schools prepared students for the workforce."

These is optimism and a groundswell of interest and support from various organizations and non-profits, all of whom recognize that in a small, remote economy workforce development plays a critical role in economic development, and that good jobs are essential to greater prosperity.

There is promise as the economic engines pivot to more targeted futures in Health care, Technology, Creative Arts, and other promising economic clusters. Private businesses such as Hawai'i Pacific Health have collaborated with local high schools to create certifications and pathways to health care careers. Most recently, a new organization has been created called the Hawai'i Workforce Funders Collaborative, which is composed of nine philanthropic foundations, and their focus is "To strengthen partnerships and systems to provide equitable access to living wage jobs for Hawai'i residents."

There is a tremendous and urgent need to align and coordinate intentions, efforts, and resources to achieve mutually advantageous goals.

Efforts are underway to achieve alignment. In September 2023, as the nation celebrated Workforce Development Month, the State of Hawai'i Department of Labor and Industrial Relations under the leadership of Director Jade Butay, in collaboration with the Chamber of Commerce of Hawai'i, held its first "Future of Work Conference". The well-attended event brought together speakers from the State's top seven labor/economic sectors: Tourism, Defense, Construction, Health Care, Technology/IT, Energy, and the Public Sector. Each sector mapped out projected labor needs for the next few years as well as the challenges they face. It was an authentic effort to create a more integrated approach to the State's labor needs.

A few days later, a Workforce Summit was held which gathered more than a dozen specific stakeholder organizations and allowed for a high-level sharing of ideas and best practices facilitated by the NGA. The event clearly demonstrated a need to consistently communicate on an ongoing basis.

But there is a sense of urgency. The exodus of Hawai'i residents continues, and the labor situation will get more challenging in time if the status quo remains.

What are the action items that the State of Hawai'i needs to pursue to ease the challenge, particularly for the populations who have barriers to employment?

The development of a strategic plan is federally mandated by the US Department of Labor as part of the Workforce Innovation and opportunity Act (WIOA) for states to continue to receive federal funding. In the past, the Plan has often been a compliance document and merely reflected the public sector strategies.

However, the US Department of Labor advocates that "*WIOA state planning affords state boards an opportunity to refresh and forge new partnerships with key stakeholders from P-12, career and technical education, higher education, economic development, state and regional transportation and energy agencies, community-based organizations, Registered Apprenticeship Program sponsors, and the business community to ensure that WIOA investments connect individuals to quality jobs and provide genuine pathways to the middle class.*" (TEGL #)

Additionally, it has been noted by many that this is an opportune time to take advantage of unprecedented "historic federal investments" such as the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law (BIL), the Creating Helpful Incentives to Produce Semiconductors (CHIPS) and Science Act, and the Inflation Reduction Act (IRA) (collectively referred to as Investing in America (IIA)) to initiate creative solutions on education and workforce development system challenges. Hawai'i has been slow to access some of these national funds and it behooves the State to explore these opportunities further.

Coordination is particularly imperative if Hawai'i is to take advantage of historic federal investments. State of Hawai'i and its Governor, Dr Joshua Green is aspiring to create a 21st century, globally competitive state economy and a prepared workforce. Accordingly, our strategic plan is divided into two portions: strategic elements and the operational elements.

Strategic elements include an economic analysis of the workforce, (including the projected needs of in-demand industries and forecasts for high growth areas), an inventory of the public, private and philanthropic organizations, and their purview as well as their portion of Hawai'i's future of work, and acknowledgement of emerging global realities: AI, the gig economy, and post pandemic attitudes towards work.

Note that this Unified Plan is not intended to be a Master Plan but a starting point for conversation amongst Hawai'i's stakeholders. It prompts the public sector to cultivate partnerships with educators, employers, employees, and key stakeholders to drive workforce development for high demand jobs, create pathways to living wage occupations and enhance skill building for high growth industries. What this Plan also uncovered was the need to create a long-term aspirational goal that will unite and rally the stakeholders to take bold action steps towards the desired objective of gainfully employed Hawai'i residents who can raise their families in a safe, thriving, culturally sensitive and economically diverse economy, ensuring prosperity for all.

The process for this Strategic Plan started with the convening of the members of the Workforce Development Council in September 2023 wherein they conducted a strategic Planning session and developed a state vision and mission were developed. This was followed by scores of interviews with Council members, academe, community leaders, business leaders and others who were all relevant to the conversation. Meetings with WIOA core partners were held throughout many months to ensure efforts were aligned and coordinated.

What emerged were six strategic goals that the State intends to pursue for 2024-2028.

1. Tie Economic Development and Workforce Development efforts to address core issues like labor shortage, living wage, economic diversification, and jobs for the future.
2. Build stronger bridges to Hawai'i's Educators.
3. Align workforce development stakeholders including those in the public, private and philanthropic space.
4. Increase support for organizations and agencies that deliver quality training, certifications, and other upskilling assistance.
5. Prioritize services to vulnerable populations with barriers to employment.
6. Transform American Job Centers in Hawai'i through a fresh identity, increased visibility, and better coordination with WIOA Core partners.

We note that the challenges related to workforce development are complex, and we realize that there is a need to present immediate solutions to present-day challenges, but we also intend to be aspirational and farther ranging so our strategies also cover long-term goals, carried over time.

A discussion of these goals, the rationale, and the strategies to achieve these targets can be found on Page 90-96.

The second part of this Unified Plan is The Operational Element portion which provide the details of how the WIOA core programs can collectively achieve the goals set.

These core programs, namely Workforce Development Division (for Title I and III), the Hawaii State Department of Education (for Title II), and the Department of Vocation Rehabilitation (Title IV), wrote their pertinent sections which also include their performance measures.

II. Strategic Elements

A. Economic, Workforce, and Workforce Development Activities Analysis

A.1. Economic Analysis

DEMAND

The job distribution across Hawai'i's state and counties in 2022 highlights a strong dependence on the Leisure and Hospitality sector, especially in Maui and Kauai Counties, where it constitutes 30.2% and 29.6% of jobs respectively. Government and Retail Trade are other major employment sectors across the state and counties. Notably, each county exhibits unique employment characteristics: Honolulu County has a significant Government sector (21%), while Hawai'i County shows a balanced mix of Government and Leisure and Hospitality jobs.

In 2022, Hawai'i's total nonagricultural wage and salary jobs numbered 618,100, with the Government sector being the largest employer, accounting for 19.5% of all jobs. The Health Care & Social Assistance sector followed with 11.7%, and Retail Trade with 10.5%. Notably, Food Services & Drinking Places also constituted a significant portion, representing 10.3% of the total jobs. Other key sectors included Natural Resources & Mining & Construction, and Accommodation, each contributing around 6% to the job market.

Table 1.1. Job Count by Industry - State of Hawai'i, 2022

Industry	2022 Employment	Industry Distribution
TOTAL NONAGRICULTURAL WAGE & SALARY JOBS	618,100	100.0%
Government	120,800	19.5%
Health Care & Social Assistance	72,400	11.7%

JOB OPENINGS

The job market in Hawai'i from December 2022 to November 2023 showed significant activity in specific sectors across various counties. Statewide, the Health Care and Social Assistance sector led in job openings with 22,628 positions, closely followed by Accommodation and Food Services, and Retail Trade. In Honolulu County, Health Care and Social Assistance remained the top sector, but Professional, Scientific, and Technical Services also showed strong demand. Accommodation and Food Services dominated job openings in Hawai'i, Maui, and Kauai Counties, reflecting the state's strong reliance on tourism. The data also indicates a consistent demand across counties for jobs in Administrative and Support and Waste Management and Remediation Services, highlighting the importance of these services in Hawai'i's job market.

Table 1.6. Total Annual Job Openings in State of Hawai'i (Dec 2022 - Nov 2023) – Top 10 Industries

Industry	Job Openings
Health Care and Social Assistance	22,628
Accommodation and Food Services	20,522

Manufacturing	276

HAWAI'I'S JOB MARKET BY INDUSTRY FROM 2020 TO 2030:

- Accommodation and Food Services are projected to see the largest increase in actual numbers, growing by 41,580 jobs from 69,750 to 111,330.
- Health Care and Social Assistance, despite a lower growth rate (1.4%), also shows a significant numeric increase, with 11,340 new jobs, rising from 73,920 to 85,260.
- The Arts, Entertainment, and Recreation sector, while having a high growth rate (4.5%), translates to an increase of 4,460 jobs, reaching 12,540 by 2030.
- Transportation and Warehousing are expected to add 8,750 jobs, a considerable absolute increase given its 3.2% growth rate.
- On the lower end, sectors like Finance and Insurance, and Government show minimal absolute growth, with the former adding only 20 jobs and the latter 400 over the decade.
- The Utilities sector is the only one projected to decline, losing 350 jobs by 2030.

Table 1.11. Average Annual Job Growth by Industry for Long-Term Projections, State of Hawai'i, 2020-2030

Industry Title	Employment		Annual
	2020	2030	Growth
Accommodation and Food Services	69,750	111,330	4.8%
Arts, Entertainment, and Recreation	8,080	12,540	4.5%
Transportation and Warehousing	23,370	32,120	3.2%
Other Services	22,200	26,660	1.8%
Health Care and Social Assistance	73,920	85,260	1.4%
Administrative and Support and Waste Management and Remediation Services	34,050	38,920	1.3%
Information	7,250	8,060	1.1%
Real Estate and Rental and Leasing	10,770	11,980	1.1%
Educational Services	50,720	55,890	1.0%
Professional, Scientific, and Technical Services	23,800	25,640	0.8%
Manufacturing	11,900	12,770	0.7%
Management of Companies and Enterprises	8,240	8,760	0.6%
Construction	35,870	37,400	0.4%
Retail Trade	61,110	63,620	0.4%
Wholesale Trade	16,350	17,010	0.4%
Self Employed	46,950	48,660	0.4%
Agriculture, Forestry, Fishing and Hunting	7,360	7,620	0.4%
Government	74,800	75,200	0.1%
Finance and Insurance	15,960	15,980	0.0%
Utilities	3,660	3,310	-1.0%

HAWAI'I'S JOB MARKET BY OCCUPATION FROM 2020 TO 2030:

- **Significant Expansion in Service-Oriented Jobs:** The largest growth is observed in the service sector, particularly in Food Preparation and Serving Related occupations (3.9% growth), indicating a substantial expansion of the hospitality industry. Personal Care and Service occupations are also growing considerably (3.0%), reflective of an increasing demand for personal care services.
- **Healthcare Sector Dynamics:** Healthcare Support (2.1% growth) and Healthcare Practitioners and Technical (1.0% growth) occupations are expanding steadily. This trend aligns with the broader national trend of an aging population and the consequent increase in healthcare needs.
- **Consistent Growth in Building and Transportation:** Building and Grounds Cleaning and Maintenance, and Transportation and Material Moving occupations are showing consistent growth (2.0% and 1.9%, respectively). This indicates ongoing development in infrastructure and logistics sectors.
- **Stability in Educational Services:** The Education, Training, and Library occupations are growing at a steady rate of 1.2%. This suggests a stable demand for educational professionals, likely driven by population growth and evolving educational needs.
- **Moderate Increase in Management Roles:** Management occupations are growing at a moderate pace of 1.2%. This growth could be tied to the overall expansion of businesses and industries in the state.
- **High Turnover in Key Sectors:** Despite lower growth rates, Office and Administrative Support, and Sales and Related occupations show a high number of annual openings (8,350 and 7,660 respectively), indicating significant job turnover in these fields.
- **Gradual Growth in Technical and Skilled Trades:** Sectors like Construction and Extraction, and Arts, Design, Entertainment, Sports, and Media are experiencing moderate growth.
- **Minimal Growth or Decline in Certain Sectors:** Some sectors like Finance and Insurance, and Utilities are showing minimal growth or a decline. This could indicate a saturation in these sectors or increasing efficiency leading to reduced labor demand.

Table 1.11-B. Average Annual Job Growth by Occupation for Long-Term Projections, State of Hawai'i, 2020-2030

Occupation Title	Employment		Annual Growth	Annual Average Openings			
	2020	2030		Change	Transfer	Exits	Total

BEST JOB OPPORTUNITIES BY EDUCATION LEVELS

1. Higher Secondary or Less Education Level:

- General Maintenance & Repair Workers lead with 800 openings, a 2.3% growth rate, and a median wage of \$47,760.
- Sales Representatives of Services show 400 openings with a 1.8% growth rate, offering a higher median wage of \$60,330.
- Fitness Trainers & Aerobics Instructors and Chefs and Head Cooks present strong growth rates of 4.4% and 4.5%, respectively, though with fewer openings (230 and 120).

2. Associate's or Post-Secondary Education Level:

- Massage Therapists have a notable 4.1% growth rate, with 210 openings and a median wage of \$49,080.
- Captains, Mates, Pilots of Water Vessels show a substantial 4.3% growth rate, indicating robust opportunities in marine transportation, albeit with 80 openings.
- Diagnostic Medical Sonographers are a high-wage option with a median wage of \$99,410, but only 20 openings, reflecting a niche but lucrative area.

3. Bachelor's and Above Education Level:

- General & Operations Managers dominate with the highest number of openings at 910, and a 1.5% growth rate, alongside a significant median wage of \$96,060.
- Market Research Analysts & Marketing Specialists and Nurse Practitioners demonstrate notable growth rates of 3.2% and 4.4%, with 250 and 50 openings, respectively, indicating strong demand in marketing and healthcare sectors.
- Software Developers & Quality Assurance Analysts/Testers stand out with 220 openings and a growth rate of 2.3%, with a high median wage of \$97,180, underscoring the demand in the tech sector.

Overall, these figures highlight a diverse range of opportunities in Hawai'i's job market, with significant demand in sectors like maintenance, sales, fitness, marine transportation, healthcare, management, and

technology. The data emphasizes the importance of specialized skills and training across various levels of education, with notable wage disparities reflecting the value of advanced skills and experience in the job market.

II.A.2. Workforce Analysis

Over the 2012-2019 period, Hawai'i's civilian labor force expanded from 650,400 to 686,100 participants (5.5%) while the number employed rose from 612,000 to 668,750 (9.3%). The unemployment rate averaged 3.8%, ranging between 2.2%-5.9%. However, in 2020, unemployment rate reached 11.7% (an increase of 88.5% year-over-year), of 77,900 jobless residents. As pandemic impacts subsided, 2021-2022 saw considerable recovery with 72,000 residents re-entering employment. By the end of 2022, 652,700 residents were employed (3.5% unemployment rate). However, during the pandemic the civilian labor force contracted by 9,800 (1.4%) from 2019 peak, and the state has yet to reclaim 16,050 jobs. Hawai'i's labor market recovery continues albeit with lingering challenges in rebounding employment to pre-pandemic level.

Table 1.33. Civilian Labor Force (not seasonally adjusted), State of Hawai'i, 2012-2022

Year	Civilian Labor Force	Employed	Unemployed	Unemployment Rate
2012	650,400	612,000	38,450	5.9%
2013	651,000	620,000	30,950	4.8%
2014	664,000	635,900	28,100	4.2%
2015	670,600	647,600	23,000	3.4%
2016	679,100	659,550	19,550	2.9%
2017	695,300	679,850	15,450	2.2%
2018	692,450	675,850	16,600	2.4%
2019	686,100	668,750	17,350	2.5%
2020	664,100	586,200	77,900	11.7%
2021	670,000	629,650	40,350	6.0%
2022	676,300	652,700	23,600	3.5%

Mirroring statewide trends, Honolulu County's workforce expanded steadily between 2012-2019, with its labor force growing 4.4% from 448,000 to peak at 464,850 participants, while number employed rose 7.1% to reach filled positions. Unemployment held around 2.4%-5.3%, averaging 3.5%. However, reflecting wider COVID-19 impacts, 2020 saw Honolulu's jobless numbers spike 94% year-over-year, reaching 46,300 unemployed residents and yielding a 10.3% unemployment rate. In post-pandemic recovery, over 22,000 Honolulu workers re-entered the workforce in 2021-2022. By end 2022, 442,300 residents reported active employment, though still about 11,000 jobs shy of 2019 peak. Meanwhile, the civilian labor force contracted by 1.4% during the pandemic. With unemployment down to 3.5%, Honolulu County shows a partial recovery to pre-pandemic levels.

Table 1.34. Civilian Labor Force (not seasonally adjusted), Honolulu County, 2012-2022

Year	Civilian Labor Force	Employed	Unemployed	Unemployment Rate
2012	448,000	424,100	23,900	5.3%
2013	448,700	429,200	19,500	4.3%
2014	457,050	438,900	18,200	4.0%
2015	460,600	445,700	14,950	3.2%
2016	463,350	450,750	12,650	2.7%
2017	472,600	462,550	10,050	2.1%
2018	469,800	458,950	10,850	2.3%
2019	464,850	453,650	11,200	2.4%
2020	450,650	404,350	46,300	10.3%
2021	452,600	427,300	25,250	5.6%
2022	458,150	442,300	15,850	3.5%

Over 2012 to 2019, Hawai'i County's civilian labor force grew from 87,300 to peak at 94,800 in 2018 (8.8%) as number employed rose from 80,250 to top out at 92,050 filled jobs (13.1%), averaging a 4.4% unemployment rate. However, in 2020, unemployed residents spiked to 10,500 (49.3% year-over-year increase) and 11.4% jobless rate amidst COVID-19 impacts. During recovery, 2021-2022 saw 6,900 residents (7.5%) rejoining the county's workforce back to 90,800 employed. Yet, the 442,300 employed residents in 2022 are 16,650 (or 3.6%) lower than the peak of 458,950 in 2018.

Table 1.35. Civilian Labor Force (not seasonally adjusted), Hawai'i County, 2012-2022

Year	Civilian Labor Force	Employed	Unemployed	Unemployment Rate
2012	87,300	80,250	7,050	8.1%
2013	86,850	81,300	5,550	6.4%
2014	88,400	83,700	4,700	5.3%
2015	89,400	85,700	3,750	4.2%
2016	92,450	89,250	3,250	3.5%

2017	95,100	92,650	2,450	2.6%
2018	94,800	92,050	2,750	2.9%
2019	93,800	90,800	3,050	3.2%
2020	91,900	81,400	10,500	11.4%
2021	93,900	88,450	5,450	5.8%
2022	94,250	90,800	3,450	3.6%

Maui County’s civilian labor force grew from 80,400 in 2012 to reach 89,700 in 2019 (11.6%). Number employed climbed as well from 75,350 in 2012 to 87,500 jobs in 2019 (16.4%), leading into the pandemic. Unemployment held between 3.0% – 6.3%, averaging 4.1% over this 2012-2019 stretch. However, reflecting COVID-19 impacts in 2020, unemployment spiked 577% year-over-year from 2,200 to 15,200 jobless residents, shooting unemployment rate up to 17.8%. As recovery took hold, 2021-2022 witnessed 14,500 residents return to work, lifting number employed back to 84,250 by end 2022 – though still 3,250 positions short of the 87,500 jobs peak before the pandemic. With labor force participation contracting from 89,700 at peak down to 87,250 now (2.7%), overall, the data shows largely sustained expansion in Maui’s workforce over the past decade through pandemic disruptions, but with some additional hiring grounds to recapture.

Table 1.36. Civilian Labor Force (not seasonally adjusted), Maui County, 2012-2022

Year	Civilian Labor Force	Employed	Unemployed	Unemployment Rate
2012	80,400	75,350	5,050	6.3%
2013	80,750	76,700	4,050	5.0%
2014	83,200	79,600	3,600	4.3%
2015	84,750	81,750	2,950	3.5%
2016	86,700	84,100	2,550	3.0%
2017	89,800	87,650	2,100	2.3%
2018	90,350	88,200	2,100	2.3%
2019	89,700	87,500	2,200	2.4%
2020	85,150	70,000	15,200	17.8%
2021	87,300	80,650	6,700	7.7%
2022	87,250	84,250	3,050	3.5%

Over 2012-2019, Kauai County’s civilian labor force expanded from 34,750 to peak at 37,750 in 2019 (8.6%), as number employed also climbed from 32,300 to top out at 36,800 filled positions (14.0%). Unemployment averaged 3.9%, fluctuating between 2.2% – 7.1%. However, in 2020, unemployed figures spiked 521% year-over-year to hit 5,900 jobless residents amidst COVID-19, pushing unemployment rate to 16.2%. As recovery took hold, 2021-2022 witnessed over 4,500 Kauai workers return to employment - lifting the employed residents to 35,350 by end 2022. Yet, this remains 3.9% or 1,450 positions below the 36,800 jobs peak pre-pandemic. Civilian labor force itself has shrunk from 37,750 to 36,650 (2.9%) since 2019.

Table 1.37. Civilian Labor Force (not seasonally adjusted), Kauai County, 2012-2022

Year	Civilian Labor Force	Employed	Unemployed	Unemployment Rate
2012	34,750	32,300	2,450	7.1%
2013	34,700	32,800	1,850	5.4%
2014	35,350	33,700	1,650	4.6%
2015	35,850	34,500	1,350	3.8%
2016	36,600	35,450	1,100	3.1%
2017	37,850	37,000	800	2.2%
2018	37,550	36,650	900	2.4%
2019	37,750	36,800	950	2.5%
2020	36,400	30,450	5,900	16.2%
2021	36,200	33,250	2,950	8.1%
2022	36,650	35,350	1,300	3.6%

Looking first at the statewide rate, 2012 saw 65.5% labor force participation which climbed modestly to peak at 65.7% in 2016 before COVID-19 impacts dropped it to 63.4% in 2021. A partial recovery materialized with 63.5% rate by 2022 - still 2% below the pre-pandemic high.

Patterns were similar though often more volatile across counties. Honolulu maintained the highest participation rates, hitting a 67% peak in 2018 before plunging to 64.5% in 2020 and only partially recovering by 2022 at 65.1%. Hawai'i County witnessed the most dramatic impacts, with participation crashing from 59.2% pre-pandemic down to 55.7% in 2022 - the largest overall contraction. Kauai County reported the lowest engagement at just 60.6% in 2022 while still exhibiting a pronounced pandemic effect. Maui County participation rates lost 2% during COVID. So, Hawai'i's labor force availability is incomplete in its COVID-19 recovery, with the worst hit counties being Hawai'i and Kauai.

Table 1.38. Labor Force Participation Rates, State & County, 2008-2022

Year	State of Hawai'i	Honolulu County	Hawai'i County	Maui County	Kauai County
2012	65.5%	66.2%	59.8%	68.6%	63.7%
2013	64.8%	64.9%	60.0%	69.6%	63.8%
2014	64.8%	66.1%	56.6%	67.1%	64.7%
2015	65.5%	66.7%	57.5%	66.6%	67.2%
2016	65.7%	67.0%	57.2%	67.3%	67.2%
2017	65.3%	66.3%	58.8%	66.6%	66.5%
2018	65.6%	67.0%	59.0%	66.0%	64.5%
2019	64.9%	66.0%	59.2%	66.4%	63.9%
2020					
2021	63.4%	64.5%	57.3%	64.0%	64.1%
2022	63.5%	65.1%	55.7%	64.5%	60.6%

While the U.S. saw broad job market gains emerge in 2021-2022, Hawai'i outpaced national progress across all labor underutilization measures - reducing unemployment burdens over 40% faster.

Nationally, the unemployment rate (U-3) dropped by 1.7% from 5.3% to 3.6% between 2021 and 2022 as pandemic labor impacts eased. In Hawai'i, unemployment fell faster over the same period, with the state's jobless rate plunging by 2.4% from 6.1% down to 3.7%.

Hawai'i outperformed the nation across other workforce underutilization indicators too. Those unemployed long-term dropped 1.5% nationally but 2.4% in Hawai'i. And the broadest labor underutilization metric U-6 fell 2.5% countrywide versus a sizable 4.4% slide for Hawai'i.

However, it should be noted (not included in the table below) is the fact that Hawai'i employment was much harder hit than the national average during COVID, which is the primary reason for a better recovery post-pandemic.

Table 1.39. Labor underutilization for the United States and Hawai'i, 2021–22 annual averages

Measure	United States			Hawai'i		
	2021 (percent)	2022 (percent)	Percentage change, 2021 –22	2021 (percent)	2022 (percent)	Percentage change, 2021 –22
U-1 Persons unemployed 15 weeks or longer, as a percent of the civilian labor force	2.8	1.3	-1.5*	3.9	1.5	-2.4*
U-2 Job losers and persons who completed temporary jobs, as a percent of the civilian labor force	3.2	1.7	-1.5*	4.4	1.4	-3.0*
U-3 Total unemployed, as a percent of the civilian labor force (official concept of unemployment)	5.3	3.6	-1.7*	6.1	3.7	-2.4*
U-4 Total unemployed plus discouraged workers, as a percent of the civilian labor force plus discouraged workers	5.6	3.9	-1.7*	6.7	3.8	-2.9*
U-5 Total unemployed, plus discouraged workers, plus all other persons marginally attached to the labor force, as a percent of the civilian labor force plus all persons marginally attached to the labor force	6.4	4.5	-1.9*	7.4	4.4	-3.0*
U-6 Total unemployed, plus all persons marginally attached to the labor force, plus total employed part time for economic reasons, as a percent of the civilian labor force plus all persons marginally attached to the labor force	9.4	6.9	-2.5*	11.9	7.5	-4.4*

In the state, from 2012 to 2022, total nonagricultural jobs modestly increased from 607,600 to 618,100 (by 10,500 jobs or 1.7%). The Government sector, still the single most significant portion of the job market at 20.7% in 2022, has shed 4,800 jobs (-3.8%). Health Care & Social Assistance, another major sector, grew by 8,600 jobs (13.5%), reflecting a trend towards increased demand for health and social services.

The Natural Resources, Mining & Construction sector experienced the highest percentage growth of 22.7%, adding 6,900 jobs, indicating a robust expansion in these industries. On the contrary, Retail Trade and Accommodation sectors witnessed notable declines, losing 4,300 (-6.2%) and 1,400 jobs (-3.6%) respectively, possibly signaling shifting consumer patterns or economic challenges in these areas.

The Transportation & Warehousing sector stood out with a significant increase of 4,300 jobs (17.2%), suggesting a growing demand in logistics and warehousing services. In contrast, Private Educational Services and Manufacturing sectors saw considerable job losses of 1,300 (-8.5%) and 1,100 (-8.1%) respectively.

Other sectors such as Real Estate, Arts, Entertainment & Recreation, and Information showed stability with little to no change in job numbers. This data underscores a dynamic labor market in Hawai'i over the decade, characterized by growth in certain sectors like health care and construction, while others like retail and education faced declines.

Table 1.41. Nonagricultural Jobs by Industry, State of Hawai'i, 2012 and 2022

From 2012 to 2022, Honolulu County experienced a slight overall decrease in nonagricultural jobs by 1,400 (-0.3%), from 446,100 to 444,700. This contrasts with Hawai'i's statewide increase of 10,500 jobs (1.7%) during the same period. In Honolulu, notable declines occurred in the Government sector with a loss of 5,500 jobs (-5.6%), and in Retail Trade, which dropped by 5,300 jobs (-11.1%).

Conversely, Health Care & Social Assistance in Honolulu saw an increase of 5,400 jobs (11.0%), and there was robust growth in the Natural Resources, Mining & Construction sector with 4,300 additional jobs (19.0%). The Transportation, Warehousing & Utilities sector also grew by 3,100 jobs (14.9%).

Manufacturing in Honolulu faced a significant reduction, losing 1,700 jobs (-15.6%). However, sectors like Professional, Scientific & Tech. Services, Real Estate, and Arts, Entertainment, & Recreation experienced modest growth.

The dynamics in Honolulu County's labor market, with its mix of sector-specific growth and decline, play a crucial role in shaping Hawai'i's overall employment landscape, considering the county's substantial contribution to the state's labor pool. From 2012 to 2022, Honolulu County's share in Hawai'i's total nonagricultural jobs subtly shifted. In 2012, Honolulu's 446,100 jobs constituted approximately 73.5% of the state's 607,600 jobs. By 2022, even though Honolulu's job count decreased slightly to 444,700, the state's total increased to 618,100, reducing Honolulu's share to about 71.9%. This represents a 1.6% decrease in Honolulu County's contribution to the state's labor pool.

In Hawai'i County from 2012 to 2022, the total nonagricultural wage and salary jobs increased by 5,500 (8.8%), from 62,600 to 68,100. The Government sector saw a significant increase of 1,500 jobs (11.8%), making it one of the leading sectors with 20.3% of the total 2022 employment.

Retail Trade grew by 800 jobs (9.1%), and Health Care & Social Assistance increased by 600 jobs (8.8%). The Professional & Business Services sector showed robust growth with an addition of 800 jobs (14.3%).

Accommodation and Food Services and Drinking Places also experienced growth, adding 400 (7.3%) and 300 jobs (4.8%) respectively. Notably, the Natural Resources & Mining & Construction sector grew by 500 jobs (15.6%), and Transportation, Warehousing & Utilities increased by 500 jobs (19.2%).

On the other hand, Financial Activities and Private Educational Services witnessed declines of 200 (-7.4%) and 100 jobs (-7.1%) respectively. Manufacturing, though a smaller sector, showed the highest percentage increase, growing by 400 jobs (33.3%).

These changes highlight a diverse economic development in Hawai'i County, with significant growth in government, retail, health care, and professional services, and some decline in financial and educational services.

In Maui County from 2012 to 2022, total nonagricultural wage and salary jobs increased by 5,300 (7.7%), from 69,100 to 74,400. The Health Care & Social Assistance sector experienced a remarkable growth of 2,700 jobs (51.9%), marking a significant shift in the county's job market.

Accommodation, a key sector in Maui, saw a decline of 400 jobs (-3.4%), while Food Services and Drinking Places grew modestly by 400 jobs (4.6%). Retail Trade remained stable with no change, maintaining 9,000 jobs.

The Government sector experienced a notable decrease, losing 1,100 jobs (-11.3%). Natural Resources & Mining & Construction, and Transportation, Warehousing & Utilities sectors saw considerable growth, adding 1,300 (39.4%) and 600 jobs (16.7%) respectively.

Financial Activities and Other Services both increased by 400 jobs (16.0% and 14.3% respectively). The Manufacturing sector, though small, grew by 100 jobs (9.1%). Private Educational Services and Information also saw increases of 200 (18.2%) and 100 jobs (16.7%) respectively.

This data indicates a dynamic shift in Maui County's job market over the decade, with substantial growth in health care and construction-related industries, and notable changes in government employment and accommodation services.

In Kauai County from 2012 to 2022, total nonagricultural wage and salary jobs increased by 1,400 (4.8%), from 29,300 to 30,700. Notable changes in specific industries reflect the evolving economic landscape of the county.

The Government sector saw a growth of 400 jobs (8.9%), making it a significant contributor to employment with 15.4% of the total jobs in 2022. Food Services and Drinking Places and Retail Trade each showed modest increases of 100 jobs (2.5% and 2.7%, respectively).

Accommodation, a key sector in Kauai, experienced a decline of 400 jobs (-9.3%), while Health Care & Social Assistance and Professional & Business Services both saw decreases of 100 jobs (-3.7% and -3.4%, respectively).

The most dramatic growth occurred in the Natural Resources & Mining & Construction sector, which expanded by 800 jobs (61.5%). Transportation, Warehousing & Utilities also experienced growth, adding 300 jobs (21.4%).

Manufacturing, though a smaller sector, doubled its job count with an increase of 300 jobs. Private Educational Services grew by 100 jobs (50.0%), while the Financial Activities sector faced a reduction of 200 jobs (-15.4%). Information saw a significant decline, losing half of its jobs (-100, -33.3%).

Kauai County's job market over this period highlights substantial growth in construction and related industries, some contraction in accommodation and healthcare, and a notable expansion in smaller sectors like manufacturing and private education.

In 2022, Hawai'i's educational attainment revealed distinct patterns across age groups. Among the youngest cohort (18-24 years), a significant portion, 43.1%, were high school graduates, while 35.2% had some college education or an associate's degree. Bachelor's degree holders or higher constituted only 12.5% in this age group.

For those 25 years and older, high school graduates formed the largest segment at 26.8%, closely followed by those with a bachelor's degree (22.1%) and some college education but no degree (19.6%). Notably, the graduate or professional degree holders accounted for 13.3%.

In specific age groups over 25 years, high school graduates or higher consistently represented over 89.9% of the population, with those holding a bachelor's degree or higher ranging from 33.2% to 39.1%. This data underscores a strong trend towards higher education in Hawai'i's adult population, especially among the middle-aged and younger adults.

Honolulu County exhibited the highest proportion of bachelor's degree holders (23.5%), while Kauai County had the lowest (18.2%). Hawai'i County had the highest percentage of individuals with less than a high school education (14.9% in the 18-24 age group), contrasted by Honolulu County's lower rate (7.1%). Maui County stood out with the highest percentage of high school graduates (51% in the 18-24 age group). These variations reflect diverse educational priorities and achievements in each county, highlighting Honolulu's inclination towards higher education and Hawai'i County's challenge with early educational attainment.

High school graduate or higher	264,848	89.90%
Bachelor's degree or higher	97,815	33.20%

In 2022, Honolulu County's educational attainment showcased notable trends. For the 18-24 age group, 42.7% were high school graduates, with 36.2% having some college or associate's degree, and 13.9% holding a bachelor's degree or higher.

Among those 25 and older, high school graduates comprised the largest portion at 25.7%, followed by bachelor's degree holders at 23.5% and those with some college, no degree at 18.5%. Graduate or professional degree holders made up 14.2%.

For specific age categories over 25, a high percentage, over 89.6%, were high school graduates or higher, with bachelor's degree or higher ranging from 33.9% to 41.1%. These figures demonstrate a significant inclination towards higher education in Honolulu County's adult demographic.

Bachelor's degree or higher	15,916	33.10%

In Maui County in 2022, educational attainment varied across different age groups. Among those aged 18 to 24, a majority of 51% were high school graduates, followed by 30.7% with some college or an associate's degree, and 8.1% holding a bachelor's degree or higher.

For the population aged 25 and over, high school graduates accounted for 30%, the largest segment, closely followed by those with some college, no degree (23%), and bachelor's degree holders (19.6%). Graduate or professional degree holders made up 9.4%.

Looking at specific age groups over 25, a high percentage, over 89.7%, were high school graduates or higher, with those holding a bachelor's degree or higher ranging from 27.6% to 32.9%. These statistics highlight a strong inclination towards achieving at least a high school education in Maui County's adult population, with a significant portion pursuing higher education.

In Kauai County in 2022, the educational attainment data for different age groups showed varied trends. In the 18-24 age group, 36.5% were high school graduates, 32.3% had some college or an associate's degree, but only 4.7% held a bachelor's degree or higher. Notably, a significant 26.5% had less than a high school education.

Among those aged 25 and over, the largest segment was high school graduates (27.5%), followed by those with some college but no degree (21%) and bachelor's degree holders (18.2%). The population with an associate's degree was relatively high at 14.5%, and those with a graduate or professional degree comprised 11%.

In specific age categories over 25, a high percentage, over 87.9%, were high school graduates or higher, with bachelor's degree or higher ranging from 19.1% to 33%. These figures indicate a strong emphasis on at least completing high school education in Kauai County, with a considerable proportion of the adult population also pursuing higher education.

POPULATIONS WITH BARRIERS TO EMPLOYMENT (DISABLED, HOMELESS, VETERANS)—

Except for the section on veterans, the data in this section was from the Unified Plan 2022. Reports on current statistics are not available because of an internal reorganization wherein functions of the Research Office at the Department of Labor have been merged with the Department of Business, Economic Development and Tourism. There is a need to determine a mechanism that would continue to access data and produce reports for WIOA purposes.

Mature Workers

Mature workers (also older workers) continue to be an important demographics because of the employability skills they possess, and the knowledge base acquired over their many years of either life or job experience. The three highest education level of attainment of older adults living in the state are high school diploma with an average of 27%; then a Bachelor's degree at an average of

20%; and some college, no degree at an average of 20%. This educational level attainment further reinforces the capability of this target population finding employment for self-sufficiency.

The 2019 US Census reports that the total amount of older workers in the labor force is 76% for individuals 45 to 65 years and 22.6% for those who are 65 years and older statewide. 2.4% of age group 45-65 and 2.7% of 65 and older are currently not in the labor force. Further looking into the different counties and their employment status and educational attainment the City and County of Honolulu leads in the state with 216,022 individuals ages 45 and older in that are currently in the workforce as of 2019. However, Hawai'i County leads in the unemployment rate in the state at an average of 5% of individuals that are 45 and older.

Veterans

For characteristics of veterans in Hawai'i's labor force, estimates from the Census Bureau's 2022 American Community Survey, Table 2101, Veteran Status, indicated that 93,670 veterans accounted for 8.5% percent of the adult population in the state of Hawai'i. When only 18 to 64-year-old veterans are included, 48,194 veterans were in this age range, of which 38,566 veterans, or 80.0%, were in the labor force. Unemployment rate for veterans was 5.0%, higher than the state unemployment rate of 3.5% for the same period as shown in the Bureau of Labor Statistics, Unemployment Rates for states.

About 35.5% of veterans had some college or an associate degree and another 36.22% percent had a bachelor's or higher degree. Tables below provide the data statewide and by each county.

Honolulu County mirrored the state closely, but with a higher share of veterans at 9.0% and a slightly lower labor force participation rate of 77.5%. Their unemployment rate was 6.1%; about 32.1% had some college, and about 38.7% had bachelor's or higher degrees.

Hawai'i County veterans were 6.5% of their civilian population, with a labor force participation rate of 80.1%; their jobless rate was 5.4%. About 30.7% had some college, and about 28.7% percent had bachelor's or higher degrees.

The proportion of veterans in Maui County was 6.1%, labor force participation rate was 78.4%, Unemployment rate was 0%, but this figure is based on small numbers at the time and unreliable. About 44.8 percent had some college, and about 25.8% had bachelor's or higher degrees.

Kauai County veterans were 8.0% of the population, with a labor force participation rate of 56.7%, and zero unemployment. About 37.1% had some college, and about 34.0% had bachelor's or higher degrees.

Disabled

In 2019, there were 62,405 people aged 18-64 years old with disabilities living in Hawai'i. Almost 43 percent were participants in the labor force and the unemployment rate was 9.3 percent. Regarding educational attainment, almost 35 percent had a high school education or equivalent. Nearly 28 percent had some college or an associate degree, while over 20 percent had a bachelor's or higher degree.

Among those ages 18 to 64 years old, Honolulu County had 39,844 people with disabilities. Both labor force participation and unemployment rates were a little higher than the state. There were 13,508 people with disabilities in Hawai'i County. It had the highest unemployment rate in the state at 14.20%. In Maui County there were 4,809 individuals with disabilities. They had the lowest rate of labor force participation at 36.2% from a high of 49.7 percent in 2018 but now have the lowest rate of joblessness with 3.0 percent. Kauai County counted 4,244 people with a disability making it the county with the lowest labor force participation of 23.3 percent but with an 8% unemployment rate up from zero percent in 2018.

Honolulu County had 39,663 disabled people and both labor force participation and unemployment rates were a little higher than the state. There were 15,162 disabled persons in Hawai'i County and both labor force participation and unemployment rates were lower than the state. In Maui County there were 9,049 individuals with disabilities. They had the highest rate of labor force participation at 49.7 percent and the highest rate of joblessness with 8.0 percent. Kauai County's 2,460 disabled had the lowest labor force participation of 23.3 percent but had zero unemployment.

Foreign-Born Individuals

Based on the Census five-year estimates for 2019-2023, there were 250,744 people in Hawai'i that were born in a foreign country. Nearly 64 percent were in the civilian labor force and the unemployment rate was 2.0 percent. Almost 19 percent of the foreign-born did not have a high school diploma, while nearly 27 percent did graduate from high school. About 27 percent had attended some college or received an associate degree, almost 19 percent had a Bachelor's, and 7 percent had a Graduate or professional degree. Over 83 percent of foreign-born individuals spoke a language other than English and over 50 percent of them did not speak English very well.

In Honolulu County, there were 186,184 foreign born people and 63 percent were in the labor force. The unemployment rate was 2.0 percent, matching the state. Educational attainment and English language spoken did not differ much from the statewide numbers.

Hawai'i County had 23,944 foreign-born individuals with a 64 percent labor force participation rate and 1.9 percent unemployment. The proportion of them that spoke another language other than English was almost 80 percent and of those, 43 percent did not speak English very well.

There were 29,267 people born outside of the U.S. residing in Maui County in 2019. The share of those participating in the labor force was one of the highest among all counties, slightly more than 68 percent. The unemployment rate was a little below the state, averaging 2.1 percent.

Maui had a higher percentage of high school graduates and those with some college or associate degrees. As for language spoken, there was a smaller share of foreign-born people that spoke other languages, 77 percent, and of that about 48 percent couldn't speak English very well.

Kauai County had 11,349 foreign-born individuals and 69 percent of them were in the civilian labor force. The jobless rate of 2.7 percent was the lowest among all counties. Kauai had the second highest percentage of high school graduates with nearly 33 percent.

The state continues to partner with individuals who are English Language Learners (ELL), those with low levels of literacy, and individuals facing substantial cultural barriers through our partnerships with the Department of Education, Department of Health and Human Services and other members in the community. Obtaining specific data for these groups has been difficult due to the pandemic. Service to these populations is at the forefront of WIOA program services.

Individuals below poverty level

According to Census data, there were 128,722 people in Hawai'i living below the poverty level in 2019, accounting for 9.3 percent of the population. About 4.6 percent, or 32,308, of those in poverty were a part of the civilian labor force and their unemployment rate was 23.5 percent. Of the low-income population aged 16+ years, 17.6 percent did not work, while 24 percent worked part-time or part-year, and 1.7 percent worked full-time year-round. For the 25+ years old population living in poverty, 17.4 percent had less than a high school education and 11.7 percent had their high school diploma or equivalency. About 7 percent had attended some college or earned an associate degree, while 3.9 percent had a bachelor's or higher degree.

In Honolulu County, 8.10 percent, or 76,644 people were below the poverty threshold. About 24 percent of them were in the labor force and the unemployment rate was 22.3 percent. Their work experience was slightly lower than the state. In terms of educational attainment, there was little difference. Oahu had a moderate rate of low-income people with less than a high school education at 15.6 percent. Those with some college or associate degree was 17.20 percent.

Among the counties, Hawai'i County had the highest rate of poverty with slightly over 13 percent, which is significantly higher than the statewide share of 9.30 percent. Their 7.4% percent share of civilian labor force participation was favorably comparable to the state's 4.6 percent, while the

unemployment rate was higher at 33.80 percent. Slightly less low-income people worked compared to the state overall. The Big Island had a higher proportion of college- educated people than the state and had the second lowest rate of people below poverty without a high school diploma or equivalency.

Maui County had a 11.9 percent share of their population living in poverty and 14.1 percent were labor force participants, which is the highest share among the counties. The rate of joblessness was lower than the state at 12.10 percent. Proportionately more of Maui County's low-income people worked compared to the state and the 21.5 percent that did not work was

the highest share among the counties. Educational attainment was a mixed bag when compared to other counties. It had the second lowest rate of high school graduates with 10.2 percent, but the highest proportion of bachelor's or higher degree holders with 8.4 percent.

The lowest rate of poverty was in Kauai County with 8.6 percent. They also had the smallest share of this population in the labor force, but unemployment was a very low 4.6 percent. About

11.6 percent of the low-income population did not work, the lowest share in the state. Kauai had the lowest level of educational attainment among all counties for individuals living below poverty level.

Native Hawaiians and Other Pacific Islanders

The US Census Bureau combines Native Hawaiians with Other Pacific Islanders limiting our ability to disaggregate data for the Native Hawaiian population. In 2019 there were 116,696 Native Hawaiians and Other Pacific Islanders living in Hawai'i that were 16 years and older. Of this amount only 60% were a part of the labor force which is a 2% decline from what was reported in 2018. The unemployment rate is at 7% compared to the 7.7% of 2018. 67% of this population reside in the City and County of Honolulu.

Of the total population of individuals that are 25 years and older, 11% did not have a high school diploma or equivalent; 47% had a high school degree or equivalent; 30% had some college or associate's; and 12% had a bachelor's or higher. The County of Maui has the highest unemployment rate in the State for 2019 at 10.2% which is a 6.9% increase from what was reported in 2018 and taking the lead from the County of Hawai'i which reports 8.4% in 2019 compared to 5.2% in 2018.

Homeless

The Hawai'i Health Data Warehouse updated the Point in Time (PIT) counts for 2020. It has reported that there were 6,458 people experiencing homelessness in Hawai'i. The statewide homelessness rate for 2020 was about the same as 2019 and continues to decrease since 2016. More than half of the homelessness was reported to be in the City and County of Honolulu at 69% of the total number of reported homeless individuals counted in 2019. 24% of this amount of homeless were chronically homeless. 1 in 4 adults surveyed reported at least one mental health problem and 1 in 10 were veterans.

Though the neighboring islands make up 32% of the total homeless population, there has been an increase in homelessness since 2019. Homelessness of veterans in the neighboring islands increased by 9% compared to the last year and is the first increase among veterans since 2016.

Table 1.88. Homeless Point in Time Count, 2019

State/County	Total Homeless	Change from 2018	Sheltered	Unsheltered
State of Hawai'i	6,448	-1.3%	2,810	3,638
Honolulu County	4,453	-0.9%	2,052	2,401
Hawai'i County	690	-20.6%	243	447
Maui County	862	-1.3%	420	442
Kauai County	443	51.2%	95	348

Migrant Seasonal Farmworkers

According to the U.S. Department of Agriculture's 2017 Census of Agriculture, there were 793 migrant farm workers in the State of Hawai'i. Over 70 percent were in Hawai'i County, 19 percent were in Kauai County, 5 percent were in Honolulu County, and the remaining 5 percent were in Maui County.

Table 1.89. Farmworkers, 2017

(ii) Skill Gaps. Describe apparent 'skill gaps.

Education and Work Experience Level of Potential Candidates

The job applicants who post resumes online at HireNet Hawai'i are summarized by the level of education they possess, and this data is available on HIWI. Comparing the number of potential candidates to the number of advertised job openings is one way to determine a skills gap.

However, this will not paint a complete picture because most of the job openings advertised on HireNet did not specify an educational level requirement. As of February 2022, there were 6,094 high school graduates actively searching for a job online, but only 1,745 actual jobs posted this as a requirement. Bachelor's degree completers had 4,047 resumes online, compared to just 965 job postings looking for bachelor's degree candidates. There were 1,848 associate degree holders but just 141 job openings requiring that level of education. Vocational school certificate holders had only 40 job openings needing their level of education. Master's degree candidates had only 75 job openings looking for advanced degree candidates. There is a definite mismatch between the number of potential candidates and the number of job openings online.

Table 1.90. Education Level of Potential Candidates, State of Hawai'i, Feb 2022

Education Level	Education Level of Potential Candidates	Percent Distribution	Education Requirements on Advertised Job Openings	Percent Distribution
No Minimum Education Requirement	0	N/A	681	2.9%
Less than High School	376	2.0%	0	N/A
High School Diploma or equivalent	6,094	33.0%	1,745	7.4%
1 Year of College, Technical, or Vocational School	0	N/A	7	0.0%
2 Years of College, Technical, or Vocational School	0	N/A	8	0.0%
3 Years of College, Technical, or Vocational School	0	N/A	4	0.0%
Vocational School Certificate	1,208	6.6%	40	0.2%
Associate degree	1,848	10.0%	141	0.6%
Bachelor's Degree	4,047	21.9%	965	4.1%
Master's Degree	1,222	6.6%	75	0.3%
Doctorate Degree	191	1.0%	16	0.1%
Specialized Degree (e.g., MD, DDS)	144	0.8%	6	0.0%
Not Specified	0	N/A	19,913	84.4%

The HIWI website also summarizes the amount of work experience that potential candidates have compared to the experience that online job openings require. Over 10,000 online job applicants have over 10 years work experience, but only 26 job listings require that much. Over 21,000 job openings are looking for only 1 to 2 years of experience and there are only 874 candidates with that amount of experience. The gap that exists here is that a lot of potential candidates have much more experience than is required, which might mean they are over-qualified for many of the jobs being advertised online.

Table 1.91. Work Experience of Potential Candidates, State of Hawai'i, Feb 2022

Experience	Work Experience Level of Potential Candidates	Percent Distribution	Work Requirements on Advertised Job Openings	Percent Distribution
Entry Level	0	N/A	936	4.0%
Less than 1 year	1,276	6.9%	187	0.8%
1 Year to 2 Years	874	4.7%	21,661	91.8%
2 Years to 5 Years	2,517	13.7%	628	2.7%

More than 10 Years	10,548	57.2%	26	0.1%

HAWAI'I ECONOMIC TREND ANALYSIS

Hawai'i is a small, remote, non-contiguous state. Many agencies and organizations are currently working to strengthen Hawai'i's workforce. The challenge is complex and directly tied to the fundamental and seemingly intractable structure of Hawai'i's economy. Even at current full employment and unemployment at a 2.9% low, Hawai'i's problem is unusual. Geography and demography are determinative of the states and workforce destiny.

1. EMPLOYERS. Hawai'i is predominantly a low skill and low wage, service-based economy with a small job market and the highest cost of living in the nation. The long-sought major economic diversification beyond tourism has not occurred. Smaller but important "non-traded clusters" of employers including state and local government, defense, agriculture, construction, and others exist, but hospitality remains dominant, an industry reliant on low skilled, unskilled, and low wage service jobs.
2. EARNED INCOME. Estimates of a living wage in Hawai'i vary. Let's take the plus-one annual living budget (cost for supporting a family of two adults) as an example:
 - a. DBEDT's Annual Self-Sufficiency Family Budget (2022) is \$52,700. [Reference:](https://files.hawaii.gov/dbedt/annuals/2023/2023-read-self-sufficiency.pdf) <https://files.hawaii.gov/dbedt/annuals/2023/2023-read-self-sufficiency.pdf>
 - b. MIT's Living Wage (2022) is \$33.22 per hour or \$69,097.60 per year. [Reference](https://livingwage.mit.edu/states/15) <https://livingwage.mit.edu/states/15>
 - c. AUW's ALICE ("Asset Limited, Income Constrained, employed") report's Household Stability Budget (2021) is \$89,772. [Reference.](https://www.unitedforalice.org/household-budgets/hawaii) <https://www.unitedforalice.org/household-budgets/hawaii>

Meanwhile, Bureau of Labor Statistics report that the median wage in Hawai'i (2022) is \$23.35 per hour or \$48,568 per year. [Reference.](https://www.bls.gov/oes/current/oes_hi.htm) https://www.bls.gov/oes/current/oes_hi.htm

3. **A MAJOR GAP.** Beyond the gap in the “Living” and Median wages in Hawai‘i, United Way’s ALICE report indicates that combined with those living below the Federal Poverty Level, 41% of Hawai‘i’s households cannot achieve a sustainable income and cannot afford the basics of living in Hawai‘i. That number is growing.
4. **EMPLOYER NEEDS.** Experts in tourism, defense, construction, healthcare, technology, energy, and public sector job markets have taken stock and identified and quantified their needs. Beyond “just in time hiring”, most projections are for either higher level specialists, managers, and executives, or skilled trades men and women.
5. **THE GROWING “GIG” ECONOMY.** The U.S. Bureau of Labor Statistics says roughly a third of American workers participate in the gig economy and a Hawai‘i survey found about half of Oahu’s workers have done work that does not require a W-2 tax form. The percentage is about 20% each on Maui and the Big Island, and smaller on Kauai. The trend is likely to amplify.
6. **“OUT” AND “IN” MIGRATION”.** U.S. Census Bureau estimates that, between July 1, 2018, and July 1, 2019, Hawai‘i’s population decreased by 4,721. Hawai‘i was one of ten states to lose population. Hawai‘i has been losing population for three consecutive years beginning in 2017. Continuing decline in the state’s population is an indication of an ailing state facing major economic and social problems. There is a perceived “brain drain” in which the state’s brightest young people tend to move elsewhere while less skilled immigrants from Asia, South, and elsewhere move in. There may also be growing number of in-migrants who choose to live here and work remotely elsewhere while remaining citizens of other states with low tax rates. Population gains and losses affect the state’s economy and employment possibilities.

II.A.3. Strategic Element: Workforce Development and Training Analysis

This section includes information and analysis on the following workforce Core

Programs and related delivery partners:

Capacity to Provide Services:

Title I services: Adult, Dislocated Worker and Youth Programs are provided at each of the AJCs in the local areas. Each local area has contracted with service providers to provide required services in each of the programs, except for Kauai. Hawai'i has a small pool of service providers to carry out Title I programs, consequently, when a provider exits, LWDBs have difficulty finding a replacement. Hawai'i and Maui have relatively new program providers.

The Hawai'i and Maui LWDBs also have difficulty enrolling Eligible Training Providers. Currently, there are no ETPs on Kauai. To overcome the lack of providers, those boards have turned to their local

University of Hawai'i Community Colleges (UHCCs) to provide the training for the most in-demand jobs in the local area. The UHCCs also provide reasonably priced training. WDD has been working at the state level to provide the UHCCs with information on the requirements of the ETP Program.

As of June 30, 2021, Kauai County is no longer administering the WIOA Title I Programs. The state workforce agency, the Department of Labor and Industrial Relations (DLIR) - the Workforce Development Division (WDD) has assumed direct management responsibilities as the "State" acting as the local workforce board for the County of Kauai. Prior to 2014 and the adoption of WIOA, DLIR provided all workforce development activities for the County of Kauai which includes both employment and training services through WIOA. DLIR is currently bolstering staff levels to increase capacity of services through recruitment of additional state merit staff.

B. Title II Adult Education

Adult education and literacy services are provided statewide through eligible local providers by a competition for AEFLA funds as required by 34 CFR 463 Subpart C, *How Does a State Make an Award to Eligible Providers?* A competition for approximately 1.5 million dollars in AEFLA funds will be held in 2024 to provide the following AEFLA services.

Adult Basic Education

The Adult Basic Education (ABE) program provides students with basic skills in English language arts and mathematics. A model ABE program provides comprehensive services to meet the diverse educational needs of students and prepares them to transition to secondary education and job preparation classes. ABE programs include reading, writing, and computational skills necessary for functioning at levels comparable to students in the first through eighth grades. Courses may be remedial for students, or they may provide educational opportunities for students who speak, but do not read English. These programs also help students develop job readiness skills to gain employment, advance on the job, or enter adult secondary education classes.

Adult Secondary Education

The Adult Secondary Education (ASE) program provides a curriculum that enables adults to attain a high school diploma (HSD) or a high school equivalency (HSE) certificate. Subjects include mathematics, English language arts, history, science, government, and other courses required to complete the credits, or gain the knowledge necessary, to attain an HSD or pass an HSE test. The ASE program is conducted within flexible time frames. It provides knowledge and skills necessary for adults to gain self-sufficiency, and employment, and to be able to transition into advanced postsecondary and career programs.

English Language Acquisition

The English Language Acquisition (ELA) program prepares adult learners to speak, read, and write English fluently. Students are placed, via language proficiency assessments, in one of six levels of instruction: beginning literacy, beginning low, beginning high, intermediate low, intermediate high, and advanced. The

assessments used to progress from one level to another measure general language proficiency and specific standards mastered. Key objectives are as follows:

- Provide students with the ability to use English that is accurate and appropriate in a variety of academic and social settings.
- Develop students' receptive English language skills of listening and reading comprehension.
- Develop students' productive English language skills in speaking and writing.
- Integrate language acquisition with relevant life experiences, stressing the importance of critical thinking, problem-solving, and self-sufficiency.

English Literacy and Civics Education

English Literacy and Civics Education (ELCE) can be offered within the ELA program. ELCE activities include:

- Civic Participation modules that support the design, creation, implementation, and delivery of instructional activities that integrate civics education content with existing ELA courses.
- Citizenship Preparation courses that use ELA methodologies and citizenship preparation material to prepare learners to take and pass the U.S. Citizenship and Immigration Services oral and written citizenship tests.

Integrated English Literacy and Civics Education

The Integrated English Literacy and Civics Education (IELCE) program, as defined in WIOA Section 243, is designed to:

1. Prepare adults who are English language learners for and place such adults in, unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency; and
2. Integrate with the local workforce development system and its functions to carry out the activities of the program.

Language and literacy objectives must be provided in combination with Integrated Education and Training (IET). The IET model combines workforce preparation activities and workforce training with literacy activities to increase a participant's educational and career advancement.

Integrated Education and Training

34 CFR § 463.35 What is integrated education and training?

The term "integrated education and training" refers to a service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement.

34 CFR § 463.36 What are the required components of an integrated education and training program funded under title II?

An integrated education and training program must include three components:

- (a) Adult education and literacy activities as described in § 463.30.
- (b) Workforce preparation activities as described in § 463.34.
- (c) Workforce training for a specific occupation or occupational cluster which can be any one of the training services defined in section 134(c)(3)(D) of the Act.

34 CFR § 463.37 How does a program providing integrated education and training under title II meet the requirement that the three required components be “integrated”?

To meet the requirement that the adult education and literacy activities, workforce preparation activities, and workforce training be integrated, services must be provided concurrently and contextually such that -

- (a) Within the overall scope of a particular integrated education and training program, the adult education and literacy activities, workforce preparation activities, and workforce training:
 - (1) Are each of sufficient intensity and quality, and based on the most rigorous research available, particularly with respect to improving reading, writing, mathematics, and English proficiency of eligible individuals.
 - (2) Occur simultaneously; and
 - (3) Use occupationally relevant instructional materials.
- (b) The integrated education and training program has a single set of learning objectives that identifies specific adult education content, workforce preparation activities, and workforce training competencies, and the program activities are organized to function cooperatively.

Corrections Education

29 USC §3305. Programs for corrections education and other institutionalized individuals

- (a) Program authorized from funds made available under section 3302(a)(1) of this title for a fiscal year, each eligible agency shall carry out corrections education and education for other institutionalized individuals.
- (b) Uses of funds - The funds described in subsection (a) shall be used for the cost of educational programs for criminal offenders in correctional institutions and for other institutionalized individuals, including academic programs for—
 - (1) adult education and literacy activities.
 - (2) special education, as determined by the eligible agency; (Not Applicable in Hawai‘i)
 - (3) secondary school credit; (Not Applicable in Hawai‘i)
 - (4) integrated education and training.
 - (5) career pathways.
 - (6) concurrent enrollment.
 - (7) peer tutoring; and
 - (8) transition to re-entry initiatives and other postrelease services with the goal of reducing recidivism.
- (c) Priority - Each eligible agency that is using assistance provided under this section to carry out a program for criminal offenders within a correctional institution shall give priority to serving

individuals who are likely to leave the correctional institution within 5 years of participation in the program.

- (d) Report - In addition to any report required under section 3141 of this title, each eligible agency that receives assistance provided under this section shall annually prepare and submit to the Secretary a report on the progress, as described in section 3141 of this title of the eligible agency with respect to the programs and activities carried out under this section, including the relative rate of recidivism for the criminal offenders served.

AEFLA corrections education services serve felony offenders in all jails and prisons in Hawai'i. Felonies, jails, and prisons are defined as follows:

A felony is classified as an offense with a possible penalty of more than one year in state or local confinement in Hawai'i.

Jails provide for the secure incarceration of pretrial and short-term sentence misdemeanor populations and the transitional sentence felon population, as well as those who have almost completed their felony sentences and are returning to the community. Jails are locally situated on each major island. Jail populations consist of both male and female inmates.

Prisons are utilized for felony sentencing longer than one year. Hawai'i has three prisons, all located on the island of Oahu.

Workforce Development, Education and Training Activities Strengths and Weaknesses

Activity

- Adult Basic Education
- Adult Secondary Education
- English Language Acquisition
- English Language Acquisition
- English Literacy and Civics Education
- Integrated English Literacy and Civics Education
- Integrated Education and Training
- Corrections Education

Strengths

- Assists adults most in need in attaining a secondary school diploma and in the transition to post-secondary education and training, including through career pathways.
- Assists immigrants and other individuals who are English language learners in improving their reading, writing, speaking, and comprehension skills in English; and mathematics skills; and acquiring an understanding of the American system of Government, individual freedom, and the responsibilities of citizenship.
- Activities are available statewide.
- Activities integrate career services and workforce preparation including digital literacy.
- Activities include partnerships that provide additional supports.

Weaknesses

- An activity duration may conflict with time constraints of the participants.
- Activities may require additional non-academic and academic supports for participants to complete successfully.

Capacity to Provide Services:

The HIDOE is the eligible agency for the Adult Education Family Literacy Act (AEFLA) grant funds, Title II of the Workforce Innovation and Opportunity Act (WIOA) for Hawai'i. The state director for adult education is responsible for administering funds and providing oversight to grantees and is in the Office of Curriculum and Instructional Design.

The HIDOE will use a competitive four-year grant award process subject to renewal or continuation annually.

The award process will meet the requirements of 34 CFR 463 Subpart C, *How Does a State Make an Award to Eligible Providers?* It will be available to all eligible providers in Hawai'i as defined in 34 CFR § 463.23 *Who is eligible to apply for a grant or contract for adult education and literacy activities?*

Applicants must meet the demonstrated effectiveness determination in 34 CFR § 463.24 *How must an eligible provider establish that it has demonstrated effectiveness?* to be eligible for an award. The demonstrated effectiveness determination includes the following.

- Submission of data for two consecutive years in the following categories
 - Employment Rate Quarter 2 and Quarter 4
 - Credential Attainment
 - Measurable Skills Gain
- The outcomes for each category must meet or exceed the required demonstrated effectiveness percentage published in the application.

Applicants who meet the demonstrated effectiveness determination will continue with the application process and address the remaining requirements, which include the following.

- How will AEFLA funds be expended for adult education services in the state?
- Submission of Cooperative Agreements
- Alignment with Hawai'i Workforce Development Board Plans
- American Job Center Hawai'i (One-Stop) Responsibilities
- Alignment with the Hawai'i State WIOA Plan
- Aligning of College and Career Readiness Standards
- Aligning of English Language Proficiency Standards for English Learners
- How will the Adult Education Program (AEP) Objectives in the Hawai'i State WIOA Plan be addressed?
- Addressing the Considerations in 34 CFR 463.20 (d) *In awarding grants or contracts for adult education and literacy activities to eligible providers, the eligible agency must consider the following.*
- Budget Proposal
- Personnel to Provide Adult Education Services

Applications will be evaluated by a committee of representatives from core partners trained in using a rubric included with the application. The workforce development boards of each region will review the applications for alignment with their local plan.

Applicants selected to receive funds must complete a risk assessment and be approved before receiving AEFLA funds.

The HDOE through the state director of adult education will provide oversight, professional development, technical assistance, and program guidance to recipients of AEFLA funds to carry out statewide adult education and literacy activities.

C. Career Technical Education

Activities

- Serves youth and adults.
- Provides integrated education and vocational training.
- Fosters competency- based learning.
- Each student moves through a Program of Study
- Focus on employability skills.
- Students get work experience.
- Earn industry- recognized credentials

Strengths

- Integrated education (k- 12 and postsecondary)
- Utilizes career pathways, career counseling and individual career plans.
- Multiple entry and exit options through the community college - industry-recognized credential, certificate, degree or transfer to baccalaureate degree program.
- Industry involvement in career pathway development and system vetted with Employers
- Clear sequence of coursework (non- duplicative, progressive, articulated)
- Curricula and instructional strategies instill work readiness.
- Curricula competency- based rigorous and contextualized

Weaknesses

- Once a state career pathway system is adopted, may require adjustments to transition clients from other partners.
- Incoming clients may require remediation.
- Limited staffing and funding
- Client access to the system may be a challenge because of cost and time

Capacity to Provide Services:

- Existing structures have the capacity to provide services.
- Financial and other support for clients to access the services is a challenge.

D. Title III Wagner Peyser Employment Services

Activities

- Assessment of experience, skills, and interests
- Career guidance
- Labor market information
- Job search workshops
- Referral to training & other services.
- Referral of job seekers to job openings, include matching job requirements with job seeker experience, skills, and other attributes.
- Helping employers with special recruitment needs
- Assisting employers analyze hard-to-fill job orders.
- Supporting and managing Hawai'i's HNH, the state- sponsored Job Board
- Federal bonding for at-risk employers
- Facilitating Federal Tax Credit for hiring offenders, persons with disabilities, other target groups
- Counseling and job referrals for veterans and other covered persons with significant barriers to employment
- Promoting hiring of veterans and covered persons
- Helping employers and employees deal with layoffs

Strengths

- Long history of strong interagency partnerships
- Relationships with business and industry
- Responsiveness to business hiring needs.
- Statewide services
- Use of technology such as self-service features in the HNH
- Access to other funding sources to assist job seekers and business.
- Flexibility in serving business and job seekers

Weaknesses

- Funding levels constrain business outreach and individualized services to customers.
- Professional development
- Lack of standard on- boarding for new career counselors
- Inconsistent staffing levels

Capacity to Provide Services:

- Capacity is enlarged because of braided resources with partners such as Adult Ed, VR, TANF, Community Colleges
- Inadequate funding to support direct staff assistance to public during all office hours.

E. Native Hawaiian Workforce Development Services – Adults

ALU LIKE, Inc. provides Hawai'i's Statewide WIOA, Title I, Subtitle D-National Programs Sec. 166, NATIVE AMERICAN PROGRAMS COMPREHENSIVE SERVICES (ADULTS).

Activities:

- Outreach.
- Intake.
- Assessment of skill levels.
- Career planning/counseling.
- Development of Individual Employment Plan.
- Facilitation of remedial education; tutoring; study skills training; and occupational skills training (2 years financial assistance for tuition and/or books leading to employment at individual's highest skill level after attaining high school diploma; certificate; Associate, Bachelor, and/or Master's Degree) that lead to recognized postsecondary credentials that are aligned with in-demand industry sectors of occupation or occupations in the local area; on-the-job training, entrepreneurship training, upskilling/skills upgrading and retraining.
- Supportive services that are necessary to enable an individual to participate in activities authorized under WIOA.
- Native Hawaiian culturally relevant career and job readiness/employment preparation— Dream Navigator online and Ka La Hiki Ola-The Dawning of a New Day-curriculum and workbooks utilized with incentives for successful completion.
- Referrals to appropriate agencies for additional services.
- Job search and placement assistance.
- Follow-up services.

Strengths:

- "E kulia I ka nu`u". We strive to do our best to engage, develop, and work directly and together with the whole individual.
- Program experience and positive track record since 1978 in operating a statewide employment and training program for Native Hawaiians, American Indians, and Alaska Natives under CETA (Comprehensive Employment & Training Act); JTPA (Job Training Partnership Act); WIA (Workforce Investment Act); and presently under WIOA.
- ALU LIKE, Inc. Employment & Training Program has 5 Program Offices. Hawai'i Island has a manager and 4 Program Specialists. Kauai Island has 1 Program Specialist. Moloka'i Island has one.
- Program Specialist. Oahu has 3 Program Specialists who presently assist Maui individuals virtually and in-person scheduled appointments at the Maui Office. WIOA statewide services are provided for clients, employers, and training providers, etc. at the Island Offices, out in the Island communities and remotely with direct Program Specialist RingCentral phone numbers/text messages/videoconference capabilities with Zoom and MS Teams.
- Welcoming, heartfelt, positive, sincere, caring, and culturally relevant environment for participants to work together with the Team who are passionate in serving our people.
- An Employment & Training Team who are regularly active and participate in community events.

Areas To Work On:

- Expand outreach in the communities.

- Evaluate program areas to improve upon.

Capacity To Provide Services:

- ALU LIKE, Inc. WIOA Program operates statewide with offices and staff on the Islands of Hawai'i, Kau'ai (also serving Ni'ihau), Maui, Moloka'i (also serving Lana'i), and Oahu.

F. NATIVE AMERICAN PROGRAMS SUPPLEMENTAL YOUTH SERVICES (Ages 14-24).

(ALU LIKE, Inc. provides Hawai'i's Statewide WIOA, Title I, Subtitle D-National Programs Sec. 166)

Activities:

- Outreach.
- Intake.
- Assessment of skill levels.
- Career planning/counseling.
- Development of Individual Employment Plan.
- Facilitation of remedial education; tutoring; study skills training; and occupational skills training including Dual Credit assistance allowing high school students to enroll in college classes, and earn credit towards high school graduation and a college classes; work- based learning/internships/paid work experiences; on-the-job training; entrepreneurship training; alternative secondary school services; leadership development opportunities; financial literacy education; and educational incentive allowances.
- Supportive services that are necessary to enable an individual to participate in activities authorized under WIOA.
- Native Hawaiian culturally relevant career and job readiness/employment preparation— Dream Navigator online and Ka La Hiki Ola-The Dawning of a New Day-curriculum and workbooks utilized with incentives for successful completion.
- Referrals to appropriate agencies for additional services.
- Job search and placement assistance.
- Follow-up services.

Strengths:

- "E kulia I ka nu'u". We strive to do our best to engage, develop, and work directly and together with the whole individual.
- Program experience and positive track record since 1978 in operating a statewide employment and training program for Native Hawaiians, American Indians, and Alaska Natives under CETA (Comprehensive Employment & Training Act); JTPA (Job Training Partnership Act); WIA (Workforce Investment Act); and presently under WIOA.
- ALU LIKE, Inc. Employment & Training Program has 5 Program Offices. Hawai'i Island has a manager and 4 Program Specialists. Kauai Island has 1 Program Specialist. Moloka'i Island has 1 Program Specialist. Oahu has 3 Program Specialists who presently assist Maui individuals virtually and in-person scheduled appointments at the Maui Office. WIOA statewide services are provided for clients, employers, and training providers, etc. at the Island Offices, out in the Island communities and remotely with direct Program Specialist RingCentral phone numbers/text messages/videoconference capabilities with Zoom and MS Teams.
- Welcoming, heartfelt, positive, sincere, caring, and culturally relevant environment for participants to work together with the Team who are passionate in serving our people.

- An Employment & Training Team who are regularly active and participate in community events.

Areas To Work On:

- Expand outreach in the communities.
- Evaluate program areas to improve upon.

Capacity To Provide Services:

ALU LIKE, Inc. WIOA Program operates statewide with offices and staff on the Islands of Hawai'i, Kau'ai (also serving Ni'ihau), Maui, Moloka'i (also serving Lana'i), and Oahu

G. Title IV Vocational Rehabilitation: (Individuals with Disabilities, Including Youth with Disabilities Activities)

According to the U.S. Census Bureau Quick facts (from July 1, 2018), the number of individuals in Hawai'i under 65 years old with disabilities represents a population of 92,312 (6.5% of Hawai'i's 1,420,491 total population statewide). In 2016, Hawai'i County had the highest rate of individuals with disabilities (9.9%) as a percentage of the total population, with Kauai having the lowest rate (6.5%).

Estimates for 2020 of eligible individuals accessing Vocational Rehabilitation (VR) services statewide (inclusive of students eligible for Pre-Employment Transition Services and VR individualized services) represents close to 8% of the state's total potential workforce population of individuals with disabilities, however, with DVR's active order of selection (OOS) associated with insufficient fiscal and staff resources to fully serve all eligible individuals, DVR anticipates serving approximately 6% of this population in 2020: an estimated 5,100 students and adults with disabilities statewide.

Hawai'i's unemployment rate in 2019 remained close to 2.7%, with non-disabled adult employment rates over 68% (2016 US Census), while employment rates of individuals with disabilities averaged below 24% (2016 US Census), like the national average.

This unemployment rate represents a 44% disparity rate for individuals with disabilities in the workforce as compared with their non-disabled peers.

Hawai'i County had the largest share of disabled people over 16 years of age out of the labor force with 79 percent unemployed, and just 18 percent employed. Maui County had the greatest share of individuals with disabilities in the workforce with 28 percent employed.

The Rehabilitation Act, as amended by Title IV of WIOA places a greater emphasis on the provision of transition services for youth and students with disabilities, with a focus on increasing employment readiness strategies through the delivery of pre-employment transition services (pre-ETS) for students with disabilities. The federal Regulations of 34 CFR 361.29 indicate that the comprehensive statewide needs assessment must include an assessment of the needs of youth and students with disabilities in the State, as well as the need for pre-ETS for students with disabilities, which has been routinely included in DVR's Community Statewide Needs Assessment (CSNA).

It is clear from the interviews and the survey results that student with disabilities in Hawai'i [tah1] [tah2] a need for the opportunity to develop skills consistent with the five pre-ETS program services, as identified in WIOA. Pre-ETS are provided in collaboration with the Hawai'i State Department of Education and available to all identified students with disabilities. These services include (34 C.F.R. 361.48(a)(2)):

- (i) Job exploration counseling: Work-based learning experiences, which may include in-school or after school opportunities, or experience outside the traditional school setting (including internships), provided in an integrated environment in the community to the maximum extent possible.
- (ii) Counseling on opportunities for enrollment in comprehensive transition or postsecondary educational programs at institutions of higher education.
- (iii) Workplace readiness training to develop social skills and independent living; and
- (iv) Instruction in self-advocacy (including instruction in person-centered planning), which may include peer mentoring (including peer mentoring from individuals with disabilities working in competitive integrated employment).

WIOA amendments to the Rehabilitation Act also indicate the following authorized services can be provided to students with disabilities if funds remain after the provision of the required pre-ETS services noted above:

- Implementing effective strategies to increase the likelihood of independent living and inclusion in communities and competitive integrated workplaces.
- Developing and improving strategies for individuals with intellectual disabilities and individuals with significant disabilities to live independently, participate in postsecondary education experiences, and obtain and retain competitive integrated employment.
- Providing instruction to vocational rehabilitation counselors, school transition personnel, and other persons supporting students with disabilities.
- Disseminating information about innovative, effective, and efficient approaches to achieve the goals of this section.
- Coordinating activities with transition services provided by local educational agencies under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).
- Applying evidence-based findings to improve policy, procedure, practice, and the preparation of personnel, to better achieve the goals of this section.
- Developing model transition demonstration projects.
- Establishing or supporting multistate or regional partnerships involving States, local educational agencies, designated State units, developmental disability agencies, private businesses, or other participants to achieve the goals of this section; and
- Disseminating information and strategies to improve the transition to postsecondary activities of individuals who are members of traditionally unserved populations.

The CSNA investigated the need for these pre-ETS program services in addition to what needed to change or improve for DVR and the workforce development system at large to address students more effectively with disabilities needs.

The following themes emerged in the needs of students with disabilities:

- DVR needs to be more responsive and efficient with service delivery, in collaboration with community partners providing comparable resources.
- There has been an increase in the number of students with disabilities with substance abuse issues, resulting in higher rates of students with disabilities engaged in the juvenile justice system. This may represent additional barriers and/or limits on employment opportunities for these students that need to be addressed in employment readiness strategies.
- Transportation in rural areas and neighbor islands remains a major barrier to employment for students with disabilities.
- DVR continues to be challenged with achieving high-quality employment outcomes for participants with the most significant disabilities, especially individuals with cognitive disabilities.
- students with disabilities have a significant need for mentors in the workplace.
- Students with disabilities need more exposure to competitive integrated work-based learning experiences prior to exiting the school system; and
- Development of soft skills associated with workplace relationships continues to be a primary need for pre-ETS participating students.

While DVR continues to address the need for workforce parity in Hawai'i for individuals with disabilities through vocational rehabilitation services, DVR noted that the average hourly wage rate of non-disabled workers (HIWI.org) represented \$24.50 in October 2019, while DVR's statewide average hourly wage rate for individuals with disabilities successfully placed into employment during the same period was \$16.33, nearly a 33 percent disparity. Sub-sets of individuals with disabilities statewide had higher average hourly wage rates including individuals who are blind or with vision loss earning \$25.50 hourly, and individuals who are deaf or have hearing loss earning an average hourly wage rate of \$17.77 for this same period.

DVR works with a network of over 600 employers to develop WBLE sites leading to employment in competitive integrated settings statewide for students and youth with disabilities.

While DVR provides opportunities for students with disabilities to begin career exploration through the introduction of pre-ETS program services, DVR provides individualized VR services (34 C.F.R. 361.48*b)) under an approved individualized plan for employment (IPE), including but not limited to vocational and occupational training, postsecondary education, job development and placement services for eligible persons with disabilities.

DVR remains under an Active Order of Selection (OOS) since October 1, 2017, related to planned expenditures for active participants and potentially eligible students accessing vocational rehabilitation services for career development and employment opportunities in Hawai'i.

Annually, DVR continues to serve between 6-8% of Hawai'i's students and residents with disabilities seeking employment opportunities statewide. DVR has activated over 460 eligible individuals from the active OOS deferred list who had been awaiting services for approximately 24 months. DVR remains committed to reducing the duration eligible individuals are awaiting services on the OOS deferred list. Additionally, individuals remaining on DVR's OOS deferred list are regularly invited to access the American Job Center resources through warm linkages with core partners facilitated by DVR VRS counselors quarterly.

The annual number of Hawai'i residents determined eligible for DVR services and in active open status are

as follows:

According to the April 1, 2020, updates on U.S. Census Bureau Quick facts, the number of individuals in Hawai'i between the ages of 18 to 65 with disabilities represents a population of 93,137 (6.4% of the 1,455,271 total population statewide).

Estimates for 2023 eligible individuals for VR services statewide (inclusive of students eligible for Pre-Employment Transition Services and VR individualized services) represents close to 8% of the total population with disabilities, however, with current staffing levels and new hiring training requirements, HDVR anticipates serving approximately 5.2% of this total population in 2023: 4,800 individuals with disabilities. The number of individuals eligible for VR services including currently active open status, potentially eligible students, deferred and closed during the Order of Selection (OOS), (all Categories except Most Significantly Disabled as of 04/11/22), per year are represented as follows:

FFY 2023: 3,900 active cases (projected)

Note: HDVR anticipates an additional 900 PE cases. FFY

2022: 3,161 as of 04/14/22

Note: HDVR has an additional 1,043 PE cases and expects 540 VR cases to be removed from OOS waitlist by 9/30/22.

FY 2021 (actual): 3,029 VR cases served PE

(actual): 983 cases.

FY 2020 (actual): 3,079 VR cases PE

(actual): 806 cases

H. Community Block Services Grant

Activities:

- Customized program to address effects of poverty.
- Community needs assessment.
- Child health services
- Substance abuse services
- Career planning
- Worker training programs
- Housing assistance
- Employment search and placement assistance

I. Job Corps

Activities:

- An academic and vocational skills training program for ages 16-24
- Residential program with free room and board.
- A self-paced program that allows participants two years to complete the program.
- Income eligibility is required.
- 10 vocational options in addition to college and advanced training at another Job Corps Center
- Job Placement Services provided

Strengths

- Utilizes career pathways.
- Many opportunities to obtain industry recognized certification.
- GED and HiSet diploma program
- Recreational activities provided.
- Counseling services provided.
- Basic Medical, dental, mental health services
- Open entry/open exit program
- No cost to the participants
- Driver's education available

Weaknesses

N/A

Capacity to Provide Services:

Hawai'i Job Corps has the capacity for 211 students on Oahu and 128 on Maui

J. Jobs for Veterans State Grant (JVSG)

The JVSG is a staffing grant that supports a Local Veterans Employment Representative and Disabled Veterans Outreach Program Specialists with related Management and Administration staff. All JVSG staff are located on Oahu where most veterans and other covered persons reside, but JVSG staff serve veterans and businesses statewide through videoconferencing, email, phone, and occasional in-person visits.

Activities conducted by the Local Veterans Employment Representative and Disabled Veterans Outreach Program Specialists are described below with an analysis of strengths, weaknesses, and capacity to deliver services.

J1. Local Veterans' Employment Representative (LVER)

Activities:

- Conducts outreach to employers on behalf of veteran customers through activities such as, but not limited to, planning, and participating in job fairs, conducting seminars for employers, coordinating recruitment for businesses and other organizations, and informing federal contractors of veteran hiring requirements.
- Participates as a member of AJC Business Service Teams or business engagement activities for coordination with AJC staff and partners.

- Works with employers to develop job opportunities for veterans and promotes the value of hiring veterans through individualized job development of veterans especially those determined to be job ready after receiving intensive services from a DVOP.
- Conducts job search workshops in conjunction with employers.
- Engages job search groups to facilitate access to employers.
- Educates partner staff and AJCs about veteran program initiatives and priority of service for veterans.

Strengths:

- LVER staff is well-trained to perform LVER duties through numerous courses provided by National Veteran Training Institute contracted by USDOL-Veterans Employment and Training Service (VETS).
- As a veteran, the LVER understands the value and barriers of most veterans and can more effectively advocate for veterans and bridge the gap between employers and veterans.
- LVER raises awareness among partner and American Job Center staff of priority of service for veterans and how that may be demonstrated.

Weaknesses:

- Hawai'i's high cost of living makes it difficult for recently separated veterans to remain in Hawai'i and most of them move to other states within a year, which discourages local employers from selecting them for jobs that require extensive training, such as apprenticeship programs. The LVER takes this and other factors into account when working with employers.

Capacity to Provide Services:

Given the present funding levels and DOL priorities for LVER services, current LVER resources are generally sufficient to serve the needs of eligible veterans, spouses, and the business community.

J2. Disabled Veterans Outreach Program (DVOP)

Activities:

- DVOPs provides individualized career services to those most in need within a prioritized group of eligible veterans and other covered persons with significant barriers to employment, as directed by law, USDOL, and State guidance.
- DVOPs provides a wide range of workforce services through a case management approach including individualized career service to at least 90% of all clients served.
- DVOPs partner with counseling staff of the Veterans Administration Vocational Readiness and Employment program and Homeless Veterans Reintegration Program grantees to co-enroll and jointly case manage clients determined to be job ready, and DVOPs co-enroll clients as appropriate in other programs such as WIOA National Dislocated Worker grant programs for wrap-around services to benefit the client.)
- If the DVOPs do not have a full caseload of eligible veterans or other covered persons, they may conduct outreach and recruitment activities with other service providers in the area to enroll priority clients. Strengths:
- DVOPs receive extensive training for DVOP duties through National Veterans Training Institute. Hawai'i DVOPs exceeds the minimum of 90% of clients served who received individualized

career services.

- DVOPs are veterans themselves and can therefore more quickly establish trust and rapport with veteran clients.

Weaknesses:

- A short supply of jobseekers makes it difficult to fill vacancies for DVOP positions.

Capacity to Provide Services:

Given the current funding levels, when DVOP vacancies are filled, capacity will be adequate to serve veterans and other covered persons in the community.

K. Senior Community Service Employment Program (SCSEP):

Activities

- Provides economically disadvantaged and unemployed older persons, 55 years or older, an opportunity to gain much needed training to enhance their marketability to compete in the workforce.
- Utilizes and fosters part-time opportunities in community service activities.
- Collaborates with employers (public and non-profit) to become host agencies which are crucial for training the participants of the program.
- Collaborates with employers to identify employment talent needs for customization of training plans for participants with the host agencies.
- Advocates for mature workers to be hired in the workforce.
- Earn subsidized income while developing employable skills with a host agency.
- Receive supportive services through program and through, leveraged funding and partnerships with other programs.
- Direct access to the American Job Center and additional supports for job seekers.

Strengths

- Provides a customized employment and transitional plan that is created together with the participant, program operator, host agency.
- Provides meaning work and purpose for eligible participants outside of the home environment, including the continuation of mental, physical and socialization activities.
- Offers a direct referral to other programs through the American Job Center.
- Offers workers compensation coverage for all participants.
- Increases a participant's ability to acquire part time or full- time unsubsidized employment for self- sufficiency.
- Offers host agencies the opportunity to give back to the public through taking on a participant for training.
- Participants offer host agencies the much-needed assistance while learning crucial job skills and experience.
- Can offer employers a pool of skilled workers in entry level to mid-level positions that are relevant to participant's job training plans.
- Job retention counseling, supportive services, and follow up afforded to participants for up to 12 months as needed after they have secured unsubsidized employment.

Weaknesses

- Customer base is the most difficult to work with.
- Individuals have very little to no work experience.

- Liability – risk of injury is high thus impacting the amount of public and/or non-profit agencies willing to become host agencies.
- Limited number of slots available for program participants.
- Digital literacy is a continued challenge for many participants but is necessary for job search skills.
- Integration into WIOA for core service assessment and co- enrollments.
- Needs more collaboration with the workforce communities and employers to consider hiring an older worker.
- Ageism – participants remain longer in the program because employers are more apt to hiring younger candidates compared to older candidates.
- Fear of SS benefit loss. When working part time with the program, participants fear loss of their social security benefits (supplemental and/or disability).

Capacity to Provide Services:

- Because of the limited funding, the program has an eligibility criteria and priority of enrollment to serve the most in need individuals.
- Allows for discussions and collaboration with agencies and organizations to support the needs of the participant while they are in pursuit of employment and when they are no longer able to pursue employment.
- Case managers are seasoned in employment services and have a plethora of resources and connections to help the participant succeed.
- Partnerships with WIOA titles I through V and other partner programs for the efficiency of services to the public
- Has a limited individual durational lifetime limit of 48 months in the program and a 27- project cap durational limit to ensure that program participants are offered timely service to help transition them into unsubsidized employment or to allow them time to max out their durational limit if employment is no longer a feasible goal.
- Has a 10% non-federal match contribution to engage communities to help support the program activities and participants.
- Allows for collaborations and partnerships to occur with the workforce communities, office of aging, and other providers/agencies that support elderly individuals.
- Participants are in control of their plans in customizing a job plan of their interest for a job that they would like to pursue.

L. Temporary Assistance for Needy Families (TANF):

Activities

- Work Program for families that receive TANF financial assistance benefits.
- Case Management and counseling services
- Assessments and Develop Employment / Barrier Reduction Plan
- Job Placement Services (subsidized & unsubsidized)
- Job Search Assistance
- Job Readiness Training
- Work Experience
- Education Assistance (ABE, VET, Post-Secondary)
- Domestic Violence Advocacy and Supportive Services
- Counseling for temporarily disabled and individuals recovering from substance use disorder.
- Extended services through POS contracts to provide services that meet TANF Purposes 1 and 2

Strengths

- Statewide work program with offices in various geographic locations on each island except Lanai and Molokai. TANF recipients who reside on Molokai are serviced by Maui offices.
- Partnership w/ other state, county, and community-based agencies to provide specific services.
- Ability to procure broad range of services that meet TANF Purposes 1 & 2 through Individualized case management services
- Supportive services available for participants, i.e., assistance with transportation costs, work- and education-related expenses, childcare subsidies, limited rent assistance, domestic violence advocacy and legal services
- Transitional supportive services for employed families who exited TANF due to earnings, i.e., up to twelve months of assistance with transportation costs and childcare subsidies.
- Assists families with no TANF months remaining but are determined temporarily disabled, experiencing domestic violence crisis, or recovering from substance use disorder

Weaknesses

- Must be TANF recipient to participate in work program.
- Must be TANF-eligible to receive procured supportive services (TANF Purposes 1 & 2)
- Vocational educational activity is limited to 12 months in lifetime.
- Other educational activities are non-core activities (i.e., ABE, JSK, EDRE)
- Limited job search, 120 or 180 hours within a 12-month period
- WDC granted a request to waive TANF co-location.

Capacity to Provide Services:

- Federal TANF policies provide the flexibility for states to design their TANF work program to meet the needs of families in their respective state.
- Allows for the development of partnerships with other educational and workforce development agencies (public and private).
- Informed work program participants and case managers of available education and training, employment opportunities, and resources.
- Able to service TANF recipient families statewide.
- Limited to 60 TANF months in a family's lifetime.
- Incurred direct and indirect expenditures must be within TANF federal regulations (i.e., benefits and services meet one of the four TANF purposes, TANF recipients, youth and TANF-eligible individuals and families).
- During 2019 to 2022, services were provided on a remote basis due to the COVID-19 pandemic. As of February 2022, services are provided in-person with remote options to continue as needed.

M. Trade Adjustment Assistance (TAA) Programs

TAA entered a phase-out termination status beginning July 2022, when it was not reauthorized by Congress. TAA was, however, included in the FY23 Omnibus Bill, giving it a 1-year extension. States still must provide services to those whose petitions had been approved prior to June 30, 2022; new petitions

have not been reviewed since that date until further notice.

Capacity to Provide Services:

- Extensive support for TAA participants including assessment, training, and job placement.
- Allows requests for more funds, as needed for eligible participants.

N. American Job Centers:

Hawai'i's four American Job Centers (AJC) provide free services to job seekers and employers, including job search assistance, personal career planning services, training opportunities, HireNet Hawai'i support and a library resource center.

Each AJC is a system of employment and training providers linked electronically and/or co-located at one site to provide better services to customers. The system enables partners to coordinate operations and services in a seamless, easy to access manner. Customers can select services best suited for them. They may do a self-help job search plan or ask staff for employment counseling, training information, or other resource help.

Job seekers can obtain a variety of job and training information and services by visiting an AJC. Employers have access to a wide pool of applicants. Job orders can be placed for local and/or national exposure. A wide scope of labor market information and data is easily available. Employers can contact an AJC directly or access information via the internet.

In addition, AJCs have Resource Rooms provided at no cost to job seekers to facilitate their job search. Customers may use laser printers, copiers, fax machines, and telephones. Labor market and occupational information and reports are also available.

Comprehensive AJCs will utilize a customer-centered approach in the design of service provision and in the design of the physical layout. Centers will be expected to utilize a functional team approach to serving jobseekers and employers. Staff at the Center will be cross-trained for the partner programs in the Center, will utilize a single sign-on system, and will refer participants to the appropriate programs in a seamless process. To maximize funding resources, staff will co-enroll participants in programs, and will blend and braid funds from the eligible programs.

Justice-Involved

American Job Centers are available to respond to inquiries from ex-offenders, also known as returning citizens, with general information on training and services and referrals to other agencies such as Salvation Army, Partners in Care, the Windward Homeless Coalition, Institute for Human Services, and the Department of Public Safety Laumaka Program. Information on the Work Opportunity Tax Credit and federal bonding are also provided as incentives to offer employers when returning citizens conduct a job search.

A well-developed Going Home Consortium program in Hawai'i County features strong collaborations among the State Judiciary, American Job Center, and service providers to facilitate transition from

incarceration to civilian life. The City and County of Honolulu’s Youth program, operated on the same premises as the AJC, uses a holistic approach in working with justice-involved youth in coordination with Family Court, service providers, Department of Education, apprenticeship programs, and American Job Center services.

O. Unemployment Insurance Claimants:

Most Unemployment Insurance (UI) individuals in Hawai‘i are required to register, enter essential background information, and post an on-line resume in HireNet Hawai‘i, the WDD’s on- line employment search and job matching system, to be eligible for UI benefits. HireNet Hawai‘i assists individuals with their job search efforts and allows employers to search for potential employees.

All initial claimants for UI, except those who are referred to jobs by union halls or are partially unemployed, are subject for selection for Reemployment Services and Eligibility Assessment (RESEA), a program designed to assist and facilitate an individual’s transition to employment. RESEA consists of workshops and individual sessions conducted by WDD. Priority is given to ex-military service members and those most likely to exhaust UI benefits, determined through a statistical analysis of factors associated with benefit exhaustion. Once an individual is selected, participation is mandatory unless waived due to the individual recent participation of the same or similar services.

The RESEA program replaced the Reemployment Eligibility and Assessment (REA) program in 2015 providing greater access to reemployment services in addition to services previously provided under the REA program. The permanent RESEA program has four purposes:

1. Reduce UI duration through improved employment outcomes.
2. Strengthen UI program integrity.
3. Promote alignment with the vision of the Workforce Innovation and Opportunity Act (WIOA); and
4. Establish RESEA as an entry point to other workforce system partners. of services to reduce duration of UI benefits. Its success led to the RESEA program.

P. University of Hawai‘i

The University of Hawai‘i Community Colleges has developed a website using LMI data from the Economic Modeling Specialist International. This the same data source for the economic update reports provided to the WDD, county Workforce Development Boards and the WIOA Core Partners.

The website, “Hawaii Career Explorer” is located at the following URL:

<https://careereplorer.hawaii.edu/>.

This site provides public online access to view in-demand industries and occupations and the requisite education and/or training pathways associated with educational programs throughout the State of

Hawai'i. The site provides online interactivity and visualization of economic and workforce opportunities in Hawai'i. The education portion of the site has a hierarchical structure that is based on educational and training requirements ranging from high school diploma through postgraduate and professional degrees.

It should be noted that one area of program review and assessment for all the CTE programs at the community colleges is their alignment to the economic needs of the state. A CTE program must meet this eligibility requirement to access federal Perkins funds.

Q. Registered Apprenticeship

Registered Apprenticeship is a structured training program that combines on-the-job learning with related classroom instruction. It is employer-driven and a flexible training strategy that can be customized to meet the needs of every business.

Apprenticeship is also an “earn while you and learn” model where apprentices earn wages while being trained on the job. Apprentices are paid from day one and receive progressive wage increase/s during the term of apprenticeship or upon completion of the program.

Most apprenticeship programs in Hawai'i are in construction trades, but there are other apprenticeship programs in non-construction trades. The list of Hawai'i's construction apprenticeship programs (union and non-union) and non-construction apprenticeship programs are found at:

<http://labor.hawaii.gov/wdd/home/job-seekers/apprenticeship/type-of-apprenticeships-available/>.

The Department of Labor and Industrial Relations (DLIR) was awarded a grant by the USDOL Employment and Training Administration under the State Apprenticeship Expansion Formula grant to help build statewide capacity of DLIR as the State Apprenticeship Agency in Hawai'i, expand apprenticeship in non-traditional occupations statewide, and better integration with WIOA and enhance partnership with the AJCs. The period of performance of the grant is July 1, 2023, to June 30, 2024.

B. State Strategic Vision and Goals

II. B.1a Strategic Element: State's Vision on Workforce Development

Hawai'i is fully committed to enhancing old and enabling new career pathways to living wage jobs, strong advancement opportunities, and the equitable upward mobility needed to build a 21st century, globally competitive, inclusive economy for all its residents.

II. B.1b Strategic Element: State's Mission on Workforce Development

We establish programs for effective sector partnerships to empower the people of Hawai'i to be competitively skilled and resilient in Hawai'i's shifting economies.

II. B1c: Strategic Element: State's Values

- Determination: "We will get important things done."
- Collaboration and Teamwork: "We will work together, and with others!"
- Accountability: "We will stand by our recommendations to the Governor and help them succeed."
- Innovation: "We will take reasonable risks and develop creative solutions and as economic conditions change."

II. B.1d: Workforce Development Goals

Guided by the Unified Strategic Plan and implemented by the Department of Labor and Industrial Relations' Workforce Development Division and the Workforce Development Council, Hawai'i will:

- 1. Tie Economic Development and Workforce Development efforts to address core issues like labor shortage, living wage, economic diversification, and jobs for the future**
- 2. Build stronger bridges to Hawai'i's Educators.**
- 3. Align workforce development stakeholders including those in the public, private and philanthropic space.**
- 4. Increase support for organizations and agencies that deliver training, certifications, and other upskilling assistance.**
- 5. Prioritize services to vulnerable populations with barriers to employment**
- 6. Transform American Job Centers in Hawai'i through a fresh identity, increased visibility, and better coordination with WIOA Core partners.**

II. B.2: Strategic Element: Performance Goals (Please see tables in Appendix 1)

C. State Strategy

Goal 1:

Tie Economic Development and Workforce Development efforts to address core issues like labor shortage, living wage, economic diversification, and jobs for the future.

Rationale:

Hawai'i's unique island economy has serious challenges, that were laid bare during the recent COVID epidemic and the Maui firestorms that killed nearly 100 people and did billions of dollars of damage. We must prioritize diversifying beyond tourism, reducing reliance on a single, low-wage industry and fortifying against market fluctuations. Bridging the skills gap directly tackles some labor shortages, crucial in high-demand sectors and high-growth areas, enhancing economic stability. By focusing on living wages, we ensure that economic growth translates into community well-being by addressing the high cost of living. Emphasizing social equity, the plan commits to improving opportunities for all, particularly native Hawaiians, and marginalized groups. This holistic approach not only drives economic resilience but also aligns with Hawai'i's cultural values, ensuring a sustainable, prosperous future for its diverse population.

Strategies and Tactics

- Create a working group to explore how to access federal funds such as CHIPS, IJJA, and IRA for local purposes.
- Convene a Living Wage Summit: This will help to clarify the way different living wages are calculated and sharpen the goals of industry recruiters and supply-side workforce training and programs.
- Strengthen collaboration between the Department of Business, Economic Development and Tourism and the Department of Labor and Industrial Relations with regular meetings that would identify emerging markets and opportunities.
- The State Board or the Workforce Development Council (WDC) and the Local Workforce Development Boards (LWDB) with their private sector council members, can be utilized to bridge the connections to private industries.
- Establish high functioning business services teams at each AJC to outreach, educate, and provide tangible services which directly benefit employers and those seeking employment.
- Create videos and educational materials to distribute to employers to create greater awareness on workforce development efforts.
- Collaborate with the Chamber of Commerce of Hawai'i to do outreach to small and medium sized businesses to engage with the workforce development efforts.
- LONG-TERM GOALS:
 - 1) State government employs a significant 21% of the workforce. A huge and growing number of positions remain vacant. Experts point to the slow bureaucratic hiring process as one of the contributing factors. There needs to be an overhaul of the hiring system.

Goal 2:

Build stronger bridges to Hawai'i's Educators.

Rationale:

Strengthening Hawai'i's workforce development hinges on robust partnerships with educational institutions. It is crucial for aligning educational offerings with real-world economic and cultural needs and ensuring that Hawai'i's future workforce is well-prepared. This collaboration enhances curriculum relevance, integrates Hawai'i's unique heritage into education, and fosters innovative teaching methods. It also ensures educational strategies that are responsive to Hawai'i's evolving economic and societal landscape and contributing to a robust and future-oriented educational system. The University of Hawai'i's strategic plan, with its commitment to aligning education with state workforce needs, has set a crucial precedent in its new strategic plan. The Department of Education--a single statewide public school district-- is striving to create seamless pipelines to higher education and skilled trades. By integrating with the Workforce Development Division (WDD) and Workforce Development Council (WDC) and involving private universities like Chaminade and Hawai'i Pacific University, a more collaborative model will ensure a well-rounded, future-ready workforce, well suited for Hawai'i's unique economic and cultural landscape.

Strategies and Tactics

- WDD and WDC will coordinate closely with UH's WFD efforts and those of other private institutions.
- Bridge connections between relevant WDC Committees (i.e., Military and Veteran Affairs Committee, the Employer Engagement Committee, and the Sector Partnership Committee) and UH, Community Colleges, Hawai'i Department of Education (Workforce Development

Division)

- Create a working group to evaluate the promise of stackable credentials which has the potential to reshape some aspects of post-secondary education to better assist the underserved.
- LONG TERM GOAL: Much closer coordination between suppliers of workforce education and the anticipated demands of employers.

Goal 3:

Align workforce development stakeholders including those in the public, private and philanthropic space.

Rationale:

A stronger alignment ensures a unified approach to addressing labor market needs, maximizing resource utilization, and fostering innovative collaborations. It bridges gaps in understanding and resource allocation between different sectors, leading to more impactful and sustainable workforce development initiatives. It is crucial to avoid duplication of effort with our limited resources. The government, acting as a key facilitator, should empower the Workforce Development Council (WDC) to lead these efforts, ensuring cohesion among public, private, and philanthropic entities. Establishing clear, short- and long-term goals is essential to guide these collaborative efforts and ensure accountability. This approach will not only streamline efforts but also focus them towards targeted, sustainable outcomes in workforce development.

Strategies and Tactics

- Formulate a State Goal similar in nature to Hawai'i's clean energy goal. In 2008, and with consensus from industry leaders and energy advocates, State of Hawai'i formally adopted the Hawai'i Clean Energy Initiative creating the most ambitious and far-reaching plan in the country. We will carefully work to create an equally ambitious "Great" state goal that marries serious economic improvement with workforce development. This will require planning, consultation with all stakeholders, and an affirmation by Hawai'i's political leaders.
- Regular Coordinated meetings amongst the various stakeholders where organizations can share latest initiatives, provide data on current employment trends or opportunities to collaborate on projects, and a strong connection to Hawai'i's economic drivers.
- Create a working group to better understand the implications of workforce and economy disruptors including artificial intelligence (AI), automation, the growing segment of Hawai'i's population engaged in the gig economy, remote/hybrid work and the impacts of persons living in Hawai'i but working remotely.
- LONG TERM GOAL: Much closer connections between Hawai'i's workforce development and economic revitalization efforts.

Goal 4:

Increase support for organizations and agencies that deliver quality training, certifications, wrap-around services, and other upskilling assistance.

Rationale:

By bolstering workforce development entities, many of which are non-profits, community-based organizations (CBOs), the state ensures a more skilled and adaptive workforce, equipped with the necessary qualifications and support to meet evolving job demands. This increased support enables more comprehensive services, addressing barriers like transportation, childcare or other wrap-around services that, when missing, often impede access to training. Ultimately, this goal strengthens the foundation of Hawai'i's workforce development, leading to a more competitive and resilient economy. Learners and job seekers also need access to up to date, accurate, and comprehensive information about the curriculum, cost, and quality of training programs to make informed choices about education and career paths.

Given the critical interdependencies of economic diversification, workforce development, and the need for living wage jobs, we intend, in part, to focus greater attention on support to providers in strategic sectors and occupations now identified by the State as either the high-demand industries and occupations included in this report, or as high-growth areas that also pay higher than the current median State wages.

The latter include:

- Specialty healthcare services
- Film, TV, and video production, cable, and media streaming
- Technology equipment distribution
- Hospitals and nursing facilities
- Agricultural support services

Strategies and Tactics

- Identify best practices by accessing networks like the National Governor's Association (NGA) or the CSG at the national, state, and local level.
- WDC will advocate for skills-based hiring in government sector to alleviate job shortages.
- Corollary to this is the need to revamp, reframe, and modernize the Eligible Training Provider List (ETPL) as a critical tool for both raising awareness of WIOA-eligible training programs and creating transparency on the quality of various training programs based on the wage outcomes of participants.
- Create a searchable web based ETPL that enables job seekers to find information on tuition costs, length of training, credentials expected upon completion of program that ensures individuals have access to comprehensive data to make informed decisions about their education and career paths.
- Develop an application process for training providers to be included on the ETPL that ensures that only quality training programs that meet specific criteria are made available to consumers. This process could require providers to show evidence of partnership with local business and provide performance data for all students in their programs.
- Ensure that once approved, training providers submit regular updates of their data to ensure accuracy of upcoming training opportunities.
- LONG TERM GOAL:

- 1) To address Hawai'i's critical government job vacancies, a shift to skills-based hiring is needed. Like the State of Maryland's reduction of stringent educational requirements, Hawai'i should consider policy changes to broaden candidate eligibility. Other States such as Colorado and California have led the way in attracting greater diversity of applicants. The Administration's active involvement in promoting these changes, through partnerships with local entities and upskilling initiatives, is crucial. This leadership-driven approach will not only fill current vacancies but also strengthen Hawai'i's government workforce.
- 2) Close connectivity between WDD and WDC, and suppliers of training and education.

Goal 5:

Prioritize services to vulnerable populations with barriers to employment.

Rationale:

Hawai'i should prioritize services for vulnerable populations with barriers to employment. This aligns with the government's fundamental responsibility, more so than other stakeholders, to ensure equity and opportunity in the workforce. Secondly, it fulfills the specific WIOA mandate to address the needs of underserved communities. We must ensure comprehensive support for marginalized members of our community, fostering social justice and economic progress.

Strategies and Tactics

- Establish systems that can track and monitor outreach to target populations.
- Seek collaboration with other non-profit organizations like Aloha United Way and the Lanakila Pacific, to maximize reach and promote more efficient use of federal funds.
- WDD will coordinate resources among core partners and other key service providers to provide adequate professional development to workforce staff so that the highest- quality and most effective, evidence-based services are provided to vulnerable populations in order that they achieve success.
- Co-enrollment policies and procedures will be utilized and developed to ensure that priority services are given to those targeted populations. Procedures will include initial academic and career path assessment to ensure that vulnerable populations receive essential initial training and subsequent support to allow them to best benefit from program services.
- Each core partner will develop and implement policies and procedures that will ensure that vulnerable populations with barriers to employment that are described in the Unified State Plan receive priority for services.
- WDC, WDD and core partners will engage employers to improve the labor market and skills outcomes for vulnerable populations, as well as increase access to employment opportunities for those populations.
- WDC, WDD and the Core and Mandatory Partners will work to integrate lessons learned from the strategic plans of the University of Hawai'i and its Community Colleges which has a key goal of increasing the graduation rate of Native Hawaiians and assisting with achievement of greater economic self-sufficiency.
- Promote skills development through strategic leadership and long-term direction to fortify investments in training, enhance job readiness, industry specific and soft skills acquisition and institutionalize alternate learning methods in ways that help vulnerable populations.
- For individuals with special needs that preclude full-time employment, tangibly encourage flexible work, e.g., job-sharing, or part-time positions.
- The core partners and other key service providers will establish MOAs that outline each

agency's roles and responsibilities in providing effective, high-quality, intensive, wrap-around services for vulnerable populations.

- Support community-based organizations (CBOs) focused on educating and training members of underserved communities to offer greater windows to reach these communities. CBOs are closest to understanding the unique needs of the communities they serve and supporting them reinforces our commitment to equitable workforce development in Hawai'i.
- LONG TERM GOAL: Clear prioritization for workforce development assistance to Hawai'i's most vulnerable populations.

Goal 6:

Transform American Job Centers in Hawai'i through a fresh identity, increased visibility, and better coordination with WIOA Core partners.

Rationale:

American Job Centers are the first line of support and contact for those seeking to find a job or improve their career options. Regrettably, a lack of awareness about their offerings perpetuates a vicious cycle. Limited visibility leads to low participation rates in AJCs, resulting in underutilized funds allocated by the Local Workforce Development Boards (LWDB). Consequently, the AJCs struggle to demonstrate their effectiveness and impact, creating a self-perpetuating cycle of underutilization and under recognition.

Transforming American Job Centers in Hawai'i to enhance their identity, visibility, and coordination with WIOA Core partners is crucial. It will make these centers more visible and recognizable improving access for job seekers. Better coordination with WIOA Core partners offers will streamline and enhance services resulting in a more comprehensive support system. We will increase the effectiveness of job placement and skill development, contributing to a stronger workforce in Hawai'i and better compliance with WIOA mandate.

Strategies and Tactics

- WDC will engage with US Department of Labor to train LWDB so there will be stronger oversight on AJC performance.
- WDD/WDC will engage consulting services to assist in a refreshed market positioning of the AJC.
- Although there exists mandated WIOA Performance measures, additional definitions for success in the community context need to be formulated.
- WDD will review and oversee development and continuous improvement of a seamless, coordinated service delivery system that is described in the Unified State Plan and outlined in local plans and Memoranda of Agreement (MOA) that describe in detail alignment of services, policies, and procedures.
- Core partners and other key service providers have agreed to utilize Hawai'i's Online Workforce Referral system to coordinate services, avoid duplication of services, reduce paperwork, and streamline administrative operations.
- AJCs will implement functional teams and will cross train staff on the programs that are available at the AJC and will use co-enrollment; and blending and braiding of program funds to provide seamless services to their participants.
- WDC will meet with core partners and other key service providers semi-annually to discuss successes, challenges, and solutions to achieving coordinated, aligned services.

- LONG TERM GOAL: Upgrading the delivery and evaluation of effective services provided by the AJCs.

STRATEGIES RELATED TO CAREER PATHWAYS

In addition to these goals, note that there are corollary goals related to the Hawai'i Career Pathway System.

Background: The Hawai'i Career Pathway System increases access to and opportunities for employment, education, training, and support services, particularly for individuals with the greatest barriers to employment.

These individuals include displaced homemakers; low-income individuals; Native Hawaiians; individuals with disabilities, including youth who are disabled; adults; ex-offenders; homeless individuals, or homeless children and youth; youth who are in or have aged out of foster care; English language learners, individuals who have low levels of literacy, individuals facing substantial cultural barriers; Temporary Assistance for Needy Families program (TANF); single parents; veterans, and long-term unemployed individuals.

Hawai'i's Career Pathway System is designed to promote stronger alignment of workforce and education programs to improve the delivery of employment services, and education and training. It meets the WIOA definition of a Career Pathway system.

Hawai'i collaborated with workforce, secondary and postsecondary education, adult education, business, industry, and other core partner stakeholders to establish a career pathway system that makes it easier for students, adult learners, job seekers, etc. to attain the skills and credentials needed for jobs. The workforce, human service, and educational systems are being brought into more integrated alignment through cross-agency planning, shared common performance measures that inform data-driven decision-making and develop strategies for sector partnerships, and career pathway systems and programs at the local level.

This System is a unifying framework across the state's Workforce Development Council and its implementation of the Workforce Innovation and Opportunity Act (WIOA) and CTE provided through Perkins V as a part of that System. The Career Pathway System's approach connects progressive levels of education, training, support services, and credentials for specific occupations in a way that streamlines the progress and success of individuals with varying levels of abilities and needs.

This approach helps individuals earn marketable credentials, engage in further education and employment, and actively engages employers to help meet their workforce needs and strengthen our state's economies. This model benefits a wide variety of participants including high school, postsecondary, and adult learners – both traditional and non-traditional. Career and technical education (CTE) programs of study, including those that lead to industry recognized credentials, are a critical component of career pathway systems, along with pathways serving lower-skilled adults, high school students, disconnected or "opportunity" youth, veterans, incumbent workers, individuals with a disability, public assistance recipients, new immigrants, English language learners, and other targeted populations.

Career pathways are designed to bring greater efficiency and transparency to the routes from adult

education programs, non-credit training, or other starting points to credentials recognized by industry and postsecondary educational institutions. Built around integrated academic and technical education pathways, career pathways enable individuals to progress through a modular system of postsecondary credentials that build upon each other, leading to further credentials and improved employment prospects.

The Hawai'i Career Pathway System operationalizes through five interacting, interdependent strategies:

- Build cross-state agency partnerships, including community-based organizations.
- Identify industry sectors and engage employers.
- Design education and training programs, including career and technical education (CTE) at the secondary and postsecondary levels.
- Identify funding needs and sources to ensure resources are available to meet state and local workforce development needs.
- Align policies and programs to enable continual improvement and innovation of workforce development activities and the scaling and sustainability of those improvements and innovations.

Hawai'i P-20, together with the Hawai'i Department of Education (HIDOE) and University of Hawai'i Community College System (UHCCS) and other Hawai'i Career Pathway System partners, will continue further development and implementation of all these strategies in the CTE system to strengthen the quality of the of the state's CTE system and the larger Hawai'i Career Pathway System.

HAWAI'I STRATEGIC PARTNERS

Cross-agency collaboration and partnership building was -and is - a critical component in the development and refinement of Hawai'i's Career Pathways System. It provides for further training and education and provides job seekers an opportunity to earn an industry-valued credential. This places a greater emphasis on work-based learning, including apprenticeships, on-the- job training and customized training for incumbent workers.

In the current system, both the HIDOE and UHCCs have created and utilized Pathway Advisory Councils composed of employers and program faculty and staff. These groups have played a significant role in the development of skill standards and assessments that have become the foundation for all the planning, development, implementation, and evaluation of CTE programs.

Additionally, Hawai'i has developed a model for creating and conducting Sector Strategy partnerships based on the data in the WIOA Unified State Plan. A sector strategy is a partnership of multiple employers within a critical industry that brings together education, economic development, workforce systems, and community representation to identify and collaboratively meet the workforce needs of that industry within a particular labor mark. These sectors currently include IT, Healthcare, Engineering, Natural Resources, Clean Energy (New), Creative Industries (New).

The University of Hawai'i and the Chamber of Commerce Hawai'i are leading the coordination of the membership and the convening of the Sector Committees. Sector partnerships align education and training programs with industry needs to produce readily employable workers.

The Sector Committees provide employer and industry perspective. The objectives of the committees—related to Career Pathways—are to:

- Assess training needs and skills gaps, inventory current resources and services, identify high priority gaps.
- Build stronger networks between firms and among education and training partners to identify high-priority skills gaps and in-demand sectors.
- Review and provide feedback on HIDOE and UHCC's standards and assessments,
- academic and career technical content and work skills.
- Increase high-quality, work-based learning opportunities for secondary and postsecondary students that lead to industry recognized credentials.
- Identify new industry-recognized credentials or work-based programs that give companies confidence in skills of new hires and provide workers with more mobility.
- Develop opportunities for professional development training for teachers, school/job counselors, training providers, etc.; and
- Identify policies and/or strategies to sustain the model.

The Career Pathway System is integrated with the Sector Strategy approach. Each Sector Committee has a support group made up of a cross-agency team, including representatives from education's nine career pathways, who will design and implement the strategies recommended by the Sector committee members.

Alignment of Economic Data to Pathway Development

The University of Hawai'i Community Colleges has developed a website using LMI data from the Economic Modeling Specialist International. This the same data source for the economic update reports provided to the WDC, county Workforce Development Boards and the WIOA Core Partners.

The website, "Hawai'i Career Explorer" is located at the following URL:

https://uhcc.hawaii.edu/career_explorer/. This site provides public online access to view in- demand industries and occupations and the requisite education and/or training pathways associated with educational programs throughout the State of Hawai'i. This award-winning site provides online interactivity and visualization of economic and workforce opportunities in Hawai'i. The education portion of the site has a hierarchical structure that is based on educational and training requirements ranging from high school diploma through postgraduate and professional degrees.

It should be noted that one area of program review and assessment for all the CTE programs at the community colleges is their alignment to the economic needs of the state. A CTE program must meet this eligibility requirement to access federal Perkins funds.

Evaluation and Accountability:

All Core and partner programs have some form of evaluation and accountability already in place based on the requirements of their funders.

A key feature of the evaluation process in the revised system is measuring the impact that completing the Pathway has on the customers. This requires tracking and data sets very different from simply counting those who receive a diploma, certificate, credential, or degree and those who are placed in employment. The Core Partners are developing the capacity to collect, report, and analyze that kind of data.

STRATEGIES TO ALIGN CORE PROGRAMS

The WDC conducted planning sessions to prepare core and mandatory partners for the unified state plan. The intentions were as follows:

- 1) align WIOA core programs and mandatory partners (CP&MP).
- 2) identify resources needed to achieve fully integrated consistent with strategic vision and goals; and

3) strengthen the weaknesses identified in workforce development activities.

There is a need for meaningful oversight of the local WDBs. With the issuance of a Local Workforce Development Board Performance Negotiations and Sanctions Policy, the State is in alignment with Federal guidance that allows for local performance failure and measures for improvement within three consecutive years beginning with Program Year 2024. Interim measures for failure will include provision of technical assistance and development of performance improvement plans and corrective actions. Details of the policy can be found here: [WIOA-Bulletin-02-23.pdf \(hawaii.gov\)](#). The WDC plans to initiate a Statewide Executive Directors group for WDB administrators to meet on a quarterly basis to share working practices, discuss challenges and methods to overcome areas of concern, and presentations from core partners, stakeholders, and community.

To specifically address the WIOA targeted barrier groups, the WDC plans to establish sub-groups within the Special Projects Committee that will coordinate with the AJCs and the business community on improving and increasing services to veterans, individuals with disabilities, out-of-school and at-risk youth, ex-offenders, low income, homeless, foster care youth, low level of literacy, and migrant and seasonal farmworkers.

Accessing employment services to people residing in remote locations and rural areas of the State has been a continuing challenge for every county. Strategies under consideration include:

- Dedicated outreach to remote and local areas at least twice a month by AJC staff.
- Securing vehicles with appropriate technology to enroll clients wishing services.
- Increase schedule of job fairs.

II.B.2: Strategic Element: Assessment

Assessment. Describe how the State will assess the overall effectiveness of the workforce development system in the State in relation to the strategic vision and goals stated above in sections (b)(1), (2), and (3) and how it will use the results of this assessment and other feedback to make continuous B.3: or quality improvements.

WDD will assess the overall effectiveness of the workforce development system in relation to the strategic vision and goals outlined in this Plan through the following mechanisms:

- state and local level fiscal and programmatic monitoring.
- surveys of stakeholders.
- data validation; and
- analysis of data.

In general, WDD will implement the following strategies to assess the overall effectiveness of the workforce system:

1. Conduct annual on-site and desk monitoring of workforce service providers.
2. Review quarterly reports of workforce services providers to ensure fiscal and program performance benchmarks are being met.

3. Conduct periodic customer satisfaction surveys, including mystery shopper, and data validation.
4. Require corrective action plans from providers who fail to meet expenditure targets and performance goals.
5. Specifically, in relation to Hawai'i's vision and goals, the following will be done:

Strategic Vision or Goal	How Overall Effectiveness will be Assessed	How Results will be Used to Make Continuous/Quality Improvements
<p>Vision Hawai'i is fully committed to enhancing old and enabling new career pathways to living wage jobs, strong advancement opportunities, and the equitable upward mobility needed to build a 21st century, globally competitive, inclusive economy for all its residents.</p>	<ol style="list-style-type: none"> 1. Compile existing survey results from groups such as Chambers of commerce, Hawai'i Employers Council, and unions on shortages of competitively skilled workers and track improvements/decline over time. 2. Develop a survey to measure employer satisfaction with job seekers and employee satisfaction with their jobs. 	<ol style="list-style-type: none"> 1. Services offered by core and mandatory programs will be continuing to be revised to correct deficiencies and produce better outcomes.
<p>Goal 1: Tie Economic Development and Workforce Development efforts to address core issues like labor shortage, living wage, economic diversification, and jobs for the future.</p>	<ol style="list-style-type: none"> 1. Utilize board members to engage in the various industries and gain the pulse of the community, educational, and business needs. 2. Assess the effectiveness of working groups in developing solutions to the challenges. 3. Assess progress on coordinated approach on a quarterly basis and take corrective action as needed. 	<ol style="list-style-type: none"> 1. Consult end-users to determine whether coordinated efforts are working. 2. Adjust improve. 3. Collaborative meetings will drive and connect the partners to build an improved network of services and needs for the direct service providers.
<p>Goal 2: Build stronger bridges to Hawai'i's Educators.</p>	<p>Through standing coordinated partner meetings, areas of economic concerns, training, and overall workforce development, communication is continuous, and issues are appropriately addressed.</p>	<ol style="list-style-type: none"> 1. Consult end-users to determine whether coordinated efforts are working. 2. Adjust improve. 3. Collaborative meetings will drive and connect the partners to build an improved network of services.

<p>Goal 3: Align workforce development stakeholders including those in the public, private and philanthropic space.</p>	<p>Through standing coordinated partner meetings, areas of economic concerns, training, and overall workforce development, communication is continuous, and issues are appropriately addressed.</p> <p>Consult stakeholders whether the coordinated efforts have resulted in more efficient use of their funds.</p>	<p>Based on reports from board members, programs will continue to be tweaked to provide support to the community, clients, and businesses.</p>
<p>Goal 4: Increase support for organizations and agencies that deliver training, certifications, and other upskilling assistance.</p>	<p>Track the number of organizations and agencies that have been supported.</p> <p>Develop a community input system or surveys to determine the needs and economic trends of employers and job seekers.</p>	<ol style="list-style-type: none"> 1. Refine methodology. 2. Expand the network of employers/ community partners when practical. <p>Active engagement with the training providers to focus on continuous improvement in quality of services.</p>
<p>Goal 5: Prioritize services to vulnerable populations with barriers to employment.</p>	<p>Determine baseline participant counts and their educational and employment outcomes.</p> <p>At least annually compute the difference between the baseline and actual counts of participants served and their educational and employment outcomes.</p> <p>Survey case managers/ counselors, and participants to gauge levels of customer satisfaction.</p> <p>Promote and gain exposure of AJCs by outreaching into the hard-to-reach populations in the community and providing information on services available.</p> <p>Monitor systems which can track and gather data on the populations that have barriers to employment.</p>	<p>Use data acquired to evaluate outcomes relative to the number served and the complexity of barriers they face.</p> <p>Engage community partners and Local/State board members in finding solutions to problems.</p> <p>Provide or create different programs based on each community's needs.</p> <ol style="list-style-type: none"> 1. Use results to identify if there is a need for technical assistance to increase number of veterans and other target groups served in core programs and identify barriers to a seamless flow of participants and services among different programs. Collectively address and resolve these barriers.

	<p>Measure how effectively veterans are being provided priority of service through numbers of veterans served by core programs and numbers co-enrolled between JVSG and other programs.</p> <p>Track the flow of participants and services from different providers to the AJC and vice-versa to identify barriers and resolve them.</p>	
<p>Goal 6: Transform American Job Centers in Hawai'i through a fresh identity, increased visibility, and better coordination with WIOA Core partners.</p>	<p>Track the number of number of participants over time.</p> <p>Conduct surveys on awareness of AJC.</p>	<p>Use results to identify areas where AJCs can be strategically located.</p>

In addition, each core partner will employ their own strategies to ensure effectiveness of services:

1. WDD will conduct on-site and desk monitoring of branch sites and LWDBs.
2. DVR will conduct random case reviews annually.
3. Adult Education will conduct on-site and desk review monitoring.
4. AJC providers will conduct an annual internal self-assessment.
5. LWDBs will assess their service providers and one-stop system; conduct on-site and desk review monitoring.

An emphasis will be on how well each core partner and the overall workforce system are performing relative to WIOA's common performance goals:

- Sustaining Employment in 2nd and 4th Quarters After Exit
- Skills Gains and Credential Attainment (which relates to postsecondary access and completion)
- Effectiveness in Serving Employers: Core partners have chosen to use retention with the same employer in the 2nd and 4th quarters after exit rate; and the repeat business rate as the statewide effectiveness in serving employers performance measures.

III. Operational Planning Elements

A. State Strategy Implementation

III. A.1. State Board Functions

The Workforce Development Council (WDC) is composed of representatives from:

- Cabinet level directors from the State agencies of labor, human services, economic development, education, and the president of the University of Hawai'i
- Private sector representatives, including representatives from the four LWDBs.
- Community-based native Hawaiian organization
- Labor unions and workforce
- State House and Senate
- County Mayors
- Governor

The WDC acts as an advisory board to the Governor regarding the workforce system and economic development within the State. Most of the state and county agencies that directly control the state and federally funded workforce programs are all members of the WDC. Additionally, the WDC has the state mandated statutory responsibility to continuously identify workforce barriers and develop solutions to targeted industry workforce challenges.

Description of the WDC Organization:

The Workforce Development Council acts in an advisory capacity to the Governor.

The Executive Director (ED) of WDC reports to the Administrator of the WDD of DLIR. The Council has the statutory authority to hire and terminate the ED. The Council is currently composed of 41 members of whom 51% are private business sector executives appointed by the Governor.

WDC meets quarterly and at such other times as deemed necessary as the chairperson determines or as provided by the rules of the board. The Governor and the members of the cabinet may designate in writing another person to attend meetings and vote on their behalf. The Chair of the Council is appointed by the Governor in accordance with HRS Chapter 202 and is selected from private sector members. The Chair serves as the spokesperson for the Council, approves meeting agenda, and leads Council meetings.

The Vice Chair is elected by the members of the Council. The Chair and Vice Chair, along with the Chairs of the Council Committees constitute the Executive Committee. All Council Committees operate under Hawai'i's Sunshine Laws and meet as necessary.

The Council established committees comprised of a Chair who is a member of WDC, a Vice Chair who is also a member of the WDC and other volunteer members who are members of WDC or LWDBs and other interested stakeholders who are from the private and public sectors, non-profit community, or other community-based organizations. Committee members are not required to be members of WDC or LWDBs.

The committees were established to align with the functions of WIOA and to fulfill the Council's

responsibilities for oversight, governance, implementation of the State's workforce development strategy, and achievement of goals.

The Council committees are:

- Employer Engagement
- Performance Measures and Financial Accountability
- Sector Strategies and Career Pathways
- Youth Services
- Military and Veteran's Affairs
- Special Projects Committee
- Executive Committee

The Performance and Accountability committee evaluates the performance results of each local area and their service providers and makes recommendations. The Executive Committee makes hiring, compensation, and other personnel related recommendations to the full Council for their discussion and decision-making. The Executive Committee considers those recommendations, then makes its recommendations to the full Council for discussion and decision-making.

The Executive Committee also considers other committee recommendations, then makes its recommendations to the full Council for discussion and decision-making. Decision-making and voting are conducted during scheduled council meetings which are open to the public. The Executive Committee meets prior to each full Council meeting. During this meeting, the committee chairs report on the activities of their committees, propose recommendations for full council consideration. The Executive Committee votes to move proposals or recommendations to the full Council.

The Council receives information needed for decision-making by requesting reports directly or through the appropriate committee. Prior to each Council meeting, WDC staff prepares packets for each of the Council members and other meeting attendees. The packets contain the agenda, meeting minutes from the previous meeting, financial and budget reports, reports from each of the LWDBs, a report from the executive director, and other handouts.

During the meeting, the chairs of each committee provide written reports on the activities of the committee and the status of any projects and recommendations. The chairs of the LWDBs also provide written reports on the activities and accomplishments of their boards and the status of required elements of their local workforce development systems and informs the Council of any barriers or concerns the local area may be facing.

Council meetings often include presentations by partner agencies, community organizations, and other stakeholders. The Council invites or requests presentations or presenters to be placed on the meeting agenda through WDC's Executive Director or through Council members. These presentations keep the Council informed about the community, our partners, stakeholders, and the populations that the workforce system serves.

The deputy attorney general assigned to the WDC attends full Council meetings and Executive Committee meetings, and other meetings as needed to provide legal advice on WIOA law and regulations, Hawai'i Revised Statutes and Hawai'i Administrative Rules, and on Hawai'i's Sunshine Laws as related to WDC meetings. Before each meeting, the deputy attorney general reviews the draft agenda to ensure it meets legal requirements of the Sunshine Law.

As is stated in HRS Chapter 202, the council is a 41-member advisory commission comprised of both public and private-sector representatives, who are selected by the Governor to serve in staggered 4-year terms on the basis of their interest in and knowledge of workforce development programs in Hawai'i and how to support economic development throughout the state.

The council operates in two capacities:

First, in a federal capacity, the council serves as the State Workforce Investment Board for purposes of the federal Workforce Innovation and Opportunity Act of 2014, Public Law No. 113- 128, and functions as an “information clearinghouse” for all workforce development programs in the State, including workforce training and education programs.

Second, in a state capacity, the council is responsible for preparing and overseeing the unified state plan for workforce development in the State of Hawai'i, and for advising the Governor, via annual reports, on state policies and funding priorities that it believes should be adopted by the state government to address the unmet workforce and economic development needs across the state.

It must be noted that the Workforce Development Council and the local WDBs (Oahu, Big Island, Maui) are in a period of transition with new leadership. As such, we recognize that this period may be considered a re-set as many of the initiatives set forth in the 2022 are still works in progress. With support from WDD and the US Department of Labor, there is a desire to increase the knowledge base of the current Council and LWDB with additional training and coaching.

Describe how the lead State agency with responsibility for the administration of each core program or a Combined Plan partner program included in this plan will implement the State's Strategies identified in Section II(c). above.

III. A. 2 CORE PROGRAM ACTIVITIES TO IMPLEMENT THE STATE'S STRATEGY

Workforce Development Division

Integration of resources is accomplished through the regular sharing of information among the network of Core Partners and other providers. At the local level, State staff sponsored meetings with local area Core Partners, Community Colleges, and TANF front-line staff to discuss their resources, target groups, and services.

At the LWDBs and their AJCs, the AJC certification policy requires that core and mandatory partners regularly provide cross-training on partner programs, implement cross-functional teams, are familiar with eligibility requirements for all programs, establish co-enrollment practices, and establish procedures for referrals.

All AJCs in Hawai'i have made progress in co-location of mandatory and core partners. During the process of co-locating, integration of the partners was initiated. Regular partner meetings and training to cross train AJC staff on partner programs are continuing. AJC staff are also being trained to refer participants to partner programs and to co-enroll participants when appropriate. Co-enrollment maximizes the efficient use of program funds which is necessary since Hawai'i is typically, a small state minimum allotment state, receiving the lowest funding level possible. Post-COVID-19, allotments rose to in proportion to unemployment, which hit a modern high. The challenge has been

to effectively use a current abundance of funds, while preparing for a future return to the smaller allotments once recovery is complete. Each time a new partner is co-located, staff are trained to integrate the new program into the AJC operation.

AJCs have also started to implement functional teams to integrate partner programs and provide seamless services to participants, while using staff more efficiently.

Core partners and other key service providers have agreed to utilize Hawai'i's Online Workforce Referral system to coordinate services, avoid duplication of services, reduce paperwork, and streamline administrative operations. When the new system is implemented, AJC staff and partner staff will be trained on the use of the system.

To further statewide consistency, WDD policy requires that Local Plans align with the Unified State Plan. The local plans will include how the local areas will serve and provide outreach to populations with barriers to employment. Technical assistance to the local areas has also emphasized that service providers must also have outreach plans, including partnering with other community organizations that serve those populations.

Adult Education

The HIDOE will use a U.S. Department of Education, Office of Career, Technical and Adult Education, approved competitive four-year grant award process subject to renewal or continuation annually to fund AEFLA activities to support the implementation of the State's strategies.

82.5% of AEFLA funds received by the HIDOE will be awarded to provide adult education services as required by 29 USC §3302. *State distribution of funds; matching requirement.* Up to 20% of the 82.5% of AEFLA funds will be awarded for Corrections Education according to 34 CFR § 463.61 *How does the eligible agency award funds to eligible providers under the program for Corrections Education and Education of other Institutionalized Individuals?* An award to provide an Integrated English Literacy and Civics Education program will be determined by the amount specified in the Hawai'i AEFLA grant award notification from the U.S. Department of Education for the program year the award is made.

Adult education services include:

- Adult Basic Education - The Adult Basic Education (ABE) program provides students with basic skills in English language arts and mathematics.
- Adult Secondary Education - The Adult Secondary Education (ASE) program provides a curriculum that enables adults to attain a high school diploma (HSD) or a high school equivalency (HSE) certificate.
- English Language Acquisition - The English Language Acquisition (ELA) program prepares adult learners to speak, read, and write English fluently.
- English Literacy and Civics Education - ELCE activities include:
 - Instructional activities that integrate civics education content with existing ELA courses.
 - Citizenship Preparation courses that use ELA methodologies and citizenship preparation material to prepare learners to take and pass the U.S. Citizenship and Immigration Services oral and written citizenship tests.
- Integrated English Literacy and Civics Education - The Integrated English Literacy and Civics

Education (IELCE) program, is designed to: prepare adults who are English language learners for and place such adults in, unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency; and integrate with the local workforce development system.

- Integrated Education and Training - Is a service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement.
- Corrections Education - Corrections education services serve felony offenders in all jails and prisons in Hawai'i and include academic programs for adult education and literacy activities.

Activities will be aligned across the core programs and State Plan partner programs through local provider requirements included in the AEFLA competitive grant application to provide adult education services. Applicants selected to receive AEFLA funds must address the following requirements to align activities across core and partner programs.

- Alignment with Hawai'i Workforce Development Board Plans
- American Job Center Hawai'i (One-Stop) Responsibilities
- Alignment with the Hawai'i State WIOA Plan
- Aligning of College and Career Readiness Standards
- Aligning of English Language Proficiency Standards for English Learners
- Serving individuals with Barriers to Employment
- Addressing the Considerations in 34 CFR 463.20 (d) *In awarding grants or contracts for adult education and literacy activities to eligible providers, the eligible agency must consider the following*

Division of Vocational Rehabilitation

DVR is committed to utilizing Hawai'i's Online Workforce referral system to coordinate services, avoid duplication of services, reduce paperwork, and streamline administrative operations when made available. DVR will ensure that all designated staff will receive training and support to utilize this system on a regular, ongoing basis and in the most efficient manner.

DVR provides training to CORE and Community Partners on the VR program, which includes the VR process, eligibility, and VR services provided to eligible persons with disabilities to prepare for, obtain, maintain, regain, and advance in employment. Other training offerings include:

1. Disability Awareness
2. Working with persons who are Deaf or Hard of Hearing
3. Working with persons who are Blind or Visually Impaired
4. Job Accommodation Network
5. Assistive Technology
6. Consultation on the ADA

VR has participated in the fiscal mapping of resources across WIOA core partners and supporting agencies, educating all stakeholders on funding streams for various programs and services. Another related DVR goal pertains to engaging with employers in the Workforce Development System.

DVR offers training programs to businesses and has created a training calendar that may be adjusted based on the needs of the participants. The standard training modules include:

1. Business as a Customer of the VR Program
2. Disability Awareness
3. Working with Series: people who are Deaf or Hard of Hearing, people who are Blind or Visually Impaired, and people with Mental Illness
4. Job Accommodation Network
5. Assistive Technology
6. Consultation on ADA, Accessibility, and Section 503

DVR has established procedures and conducts training for the referral process to DVR by the AJC and partners. DVR participates in cross-training and collaboration with all partners to understand eligibility requirements so appropriate referrals can be made with minimal “run around” by individuals seeking services through DVR or the AJC. DVR collaborates with partners for comparable services and benefits to avoid duplication of services. Resource sharing and co-enrollment across programs ensure that job seekers get support from community programs. While some collaboration involves MOAs or MOUs with community partners, others are based on sharing program knowledge, resources, and commitment to serving our populations.

1. Partner Meetings are attended every quarter.
2. Direct focus workgroup meetings are attended every month.
3. All meetings include ongoing collaboration via email and telephone to advance goals and priorities.

DVR’s goals also include the development of sector strategies and career pathway systems for in-demand industries. DVR utilizes the Career Index Plus, a career information system that collects Labor Market Information (LMI) from various resources and compiles it online. The site has the most comprehensive information on recent labor market data and is the tool utilized to gain data to develop plans for career pathway discussions based on growth industries and skills needed by employers.

DVR has collaborated with the UH System – Community Colleges to promote apprenticeship programs in the High Schools. Classroom instruction is coupled with internships in growth industries such as healthcare and food services. Students can continue their apprenticeship at a post-Secondary level after exiting High School. Apprenticeship programs are also available to adults with an entry point through the community Colleges.

DVR has created and participates in cross-functional teams addressing employer demand for jobs and support relative to each county. In addition to CORE partners, members include supporting agencies and businesses.

1. Business Engagement: All populations, including underserved
2. Hawai’i Employment First Task Force: Disability Initiatives

3. Disability: In Employer Lead Disability Inclusion Focus
4. Recruitment Fairs: Coordination with Employers and Participation in logistics and meeting other needs.

III. A.3. ALIGNMENT WITH ACTIVITIES OUTSIDE THE PLAN

Workforce Development Division (WDD)

The WDD is the state office that administers the apprenticeship program on behalf of the DLIR as the State Apprenticeship Agency that is recognized by USDOL, Office of Apprenticeship to register apprenticeship programs and apprentices for federal purposes. WDD reviews proposals for new apprenticeship programs and proposed modifications of existing apprenticeship programs, processes apprenticeship transactions pertaining to registration, cancellation, and completion of apprentices, conducts compliance reviews, and quality assurance assessments on registered programs and provides technical assistance to sponsors in the administration of their programs. WDD also provides support to the State Apprenticeship Council which is an advisory body to the DLIR Director on matters pertaining to apprenticeship.

On an on-going basis, recruitment notices of apprenticeship sponsors are posted on HireNet Hawai'i and the WDD Apprenticeship website for information to the public, particularly job seekers. These recruitment notices are also forwarded by WDD Administration to the AJCs where recruitment will take place, Adult Education and VR State Offices for dissemination. The minimum qualifications of the apprenticeship programs are posted on the WDD site with contact information for each apprenticeship program. Those interested in apprenticeships are advised by the AJCs to apply and are referred to the sponsor. AJC's also assist applicants by providing training top help them meet the minimum qualifications of the programs. This includes remedial education offered by WIOA under Title II and/or Adult Education.

As required by WIOA, program sponsors are informed that registered apprenticeship programs are automatically eligible to be included in the Eligible Provider List. The ETP list is posted on the WDC website.

Division of Vocational Rehabilitation (DVR)

DVR can assist a VR-eligible individual with activities included in their Individualized Plan for Employment (IPE). The IPE lists all the activities required for a VR-eligible individual to prepare, obtain, maintain, regain, and advance in the employment of their informed choice. Suppose a required activity is identified after the IPE is completed. In that case, the VR-eligible individual and the VR counselor can amend the IPE to include the activity and make any other necessary changes to obtain employment. DVR and the Core partners are working on a Memorandum of Agreements (MOA) that details the responsibilities of each partner, which will help in the management and avoid duplication among these activities. In case of duplication of activities, which includes AJC Partners, DVR would have minimal involvement as those services would not be listed on the IPE since they are not necessary for the VR-eligible individual to obtain employment.

Funding Stream Mapping

The WDC and the Hawai'i P-20 Partnership for Education (State CTE office) identified all the public sources of state and federal program funds for workforce development in Hawai'i. These two agencies created a funding map summarizing the \$101 million in federal and state monies spent on workforce development in 2018; available at <https://labor.hawaii.gov/wdc/files/2019/05/Funding-Map-Poster-FINAL-website.pdf>.

Identifying the funded agencies and organizations, amounts expended, and the purposes of the spending across these agencies and organizations is the first step in creating joint planning, alignment, coordination, and leveraging of funds in the State of Hawai'i.

The Hawai'i Department of Education (HIDOE) and University of Hawai'i Community College System (UHCCS) and other Hawai'i Career Pathway System partners, will continue further development and implementation of all these strategies in the CTE system to strengthen the quality of the of the state's CTE system and the larger Hawai'i Career Pathway System.

Additionally, the Hawai'i P-20 Partnerships for Education (State CTE Office) will work with the WDC's Sector Strategies & Career Pathways Committee and other committees to explore joint planning, alignment, coordination, and leveraging of Perkins and other state and federal education and workforce development funds to better serve the state's students, particularly those special populations identified in WIOA and in Perkins V.

Finally, Hawai'i P-20 Partnerships for Education (State CTE Office) will work in coordination with other agencies to explore formal changes to laws, rules, and regulations that would better enable the eligible recipients to achieve systemic, systematic, and equitable system improvements to the delivery of education and support services to clients.

Career and Technical Education Programs

The education components of Hawai'i's Career Pathway System are delivered by the Hawai'i Department of Education (HIDOE) and the University of Hawai'i Community Colleges System (UHCCS).

13 pathways and 42 programs of study are offered in HIDOE schools (<https://www.hawaiipublicschools.org/>) and across the seven UHCCS campuses (<https://tinyurl.com/UHCCSprograms>). The state is working with Adult Education administration to make CTE programs more accessible to their students.

Hawai'i's CTE pathways and programs of study (POS) provide high-skills, career-focused curriculum accessible to all students, support Hawai'i's economic development plans, address the mission and strategic plans of the Hawai'i State Board of Education and the University of Hawai'i's Board of Regents, and meets WIOA requirements.

Broadly, Hawai'i's Career Pathway System CTE programs and POS:

Incorporate secondary education and postsecondary education elements.

- Include coherent and rigorous content, aligned with challenging academic standards, and relevant career and technical content in a coordinated, non-duplicative progression of courses

that align secondary education with postsecondary education to adequately prepare students to succeed in postsecondary education.

- Include the opportunity for secondary education students to participate in dual or concurrent enrollment programs or other ways to acquire postsecondary credits; and
- Lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree.

The Hawai'i P-20 Partnerships for Education (State CTE Office) has worked as a partner in the Hawai'i Career Pathway System, specifically the Sector Strategies & Career Pathways Committee of the WDC, to examine the appropriateness of career pathways in the state. The State of Hawai'i faces dynamic economic and environmental conditions that are acutely felt as a collection of isolated islands in the Pacific Ocean. The need for greater self-sufficiency (e.g., energy and food), environmental resiliency and robustness given the growing effects of climate change, local job creation and sustainability to create a vibrant and sustainable economic ecosystem that deters the state's brain drain, and the continued need for high-quality educators whose shortages are most felt by marginalized communities thereby exacerbating educational and economic disparities are but a few of the conditions facing the state. Given these conditions as an island-state, there may be opportunity to explore development of a Hawai'i-specific career pathway based on the unique context and these dynamic conditions rather than on similar occupational clusters. This might involve realignment of some current programs into this new career pathways, revision of the program and course standards to be more purposefully aligned to the Hawai'i context and conditions, and/or creation of new programs or integration of content across programs (e.g., entrepreneurship).

Additional Secondary and Postsecondary Initiatives

High school career academies can better organize the high school experience while making the learning more relevant for students. Currently, twenty-seven of the state's forty-three (43) public DOE high schools have career academies, many of which are working alongside the National Career Academy Coalition to improve program quality on the road towards national certification.

Each year since 2017, career technical education teachers were provided paid externships in industry through a new partnership between the Hawai'i Foundation for Education (the non-profit arm of the Hawai'i State Teachers Association) and the State Office of Career Technical Education.

Work-based learning is becoming increasingly important. Three regions across the state: Kauai and Maui counties as well as Pearl City to Waipahu on Oahu have received funding and stepped up their use of intermediary organizations to coordinate between high schools and industry partners as a way of dramatically expanding work-based learning opportunities for students. Hawai'i P-20 has funded a full-time permanent position within its staff to lead the development of a state-wide plan for making work-based learning opportunities accessible to all, including the clients of the state's AJCs.

The UH is working closely with the Economic Development Alliance of Hawai'i on the requisite Labor Market Information (LMI) for the CEDS process and report. This ensures a unified understanding of economic and workforce priorities between Hawai'i's economic development board and our public higher education system. To accomplish this, the UH is deploying both projected and real-time job needs of economic clusters that are comprised of industry sectors.

As a mandatory partner with WIOA, the UH has also been engaged with labor market analysis with all core partners. The joint activities between the CEDS and WIOA are critical to UH and its role in providing Hawai'i's skilled labor force. To achieve workforce supply and demand equilibrium, UH is currently working on a systematic methodology for identifying immediate and projected workforce needs using both forecast/project analysis and real-time data analytics.

Department of Human Services (TANF)

The Department of Human Services (DHS) has implemented the Ohana Nui (extended family) initiative that focuses the Department's service delivery to a multigenerational approach to reduce the time a child and family spends in poverty, and to prevent intergenerational reliance on government assistance. The Department's goal is to address the five social determinants to a family's stability and well-being—housing, food and nutrition, health and wellness, economic self-sufficiency and education, and social capital. Ohana Nui is based on the national anti-poverty initiative called 2Gen (two-generation) that provides support for both children and their parents together (and in Hawai'i's case, multi-generation). The 2Gen approach helps children and families get the education and workforce training, social supports, and healthcare they need to create a legacy of economic stability and overall well-being to pass from generation to generation.

The Department is developing its Information Technology Enterprise System, the data warehouse creating the foundation of Ohana Nui. The premise of the Enterprise System is to make the Department's programs and services more accessible for families when they initially seek support. Parallel to the American Job Centers that provide job seekers an array of career and employment-related services in a centralized location, the DHS Enterprise System will provide one entry-point for families to access information and to apply for benefits and services the family may need from programs such as Medicaid, Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF) Program, General Assistance Program, Aid to the Aged, Blind and Disabled Program, and Child Care Subsidy Program.

The Department's goal is to develop a pilot 'DHS Navigators' who will assist an individual or family to identify their immediate needs; to navigate and refer the individual or family to the appropriate DHS programs and offices; and assist with the completion of the application form. The pilot would extend access to its programs by stationing 'DHS Navigators' in the American Job Centers to service customers that may require assistance with their basic needs.

However, the pilot program is still in development. The State Board has granted the department's request to waive co-location of TANF services at the AJCs until June 30, 2023.

B. State Operating System and Policies

III.B.1 HAWAI'I VIRTUAL ONE-STOP

Hawai'i's Workforce Development System uses a standardized record data collection by means of a Virtual One-Stop (VOS) called "HireNet Hawai'i" (HNH). The system is WIOA compliant related to data collection and maintenance. The system collects all new required performance data as well as the new employer engagement data.

Access to the electronic data maintained by in the system is limited to such persons authorized by WDC and WDD who have legitimate need. Information contained in HireNet Hawai'i is used only for the purposes intended.

The HireNet Hawai'i system provides core employment services to individuals via the internet. Job seekers can create and post their resumes on-line, find available jobs in Hawai'i, assess their skills, get career information, review the latest labor market data, and locate suitable training. Individuals applying for unemployment must register on HireNet Hawai'i and upload or create a resume within seven days to receive their unemployment claim.

Employers can post their job openings, search through resumes for possible candidates, and access industry statistics. Employers may also receive direct referrals from the virtual recruiter to assure they get the best match for their positions. These services are available at no cost to the employer.

HireNet Hawai'i matches job seekers and employers and provides immediate notification when a match is found. The system also provides labor market information to all users. It directly accesses data stored in the Workforce Information Database (WID) structure. The system displays occupational wages and projections, unemployment statistics, economic indicators, and jobs by industry data.

The Hawai'i's Workforce Infonet (<https://www.hiwi.org>) is one of the required deliverables of Hawai'i's Workforce Information Grant. It is a Virtual Labor Market Information (VLMII) system that houses the WID and can deliver labor market information, projections data, labor force statistics, employment/unemployment and employer data, industry and occupational information, local employment dynamics, and wage information. The system is designed to meet the labor market information needs of the State's workforce system, the public, including job seekers and employers; labor market intermediaries such as employment counselors, case managers at the AJCs, community-based organizations who help individuals find a job or make career decisions, policymakers, employment and economic program planners and operators; researchers, data providers, and the media. Data from HIWI is integrated into the HireNet Hawai'i labor market information modules and HIWI includes linkages to the job search component that provides real-time job and applicant information.

The HIWI system consists of the following components:

- HIWI home page: Highlights the latest articles tables, publications, and links. It features a powerful search engine that scans web pages, articles, data, and Portable Document Files (PDF) which help users explore and find information within the site.
- Latest reports: Points users to the latest employment and wage data, employment forecasts, job opportunities in the State, and the newest online releases.

- Press release: Provides direct links to the Department’s current press release and accompanying data.
- Quick data links: Provides direct links to topics that are of interest to workforce development professionals, researchers, economists, program planners, and others. Topics include unemployment, job count, wages, employment projections, industry information, employer information, and local employment dynamics.
- Services for job seekers: Includes a dashboard of services and information for job search, training, and assistance.
- Services for employers: Provides a dashboard of services for recruitment and information on job market trends and other helpful information for employers.
- Data dashboard and tools: Features information available in the system such as employment, unemployment, wages, labor market facts, occupational and industry projections, and other related information.
- Publications and Tables: A menu of quick links to data sets, in addition to publications, users can download the latest data tables.

WDD maintains webpages (<http://labor.hawaii.gov/wdd/>) on the State of Hawai’i/DLIR website contains information to various workforce programs.

III.B.2. THE STATE OPERATING SYSTEMS THAT WILL SUPPORT THE IMPLEMENTATION OF THE

STATE’S STRATEGIES.

- The Hawai’i’s Workforce Infonet (HIWI, <https://www.hiwi.org>) is one of the required deliverables of Hawai’i’s Workforce Information Grant. This Virtual Labor Market Information (VLMi) system that houses the WID and can deliver labor market information, projections data, labor force statistics, employment/unemployment and employer data, industry and occupational information, local employment dynamics, and wage information is referenced in section B, State Operating Systems and Policies.
- Latest reports: Points users to the latest employment and wage data, employment forecasts, job opportunities in the State, and the newest online releases.
- Press release: Provides direct links to the Department’s current press release and accompanying data.
- Quick data links: Provides direct links to topics that are of interest to workforce development professionals, researchers, economists, program planners, and others. Topics include unemployment, job count, wages, employment projections, industry information, employer information, and local employment dynamics.
- Services for job seekers: Includes a dashboard of services and information for job search, training, and assistance.
- Services for employers: Provides a dashboard of services for recruitment and information on job market trends and other helpful information for employers.
- Data dashboard and tools: Features information available in the system such as employment, unemployment, wages, labor market facts, occupational and industry projections, and other related information.
- Publications and Tables: A menu of quick links to data sets, in addition to publications, users can download the latest data tables.

WDC maintains webpages (<http://labor.hawaii.gov/wdc/>) on the State of Hawaii/DLIR website. WDC

posts meeting notices, meeting minutes, plans, reports, and WIOA bulletins on the site to be available for public access and for access by local boards and service providers. The site also contains links to the various workforce entities and other pertinent sites.

Hawai'i's Division of Vocational Rehabilitation (HDVR) leverages the referenced database and case management systems to support career planning for individuals with disabilities statewide. HDVR uses the Alliance Aware case management system for federal reporting under Title IV to the Department of Education, Rehabilitation Services Administration.

The HDOE utilizes the Literacy, Adult and Community Education System (LACES) by LiteracyPro Systems, Inc., a cloud-based student information system for adult education. LACES is a data collection and reporting system with the following functionalities that meets the WIOA reporting requirements defined in 29 USC §3141 Performance accountability system.

- Captures program demographic information.
- Captures program participant enrollment, completion, and academic progress in
 - Adult Basic Education
 - Adult Secondary Education
 - English Language Acquisition
 - Integrated Education and Training
 - Family Literacy
 - Distance Learning
 - Integrated English Literacy and Civics Education
 - Corrections Education
- Creates reports for the National Reporting System (NRS) for Adult Education, an outcome-based reporting system for the State-administered, federally funded adult education program.

Hawai'i' uses Geographic Solution's Virtual One Stop (VOS) for service delivery, program enrollment and federal reporting. The system helps match job seekers with employers and provides access to self-service labor exchange services. The VOS tracks every service provided. Services are tracked and measured by individual, event, location, service provider and staff member. All local areas, all Title I providers, and Title III staff are all required to use HireNet Hawai'i which is designed to implement enrollment policies and standardizes intake for the programs.

The employer features include tools for creating and posting jobs online and searching for candidates either through quick, simple searches or through more advanced searches using multiple criteria.

The system's fully integrated case management tools for staff and management provide the ability to create, track, share, and report participant information for multiple programs. Case management reports enable staff to monitor their caseloads in preparation for quarterly and annual reporting. Staff can investigate and update participant data to promote positive outcomes for program participants. The programs that the Individual Case Management modules support include:

- WIOA
- Wagner-Peyser Act
- Migrant and Seasonal Farm Workers Program (MSFW)
- Worker Profiling and Reemployment
- WIOA Title I Adult Dislocated Worker and Youth

- Trade Adjustment Assistance (TAA)
- Jobs for Veterans State Grant (JVSG)

AJCs are required to collect specific information during the intake process and update as needed, paper files and the VOS database system data pertaining to an individual's participation in WIOA Title I, Title III, and TAA programs. This project was made possible through the Reemployment Data Systems Integration Grant sponsored by the U.S. Department of Labor. The online client enrollment system works to improve both client services and reporting and data analysis and client activity.

The data collection system collects information on the quality and quantity of services provided to program applicants, applicants for program employment, registrants, eligible applicants/registrants, participants, exiters, and employees. The VOS reports the core indicators of the workforce system's performance, including job placement rates, earnings, employment retention, skill gains, and credentials earned. The system is WIOA compliant related to data and information collection and maintenance. The system collects all new required performance data as well as the new employer engagement data.

The reports component of the VOS allows authorized staff to run various federal reports on specific data sets at any time from their own workstations. Reports run in real time and there is no requirement to export data to an external reporting system. Staff can specify federal report parameters such as the timeframe (e.g., Fourth Quarter, 2022) and location (e.g., a specific LWBD or Office).

Every quarter, the WDD MIS Coordinator extracts the data necessary for reporting to the Participant Individual Record Layout (PIRL) from the VOS and requests a data match with the Unemployment Insurance Division (UI) wage records. This process is also used for annual reporting. The Coordinator follows the schedule for PIRL reporting.

The system accommodates any change of U.S. DOL-mandated data elements, categories, and/or reports and has flexible core components that are modifiable to meet any new federal reporting requirements. New system releases address areas related to federal changes such as WIOA, as well as supporting state and federal initiatives. The system satisfies the current Common Measures and measurable Skill Gains reporting.

As core partners, AEFLA, DVR, WDD, and WDC have agreed to work directly with the UI to develop and implement memoranda of understanding for data sharing that adheres to federal and state law. Wage information from UI will be shared with the core programs to provide required performance measures for WIOA reports, evaluations, and for workforce and labor market information.

UI and WDD have also completed the new State Wage Interchange System (SWIS) Agreement that replaces WRIS and WRIS2. SWIS will enable Title I and Title III programs to receive interstate wage data.

The records of applicants, registrants, eligible applicants/registrants, participants, exiter, employee, applicants for employment, and other required records must be maintained for a period of three years from the close of the applicable program year. [OMB 20 CFR 200.333: Three years from submission of final expenditure report.]

Access to the electronic data maintained in the system is limited to such persons authorized by WDC

and WDD who have legitimate need. Information contained in the HNH is used only for the purposes intended.

Medical information for a participant shall be collected only when necessary to fulfill the intent of the program. Such information shall be confidential and kept separate from the participant's general information where feasible.

The Hawai'i Division of Vocational Rehabilitation (DVR) utilizes a database and case management system to aid in career planning for individuals with disabilities across the state. To fulfill federal reporting requirements under Title IV for the Department of Education, Rehabilitation Services Administration, DVR uses the Aware case management system.

Aware, known as AKAMAI-Aware in DVR, is a commercial, off-the-shelf, web-based automated case management system which is used for vocational rehabilitation. AKAMAI is a commercial off-the-shelf software, system. The system is hosted by Alliance Enterprises, Inc. AKAMAI-Aware manages different case types, such as Vocational Rehabilitation and Older Blind; tracks efficiency and costs and assists with all federal Rehabilitation Services Administration (RSA) data management and reporting requirements.

III.B. 3. THE STATE POLICIES THAT WILL SUPPORT THE IMPLEMENTATION OF THE STATE'S

STRATEGIES (E.G., CO-ENROLLMENT POLICIES AND UNIVERSAL INTAKE PROCESSES WHERE APPROPRIATE). IN ADDITION, PROVIDE THE STATE'S GUIDELINES FOR STATE- ADMINISTERED ONE-STOP PARTNER PROGRAMS' CONTRIBUTIONS TO A ONE-STOP DELIVERY SYSTEM

WDD completed HI Career Acceleration Navigator (HI CAN), a digital hub for seamlessly connecting UI claimants and jobseekers to high impact career pathways through personalized, data-driven transition recommendations and by surfacing proven training programs and facilitating direct-to-employer job matching. It also refers individuals and their families to the wraparound social services they may need to assist to successfully land their new career. HI CAN will also feature a platform for current UI claimants to track, update, and download their weekly job search activities that are required to receive UI benefits.

Through active review and pro-active oversight, the State of Hawai'i will continue to evaluate all programs for opportunities to streamline intake and service delivery from customers across a variety of workforce programs, including WIOA, unemployment insurance and other short- and long-term programs. The review will help focus the workforce system on a coordinated customer-centric focus with full-partner access to both local and statewide programs.

Integrated service delivery continues to be a focus for the State of Hawai'i as it works to improve both performance and accountability of the entire workforce system, which includes continual elimination of duplicative efforts between partners.

WDD has issued WIOA Title I Bulletins, Wagner-Peyser Job Service Bulletins, TAA, and "Hirenet Hawai'i" Bulletins. These bulletins provide policies and guidance for the statewide workforce development system. In addition to existing policies and procedures regarding eligibility and priority of service, current policies regarding co-enrollment between individual programs are among these

bulletins. Overarching policies and procedures regarding co-enrollment have been published. A universal intake process using the State's MIS is under evaluation and if deemed practicable based on technical capabilities will be implemented. Individual intake forms are under review as part of an assessment.

For accessibility to the workforce system, WIOA bulletins are posted on the WDC website at: <http://labor.hawaii.gov/wdc/wia-docs/>.

WDD regularly issues federal poverty income guidelines and lower living standard income level guidelines to assist enrollment of disadvantaged adults and those with barriers to employment. WDD also issued guidance and a workbook to assist LWDBs in developing Memoranda of Agreement and Infrastructure Funding Agreements with core and mandatory partners.

WDD also issued guidance in response to specific situations. For instance, when the measurable skills gain performance indicator was reported as being low, guidance was issued on the definition and the process to record it in the case management system. A similar situation occurred for the second quarter after exit entered employment indicator. Because most of Hawai'i's employers are small businesses and report wage information manually, there is a longer lag period and therefore a lower entered employment level. WDD issued information on the process for AJCs to enter supplemental wage information.

Hawai'i policy is to ensure that WIOA participants have access to the maximum financial resources available for training and support services. Service providers should develop a resource plan that includes the one-stop partner programs that will be used to pay for training and supportive services and to ensure that WIOA funds are not used to pay for training or services covered by other sources. The policy also requires that participants in training apply for Pell Grants. Unavailability of Pell Grants must be noted in the participant file. Coordination with other Federal funding, such as Good Jobs, occurs out of the local AJCs who are partners with the grantee, University of Hawai'i.

WDD issued the following Fiscal Policies/Budget Documents, including instructions for LWDBs to submit their annual budgets. Fiscal staff ensure that expenditures do not exceed what was budgeted. If they do, LWDBs must submit budget modifications accompanied by a narrative and justification. Similarly, the transfer of funds between the Adult and Dislocated Worker requires a narrative and justification and a description of how the local area plans to meet the performance goals for the program that will be losing funds.

WDD issues allocation bulletins annually, informing the local areas of their allocation by program and the local administrative cost pool. Also included are instructions on the preparation of the annual budget plan and narrative for the allocation by program. The annual budget plan is a required part of the subrecipient contract with the counties.

Hawai'i has also issued a non-discrimination policy; a policy for Eligible Training Providers; LWDB Certification, local plan guidance; conflict of interest; records retention; and rapid response policy and procedures.

SN-12 WIOA Bulletin 12-16 One Stop Infrastructure Funding and Memoranda of Understanding

DVR has a local area plan for each AJC located in (4) counties, which details policies, operations, and responsibilities of each entity in alignment with the state's strategies.

A. DVR has made a commitment to utilize Hawai'i's Online Workforce Referral System to coordinate services, avoid duplication of services, reduce paperwork, and streamline administrative operations.

B. DVR's "Referral for Vocational Rehabilitation Services" form is readily available throughout the State predominantly at the One Stop Centers by hard copy and also by fillable pdf via the DHS DVR website at <http://humanservices.hawaii.gov/vr/apply/referral>.

C. In addition to responsibilities outlined in the MOA, DVR's contribution to the AJCs includes consultation and training in the areas of disability and employment.

III.B.4 STATE PROGRAM AND STATE BOARD OVERVIEW

III.B.4.a STATE AGENCY ORGANIZATIONS

WORKFORCE DEVELOPMENT DIVISION, DLIR

The Workforce Development Division is one of five (5) divisions under the State Department of Labor and Industrial Relations (DLIR). The WDD reports directly to the Director of DLIR and provides service delivery through the AJC in the following local areas:

- County of Hawai'i: Hilo Office and Kona Office
- County of Maui: Kahului Office and Molokai Office
- City and County of Honolulu: Dole Cannery Office
- County of Kauai: Lihue Office

The Hawai'i Department of Labor and Industrial Relations, Workforce Development Division is responsible for the administrative oversight and implementation of WIOA, managing the governance structure, grant signatory, grant oversight, and grant reporting; allocation of funds, issuing guidance and conducting fiscal and program monitoring.

DLIR, WDD allocates funds to the County Mayors (Chief Elected Officials of the local areas). The mayors designate the Local Administrative entities:

Oahu: Budget and Fiscal Services

Hawai'i: Office of Housing and Community Services Maui: Office of Economic Development

Kauai: The State will act as the Local Area

The Local Administrative entities implement the workforce development system in their local area by contracting service providers and one-stop operators through competitive procurement.

STATE BOARD/WORKFORCE DEVELOPMENT COUNCIL (WDC)

The Council consists of 41 members. It is considered one of the largest boards in the State. A majority of 41 board members represent the private sector organizations. Of these, four represent their local workforce development boards. Eight members, or 20% of the board, represent labor or workforce development organizations, one of which is a Native Hawaiian organization that operates workforce development programs. Also represented are the Governor, four members of the Governor's cabinet (Directors of the Department of Human Services, Department of Labor and Industrial Relations, Department of Business Economic Development & Tourism, Department of Education), all four county Mayors, two members of the Legislature are appointed by the Senate President and Speaker of the House, and the President of the University of Hawai'i.

Members representing the private sector, labor, and workforce organizations are appointed by the Governor to voluntarily serve not more than 8 consecutive years. Members representing their county (local) workforce development boards are appointed by the mayors of their respective counties. The Chair of each local board serves on the state board. The Governor, Mayors, the Governor's cabinet members and the President of the University of Hawai'i are *ex-officio* voting members of the Council. The Administrator of the Division of Vocational Rehabilitation has been appointed with one full vote to serve on the state board as of September 25, 2020.

WDC meets quarterly and at such other times as deemed necessary as the chairperson determines or as provided by the rules of the board. The Governor and the members of the cabinet may designate in writing another person to attend meetings and vote on their behalf. The Chair of the Council is appointed by the Governor in accordance with HRS Chapter 202 and is selected from private sector members. The Chair serves as the spokesperson for the Council. The Vice Chair is elected by council members.

As of January 2, 2024, there are three private sector vacancies and two from the labor sector. The goal is to conduct the nomination and complete the confirmation process during the 2024 Legislative session.

Board Composition

Private Sector Members (Majority of the Board)	21
Representing Private Sector Organizations	17
Representing Private Sector of Local Workforce Development Boards	4
Labor and Workforce Members (20% of the Board)	8
Representing Labor, Workforce, or Apprenticeship Organizations (at least 2 from labor)	7
Representing a Native Hawaiian Organization	1
Governor	1
Legislator from each chamber	2
Mayors of Hawai'i's four counties (local areas)	4
Directors representing core government partners: Human Services, Division of Vocational Rehabilitation, Economic Development and Tourism, Education, Labor, University of Hawai'i	5

41. Tokioka Designee: Dane Wicker	James	Director	Dept. Business, Economic Development and Tourism

*Board vacancies are pending Governor’s appointments.

HRS 26-34(a) The members of each board and commission established by law shall be nominated and, by and with the advice and consent of the senate, appointed by the governor.

Timeline for appointments: Nominations are being vetted and will be sent to the Governor shortly. The Governor may make appointments during this calendar year and/or during the next legislative session which starts in January 2024 and ends May 2024. The Governor's appointments for the private sector must be confirmed by the State Senate. This procedure is followed for all the private and labor sector seats on the WDC.

III. B.4c State Board Activities

The Governor signed Act 57 (6/6/2016), resulting from HB 2362, which legislatively authorized the WIOA compliant Workforce Development Council, with 41 members. Act 57 aligns the purpose, objectives, roles, and responsibilities of the Council with the requirements of WIOA.

(HB2362: http://www.capitol.hawaii.gov/session2016/bills/HB2362_CD1_.pdf)

The Council’s Chair is appointed by the Governor. The Vice Chair is elected by the members of the Council. The Chair and Vice Chair, along with the Chairs of the Council Committees constitute the Executive Committee. All Council Committees will operate under Hawaii’s Sunshine Laws and will meet as necessary.

The Council held a strategic planning session in September 2023. The Council’s “Strategic Plan 2024-2026” can be found on the WDC website.

The Strategic Plan identified the board’s Vision, Mission, Values, and Practices

The plan also identifies strategic priorities, goals and objectives, next steps, and the work of the committees.

There are seven WDC Committees:

- Employer Engagement
- Performance Measures and Financial Accountability

- Sector Strategies and Career Pathways
- Youth Services
- Military and Veteran's Affairs
- Special Projects
- Executive Committee

Adult Education (Title II) Organizational Description

The Hawai'i State Department of Education (HIDOE) is the eligible agency for the Adult Education Family Literacy Act (AEFLA) grant funds, Title II of the Workforce Innovation and Opportunity Act (WIOA) for Hawai'i. The state director for adult education is responsible for administering funds and providing oversight to grantees and is in the Office of Curriculum and Instructional Design (OCID).

The HIDOE's organizational structure consists of the Hawai'i State Board of Education as the governing authority, the superintendent as the chief executive officer for the HIDOE, and three deputy superintendents who oversee seven state office assistant superintendents and 15 school complex area superintendents. Complex areas are organized geographically by a high school and the middle and elementary schools that feed into that high school.

The deputy superintendent of academics oversees the assistant superintendent of OCID where the state director for adult education is located.

HIDOE Organizational Structure:

- Hawai'i State Board of Education
- Superintendent
- Deputy Superintendent of Academics
- Assistant Superintendent – Office of Curriculum and Instructional Design
- Director – Curriculum Innovation Branch/State Director of Adult Education
- Section Administrator – Career Readiness Section
- Educational Specialist Community Education - AEFLA Title II WIOA

Adult education and literacy activities, integrated English literacy and civics education and corrections education are provided statewide by local providers through grants awarded by a competitive process following the requirements of 34 CFR 463 Subpart C.

Department of Human Services Organizational Description

DHS is divided into the following divisions which report to the Director and two Deputy Director:

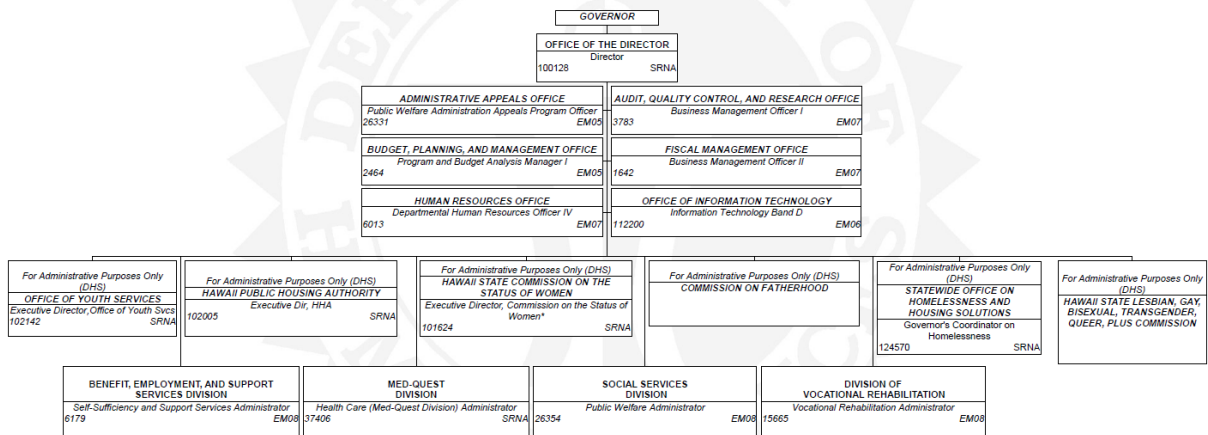

Social Services (SSD) which provides protection from abuse and neglect for children and dependent adults.

Benefit, Employment and Support Services (BESSD) which includes Temporary Assistance for Needy Families and SNAP.

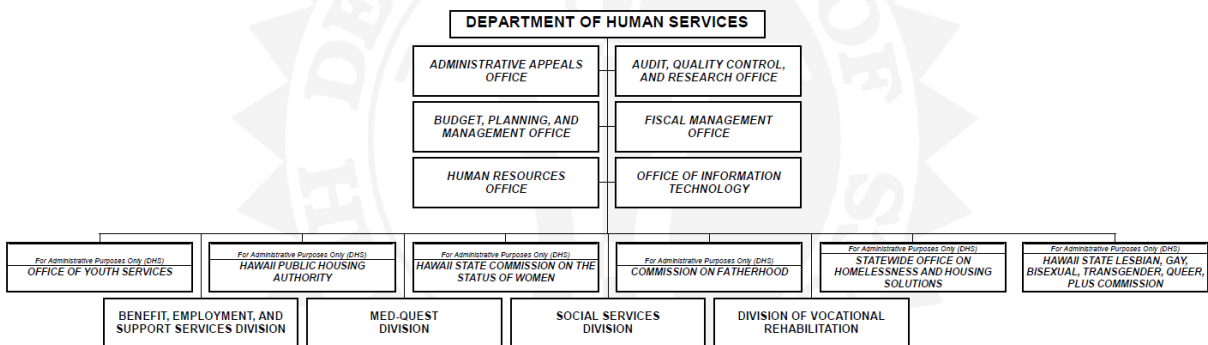

Med-Quest helps low-income adults and children obtain health coverage. Division of Vocational Rehabilitation (DVR) which provides Title IV services.

DHS also has the following agencies attached for administrative purposes: Office of Youth Services, Hawai'i Public Housing Authority, the Hawai'i State Commission on the Status of Women, and the Commission on Fatherhood.

DEPARTMENT OF HUMAN SERVICES
OFFICE OF THE DIRECTOR
POSITION ORGANIZATION CHART 1
JUNE 30, 2023

STATE OF HAWAII
DEPARTMENT OF HUMAN SERVICES
ORGANIZATION CHART
JUNE 30, 2023

Trade Adjustment Assistance Program

The Trade Adjustment Assistance (TAA) program is administered by the WDD using State merit staff. While the program is in termination status as of July 1, 2022, under Section 285(a) of the Trade Act of 1974, no new petitions are being processed. Benefits to affected workers are still available, however, under a 2023 allocation to WDD for workers under previously approved petitions. Standard procedure would allow for the TAA staff to work in partnership with the Unemployment Insurance Division to coordinate timely notification to adversely affected workers to ensure that affected workers receive their benefits and understand the deadlines to enroll in training in accordance with the TAA guidelines that is applicable to each certification. In addition, the TAA services are coordinated with the WIOA Dislocated Worker program to ensure affected workers are dually enrolled in the WIOA Program.

Jobs for Veterans State Grant

Jobs for Veterans State Grant (JVSG) is administered by WDD and staffed by its employees. From the triage at intake, whether it is performed electronically, in-person, or by phone, eligible veterans, and other covered persons with self-identified significant barriers to employment are flagged and referred by non-JVSG staff to the JVSG Disabled Veteran Outreach Program (DVOP) Specialists for services. On behalf of all veterans, the Local Veteran Employment Representative (LVER) engages with employers to promote hiring of veterans, is an active member of AJC business service teams, assists with or coordinates AJC job fairs prioritizing veterans seeking jobs, trains AJC staff about priority of service and value of veterans in the workforce, assists with job development for DVOP clients and other veterans, conducts various job search workshops with employers, and establishes job search groups of veterans seeking employment.

DVOPs serve eligible veterans and other covered persons on other islands in collaboration with the applicable AJC primarily through AJC referrals. Meetings between DVOPs and eligible persons are conducted electronically and through periodic in-person appointments.

DVOPs work with individual staff members of WIOA Title I and other funding sources to access training, supportive services, internships, and other services through co-enrollment of JVSG clients in the applicable program.

The LVER is available to assist other AJCs and offers the same services provided on Oahu. JVSG staff regularly participate in AJC meetings and training sessions.

C. Assessment and Evaluation of Programs and One-Stop Program Partners

III.C.1. ASSESSMENT OF CORE PROGRAMS

Core Programs will be assessed each year based on the performance reports generated for federal reporting purposes, broken out by local areas and providers. Data in HireNet Hawai'i can be further broken out by quarters and offices to determine progress, identify deficiencies, and forecast results by end of the year. Additional reports also can be generated to help pinpoint causes of deficiencies and manage workload for better results.

Annual on-site monitoring and more frequent desk monitoring will be conducted of each local area's programs to review administration and operations of programs for compliance and effectiveness. Depending on availability of funds, customer satisfaction surveys of employers and participants may be performed to supplement report data and on-site reviews.

WDC's Performance Measures and Financial Accountability committee is tasked with tracking program outcomes and performance goals and assessing the effectiveness of the state-wide programs as well as any pilot or special programs that may be implemented. When appropriate, this committee will make recommendations to the full Council on any action to be taken, recommendations, or corrective action plans.

The Performance and Financial Accountability Committee will request performance reports from all Core Partners and evaluate on-going progress to meet established performance goals. The Committee will make recommendations as necessary. Each Core Partner will also report on their goals during the quarterly Council meetings.

The WDD is mandated to review quarterly expenditures of the Title I programs to determine the status of each program's spending during the program year. WDD considers both fiscal and performance outcomes during the program year to evaluate the local area's program effectiveness. The information allows the committee to make recommendations during the program year on immediate actions that LWDBs should take. The Committee provides early alerts during the program year to local areas where funds likely will be unspent and returned at the end of the program year.

WDD will continue to provide the WDC information regarding funds available to local areas.

WDD will conduct quarterly reviews of participants exiting from the program to evaluate whether corrective actions are needed to achieve the negotiated performance rates. Based on WDD's quarterly reviews, additional staff training may be necessary to ensure that the Title I programs successfully meets the performance rates.

The AEFLA Title II program will continue to report performance measures through the National Reporting System as required under WIOA. The National Reporting System is an accountability system for reporting core indicators of performance for federally funded adult education programs (as required under WIOA, AEFLA subsection). This reporting system includes a set of student measures and the performance accountability measures described in section 116(b) of WIOA, to assess the impact of adult education services and to inform continuous improvement.

In addition to formal evaluation every three years, AJC providers will conduct an annual internal self-assessment using an abbreviated version of the assessment tool to be developed for Titles I, III and IV. Three main criteria will be considered in the annual evaluation, including effectiveness, programmatic and physical accessibility, and continuous improvement. In addition, LWDBs will assess their service providers and one-stop system; conduct on-site and desk review monitoring. One-Stop Partner programs will be assessed annually during program monitoring by the local boards and/or WDD. Title I assessment will be conducted by the DLIR WDD while Title III services will be assessed via a third-party contractor to avoid all conflicts of interest.

DVR, under Title IV common performance measures, reports progress on negotiated rates quarterly to PRSA. DVR's goal is to meet or exceed the negotiated levels of performance measures in accordance with Section 116 of WIOA as referenced in DVR's Appendix 1 referred to as Performance Goals of Vocational Rehabilitation Program. DVR reviews and evaluates internal progress monthly, and annually prepares forecasts to fulfill required outcomes. These reviews provide DVR with opportunities for continuous improvement in serving the community needs.

III.C. 2 ASSESSMENT OF ONE-STOP PARTNER PROGRAMS

WDD has issued a One Stop Certification (AJC) Policy which provides an assessment tool for the LWDBs and AJCs: WIOA Bulletin 13-16 Change 2, [WIOA-Bulletin-13-16-Change-2.pdf \(hawaii.gov\)](#)

The Certification policy provides an assessment of how well partner programs are delivering services in the AJC. The scoring system is intended to create an objective point system that awards compliance with WIOA and its Final Rules and to provide job seekers and employers with an integrated system with a comprehensive Center designed around their service needs.

The State and Local workforce development systems and the one-stop partners will use the scores to identify strengths, areas of opportunity, staff training needs, where to devote technical assistance resources, and to optimize partner participation and co-location at the Centers. The Certification may also be used to assess One-Stop Operator performance. LWDBs report that their AJCs will be certified by the end of program year 2023. The policy also encourages continuous improvement by using the point system. Every two years, the AJCs will strive to increase their point score.

Individual programs will be assessed according to their performance results, programmatic accessibility, customer satisfaction, and their fiscal results, such as cost per participant, percentage of program costs spent on training, and whether the program is meeting the WIOA requirements. (e.g., Youth: 75% out-of-school youth; 20% minimum for work experience), DVR performance accountability will initially be measured in accordance with negotiated levels for percentage of participants obtaining a post-secondary credential or high school diploma (subject to special rule) and percentage of participants who during a program year achieve a measurable skill gain.

WDD will monitor local areas to ensure contract compliance or accountability of service providers. WDD staff will review, monitor, and assess the performance of the programs in each local area; and make recommendations or ask for corrective action, as necessary.

In addition to formal evaluation every three years, AJC providers will conduct an annual internal self-assessment using an abbreviated version of the assessment tool to be developed. Three main criteria will be considered in the annual evaluation, including effectiveness, programmatic and physical accessibility, and continuous improvement. In addition, LWDBs will assess their service providers and one-stop system; conduct on-site and desk review monitoring. One-Stop Partner programs will be assessed annually during program monitoring by the local boards and/or WDD.A. PREVIOUS ASSESSMENT RESULTS

Title I-Adult, Dislocated Worker, and Youth Programs

Performance reports are reviewed monthly by the WDD to evaluate the performance and expenditures and make recommendations for corrective actions to the local areas, as needed.

Tables 2.1, 2.2, and 2.3 show the statewide target and actual performance levels in PY 2019 and PY 2020 for WIOA Title I participants. Table 2.4 shows the statewide target and actual performance levels in PY 2019 and PY 2020 for WIOA Title III participants. The calculated “performance” scores are the ratio of actual to target shown for each program year.

Table 2.1. Statewide Adult Program Performance Levels, PY 2021 and 2022

Employment Rate, Q4	76.1%	83.3%	64.3%	81.3%	75.9%
Median Earnings	\$8,171	\$6,365	\$6,438	\$8,171	\$9,514
Credential Rate	48.7%	66.7%	0.0%	0.0%	68.2%
Measurable Skill Gains	53.9%	62.5%	0.0%	62.5%	60.4%

Table 2.7. Local Area Youth Program Performance Levels Comparison, PY 2018

Indicator	Statewide Actual	Hawai'i Actual	Kauai Actual	Maui Actual	Oahu Actual
Employment Rate, Q2	49.7%	45.5%	56.6%	47.5%	50.6%
Employment Rate, Q4	51.5%	48.8%	53.8%	51.2%	52.0%
Median Earnings	\$7,294	\$5,626	\$6,556	\$5,943	\$9,462

Notes:

1. Youth data are not available for Kauai County, since no youth program services have been offered there since the end of 2016.
2. Reporting of the Youth program’s median earnings to the federal government is not required.

The State achieved most of its negotiated performance targets in PY 2020. Negotiated performance outcomes are referred to in the chart “Table 2.1. Statewide Adult Program Performance Levels, PY 2019 and 2020 as “PY 20 Target” (column 6 from the left) for various programs. Targets were met except for six performance indicators. The State fell far short in meeting all three credential rates in the WIOA Title I programs and the measurable skill gains indicator in the Youth program. The State also missed the targets for both employment rates in the WP program.

Tables 2.1 to 2.7 compare the primary performance indicators of the State and all four local areas.

In Table 2.1 showing the performance of the Adult program, the Oahu local area was the clear leader in achieving both employment rates and the credential rate. The three other local areas fell short in meeting the targets for both employment rates and the credential rate. The Hawai’i island local area exceeded the target for measurable skill gains. The Maui local area did not have any Adult participants achieve a credential.

The Kauai local area did not have any Adult participants achieve a measurable skill gain. In Table 2.2 showing the performance of the Dislocated Worker program, the Hawai’i island and Oahu local areas were competitive in achieving performance targets. Hawai’i island surpassed Oahu in both employment rates. The Maui local area did well to meet targets for both employment rates and measure skill gains. Both the Maui and Kauai local areas had no Dislocated Worker participants who achieved a credential. Kauai also had no participants who achieved a measurable skill gain. Across all programs, all the local areas need to improve on achieving measurable skill gains. Due to low participant numbers meaningful analysis of the percentages is difficult to make, other than to surmise that statewide overall and individual participation in all programs needs to be increased.

The State is using “Retention with the Same Employer” and “Repeat Business Customer” indicators as recommended and designed by the U.S. Department of Labor to measure effectiveness in serving employers. Tables 2.8 and 2.9 show the State’s performance levels in serving employers effectively. Table 2.8 compares the statewide levels in PY 2019 and PY 2020. Table 2.9 breaks down the PY 2020’s levels by local areas.

Table 2.8. Statewide Effectiveness Serving Employers, PY 2019 and 2020

Indicator	PY 19 Percent	PY 19 Employer	PY 19 Total	PY 20 Percent	PY 20 Employer	PY 20 Total	Yearly Change
Retention with the Same Employer Rate, Q2 and Q4	3.3%	64	1,947	5.5%	99	1,788	54.7%
Employer Penetration Rate	5.4%	2,433	44,932	4.4%	2,133	47,971	-12.3%
Repeat Business Customer Rate	30.5%	1,635	5,364	23.6%	1,459	6,178	-10.8%

Table 2.9. Local Area Effectiveness Serving Employers Comparison, PY 2020

State wide de	State wide Employer	State Total	Hawa i'i	Hawa i'i Employer	Hawa i'i Total	Kau ai	Kau ai Employer	Kau ai Total	Maui	Maui Employer	Maui Total	Oahu	Oahu Employer	Oahu Total
5.5%	99	1,788	6.1%	16	264	5.4%	13	242	4.4%	23	517	6.1%	47	765
4.4%	2,129	47,971	0.8%	371	47,971	0.4%	172	47,971	0.5%	250	47,971	2.8%	1,336	47,971
23.6%	1,458	6,177	24.2%	254	1,049	19.8%	112	566	21.3%	174	817	24.5%	918	3,745

Hawai'i continued to use its two primary indicators of effectiveness in serving employers:

- Retention (retention with the same employer)
- Repeat Business Customers (percentage of repeat employers using services within the previous three years).
- In PY 2020, Statewide the rate for retention was just above 5%, with all local areas matching or bettering it except for Maui County. This stagnancy is likely due to COVID-19 which saw many businesses laying off workers due to strain in key sectors such as tourism and food service.

Table 2.9 compares the performance of serving employers effectively for the State and all four local areas. All the local areas had very low retention rates with the same employer in PY 2020. This indicates that there was a small number of WIOA participants who remained with the same employer in the second and fourth quarters after program exit. The Hawai'i island and Oahu local areas achieved slightly higher rates above the Statewide level by a small margin. The Kauai local area performed around the same level with the State. The Maui local area achieved a lower retention rate by one percentage point below the Statewide level.

For the , the Hawai'i island and Oahu local areas achieved slightly higher rates above the Statewide level by a small margin. Both the Kauai and Maui local areas achieved lower rates below the Statewide level.

TITLE II- ADULT EDUCATION

AEFLA Overall State Program Score		
34 CFR § 463.190 The overall State program score, which is expressed as the percent achieved, compares the actual results achieved by a core program on the primary indicators of performance to the adjusted levels of performance for that core program. The average of the percentages achieved of the adjusted level of performance for each of the primary indicators by a core program will constitute the overall State program score.		
Program Year	2021-2022	2022-2023
Employment Rate (Q2) Achieved	49.27%	49.57%
Employment Rate (Q4) Achieved	86.02%	49.75%
Media Earnings Achieved	100.80%	57.77%
Credential Rate Achieved	111.06%	245.85%
Measurable Skills Gain Achieved	92.43%	95.92%
Overall Percent Achieved State Program Score - Average of achieved percentages	87.91%	99.77%

AEFLA Performance Outcomes						
Program Year 2021-2022						
Indicator	Target	State	Hawai'i	Maui	Kauai	Oahu
Employment Rate (Q2) Achieved	28.60%	14.09%	7.01%	1.35%	0.00%	21.88%
Employment Rate (Q4) Achieved	11.30%	9.72%	20.55%	12.31%	5.88%	15.58%
Media Earnings Achieved	\$5,191	\$5,232.50	\$5,850	\$10,400	\$1	\$3,659
Credential Rate Achieved	4.70%	5.22%	13.75%	16.67%	0.00%	7.98%
Measurable Skills Gain Achieved	40.00%	36.97%	38.60%	28.37%	28.57%	38.30%

AEFLA Performance Outcomes						
Program Year 2022-2023						
Indicator	Target	State	Hawai'i	Maui	Kauai	Oahu
Employment Rate (Q2) Achieved	25.60%	12.69%	1.33%	19.33%	0.00%	25.11%
Employment Rate (Q4) Achieved	24.00%	11.94%	4.08%	10.10%	0.00%	22.93%
Media Earnings Achieved	\$7,200	\$4,160	\$4,801.50	\$7,800	\$1	\$3,168.50

Credential Rate Achieved	6.50%	15.98%	17.00%	31.03%	0.00%	33.97%
Measurable Skills Gain Achieved	38.70%	37.12%	36.14%	36.61%	28.85%	43.80%

To improve the data collection of performance indicators, the HDOE will utilize data matching with unemployment insurance records and postsecondary education placement data beginning with the program year 2023 AEFLA reporting requirements. The implementation of data matching with unemployment insurance records will improve the data quality for Employment Rate Q2, Q4 and Media Income Achieved performance indicators. Survey collection will continue to be used and supplement the data matching results. The implementation of data matching with postsecondary education placement data will improve the data quality for the Credential Rate Achieved performance indicator.

TITLE III WAGNER-PEYSER EMPLOYMENT SERVICE

Performance Measures show the following:

- Employment in 2nd quarter after exit: Actual: 58.0%, Goal: 54.0%
- Employment in 4th quarter after exit: Actual: 63.7%, Goal: 52.0%
- Median Earnings 2nd quarter after exit: Actual: \$8,814, Goal: \$7,300

According to the Bureau of Labor Statistics, Hawai'i's unemployment rate continued to decline from 3.7% to 2.9% from 2022 to 2023 which indicates further tightening of the State's labor market. To meet the growing demand for qualified workers, employer outreach and business engagement activities will continue to be conducted with core partners and other agencies to gain a better understanding of business workforce needs. The integration and expansion of State and Federally funded Internship and Apprenticeship programs implemented between 2022 and 2023 provide additional pathways to employment for job seekers. With increased employer engagement and collaboration there will be a continued focus in developing a more effective menu of services that upgrades the skills of their workforce to an optimum level. This will enable the business to upgrade the skills of their current and future workforce which will potentially increase the capacity of the business to hire more workers.

In partnership with Research Improving People's Lives (RIPL), the development of a new job search tool called the Hawai'i Career Acceleration Navigator (HI CAN) was launched in 2022 which provided additional resources to assist job seekers with Unemployment Insurance-required work search, customized career development options, and referral to other financial assistance and support services that job seekers may need while exploring new career opportunities. The development of HI CAN's employer portal will also enable employers to utilize HI CAN as an additional recruitment tool by allowing them to connect anonymously with potential candidates. In addition, programs will continue to provide services to targeted underserved populations such as persons with disabilities, veterans, ex-offenders, and low-income to expand the job seeker pool. Effective service delivery strategies implemented by other states may be explored to provide additional support opportunities to veterans who often possess desirable and transferable skill sets

that may make them ideal candidates for career development and reemployment. The Hire Vets Medallion Program will also be utilized with outreach to employers who recruit, employ, and retain veterans.

TITLE IV VOCATIONAL REHABILITATION

Indicator	PY 22 Outcome	Negotiated
Employment (Second Quarter After Exit)	40%	33%
Employment (Fourth Quarter After Exit)	30.2%	37.5%
Median Earnings (Second Quarter After Exit)	\$5,446.79	\$4,400
Credential Attainment (CA) Rate	41.9%	20%
Measurable Skill Gains (MSG)	38.3%	35%

The 2019 RSA Monitoring, 2020-2021 CSS, and 2018 CSNA identified process improvement opportunities in the following areas:

- DVR responsiveness to and engagement with participants to fulfill participant employment goals;
- Compliance with timeliness of services.
- Identification and strengthening of long-term supports for SE services.
- Strengthening staff planning, use of labor market information, assessment skills for individualized services for participants with most significant disabilities, and utilization of comparable benefits.
- Increase measurable skills gains and credentials for planning and resource management purposes; and
- Enhance community outreach to underserved groups, including Hispanics, Hawaiians, and Veterans.

The data from DVR is used in conjunction with RSA-911 case services reports from the Rehabilitation Services Administration (RSA) for the most recent CSNA. The data was separated and is reported according to the content areas that most closely align with the topic areas as included in the CSNA. The data was gathered and analyzed with a summary of key findings for each required section listed below.

Needs identified in this area included the following:

1. Education and training, soft skills and transportation are common rehabilitation needs for individuals with the most significant disabilities.
2. The needs of individuals with the most significant disabilities were greatly magnified on the neighbor islands.
3. There continues to be a need for supported employment services and qualified vendors to provide the service. DVR is currently in an OOS that has made partnering with other entities essential for comparable benefits to meet the needs for individuals with the most significant disabilities.
4. The need to secure ongoing support services and secure long-term support for employment in competitive, integrated employment. This was an overwhelming rehabilitation need identified in this study and supports the common performance measures in WIOA.
5. DVR had made progress in SSA reimbursement prior to the previous CSNA. It was identified that ticket holders were not identified until UI data reviews started in 2019, reducing opportunities for cost reimbursement. DVR will continue to work on capturing accurate information with Ticket Holders to maximize program income and participants successful transition to permanent competitive integrated employment.

Strategies:

1. DVR will continue to work with federal technical assistance centers (VR TAC QM, as continued from previous work with the WINTAC) on revisions to policies and procedures related to supported employment and ensure that they are compliant with WIOA and the accompanying regulations.
2. DVR will identify alternate funding sources and service providers because of the OOS. DVR will examine ways to braid funding with other Workforce partners, the HIDEOE and the DOH-DDD. Braided funding of cases will become the norm rather than the exception to support HDVR's opening of OOS categories for services in the future.
3. DVR intends to maximize its approach to benefits counseling for participants. Fear of losing benefits is a major barrier for individuals with the most significant disabilities to maintain employment in a competitive, integrated setting.
4. DVR will provide training to staff on how to provide ongoing support services and secure long-term support for these participants to maintain employment.
5. DVR has trained additional staff members dedicated to tracking SSA Ticket to Work recipients and SSA reimbursements.

Evaluation of the 2018 Comprehensive Statewide Needs Assessment and review of federal performance measures under Title IV PY15-17, resulted in the identification of the following continuous improvement goals:

1. Annually increase the percentage of participants who obtain a postsecondary credential or high-school diploma by 2% from PY22 to PY23 (subject to special rule).
2. Annually increase the percentage of participants who during a program year achieve a measurable skill gain by a minimum of 1%.
3. Annually increase the percentage of participants who during a program year participate in WBLE and internships by 1%.
4. Annually increase the number of participants employed a minimum of 90 days (by 1%).

5. Annually increase the employment retention rates by 4% from PY22 to PY23; and
6. Annually increase the Median Earnings (2nd Quarter after Exit) of participants by more than 2% from PY22 to PY23.

DVR is participating and in support of the AJCs One-Stop Single Sign-On registration system to increase access to the services of DOE's Adult Education, the WDD, and other partners for DVR clients on the deferred list to meet their training and job placement needs using comparable benefits when applicable.

A. EVALUATION

The WDC intends to help the local boards and the AJCs understand their client base better through demographic, socio-economic and labor market information research.

The information gathered will help local boards and AJCs make strategic decisions on funding and other resources, determine outreach strategies and program design.

In the past, the following research topics were conducted by WDC:

1. "The Underserved Populations in Hawai'i"

The WDC has completed a report on the underserved population in Hawai'i that goes into further detail than the percentage of the population that is in an underserved demography – there are age, gender, and geographic breakdowns, to give the local boards and AJCs better insight into the types of underserved job seekers there are in each county, and where these underserved job seekers might be. The report also included labor force participation and unemployment rates of these underserved populations, to help the local boards and AJCs determine where to focus their limited resources and where to focus program outreach. The findings will be presented to each county's local boards, AJCs, WIOA partners, and WDC board.

Link to Underserved Data: <https://labor.hawaii.gov/wdc/files/2018/12/PPT-Underserved-Data-from-Wayne-Liou-7.13.18.pdf>

Link to report: <https://labor.hawaii.gov/wdc/files/2019/06/Underserved-Population-Report.pdf>

2. "Hawaii Laborshed: Who Stays, Leaves, and Comes"

The report examines the workforce flow, from residence to place of work. This information can help workforce programs in multiple ways. First, it can provide local boards and AJCs a better understanding of where to conduct outreach to its client base, whether it be outreach to workers at residences or places of work, or outreach to employers. Second, employers can use this information to make informed decisions on relocation or expansion, the latter of which is critical to providing opportunities to job seekers. Third, planners, economic developers, and policy makers can evaluate whether worker and employer needs are being met with regards to infrastructure and economic development policies. This research uses basic, publicly available workforce flow data from the Longitudinal Employer-Household Dynamics (LEHD) Origin-Destination Employment Statistics (LODES) data set from the Census Bureau, with the hopes that it can spark interest in developing a more thorough survey tool that can answer specific questions the local boards, AJCs, core partners,

and employers might have regarding workforce development and the home-to-work flow of workers. The report will be presented to the local boards, AJCs, WIOA partners, and WDC board.

Links: Map that shows flow (note that if a drilldown is selected, the bottom map with the flow lines won't display):https://public.tableau.com/shared/477DM44BT?:display_count=yes Table that includes percentages:

https://public.tableau.com/views/Laborshed1_1/Sheet2?embed=y&:display_count=yes

3. "Disconnected Youth"

Disconnected youth, also known as unattached youth, are you adults who are disconnected from society by not being attached to an educational institution or a job. Broadly speaking, they are not attending school and are not employed. Generally, the age range is 16 years old to 24 years old Hawai'i has the 17th highest disconnected youth population as a percentage of young adults in the nation, behind the southern and Appalachian states and Alaska. The low unemployment rate in Hawai'i means a larger percentage of disconnected youth in Hawai'i are not in the labor force (as opposed to being unemployed).

Executive Summary: <https://labor.hawaii.gov/wdc/files/2019/06/Disconnected-Youth-Executive-Summary-2.0.pdf>

Presentation: <https://labor.hawaii.gov/wdc/files/2019/07/Disconnected-Youth-Online.pdf>

4. "Understanding the On-Demand Workforce"

The National Governor's Association (NGA) has initiated a pilot program to study the on-demand workforce. Hawai'i was one of seven states selected to participate along with Connecticut, Pennsylvania, Maryland, New Jersey, Alaska, and Colorado on the State Collaborative Consortium to Understand and Support the On-Demand Workforce. The goal is for these States to work together to research the on-demand (gig economy) workforce, develop policies for their respective States, and provide the foundation for national policy. There is little extant data in on-demand workers, who are irregularly scheduled workers.

In-state partners include the Research and Statistics Division of the DLIR, the Research and Economic Analysis Division of the Department of Business, Economic Development, and Tourism, the Data exchange Project and Hawai'i P-20, and the University of Hawai'i Community Colleges. Due to the large number of people working in the construction and tourism industry, WDC plans to focus on construction workers, freelancers and independent contractors in the construction and tourism industry, and the full-time irregularly scheduled shift-workers that are prevalent in the services and accommodations sector. In 2020, the Hawai'i team plans to conduct a statewide survey to develop a benchmark for on-demand workers. The national pilot program continues through March 2020.

III. D. DISTRIBUTION OF FUNDS FOR CORE PROGRAMS

A. FOR TITLE I PROGRAMS

I. YOUTH ACTIVITIES IN ACCORDANCE WITH WIOA SECTION 128(B)(2) OR (B)(3)

Under WIOA the State will use the Sub-State Allocations Statutory Formulas for both the Youth and Adult Programs (TEGL 16-18). To prevent wide fluctuations in annual funding amounts and disruption to services, the 90% “hold harmless” will also be continued so that each county is assured of receiving at least 90% of the average of the two previous years’ proportion of funds.

Allocation Factor	Weight Assigned in Formula
Areas of Substantial Unemployment	0.3333
Excess Number of Unemployed	0.3332
Economically Disadvantaged Youth	0.3334
Total	1.0000

The State Plan does not amend the weight assigned to the formula, nor does it add additional factors.

II. ADULT AND TRAINING ACTIVITIES IN ACCORDANCE WITH WIOA SECTION 133(B)(2) OR (B)(3)

Under WIOA the State will use the Sub-State Allocations Statutory Formulas for both the Youth and Adult Programs (TEGL 16-18). To prevent wide fluctuations in annual funding amounts and disruption to services, the 90% “hold harmless” will also be continued so that each county is assured of receiving at least 90% of the average of the two previous years’ proportion of funds.

Adult Formula Factors

Allocation Factor	Weight Assigned in Formula
Areas of Substantial Unemployment	0.3333
Excess Number of Unemployed	0.3333
Economically Disadvantaged	0.3334
Total	1.0000

The State Plan does not amend the weight assigned to the formula, nor does it add additional factors.

I. DISLOCATED WORKER EMPLOYMENT AND TRAINING ACTIVITIES IN ACCORDANCE WITH WIOA SECTION 133(B)(2) AND BASED ON DATA AND WEIGHTS ASSIGNED

The State will use five of the six factors specified in the Sub-State Allocations Statutory Formula (as shown in the following table) to allocate Dislocated Worker Program funds. Consistent with previously approved State Plans, Hawai'i assigns a zero weight to the Mass Lay-off and Plant Closing

factor. The rationale for the assigned weight:

(a) Inventory of Available Data Sources: There are no available, accurate sources of Mass Lay-off/Plant Closing data. At the national level, the Bureau of Labor Statistics no longer produces this data and Hawai'i does not collect within-state administrative data for this factor.

(b) Data Factor Weight: The State is unable to calculate a weight due to the absence of data for this factor.

(c) Formula Distributes Funds Equitably Statewide: There were no other factors for which data was available that would add significant value to the DW formula.

As required by statute, the 90% "hold harmless," of the average allocation percentage of the local area for the two preceding fiscal years, will be applied to the Dislocated Worker formula. The factors and Dislocated Worker formula are presented in the table below:

Dislocated Worker Formula Factors

Allocation Factor	Weight Assigned in Formula
Insured Unemployed	0.20
Total Unemployed	0.20
Plant Closing/Mass Layoff	0.00
Farmer/Rancher Data	0.20
Long-Term Unemployed	0.20
Declining Industries	0.20
Total	1.00

The State Plan amends the weights assigned to the formula, to compensate for the "0" weight assigned to the Plant Closing/Mass Layoff factor.

Based on anticipated workforce needs and lay-off aversion strategies, up to 25% will be set aside from the Dislocated Worker Program for Rapid Response activities.

Alternate Methods of Calculating Sub-State Allocations

WDD staff evaluated the discretionary formula for sub-state allocations to determine how the formula would affect allocation of Title I funds of the local areas under different scenarios.

Using the Discretionary Formula

A state may use a discretionary formula in combination with the standard allocation formula when distributing Youth Program funds and Adult Program funds to the local areas. For each program, no more than 30 percent of funds can be allocated based on the discretionary formula. Seventy percent of funds must be allocated based on the standard allocation formula. More information about requirements of the discretionary formula is found in the Training and Employment Guidance Letter (TEGL) No. 16-18. The discretionary formula must be based on the following two factors for each

program:

1. The relative excess number of individuals who are 74 percent below or under the poverty level in each local area, compared to the total excess of individuals who are 74 percent below or under the poverty level in all local areas in the state.
2. The relative excess number of unemployed individuals who are above the statewide average unemployment rate in each local area, compared to the total excess of unemployed individuals who are above the statewide average unemployment rate in all local areas in the state.

Implementing these two factors for each program are described below. Equal weights are applied in both programs. A minimum percentage (or stop loss) must be applied, in the same manner as applied in the standard allocation formula, to ensure that no local area receives an allocation percentage that is less than 90 percent of the average allocation percentage received by the local area for the previous two years.

Youth Program Discretionary Formula

The following formula calculates the amount allocated to a local area for the Youth Program. The sum of the weighted discretionary factors is multiplied by 30 percent of the total amount of Youth Program funds allocated to all local areas.

$$\text{LocalYouthShare} = [(Lyp/Syp)Wp + (Lyu/Syu)Wu] 30\% \text{ of Youth Funds}$$

Where:

LocalYouthShare = Amount Allocated to Local Area for the Youth Program

Lyp = Local Area's Excess Youth Poverty

Syp = Statewide Excess Youth Poverty

Lyu = Local Area's Excess Youth Unemployment

Syu = Statewide Excess Youth Unemployment

Wp = Excess Poverty Weight

Wu = Excess Unemployment Weight

The data source for the excess poverty factor in the Youth Program discretionary formula is the "Age by Ratio of Income to Poverty Level in the Past 12 Months," (Identification no. B17024) collected from the most recent U.S. Census Bureau, "American Community Survey 1-Year Estimates." The data is by county. Individuals from ages 12 to 24 who are 74 percent below or under the poverty level are counted.

The data source for the excess unemployment factor in the Youth Program discretionary formula is the "Sex by Age by Employment Status for the Population 16 Years and Over," (Identification no. B23001) collected from the most recent U.S. Census Bureau, "American Community Survey 1-Year Estimates." The data is by county. Male and female individuals from ages 16 to 24 who are unemployed are counted. The statewide average unemployment rate is obtained from the U.S.

Bureau of Labor Statistics, “Local Area Unemployment Statistics” (LAUS) program. The statewide unemployment rate must be an annual average of the same time of the data used in the ACS data source. Excess unemployment is the difference between the local area’s average unemployment rate and the statewide average unemployment rate.

Adult Program Discretionary Formula

The following formula calculates the amount allocated to a local area for the Adult Program. The sum of the weighted discretionary factors is multiplied by 30 percent of the total amount of Adult Program funds allocated to all local areas.

$$\text{LocalAdultShare} = [(Lap/Sap)Wp + (Lau/Sau)Wu] 30\% \text{ of Adult Funds}$$

Where:

LocalAdultShare = Amount Allocated to Local Area for the Adult Program

Lap = Local Area’s Excess Adult Poverty

Sap = Statewide Excess Adult Poverty

Lau = Local Area’s Excess Adult Unemployment

Sau = Statewide Excess Adult Unemployment

Wp = Excess Poverty Weight

Wu = Excess Unemployment Weight

The data source for the excess poverty factor in the Adult Program discretionary formula is the “Age by Ratio of Income to Poverty Level in the Past 12 Months,” (Identification no. B17024) collected from the most recent U.S. Census Bureau, “American Community Survey 1-Year Estimates.” The data is by county. Individuals from ages 25 to 64 who are 74 percent below or under the poverty level are counted.

The data source for the excess unemployment factor in the Adult Program discretionary formula is the “Sex by Age by Employment Status for the Population 16 Years and Over,” (Identification no. B23001) collected from the most recent U.S. Census Bureau, “American Community Survey 1-Year Estimates.” The data is by county. Male and female individuals from ages 25 to 64 who are unemployed are counted. The statewide average unemployment rate is obtained from the U.S. Bureau of Labor Statistics, “Local Area Unemployment Statistics” (LAUS) program. The statewide unemployment rate must be an annual average of the same time of the data used in the ACS data source. Excess unemployment is the difference between the local area’s average unemployment rate and the statewide average unemployment rate.

Examples of Sub-State Allocation Scenarios

The following four tables provide examples of allocations to the local areas, based on the formulas described above. The calculated amounts are for demonstrative purposes only. The calculation shows that Maui County would increase its share in both the Youth Program and Adult Program when the discretionary formula is used. Kauai county’s share would decrease, however, in both programs when the discretionary formula is used.

The State of Hawai'i may consider combining Kauai and Maui counties to be one local area. This change would eliminate one local board, since only one local board would be needed to administer program activities on two islands. The new allocated amount would be Kauai's amount and Maui's amount added together with no change when the allocation formula is used. When the discretionary formula is used, there would be an increase in allocated funds for both the Youth Program and the Adult Program.

Table 3.1.: Youth Program Sub-State Allocation (Sample)

Local Area	Allocation Formula	Discretionary Formula	Percent Change
Hawai'i	\$427,815	\$415,695	-2.83%
Kauai	\$102,275	\$95,114	-7.00%
Maui	\$178,548	\$195,014	9.22%
Oahu	\$1,172,100	\$1,174,922	0.24%
Total	\$1,880,738	\$1,880,745	0.000372%

Table 3.2.: Adult Program Sub-State Allocation (Sample)

Local Area	Allocation Formula	Discretionary Formula	Percent Change
Hawai'i	\$420,857	\$424,734	0.92%
Kauai	\$103,628	\$97,433	-5.98%
Maui	\$160,431	\$184,592	15.06%
Oahu	\$1,102,995	\$1,081,159	-1.98%
Total	\$1,787,911	\$1,787,918	0.000392%

Table 3.3.: Youth Program Sub-State Allocation, Kauai and Maui Areas Combined (Sample)

Local Area	Allocation Formula	Discretionary Formula	Percent Change
Hawai'i	\$427,815	\$415,695	-2.83%
Kauai and Maui Combined	\$280,823	\$290,128	3.31%
Oahu	\$1,172,098	\$1,174,920	0.24%
Total	\$1,880,736	\$1,880,743	0.000372%

Table 3.4.: Adult Program Sub-State Allocation, Kauai and Maui Areas Combined (Sample)

Local Area	Allocation Formula	Discretionary Formula	Percent Change
Hawai'i	\$420,857	\$424,734	0.92%
Kauai and Maui Combined	\$264,059	\$282,026	6.80%
Oahu	\$1,102,995	\$1,081,159	-1.98%
Total	\$1,787,911	\$1,787,919	0.000447%

B. FOR TITLE II

B. I.

The Hawai'i State Department of Education (HIDOE) is the eligible agency for the Adult Education Family Literacy Act (AEFLA) grant funds, Title II of the Workforce Innovation and Opportunity Act (WIOA) for Hawai'i. The state director for adult education is responsible for administering funds and providing oversight to grantees and is in the Office of Curriculum and Instructional Design.

The HIDOE will use a U.S. Department of Education, Office of Career, Technical and Adult Education, approved competitive four-year grant award process subject to renewal or continuation annually.

The award process will meet the requirements of 34 CFR 463 Subpart C, *How Does a State Make an Award to Eligible Providers?* It will be available to all eligible providers in Hawai'i as defined in 34 CFR § 463.23 *Who is eligible to apply for a grant or contract for adult education and literacy activities?*

Applicants must meet the demonstrated effectiveness determination in 34 CFR § 463.24 *How must an eligible provider establish that it has demonstrated effectiveness?* to be eligible for an award. The demonstrated effectiveness determination includes the following.

- Submission of data for two consecutive years in the following categories
 - Employment Rate Quarter 2 and Quarter 4
 - Credential Attainment
 - Measurable Skills Gain
- The outcomes for each category must meet or exceed the required demonstrated effectiveness percentage published in the application.

Applicants who meet the demonstrated effectiveness determination will continue with the application process and address the remaining requirements, which include the following.

- How will AEFLA funds be expended for adult education services in the state?
- Submission of Cooperative Agreements

- Alignment with Hawai'i Workforce Development Board Plans
- American Job Center Hawai'i (One-Stop) Responsibilities
- Alignment with the Hawai'i State WIOA Plan
- Aligning of College and Career Readiness Standards
- Aligning of English Language Proficiency Standards for English Learners
- How will the Adult Education Program (AEP) Objectives in the Hawai'i State WIOA Plan be addressed?
- Addressing the Considerations in 34 CFR 463.20 (d) *In awarding grants or contracts for adult education and literacy activities to eligible providers, the eligible agency must consider the following.*
- Budget Proposal
- Personnel to Provide Adult Education Services

Applications will be evaluated by a committee of representatives from core partners trained in using a rubric included with the application. The workforce development boards of each region will review the applications for alignment with their local plan.

Applicants selected to receive funds must complete a risk assessment and be approved before receiving AEFLA funds.

For organizations that receive an award and are not with the Hawai'i State Department of Education, the award will be made through a subaward according to 2 CFR Part 200.

A Local Educational Agency within the Hawai'i State Department of Education that receives an award, award will be made through the organization's fiscal management system.

82.5% of AEFLA funds received by the HIDOE will be awarded to provide adult education services as required by 29 USC §3302. *State distribution of funds; matching requirement.* Up to 20% of the 82.5% of AEFLA funds will be awarded for Corrections Education according to 34 CFR § 463.61 *How does the eligible agency award funds to eligible providers under the program for Corrections Education and Education of other Institutionalized Individuals?* An award to provide an Integrated English Literacy and Civics Education program will be determined by the amount specified in the Hawai'i AEFLA grant award notification from the U.S. Department of Education for the program year the award is made.

B. II.

The HIDOE will provide eligible providers in Hawai'i defined in 34 CFR § 463.23 *Who is eligible to apply for a grant or contract for adult education and literacy activities?* with direct and equitable access to the competitive four-year grant award application through multiple means of communication and a 30-day availability to access the application.

The competition announcement and application will be posted on the HIDOE's public-facing website.

The HIDEOE will use social media channels to publicize the four-year grant award competition with information on accessing the application on the HIDEOE's public-facing website.

The Hawai'i State Workforce Development Board, WIOA core partners, and local workforce development boards will be notified of the competition announcement through letters to the executive directors and state leads.

The state workforce development board members consist of representatives from across the state.

- The directors of labor and industrial relations, human services, and business, economic development, and tourism; the superintendent of education; and the president of the University of Hawai'i or their designees, as ex officio[,] voting members.
- The private business sector chairpersons of the four county workforce investment boards, or their designees from the private business sector membership of their respective boards, as ex officio[,] voting members.
- Twelve additional private sector representatives from business.
- One representative from a community-based native Hawaiian organization that operates workforce development programs.
- Two representatives from labor.
- Four members of the legislature, two from each house for two-year terms beginning in January of odd-numbered years, appointed by the appropriate presiding officer of each house, as ex officio[,] voting members.
- Two mayors or their designees, as ex officio[,] voting members; and
- The governor or the governor's designee.

The HIDEOE will make the announcement and eligibility application available for 30 days on its public-facing website.

The HIDEOE will ensure that it uses the same competition announcement, application, and process in the following ways.

- The competition announcement and application will reside on and be available from one location, the HIDEOE's public-facing website. Information on accessing the announcement and application from the HIDEOE's website may be placed on other websites.
- The application period will be for a specified time communicated in the competition announcement and application. There will not be multiple application opportunities.
- There will be one application process that follows one timeline that all applicants must use.
- One evaluation committee trained on using the rubric to score the applications will determine which applicants will receive an award.

4. VOCATIONAL REHABILITATION PROGRAM

Hawai'i designates a single combined Vocational Rehabilitation agency, Hawai'i Division of Vocational Rehabilitation.

III. E. PROGRAM DATA

DATA ALIGNMENT AND INTEGRATION

The State of Hawai'i Department of Labor and Industrial Relations (DLIR) is working on a project currently titled the Hawai'i Career Acceleration Navigator or HICAN. This entirely online/digital service is expected to launch in April 2022 and help the department provide greater and more robust services to our more difficult to reach communities and populations with barriers to employment. HICAN will serve as a digital One-Stop for DLIR services to all Hawai'i residents providing coordinated resources through the DLIR including career exploration and allow users to fulfil unemployment insurance requirements. Additionally, HICAN will also refer users to relevant State-provided social services such as food, medical, and cash assistance to support the job-seekers transition into livable wage careers.

HireNet Hawai'i is a virtual One-Stop, developed and maintained by the current contracted vendor, Geographic Solutions. The vendor has implemented changes to the case management and reporting system required by WIOA regulations. Training for all staff users is provided by the vendor whenever a new version of the software is installed.

The Core and Mandatory Partners Working Groups meet regularly to facilitate program integration and implementation of common performance measures. The core partners have agreed to work directly with the Unemployment Insurance Division to develop and implement memoranda of understanding for data sharing that adheres to federal and state laws.

Unemployment wage information will be collected within AEFLA, DVR and WDD's information systems and will be used for WIOA annual performance reports, evaluations, as well as for workforce and labor market information.

The core partners realize that understanding the impact of educational programs requires more than assessing six and 12-month workforce outcomes. Monitoring the longer term workforce outcomes of the populations they serve is critical for: 1) identifying and evaluating the best practices of programs that are successful in transitioning participants to sustained and consistent workforce outcomes; 2) identifying the characteristics of sub-populations of WIOA participants in order to provide programs better suited to meet the needs of the populations served; and 3) identifying workforce trends over time by industry and by county in order to provide information for projection and planning purposes.

Core Partner staff also will have access to employer and job order information in HireNet Hawai'i so they can analyze business services being performed by their providers and offices and improve coordination and management of employer engagement activities.

HireNet Hawai'i is a virtual One-Stop, developed and maintained by the current contracted vendor, Geographic Solutions. The vendor has implemented changes to the case management and reporting system required by WIOA regulations. Training for all staff users is provided by the vendor whenever a new version of the software is installed.

The Core and Mandatory Partners Working Groups meet regularly to facilitate program integration and implementation of common performance measures. The core partners have agreed to work directly with the Unemployment Insurance Division to develop and implement memoranda of understanding for data sharing that adheres to federal and state laws.

Unemployment wage information will be collected within DLIR information systems and will be used for WIOA annual performance reports, evaluations, as well as for workforce and labor market information.

The core partners realize that understanding the impact of educational programs requires more than assessing six and 12-month workforce outcomes. Monitoring the longer term workforce outcomes of the populations they serve is critical for: 1) identifying and evaluating the best practices of programs that are successful in transitioning participants to sustained and consistent workforce outcomes; 2) identifying the characteristics of sub-populations of WIOA participants in order to provide programs better suited to meet the needs of the populations served; and 3) identifying workforce trends over time by industry and by county in order to provide information for projection and planning purposes.

Core Partner staff also will have access to employer and job order information in HireNet Hawai'i so they can analyze business services being performed by their providers and offices and improve coordination and management of employer engagement activities.

For WIOA Title I, Wagner-Peyser, Jobs for Veteran State Grant, and Trade Adjustment Assistance reports, Geographic Solutions has updated HireNet Hawai'i to produce required quarterly and annual federal reports.

Participant performance in all Core Programs (WIOA Adult, Dislocated Worker, and Youth Programs; Wagner-Peyser programs, Jobs for Veterans State Grant, and Trade Adjustment Assistance) will be measured through data stored in HireNet Hawai'i. All staff users and their providers are responsible to accurately enter data into HireNet Hawai'i in a timely manner.

All quarterly and annual reports required by the federal government are generated from HireNet Hawai'i data and electronically transmitted to the USDOL. DLIR extracts information on employment status and average earnings for all exiters from UI wage records, both intra-state and inter-state. Local area staff and Core Partner staff also may enter supplementary information on jobs obtained by participants. At the end of each quarter and year, DLIR will transmit to each county and Core Partner their performance reports in the same format as the federal statewide report. Counties, Local Boards, and Core Partners will review their performance at least on a quarterly basis and take any necessary corrective actions to resolve deficiencies. Staff users can produce reports to assess and correct performance on an on-going basis. These reports, filtered by different criteria, dates, and target groups, enable staff to review different aspects of performance prior to or after outcomes are reported with the goal of continually improving performance. The new federal reporting system that will use demographics of participants exiting to determine the applicable performance goals should clarify the impact of different demographics of participants and make it easier to predict future performance without being penalized for serving persons with greater barriers to employment.

The State is currently discussing with all core partners efforts to streamline all data into one platform. HireNet Hawai'i has the modules and can perform the integration. The State will continue to work with the partner agencies to use one platform that will allow co-enrollment and increased participation for all Titles and have consistent data reports. The HICAN project while in beta form is

being assessed in its ability to serve as this unified platform for all core partner agencies.

In addition to the above referenced data systems DVR leverages to support individuals with disabilities successful engagement in the workforce, DVR has identified the following goals associated with data collection, integration, and continuous improvement to facilitate streamlined intake and service delivery, as well as track participants accessing WIOA partner agencies.

Goal 4.1 In collaboration with the core partners, define the parameters for each of the six primary indicators of performance. Collaborative data collection goals from 2020 are still in progress and being carried forward to PYs 2024-2027. DVR is currently focused on data collection and validation for the VR program and will continue to engage with core partners to define the parameters collectively and pursue best practices of other core partners to improve upon or share DVR data collection methodologies.

Goal 4.2 In collaboration with the core partners, identify an automated data collection system that collects the data for each of the six primary indicators of performance which is user friendly and affordable. Collaborative data collection goals from PY2020 are still in progress. DVR is currently focused on data collection and validation for the VR program and will continue to engage with core partners to identify an automated data collection system that works for DVR to pursue best practices of other core partners and improve upon or share DVR data collection methodologies.

Goal 4.3 Upon completion of goals 4.1 and 4.2, update or purchase and install automated the data system for information collection. This goal is still in progress for PY 2023-2027.

Goal 4.4 Train core partner staff on the use of the automated data collection system. This goal is still in progress for PY2023-2027.

The Hawai'i Online Workforce Referral System has been developed to streamline the application process for individuals who seek employment services and integrate the participant management systems of WIOA Titles I, II, III, and IV. This project is made possible through the Reemployment Data Systems Integration Grant sponsored by the U.S. Department of Labor. This online client enrollment system works to improve both client services and reporting with respect to data analysis and client activity.

The System will provide individuals a quick way to submit minimal information by answering questions that are then sent to the appropriate WIOA partner for follow up. The development of the System is in its final stages. Project designers are completing the final design for the homepage; and the refinement of the algorithm for referrals are being thoroughly tested to ensure accuracy. The planned completion date for the project is the end of December 2019.

After completion, the Hawai'i Online Workforce Referral System will go through beta testing with the County of Maui so the project team can receive feedback and resolve any issues discovered in the process. Once beta testing is completed, the Hawai'i Online Workforce Referral System will go live statewide.

In addition, staff from the Electronic Data Processing Systems Office (EDPSO) and the WDC traveled to each County to preview the system to staff and partner program representatives. These meetings provided important feedback for the project team, and they were able to incorporate these suggestions into the system, making it more efficient and effective for jobseekers. The project is currently in Phase I which just includes the e-mail referrals. Phase II of the project will eliminate the

e-mail referral process. Referrals will be sent directly into participant management information systems. This phase includes extensive training for the partner programs and the development of training material.

The intent of this process is to gather comprehensive and consistent information so that appropriate workforce development services will be provided. Referrals will be made to services that are deemed appropriate and each provider will be responsible for following up with those referrals to provide services. This process will help coordinate and align services that are provided through the workforce development system and will ensure those needing services through the workforce system are receiving appropriate services.

This common intake and assessment process will also help to ensure that workforce services are streamlined and aligned across agencies, so that providers are providing the services they are specifically funded to provide rather than all providers attempting to “do it all for everyone that comes through their doors.”

Targeted outreach efforts will be coordinated with Veterans Services, postsecondary institutions, employers, community service providers, etc., to ensure that vulnerable populations, including unemployed workers, youth with disabilities, Native Hawaiians, homeless individuals, and ex-offenders in re-entry are able to access needed services and are given priority of services.

Core Partner staff also will have access to employer and job order information in HireNet Hawai'i so they can analyze business services being performed by their providers and offices and improve coordination and management of employer engagement activities.

For WIOA Title I, Wagner-Peyser, Jobs for Veterans State Grant (JVSG), and Trade Adjustment Act reports, Geographic Solutions has updated HireNet Hawai'i to produce required quarterly and annual federal reports.

Participant performance in all Core Programs (WIOA Adult, Dislocated Worker, and Youth Programs; Wagner-Peyser programs, Adult Education, Vocational Rehabilitation), JVSG, and Trade Adjustment Act will be measured through data stored in HireNet Hawai'i. All staff users and their providers are responsible to accurately enter data into HireNet Hawai'i in a timely manner.

All quarterly and annual reports required by the federal government are generated from HireNet Hawai'i data and electronically transmitted to the USDOL. DLIR extracts information on employment status and average earnings for all exiters from UI wage records, both intra-state and inter-state. Local area staff and Core Partner staff also may enter supplementary information on jobs obtained by participants. At the end of each quarter and year, DLIR will transmit to each county and Core Partner their performance reports in the same format as the federal statewide report. Counties, Local Boards, and Core Partners will review their performance at least on a quarterly basis and take any necessary corrective actions to resolve deficiencies. Staff users can produce reports to assess and correct performance on an on-going basis. These reports, filtered by different criteria, dates, and target groups, enable staff to review different aspects of performance prior to or after outcomes are reported with the goal of continually improving performance. The new federal reporting system that will use demographics of participants exiting to determine the applicable performance goals should

clarify the impact of different demographics of participants and make it easier to predict future performance without being penalized for serving persons with greater barriers to employment.

ASSESSMENT OF PARTICIPANTS' POST-PROGRAM SUCCESS

The Core Programs will use the second quarter after exit, fourth quarter after exit performance results, and median wage data to measure post-program success at both the state and local levels. Additionally, WDD monitors, during their on-site monitoring, a random selection of Adult, Dislocated Worker, and Youth program participant files. During that review, monitors look at case notes and other documents for the required provision of follow-up services for one year after exit to confirm that follow-up services are provided. Follow up services increase retention rates of participants after exit.

The WDC Performance Measures and Accountability Committee will review performance results for all local areas, make recommendations, and establish performance action plans, as necessary.

The Division of Vocational Rehabilitation participants who obtain a post-secondary credential or high school diploma strengthen vocational assessment practices as the foundation for more comprehensive services which will meet customer needs, identify, and address barriers to employment, and maximize outcomes. The assessments also identify a network of participants that have been successfully rehabilitated as mentors. These mentors can provide inspiration and advice to people on how to be successful in post-secondary education and work. They can model and reinforce high expectations.

The HIDEOE will utilize data matching with WIOA State partner agencies to assess the progress of participants who exit the adult education program and are employed or in postsecondary education to meet the requirements under 34 CFR § 463.155 *What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?* and 34 CFR § 463.175 *What responsibility do States have to use quarterly wage record information for performance accountability?*

HIDEOE has data exchange agreements with the Hawai'i Department of Labor and Industrial Relations to use unemployment insurance data and the University of Hawai'i to use enrollment records for the post-secondary placement of participants.

USE OF UNEMPLOYMENT INSURANCE (UI) WAGE RECORD DATA

As described in item 6(A) above, DLIR extracts quarterly UI wage record data and matches them to exiting participants to determine employment outcomes and average wages for the reporting quarters after exit. For WIOA reporting, different quarters are used in accordance with reporting requirements for each core program. Also, as described in item 6(A), the employment data can be filtered by area and provider so that each area and the State can monitor and manage performance.

Evaluations are based on performance reports that include outcomes using UI Quarterly Wage Records. DLIR generates reports of UI claimants by industry and geographical area, which provides a basis to identify a potential supply of workers with certain skill sets. This data is useful in matching a potential supply with high demand. However, with Hawai'i's return to a low unemployment rate, the number of unemployed workers has dwindled to where most job seekers are able to secure jobs and

business demand for workers remains high.

WDD staff participates in the quarterly, SWIS (State Wage Record Interchange System) Advisory Group's conference calls. WDD is signatory to the new SWIS agreement as an access Performance Accountability and Customer Information Agency (PACIA); WDD has signed as a non-access PACIA and UI has signed as the access State Unemployment Insurance Agency (SUIA). This agreement allows WDD and WDC access to interstate wage and employment records for performance accountability in addition to the intrastate data.

USE OF UNEMPLOYMENT INSURANCE (UI) WAGE RECORD DATA

As described in item 6(A) above, DLIR extracts quarterly UI wage record data and matches them to exiting participants to determine employment outcomes and average wages for the reporting quarters after exit. For WIOA reporting, different quarters are used in accordance with reporting requirements for each core program. Also, as described in item 6(A), the employment data can be filtered by area and provider so that each area and the State can monitor and manage performance.

Evaluations are based on performance reports that include outcomes using UI Quarterly Wage Records. DLIR Research and Statistics Office generates reports of UI claimants by industry and geographical area, which provides a basis to identify a potential supply of workers with certain skill sets. This data is useful in matching a potential supply with high demand. However, with Hawai'i's low unemployment rate, the number of unemployed workers has dwindled to where most job seekers are able to secure jobs and business demand for workers remains high.

WDD staff participates in the quarterly, SWIS (State Wage Record Interchange System) Advisory Group's conference calls. WDD is signatory to the new SWIS agreement as an access Performance Accountability and Customer Information Agency (PACIA); WDD has signed as a non-access PACIA and UI has signed as the access State Unemployment Insurance Agency (SUIA). This agreement allows WDD and WDC access to interstate wage and employment records for performance accountability in addition to the intrastate data.

PRIVACY SAFEGUARDS

The State is aware that a key element of success to utilizing data across agencies for either improved customer service or improved measurement and tracking of outcomes is ensuring the integrity of all data and ensuring confidential data is treated as such. This is accomplished with various technical safeguards and ensuring personnel handling this data are properly trained in all relevant regulations and the fundamentals of handling personal and confidential data.

Technical safeguards may include:

- Approved processes that limit access to the data to only those personnel who require access to carry out their daily job functions.
- Network security, monitoring, firewalls, etc. to prevent unauthorized access to data from entities outside of State government.
- Encryption technology; and
- Secure data transport mechanisms.

All State personnel undergo annual training on the proper handling of confidential data. This training is updated to reflect the most current statutes and interpretations. Those specifically involved in reporting are trained on the various de-identification and aggregation rules that apply.

All core partners that will provide and/or share data to execute federal program requirements will do so under a signed MOU to ensure the security of sensitive information. All core partners will agree to follow all applicable federal, state, and local laws pertaining to confidential information. Each partner will ensure that the collection and use of any information that contains personally identifiable information will be limited to purposes that support the programs and activities described by the relevant MOU's.

The State has a records privacy law in statute: HRS Chapter 92F-14 which protects records in which the individual has a significant privacy interest, which includes medical, psychiatric, or psychological history, diagnosis, condition, treatment or evaluation and information relating to eligibility for social services or welfare benefits or to the determination of benefits levels.

PRIORITY OF SERVICE FOR VETERANS

Workforce Development Division shall ensure program delivery and services directly funded in whole or in part, by the USDOL, provide priority of service to a veteran and covered person over a non-veteran or non-covered person at all levels (local, branch and administration offices) in WDD operations and in American Job Centers (AJC).

At every point of entry, WDD staff shall identify veterans and covered persons and inform them of their entitlement to priority of service and providing information on services and programs. The priority of services for "non-veteran" and "non-covered" person and "and "veteran" and "covered" person are outlined below:

A. Non-Veteran or Non-Covered Person

At the point of entry, AJC staff will ask everyone to self-identify whether the person is a veteran or covered person. Based on the information, the non-veteran or non-covered person who does not meet the definition of "veteran" or "covered person" shall be provided with career services, case management, job search assistance and referral to training as appropriate.

B. Veteran or Covered Person

If an individual self-identifies as a veteran or covered person at intake, the individual shall be provided immediate priority of service without the need for verification. AJC Staff will inform them of their entitlement to priority of service to the full array of AJC services and determine which DOL funded programs they are eligible for and desiring to participate in. Referrals will be made to the appropriate programs for priority of service.

Virtual services self-identification. Internet web sites operated by staff, programs, or agencies funded in whole or part, by the USDOL, must explain priority of service and provide instructions on where to self-identify as veterans or covered persons through virtual signup. Once identified through virtual access points, AJC Staff will contact the veteran or covered person to inform them of their entitlement to priority of service to the full array of AJC services and determine which DOL funded programs they

are eligible for and desiring to participate in. Referrals will be made to appropriate programs for priority of service.

Pre-recorded announcements. Pre-recorded greetings on voicemail systems shall inform callers about priority of service for veterans and covered persons.

A veteran or covered person shall be given precedence over a non-veteran or non-covered person. This means they receive access to services earlier in time than the non-covered person, or if the service is limited, the covered person receives access to the service instead of or before the non-covered person.

Veteran and covered persons are to move ahead (receive priority) over non-veterans or non-covered persons on any waiting list that is maintained for any program and service that meets the definition of a Qualified Job Training Program. However, once a participant (covered or non-covered person) is enrolled in a program such as WIOA, or has a confirmed start date, he or she may not be displaced by a veteran or covered person for that program.

1. Universal access programs and services. For workforce programs that operate or deliver services, such as Basic Career Services, to the public without targeting specific groups, veterans and covered persons must receive priority of service over all other program participants.
2. Programs with Eligibility Criteria. Eligibility criteria identify basic conditions each participant in a specific program is required to meet. The WIOA Adult, WIOA Dislocated Worker, and Senior Community Service Employment Program are examples of such programs. A veteran or covered person must first meet all the program statutory eligibility criteria to be considered eligible for: (i) enrollment in the program; (ii) receipt of priority for enrollment in the program; and (iii) priority receipt of services.

Verifying veteran and covered person status.

for priority of service and verifying that individual's status. At the point of entry, it is neither necessary nor appropriate to require verification of the status of veteran or covered person. If an individual self-identifies as a veteran and covered person, that individual shall be provided immediate priority in the delivery of all employment and training services such as basic career services as well as other services, e.g., Career Services and/or Training Services, as appropriate.

1. When a veteran or eligible spouse undergoes eligibility determination and subsequent registration and enrollment in a program using federal resources outside of Jobs for Veterans State Grant funds, e.g., Wagner-Peyser or WIOA programs, and the applicable program requires verification of veteran or eligible spouse status, then staff will proceed with verifying status.
2. In those instances, in which eligibility determination and enrollment occur at the point of entry, a veteran or covered person who meets program-specific criteria and is otherwise eligible for enrollment shall be provided immediate priority, enrolled, and then permitted to follow-up subsequently with any required verification of his or her status as a veteran or covered person. If documentation later fails to support the status of veteran or covered

person, staff should revise status in HireNet Hawai'i. DVOPs who are serving these persons shall refer them for appropriate services provided by other programs.

3. For programs or services that cannot rely on self-attestation, verification only needs to occur at the point at which a decision is made to commit outside resources to the individual enrolled. In contrast, the commitment of services other than individual career services or training services does not require verification of status by a veteran or covered person.

C. Significant Barriers to Employment

The WP/AJC staff will determine whether the individual meets the eligibility criteria of a veteran or covered person in accordance with the 38 U.S.C sections 4101, 4211. If a person is a veteran or covered person, Priority of Service will be provided. The WP/AJC staff will then ask the veteran/covered person to voluntarily complete an assessment to determine if the person has a significant barrier to employment (SBE) that will make them eligible for the Jobs for Veterans State Grant program. If they attest to one or more SBEs, they will be referred to a DVOP for employment services.

DVOPs will provide individualized career services for veterans and covered persons with SBE's. These services include a comprehensive assessment of the skill levels and service needs of the veteran or covered person. The assessment will lead to the development of an individual employment plan (IEP). The plan will include the SBE for JVSG eligibility, education and employment history, employment goal, barriers to achieving the employment goal and a plan to overcome the barriers and achieve employment. Services can include basic career services, workforce preparation activities, career planning, job search assistance, relocation assistance, financial literacy services, providing labor market information to focus on high demand jobs and growing industries and referral to the WIOA and other partner programs for occupational training, as appropriate.

The DVOPs will utilize the case management approach to serve veterans and covered persons with barriers to employment and with special workforce needs. Per VPL 03-14, case management is a process and not a service and the DVOP will provide facilitation and coordination of services with the ultimate objective of employment. DVOPs will leverage resources at the AJC's, partner agencies, or learning institutions to help individuals with specific resources to aid in self-improvement. Case management activities are divided into three areas:

- 1) Comprehensive assessment to determine realistic employment goals and identification of barriers to achieve those goals;
- 2) A documented plan of action to overcome the barriers;
- and 3) Consistent contact, which is the documented interaction between DVOP and client both during employment search and follow up after employment.

DVOPS will continue to provide job search assistance until the veteran or covered person is successfully employed and exited from the program. Follow-up services will be provided to ensure the veteran or covered person remains employed every quarter for 4 quarters after exit from the program.

Monitoring Compliance.

Qualified job training programs that have served, at the national level, an average of 1,000 or more

covered persons each year for the three most recent years, are required to collect and report data on covered entrants. Covered persons are called covered entrants at the point of entry. [20 CFR 1010.300]. Six programs meet the reporting threshold: (1) WIOA Adult; (2) WIOA Dislocated Worker; (3) National Dislocated Worker Grants; (4) Wagner-Peyser State Grants; (5) Trade Adjustment Assistance (TAA); and (6) Senior Community Service Employment Program. The Information Collection Request (ICR) requires: (1) a report on covered entrants; and (2) application of the new definitions for veterans and covered persons in existing reports on covered participants.

These programs must collect individual record data on covered persons from the point of entry. 120 CFR §1010.330(a)(l) & (c)1. For both covered and non-covered persons in qualified job training programs information collected includes, but is not limited to [20 CFR §1010.330(c)(l)(i- iv)]: (1) status of all persons receiving services; (2) types of services provided; (3) dates that services were received; and (4) employment outcomes. The HireNet Hawai'i virtual operating system network of labor exchange services, funded by USDOL and operated by the State of Hawai'i Department of Labor and Industrial Relations, is the automated database used by the State to collect and report data on covered entrants to USDOL.

The JVSG Program Staff and Oahu WDD Manager will conduct quarterly desk reviews of HireNet Hawai'i data to assess performance against goals and levels of service provided to veterans and covered persons. The review will include analysis of the individual career service rate to ensure that the rate exceeds the minimum 90% required. Performance outcomes will be compared against performance measures goals. In addition, expenditure rates in total, by type of budget line item, and by cost per staff will be analyzed against planned expenditures. Any underperformance will be identified and explained, and corrective actions will be described in quarterly reports submitted to DOL. Case records will be reviewed periodically by JVSG program staff and JVSG staff supervisors to ensure they are complete, well-documented, and lead to success to the greatest extent possible.

On-site and desk monitoring of AJC actions that demonstrate priority of service to veterans and covered persons from point of entry to exit will be conducted periodically by JVSG and other WDD program staff. Numerical data such as the rate of referrals to training or job openings and co-enrollments as compared to the total client population may be examined with the policy and procedures of the AJCs that result in the requisite priority of service. Training and technical assistance will be provided as needed to AJC staff.

ADDRESSING THE ACCESSIBILITY OF THE ONE-STOP DELIVERY SYSTEM FOR INDIVIDUALS WITH DISABILITIES

The Americans with Disabilities Act (ADA) defines a person with a disability as a person who has a physical or mental impairment that substantially limits one or more major life activity. According to the Centers for Disease Control and Prevention's Disability and Health Data System (DHDS) Disability Estimates report for 2017, 25.6 percent of adults in the United States of America and its territories have a disability.

Table 4.1. Income, Education, Employment of Adults with and without Disabilities

Demographics	Adults with Disabilities	Adults without Disabilities
Income <\$15,000	22.3%	7.3%
Income \$50,000+	27.6%	55.7%
Graduated High School	63.7%	57.8%
Graduated College	14.0%	32.1%
Employed	40.4%	65.3%
Out of Work	10.0%	4.7%

DLIR appointed a State-Level EO Officer. The State-Level EO Officer, formerly known as the Civil Rights and Equal Opportunity Officer, is responsible for developing the Nondiscrimination Plan as well as working with the Local-Level EO Officers to ensure compliance with the equal opportunity and nondiscrimination provisions of WIOA. The State-EO Officer's position description may be found at <https://labor.hawaii.gov/wp-content/uploads/2019/06/Element-Two-Exhibit-A.pdf>.

The State-Level EO Officer and Local-Level EO Officers, who are designated by their respective counties, are responsible for ensuring that the AJCs follow WIOA Section 188 and the applicable provisions of the Americans with Disabilities Act of 1990. The State-Level EO Officer and Local-Level EO Officers work together to conduct annual monitoring of the AJCs.

This annual monitoring includes confirming that the AJCs are accessible to those with disabilities, that AJC staff display or provide participants documents that inform them of equal opportunity, and that only appropriate case managers have access to participants' disability information. In addition, the State-Level EO Officer maintains ongoing communication with Local-Level EO Officers, which includes sharing updates and discussing issues, including complaints. WIOA NDP Bulletin No. 1-19, WIOA Nondiscrimination Plan and Recipient Obligations is available at: <https://labor.hawaii.gov/wdc/files/2019/07/WIOA-NDP-Bulletin-No.-1-19.pdf>. DLIR's Nondiscrimination Plan may be found at labor.hawaii.gov/wioa-eo.

ADDRESSING THE ACCESSIBILITY OF THE ONE-STOP DELIVERY SYSTEM FOR INDIVIDUALS WHO ARE ENGLISH LANGUAGE LEARNERS

As described in item (6)(A) above, HireNet Hawai'i is the State's internet based, self-service and staff service database for core programs. To serve customers with limited English proficiency (LEP), the home page provides a link to ten different languages that advise the individual to seek assistance by telephone or in person. These languages are the most encountered in Hawai'i.

DLIR updated its LEP Plan in 2019. The updated LEP Plan includes policies and procedures for how DLIR employees, which includes employees at the AJC, to serve LEP individuals. DLIR also created an online LEP training video that explains how employees should serve LEP individuals. In addition, the State-Level EO Officer works with the Office of Language Access to inform employees of LEP trainings and updates. DLIR ensures that its employees maintain awareness of their obligations to LEP customers by requiring employees to annually watch an LEP training video or attend a training that focuses on how to better serve LEP individuals.

The LEP Plan is incorporated in the Nondiscrimination Plan and may be found at <https://labor.hawaii.gov/wp-content/uploads/2019/06/Element-Three-Exhibit-L.pdf>.

IV. Coordination with State Plan Programs

A. COORDINATION, ALIGNMENT AND PROVISION OF SERVICES TO INDIVIDUALS

The State of Hawai'i Department of Labor and Industrial Relations (DLIR) in partnership with Research Improving People's Lives (RIPL), developed a new job search tool called the Hawai'i Career Acceleration Navigator (HI CAN) which was launched in 2022 to provide additional resources to assist job seekers with Unemployment Insurance-required work search, customized career development options, and referral to other financial assistance and support services that job seekers may need while exploring new career opportunities. The steering committee for the HI CAN project included representatives from the State of Hawai'i Dept. of Human Services Division of Vocational Rehabilitation which administers Title IV. The State of Hawai'i initially partnered with the National Governors Association Workforce Innovation Network on this project. All core partners engaged in discussions regarding user testing and DLIR will continue to provide all partners updated information regarding updates to the system and additional modules as they are made available.

HI CAN uses Machine Learning (ML), Artificial Intelligence (AI), state administrative data, and cloud computing to provide job matches and recommendations to users. This entirely online/digital service launched in April 2022 and helps the department provide greater and more robust services to our more difficult to reach communities and populations with barriers to employment. It is embedded into HireNet Hawai'i (www.hirenetHawaii.com), the state's electronic job board and management information system for case management connecting employers and jobseekers at all AJCs statewide at no cost to the public. HI CAN serves as a digital One-Stop for DLIR services to all Hawai'i residents providing coordinated resources through the DLIR including career exploration and allows users to fulfill unemployment insurance requirements. Additionally, HI CAN also refers users to relevant State-provided social services such as food, medical, and cash assistance to support the job-seekers transition into livable wage careers.

The development of HI CAN's employer portal will also enable employers to utilize HI CAN as an additional recruitment tool by allowing them to connect anonymously with potential candidates. The software itself is designed to address the specific needs of individuals with barriers to employment. This is primarily done through referral information and data sharing among state partner agencies.

In research conducted by Omnitrack Group, with data collected between January 25 to February 23, 2023 (report issued June 9, 2023), the digital hub for job seekers and employers was assessed for effectiveness and ease of use. To better identify barriers to employment, Omnitrak linked results from the State's Digital Literacy and Readiness Study (2021). Research investigators collaborated with Research Improving People's Lives (RIPL) to conduct interviews, conduct surveys, and collect data about users' job seeking and training experiences, needs, and challenges. This will help us to identify bug fixes as well as identify what components are important to our target demographic. Refinements include developing sector strategies and a career pathways system for

in-demand industries, while increasing access to employment services for clients in remote locations. what components are important to our target demographic. The State of Hawai'i is partnering with the National Governors Association Workforce Innovation Network on this project.

III. B COORDINATION, ALIGNMENT AND PROVISION OF SERVICES TO EMPLOYERS

The Plan prioritizes the development of comprehensive services effectively functioning at the AJCs.

Dedicated outreach to employers would be phased in and the Plan provides a broad framework to guide the local areas to create skilled business services teams that will be able to build credible relationships and provide worthy services that will benefit business.

The business services to be delivered by the AJCs include but are not limited to assisting businesses and industry sectors to overcome challenges in recruiting, retaining, and developing talent for Hawai'i's workforce. The Local Veteran Employment Representative is a member of these teams. Currently, the Oahu AJC has the most developed team, providing the following services:

- In person visits, sometimes by several people at the same time from different programs
 - Inviting employers to make presentation on their hiring practices and expectations of staff.
 - Conducting and participating in job fairs
 - Encouraging job seekers to volunteer with employers.
 - Warm calls, cold calls, and offering to help with job postings on HireNet.
 - Active involvement in community groups and boards
 - Serve on program advisory councils.

Business Engagement Strategy and Overarching Goals:

Businesses can be more effectively engaged with workforce development services by increasing:

1. Awareness of the services and value offered to the businesses by the system.
2. Confidence in the system by providing consistent high-quality service, including referrals to relevant community and support services.
3. Involvement of businesses by becoming sincerely receptive to their input and valuing their involvement.
4. Advocacy by businesspeople for the system because business leaders have come to understand the value that the system provides.

The strategy is to be executed by achieving the following goals:

- Ensure that the foundations of AJCs are in place.
- Establish stable, functional AJCs in each local area that describe and provide their services in a manner that is perceived as valuable and relevant by businesses.

- Establish an effective approach for engaging with businesses. Simplifying and clarifying the business view of the workforce development system, making it easy to understand how to access the system, and the value to expect.
- Articulate and validate the value that AJCs offer to business customers by implementing a reliable customer relationship management (CRM) system and outcomes measurement system that show that services provide real benefits to participating businesses, and that enable continuous improvement.

Developing business services teams at the AJCs is continuing from its beginning stages. The strategy for layoff aversion is for the business services teams to develop relationships with employers in their local areas; use the networks of the private sector employers on their local boards to expand their contacts and to provide information on industry trends and to identify potential red flags; develop other sources of early information on potential issues within their local areas; and develop responses to address identified issues. The private sector employers on the local WDBs serve as mentors to the business services team.

Local WDBs have started to establish Employer Engagement committees of their boards. These Committees will help develop the teams, provide guidance and recommendations, ensure professional development, establish specific goals for the teams, and track progress.

III. C. PARTNER ENGAGEMENT WITH EDUCATIONAL INSTITUTIONS

Education Partners

The WDD has worked closely with the following entities on a wide range of workforce development issues:

- University of Hawai'i Community Colleges
- University of Hawai'i
- University of Hawai'i Economic Research Organization
- University of Hawai'i Language Roadmap Initiative
- McKinley Community School for Adults (includes Oahu, Kauai, and Maui)
- Waipahu Community School for Adults (includes Oahu and Hawai'i Island)
- Office of the State Director of Career and Technical Education (OSDCTE)
- Hawai'i Department of Education (HIDOE)
- Hawai'i P-20 Partnerships for Education
- Native Hawai'ian Education Council
- Technical Schools
- Chaminade University
- Gallaudet National Technical Institute for the Deaf (Rochester)

- Hawai'i Pacific University
- (Expanded ETP List)

Transition services will be a significant focus of Hawai'i's workforce development system under WIOA. Adult Education will employ transition coordinators to assist those who complete adult education service transition into postsecondary programs for credentials. Adult Education will also offer dual enrollment options for students to help them more readily complete education and training requirements for credentials and employment. Veterans' counselors on each campus will be utilized to target veterans and assist their access to postsecondary education and training programs.

The Hawai'i Community Schools for Adults added the Workforce Development Diploma Program to the options available to students. After conducting the TABE or CASAS Assessment, assessment results and counseling sessions will help direct students to: Adult Basic Education, High School Equivalency Preparation, or the Workforce Development Diploma Program (WDDP). WDDP provides an opportunity for adults to gain the knowledge, skills and abilities needed for employment and/or job training. Students must complete the Academic (reading and work skills—active listening and situational judgement) and Career goals (100 hours of volunteer work or employment; and completion of the iCan program, or one credit at an accredited post-secondary institution) modules to earn the Diploma.

The University of Hawai'i is a permanent member of the WDC, actively participating in decisions made on the direction of the Council in relation to the University. Developed by a cross-agency team, the *Hawai'i's Career Pathway System* was accepted by all stakeholders and partners in the summer of 2017. The UHCC system, the HIDEOE, Adult Education State Director, and Hawai'i P-20 represent the public education partners of the system.

The System is a unifying framework across the state's Workforce Development Council and its implementation of WIOA and CTE provided through Perkins V as a part of that System. The Career Pathway System's approach connects progressive levels of education, training, support services, and credentials for specific occupations in a way that streamlines the progress and success of individuals with varying levels of abilities and needs. Two members of the WDC serve on the CTE Advisory Board.

The DLIR Director, along with the Superintendent of Education and the University of Hawai'i President, is a voting member of the P-20 Statewide Longitudinal Data System (aka Data Exchange Partnership or DXP) Executive Committee. The Workforce Development Council Executive Director is an attending member of the Executive Committee. WDD staff are members of the DXP's Data Governance and Access Committee (formerly known as the Steering Committee) and the Research and Data Request Sub-Committee.

DVR already has a Special Education/Vocational Rehabilitation (SEVR) program in place to support DOE students transitioning into post-secondary education and Hawai'i's workforce. The primary purpose of the program is for students ages 14 - 21 who have been found eligible for VR services to participate gain work experience in an integrated setting, while still enrolled in school. DVR is also

working with Adult Literacy and Community Colleges to develop career pathways which include pre-ETS with work-based learning experiences for VR students between 14-21 years of age. We are working with Adult Education to provide career pathways for VR clients which includes remedial reading and math classes; pre-ETS and work experience for those clients who desire to enter directly into the labor force. We are working with the Community Colleges to provide career pathways for VR clients ages 14 and above who desire to enter secondary education prior to entering the workforce.

III.D. PARTNER ENGAGEMENT WITH OTHER EDUCATION AND TRAINING PROVIDERS

WDD updated the Eligible Training Provider Policy by issuing WIOA Bulletin 10-16 Change 1 on July 3, 2018 (<https://labor.hawaii.gov/wdc/files/2018/07/Final-Signed-Change-1-WIOA-Bulletin-10-16-ETP-policies-7.3.18.pdf>).

The bulletin clarified that each local board must establish Eligible Training Provider List (ETPL) policies and procedures for their respective local areas and that each local board must establish the in-demand industries and in-demand jobs that qualify for the ETPL in their local area policy. These criteria must also be included in their local plans.

The change also created a new Eligible Training Provider (ETP) webpage accessed through the WDD home page (<https://labor.hawaii.gov/wdc/eligible-training-provider-list/>). The original Kumua website, a stand-alone-site was taken down, and providers no longer input information directly into that site. The new format includes links to each program of study which show the courses necessary to graduate from the program. This enables the participant and case manager to have the information necessary to create a training plan.

Through the Eligible Training Provider list the State will engage partnerships with Educational Institutions. This partnership will provide those entering training with necessary skills to acquire good careers. The State is also connecting the Apprenticeship Programs with the Eligible Training Provider List as all Register Apprenticeship programs are eligible for the ETP.

The Workforce Development Council and the subcommittees will also assist with connecting the State to possible training providers through the committee members and spreading the mission throughout Hawai'i.

The Rapid Response Team and Business Services Teams deployed out of the AJCs will continue to outreach and enroll businesses and training providers through the Rapid Response efforts. Through their work in the communities' businesses and training providers will be able to become partners in our programs.

The ETP module through HireNet Hawai'i will allow users to navigate through the Eligible Training Providers to view details about the programs. Users seeking training can view program descriptions, prerequisites, credentials, and other information about the programs available.

WDD staff currently revises all information in the system to keep the data congruent. Training providers still need to contact the LWDBs for any revisions to the training programs. The policy also

clarified procedures to add registered apprenticeships to the ETPL and simplified the application process for University of Hawai'i system schools. In response to ETP concerns that career service and pre-vocational service programs would no longer be listed, a list of these programs was added to the website.

The University of Hawai'i Community Colleges (UHCC) are the major providers of training in all local areas.

WDD has also been working with the UHCC and the Data Exchange Partnership to provide the required WIOA performance data for the UHCC programs. The performance data requirement is seen as a barrier to participation on the ETPL by individual community colleges. Establishing a process at the UH System level will alleviate that concern. In partnering with the workforce system, UHCC will begin to collect social security numbers (SSNs) for students registered in non-credit workforce programs. The SSNs are required to conduct the wage match with the UI database, one of the required performance metrics.

Collaborating and communicating with the core and mandatory partners, Hawai'i P-20 Partnerships for Education (State CTE Office) will guide and support efforts to continually improve, innovate, and transform CTE programs/POS to achieve improved educational and workforce outcomes of all participating students and clients, including the elimination of gaps for identified special populations. A newly developed monitoring framework, informed by a data reporting application, will identify which CTE programs/POS have disparities, misalignments, or inequities in program offerings and program participation (issues of access) and program achievement of educational and workforce outcomes (issues of success), particularly those associated as being part of identified special populations. The HIDOE and UHCC will be charged with developing improvement strategies that address the root causes of those disparities, misalignments, and inequities as part of their application for funding.

The approach being pursued by the Hawai'i P-20 Partnerships for Education (State CTE Office), HIDOE, and UHCCS in collaboration with WIOA partners, attends to the interactions, intersections, and interdependencies of the Career Pathway System by designing highly integrated program components. It provides for opportunities to improve, innovate, and transform the design of the CTE programs. By attending to the interactions, intersections, and interdependencies of the components within and, more significantly, across the educational and other career pathway partners, this "systems-building" approach presents opportunities to pursue fundamental changes to the system itself.

Finally, the educational institutions will develop the capacities of the Career Pathway system to design, deliver, and continually improve/innovate CTE programs. And together with its WIOA partners, the educational institutions will work collaboratively to identify professional development needs across the state and collaborate with them in delivering it.

Other Education and Training Partners:

- Community Based Organizations
- Honolulu Community Action Program

- Lanakila Pacific
- Abilities Unlimited
- Easter Seals
- Goodwill Network Enterprises
- Catholic Charities
- Economic Development Boards
- Chamber of Commerce
- KUPU Hawai'i
- Kamehameha Schools
- Castle Foundation

In support of the Career Pathway System, Hawai'i P-20 , hired 2 staff. One is a CTE and Workforce Data Analyst and the other is a Workforce Alignment and Learning Opportunities Specialist. They are co-located in the P-20 office and address data and work-based learning across all WIOA stakeholders.

Community-Based Organizations

There are many community-based organizations throughout the state that provide education and training services. These agencies will be identified and included in the data sharing and analysis activities along with coordinating services with core partners to individuals and employers.

III.E. LEVERAGING RESOURCES TO INCREASE EDUCATIONAL ACCESS

Recognizing the economic reality of dwindling federal and state resources for workforce development, the DLIR, WDD, the University of Hawai'i Community College System and the local areas have undertaken a concerted effort to acquire discretionary grants. In general, these efforts have allowed the state to bring in additional resources. However, a positive side effect of this process is the partnership state and county entities (including community-based organizations) to better align their workforce development activities. The process of acquiring these grants has improved the alignment of "siloes" programs to identify and meet workforce needs.

The WDD and the Hawai'i P-20 Partnerships for Education (State CTE Office) identified all the public sources of state and federal program funds for workforce development in Hawai'i. These two agencies created a funding map summarizing the \$101 million in federal and state monies spent on workforce development in 2018; available at <https://labor.hawaii.gov/wdc/files/2019/05/Funding-Map-Poster-FINAL-website.pdf>.

Identifying the funded agencies and organizations, amounts expended, and the purposes of the spending across these agencies and organizations is the first step in creating joint planning, alignment, coordination, and leveraging of funds in the State of Hawai'i.

The WDD has been the catalyst in aligning these programs and will continue to do so. Core Partners and AJC Partners will contact the appropriate agency or agencies to develop an integrated service strategy for specific individuals. Interagency teams will be developed and/or strengthened to develop a fuller menu of services for persons with disabilities. Regularly scheduled meetings among core and AJC partners at the local levels will continue to build relationships and keep staff members updated on services available in the community. Similar efforts are taking place now to serve non-disabled persons, but the teams will be expanded to include other providers to leverage more resources.

Many community-based organizations provide education and training services and are often supported by non-governmental funds. Continuing to partner with community-based organizations will help leverage limited resources for the workforce system.

DVR will fund the State's strategies by paying for Vocational Rehabilitation Services provided to all eligible VR clients (all of whom are individuals with disabilities). DVR is working with the core partners to create three points of entry (Adult Education, VR, and WDD) which an individual can enter.

DVR can pay for a VR eligible individual with only those activities that are included in their Individualized Plan for Employment (IPE). All activities that are required for a VR eligible individual to prepare, obtain, maintain/regain employment (of their informed choice) will be listed on their IPE. All required training costs can be paid with VR basic support grant funds. If a public entity (other than DVR) is obligated under Federal law (such as the American with Disabilities Act, Section 504 of the Act, or the Workforce and Innovation Opportunity Act) or State Law, or assigned responsibility under State policy or an interagency agreement established under this Section, to provide or pay for any services considered to be VR services (e.g., interpreter services), the public entity must fulfill that obligation or responsibility through:

(1) the terms of the interagency agreement; (2) paying for the service directly or by contract or (3) other arrangement.

DVR can pay for a VR eligible individual with only those activities that are included in their Individualized Plan for Employment (IPE). All activities that are required for a VR eligible individual to prepare, obtain, maintain/regain employment (of their informed choice) will be listed on their IPE. All required training costs can be paid with VR basic support grant funds. If a public entity (other than DVR) is obligated under Federal law (such as the American with Disabilities Act, Section 504 of the Act, or the Workforce and Innovation Opportunity Act) or State Law, or assigned responsibility under State policy or an interagency agreement established under this Section, to provide or pay for any services considered to be VR services (e.g., interpreter services), the public entity must fulfill that obligation or responsibility through:

(1) the terms of the interagency agreement; (2) paying for the service directly or by contract or (3) other arrangement.

In 2017, the Hawai'i State Legislature passed Senate Bill 1162 enacting the Hawai'i Promise Scholar Program to remove cost as a barrier to higher education. This scholarship program provides financial support for all students with financial need as defined by the U.S. Department of Education, to attend any of the seven campuses of the University of Hawai'i Community Colleges at

no cost for tuition, fees, books, supplies and transportation. For more information about this new “last dollar” scholarship program, is available at this link: <http://uhcc.hawaii.edu/ovpcc/removing-cost/promise>. In 2019, the Legislature made this a permanent part of the funding for the UH Community Colleges.

The Hawai‘i Nutrition Employment and Training (HINET) program was launched in 2015 by the Department of Human Services in partnership with Oahu’s Windward Community College to reduce the cost of education for the states’ most vulnerable populations and help them obtain higher paying jobs. The program has since been expanded to all UH Community College campuses.

HINET provides students with assistance that can total more than \$4,700 per year for food, transportation, books, and other expenses. To qualify for the program, students must enroll at a UH Community College and in a workforce training program or take at least six credits in an approved degree program. Students must also qualify for the Supplemental Nutrition Assistance Program (SNAP) and can substitute their education and employment training for the U.S Department of Agriculture’s twenty-hour weekly work requirement, which will allow them to maintain their SNAP benefits while pursuing a college education.

III.F. IMPROVING ACCESS TO POSTSECONDARY CREDENTIALS

The HIDOE, UHCC system, and the state CTE office are collaborating to address the issues surrounding portable and stackable industry-recognized certificates, licenses, and certifications.

The goal is to map, across our career pathways, what the state’s Industry Sector Partnership committees approve.

All workforce service providers will emphasize access to postsecondary education and training in order that more job seekers acquire the skills, knowledge, and credentials they need to get meaningful employment.

Transition services provided by core partner agencies will ensure job seekers get into and through postsecondary programming by providing the necessary support in order that they persist through the achievement of a credential. The following strategies will ensure improved access to postsecondary credentials in Hawai‘i:

Ensuring postsecondary institutions have quality education and training programs that prepare job seekers for the jobs that are available in the state. This will require strong collaboration among employers, postsecondary institutions, and workforce development providers.

- Ensuring that postsecondary education and training is accessible to job seekers, so they have the financial resources and support services necessary to obtain credentials and enter employment.
- Providing aggressive outreach throughout the state to assist vulnerable populations, including unemployed workers, veterans, individuals with disabilities, Native Hawaiians and homeless individuals access to postsecondary education and training.
- LWDBs ensuring that community colleges and private training providers in their local areas place programs that lead to credentials, certificates, and licenses on the Eligible Training Provider List; so that training programs for in-demand industries and in- demand

jobs are available to WIOA participants.

DVR can assist a VR eligible individual with only those activities that are included in their Individualized Plan for Employment (IPE). All activities that are required for a VR eligible individual to prepare, obtain, maintain/regain employment (of their informed choice) will be listed on their IPE.

DVR is collaborating with Adult Education from the Department of Education, the Workforce Development from the University of Hawai'i Community Colleges, the AJCs, and the Workforce Development Division from the Department of Labor to improve access to postsecondary credentials for individuals with disabilities. The AJCs, WDD, and other partners will identify employer needs specific to each county. VR will meet with those employers to ascertain the work skills and training needed to qualify for employment with the companies; not limited to "entry level positions." If postsecondary training is available, VR will provide financial and case management support. If customized postsecondary training is needed, VR will work with Adult Education to develop postsecondary training.

Vocational and other training services include personal and vocational adjustment training, books, tools, and other training materials, except that no training or training services provided in an institution of higher education (universities, colleges, community or junior colleges, vocational schools, technical institutes, or hospital schools of nursing) may be paid for unless maximum efforts have been made by the division and the individual to secure grant assistance in whole or in part from other sources to pay for that training.

One area of program review and assessment for all the state approved CTE programs at the community colleges is their alignment to the economic needs of the state. A CTE program must meet eligibility requirements to use federal Perkins funds awarded by the state CTE office.

III.G. COORDINATING WITH ECONOMIC DEVELOPMENT STRATEGIES.

The composition of the State Workforce Development Council consists of representation of Hawai'i's leading economic development agencies. WDC membership includes representatives from the State of Hawai'i Department of Business, Economic Development and Tourism (DBEDT), and the Economic Development Alliance of Hawai'i (EDAH).

One area of program review and assessment for all the state approved CTE programs at the community colleges is their alignment to the economic needs of the state. A CTE program must meet eligibility requirements to use federal Perkins funds awarded by the state CTE office. Additionally, the UHCC system has a Director of Workforce Development who supports the work of the seven campuses and the state CTE office and represents the University President on the WDC.

V. Common Assurances (For All Core Programs)

The State Plan must include	Include
1. The State has established a policy identifying circumstances that may present a conflict of interest for a State Board or local board member, or the entity or class of officials that the member represents, and procedures to resolve such conflicts;	Yes
2. The State has established a policy to provide to the public (including individuals with disabilities) access to meetings of State Boards and local boards, and information regarding activities of State Boards and local boards, such as data on board membership and minutes;	Yes
3. The lead State agencies with optimal policy-making authority and responsibility for the administration of core programs reviewed and commented on the appropriate operational planning elements of the Unified or Combined State Plan, and approved the elements as serving the needs of the populations served by such programs;	Yes
4. (a) The State obtained input into the development of the Unified or Combined State Plan and provided an opportunity for comment on the plan by representatives of local boards and chief elected officials, businesses, labor organizations, institutions of higher education, the entities responsible for planning or administering the core programs, required one-stop partners and the other Combined Plan programs (if included in the State Plan), other primary stakeholders, including other organizations that provide services to individuals with barriers to employment, and the general public, and that the Unified or Combined State Plan is available and accessible to the general public; (b) The State provided an opportunity for review and comment on the plan by the State Board, including State agency official(s) for the Unemployment Insurance Agency if such official(s) is a member of the State Board;	Yes

5. The State has established, in accordance with WIOA section 116(i), fiscal control and fund accounting procedures that may be necessary to ensure the proper disbursement of, and accounting for, funds paid to the State through allotments made for the core programs to carry out workforce development activities;	Yes
--	-----

The State Plan must include	Include
6. The State has taken appropriate action to secure compliance with uniform administrative requirements in this Act, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the uniform administrative requirements under WIOA section 184(a)(3);	Yes
7. The State has taken the appropriate action to be in compliance with WIOA section 188, Nondiscrimination, as applicable;	Yes
8. The Federal funds received to carry out a core program will not be expended for any purpose other than for activities authorized with respect to such funds under that core program;	Yes
9. The State will pay an appropriate share (as defined by the State board) of the costs of carrying out section 116, from funds made available through each of the core programs;	Yes
10. The State has a one-stop certification policy that ensures the physical and programmatic accessibility of all one-stop centers with the Americans with Disabilities Act of 1990 (ADA);	Yes
11. Service providers have a referral process in place for directing Veterans with Significant Barriers to Employment (SBE) to DVOP services, when appropriate; and	Yes
12. Priority of service for veterans and eligible spouses is provided in accordance with 38 USC 4215 in all workforce preparation, development or delivery of programs or services funded directly, in whole or in part, by the Department of Labor.	Yes

VI. Program-Specific Requirements For Core Programs

A. Program-Specific Requirements for Title I: Adult, Dislocated Worker, And Youth Activities

A. GENERAL REQUIREMENTS

1. REGIONS AND LOCAL WORKFORCE DEVELOPMENT AREAS

The State of Hawai'i consists of four local workforce development areas that follow the separation of the four county designations in the State. They are:

1. The City and County of Honolulu (Oahu)
2. The County of Maui (includes the islands of Molokai and Lanai)
3. The County of Hawai'i (Hawai'i Island)
4. The County of Kauai (The State will act as the local area)

As there are no contiguous states to Hawai'i; and the workforce development areas are designated by counties, there are no designated regions in the State.

Prior to 2021, the DLIR had taken all necessary steps to provide the local area of Kauai technical support and assistance to effectively carry out the functions of a local workforce development board.

Despite these efforts, the County of Kauai informed the DLIR that it no longer wished to operate as a local area workforce development board in delivering Title I services including Adult, Dislocated Worker, and Youth. The Kauai local WDB therefore requested the State to assume this role in delivery of direct client services.

In September 2021, the State assumed management of the Kauai local area. This was done in response to the County of Kauai's request to have an alternate entity administer WIOA Title I service. The State Department of Labor and Industrial Relations Workforce Development Division assumed provision of services in place of the local area. State-merit staff located at the American Job Center Kauai provides services. This will occur until the Governor selects an alternate entity or the County of Kauai administration requests to resume management of Title I activities for the local area of Kauai.

To ensure continuation of Title I services to the residents of the County of Kauai, the DLIR will leverage state-merit Wagner-Peyser staff to deliver all services and activities under WIOA Title I. Additionally, no State or local area regulatory policy limits the Governor's authority to require a regional plan or utilize the State Workforce Board in place of a local workforce

board. In January of 1999, the WDC designated these areas utilizing the following criteria:

1. The smallest are for federal Labor Market Information (“LMI”) data is the county level. State LMI data is collected for the islands and the counties but is not available for sub- areas.
2. On the neighbor islands, the State’s community college system conforms with county jurisdictions. Oahu has four community colleges, with each campus assigned as the lead for subject areas, such that cumulatively, they serve the entire county.
3. The State’s public-school districts are county-wide on the neighbor islands. Oahu has four Department of Education districts.
4. An area with too small a population would have difficulty filling and financially supporting the large local boards mandated by the applicable federal legislation. It would also likely receive insufficient funds to run programs. Correspondingly, combining counties or parts of counties would mean additional coordination between Mayors.
5. Hawai’i County, which has the largest geographical area and different demographics between east-and west-sides, has government agencies and services in both East and West Hawai’i which serve the single count.
6. The counties are well-established political divisions of Hawai’i. The WDC consulted with the mayors of the respective counties at that time, and it was agreed that the counties were the most appropriate designations. Further, the City and County of Honolulu meets the criteria for automatic designation, because of its population size. In March 1999 the Governor designated the four counties as workforce investment areas and those areas will continue to be designated under WIOA. In 2021, the County of Kauai designated the State to act as the local workforce development area.
7. WDC issued WIOA Bulletin No. 03-15 Initial Local Area Designation Under the Workforce Innovation and Opportunity Act (<http://labor.hawaii.gov/wdc/files/2013/01/SN-03-WIOA-03-15-w-Attmts-Initial-Designation.pdf>)

“Performed Successfully” - means the Local Area met or exceeded the negotiated levels of performance for the core indicators in a Program Year and the local area has not failed any individual measure for the last two consecutive Program Years before WIOA enactment, or if the local area is operating under a Performance Improvement Plan approved by DLIR. For youth programs, successful performance is defined as meeting 5 of 7 measures in a Program Year and 2 of 3 measures in the next Program Year. “Met” is performance that is equal to 80% or more of negotiated levels.

“Sustained Fiscal Integrity” - with respect to a Local Area, means that the Secretary, or the State in place of the Secretary, has not made a formal determination, during either of the last two consecutive years preceding the determination regarding such integrity, that either the subgrantee or the administrative entity of the area misspent funds provided under subtitle B

(or, if applicable, title I of the Workforce Innovation and Opportunity Act of 2014 as in effect prior to the effective date of such subtitle B) due to willful disregard of the requirements of the provision involved, gross negligence, or failure to comply with accepted standards of administration.

The State did not identify regions nor planning regions. As there are no contiguous states to Hawai'i; and the workforce development areas are designated by counties, and the individual counties do not share a common workforce (the counties are islands separated by an ocean); there are no designated regions in the State.

As of September 2021, the State has assumed responsibility of Title I services to the local area of Kauai. The DLIR WDD has the capacity to operate Title I services as the current statewide operator for Title III/Wagner-Peyser Act employment services, Jobs for Veterans State Grant (JVSG), Senior Community Services Employment Program (SCSEP) and Trade Adjustment Assistance (TAA). The State submitted a waiver request to the U.S. DOL ETA outlining a plan and justification for the request.

Attachment 1: WIOA Waiver Request Form

1. The statutory and/or regulatory requirements the state would like to waive.

The State of Hawai'i Department of Labor and Industrial Relations (DLIR) Workforce Development Division (WDD) and Workforce Development Council (WDC) formally requested a waiver to 20 CFR §679.310 WIOA sec. 107(b) allowing the State to serve in place of the Kauai County Local Area Workforce Development Board as described in 20 CFR §679.240 subsection C. This structure is reflected in the modification to the State of Hawai'i WIOA Unified State Plan for 2020-2023.

2. Actions the state has undertaken to remove state or local barriers.

The DLIR has taken all necessary steps to provide the local area of Kauai technical support and assistance to effectively carry out the functions of a local workforce development board. Unfortunately, the County of Kauai has informed the DLIR that it no longer wishes to operate as a local area workforce development board in delivering Title I services including Adult, Dislocated Worker, and Youth. The Kauai local WDB is therefore requesting the State to assume this role in delivery of direct client services.

To ensure continuation of Title I services to the residents of the County of Kauai, the DLIR will leverage state-merit Wagner-Peyser staff to deliver all services and activities under WIOA Title I. Additionally, no State or local area regulatory policy limits the Governor's authority to require a regional plan or utilize the State Workforce Board in place of a local workforce board.

The primary goal to be achieved through approval of this waiver is to ensure continuation and expand upon services for Kauai County and maximize available monies to be directed toward service delivery, particularly training and work-based learning opportunities. Overall, the DLIR expects to provide services to a greater number of participants across all Title I activities.

3. A discussion of how the waiver complements Department of Labor priorities (i.e. expansion of apprenticeship, improved employer engagement, etc.);

Provided this waiver, the DLIR will ensure continued employment and training services to Kauai County. In addition, the DLIR will provide comprehensive services to the community leveraging all existing workforce development resources among the WIOA core partners. This shall include expanded opportunities for employer engagement through the Hawai'i Sector Partnerships initiative, outreach, and recruitment for pre and registered apprenticeship programs, resume and other job-seeker workshops, and expanded availability of training through the eligible training provider list (ETPL).

Additionally, the Workforce Development Council continues to serve as the State board with membership from business representatives and partners from government, education, labor, and community-based organizations. The WDC, through its various committees, help to support employer engagement, work-based learning opportunities and facilitates collaboration between employers/businesses and training services.

4. Quantifiable projected programmatic outcomes resulting from implementation of the waiver.

The DLIR is committed to meeting or exceeding all negotiated WIOA performance indicators for Program Years 2024 and 2025. This represents a collective performance measurement of all WIOA activity including that of the Kauai local area.

The DLIR is working to increase staffing at the Kauai American Job Center Hawai'i to support Title I activity. In the interim, State staff from other local areas including Oahu, will contribute to providing direct support and client services utilizing virtual capabilities via Microsoft Teams and Zoom.

Provided this waiver, the State anticipates a 50% increase over PY21 and PY22 participant enrollment totals across all Title I programs, Adult, Dislocated Worker, and Youth for PY23.

5. Individuals, groups, or populations benefitting, or otherwise impacted by the waiver from the waiver.

County of Kauai residents and all individuals and employers involved with the local workforce development system will benefit from this waiver through uninterrupted Title I services provided by DLIR staff at the American Job Center Kauai.

Without this designation, Title I services including those servicing in-school and out-of-school youth and training opportunities provide through ETPL will not be available for eligible individuals seeking training.

6. How the state plans to monitor waiver implementation, including collection of measurable waiver outcome information.

Since initial implementation, operation of Title I activities by the State has reduced overhead and maximized the available monies directed toward employer engagement and program services, including training and work-based learning opportunities. In alignment with our WIOA goals, the State has emphasized spending of program funds toward those individuals most in need and who can benefit from intensive case management and training while also supporting businesses and employers.

This has also allowed for strengthened administrative oversight and accountability processes. Prior to this, administrative deficiencies resulted in less than desirable performance indicators and low participant enrollment. A strengthened administrative structure under this waiver will continue to minimize disallowed costs, redirect administration funding to direct clients' services, increasing performance and enrollment across all programs.

The State will continue to conduct annual monitoring of both fiscal and programmatic activities across all Title I services. For the Kauai County Title, I operations, the DLIR will contract with an external agency to conduct monitoring in accordance with U.S. DOL regulations and the ETA's Core Monitoring Guide.

This monitoring procedure will be similar to what is currently conducted for Title III – Wagner Peyser Act program services that are currently administered through the DLIR WDD.

The appeals process is described in WIOA Bulletin 03-15:
<http://labor.hawaii.gov/wdc/files/2013/01/SN-03-WIOA-03-15-Initial-Designation.pdf>.

An appeal must be in writing and filed with the WDD within fourteen days after notification of the decision. The appeal must contain a specific statement of the grounds upon which the appeal is sought. The process allows an opportunity for an informal resolution and a hearing to be completed within 60 days of the filing of the grievance or complaint. The WDD will refer the appeal to the DLIR Employment Security Appeals Referees' Office, that office will have 90 days to review the appeal and make a recommendation to the Governor. The final decision rests with the Governor or designee. If the appeal does not result in designation, the entity may request review by the Secretary of Labor. The second level of appeal must be sent within 14 days.

Appeals Process

If a partner appeals the determination of state infrastructure funding contributions, the partner may appeal the determinations through the following process:

1. Within 30 days from the date of receipt of the notice of state infrastructure funding determination by the state, the partner(s) may file an appeal to the Director of the State Department of Labor and Industrial Relations in writing indicating why the partner disagrees with the determination of the state infrastructure funding contribution.
2. The Director of the State Department of Labor and Industrial Relations will review the request for appeal.
3. The Director of the State Department of Labor and Industrial Relations will notify the

partner of its actions in writing.

2. STATEWIDE ACTIVITIES

WDD as the current administrative entity for Title I funds, issued WIOA bulletins starting in 2021. These bulletins provide policies and guidance for the statewide workforce development system for the use of state funds for the workforce investment activities. For accessibility to the workforce system, WIA and WIOA bulletins are posted on the WDC website at: <http://labor.hawaii.gov/wdc/wia-docs/>. (Other policies are listed under the Operating System section.)

The following policies and procedures for statewide funds have been issued: Fiscal Policies/Budget Documents:

SN-12 WIOA Bulletin 12-16 One Stop Infrastructure Funding and Memoranda of Understanding

Hawai'i's AJCs provide seamless service delivery to employers and participants. The system is dependent on all partners agreeing to shared goals, information-sharing, cost-sharing, and committing to a coordinate effort to achieving them.

The following guidelines and goals have been established:

- Services are delivered “seamlessly” so that participants are unaware that the services provided at the AJC are being delivered by multiple agencies and through multiple funding streams.
- Comprehensive AJCs will provide the full range of services available through designated One-Stop partner programs.
- Comprehensive AJCs will serve as a primary location for employers and job seekers where they receive service provided in a seamless, integrated, and efficient manner.
- AJCs can connect job seekers to the services they need to address their skills gaps: All work-related programs and services are either offered on-site or services are easily accessible through the AJCs.
- Local employers and employer organizations are active partners in the improvement of the local AJCs.
- Local area plans will also indicate how the AJCs will serve employment, re-employment, and training needs of unemployment compensation claimants; the long-term unemployed; the under-employed; dislocated workers (including trade-impacted dislocated workers and displaced homemakers); low-income individuals (including recipients of public assistance); migrant and seasonal farmworkers; veterans; individuals with limited English proficiency; homeless individuals; ex-offenders; older workers; individuals training for non-traditional employment; and individuals with multiple challenges to employment.
- To achieve this, local AJCs are required to move to a fully integrated platform and encouraged to leverage additional local resources as well. This includes exploring centralizing services through single locations so overhead costs are reduced. It will also include moving the provision of services through local centers toward functional integration, wherein customers from multiple programs are served together in common and fundamental processes such as workshops, assessment and career planning, job search/development and case management activities, allowing WIOA Title IB programs to be just one of several sources supporting these critical activities.

Hawai'i's AJCs and Youth Programs use the HireNet Hawai'i for common intake, case management, statewide labor exchange, and reporting for different programs. The system

includes web-based self-service features that facilitate job searches, career exploration, job matching, job postings, and skills assessment for employers and job applicants. Case managers also have access to these tools, and they have the added capability of viewing services provided to an individual within their local area. This reduces duplication and allows for more effective coordination of services among providers. Self-service resource rooms available in each AJC which include computers with internet access and shortcuts to other web-based job search and recruitment tools, labor market information, and career exploration. The State and all the counties have separate fiscal management systems.

HireNet Hawai'i flags veterans with significant barriers to employment and other covered persons eligible for JVSG DVOP services who enrolled for AJC services. Notice of these covered persons is automatically sent to the designated DVOPs and other AJC staff for further services. Unemployment Insurance (UI) has a policy that job-seeking UI claimants must enroll in the Wagner-Peyser labor exchange and have an online resume to qualify for UI benefits. Most new claimants without a job attachment are also mandated to attend RESEA sessions delivered by DLIR Workforce Development Division. The State encourages co-enrollments to maximize services for optimal benefit to the jobseeker.

Co-enrollments and their benefits are often highlighted in training provided or hosted by the State for local areas and their providers. For example, an all-day in-person training session co-hosted by Region 6, DOL ETA, DOL VETS, and the State in Honolulu on December 4, 2023 for local area staff, including JVSG staff, featured a session about the advantages of co-enrollments to improve veteran employment outcomes. Data showing the number of veterans served in JVSG and other programs were shared, and local areas developed action plans to co-enroll more veterans. In-person training in June 2023 that included all local areas and AJC staff also emphasized the value of co-enrollments among different programs. Different examples of co-enrollments were provided at all training sessions.

Statewide activities funds will be limited to 15% of the combined funding streams for the adult, youth, and dislocated worker programs. Of the 15% allocation, state level administration funds will be limited to 5% and utilized for costs of administrative functions for WDD and its support staff. The remaining 10% of the statewide activities allocation will be utilized for costs related to state-level program management, evaluation and improvement including maintenance costs of HireNet Hawai'i, ETPL system, and state monitoring.

The Governor's reserve was used to support WDD staff who provide services to the Council and the Council's eight committees and quarterly board meetings by posting meeting agenda, writing meeting minutes, providing operational and grant-specific guidance, performing subject matter research, and providing reports as requested.

WDD staff also attend partner meetings representing the workforce system. The partner meetings include the Oahu AJC partner meetings, the Native Hawaiian Education Council, the Career and Technical Education Coordinating Advisory Council, the P-20 Data Exchange Partnership, Hawai'i Language Roadmap Advisory Council, State Rehabilitation Council, among others.

The Workforce Information and Data Coordinator responds to questions from local areas, manages passwords and access to the HireNet Hawai'i system, writes WDD data policies, manages the Re-employment Services Integration Dislocated Worker Grant which funds the development of the On-line Workforce Referral System, is a liaison with the system's vendor, Geographic Solutions, and provides training and technical assistance to the Title I staff and the AJCs. The Data Coordinator is also responsible for submitting all required federal performance reports and submitting requests for the Wage Record Interchange System (WRIS) and to ensure the transition into new systems. For example, the transition from WRIS to the new State Wage Interchange System (SWIS).

Staff are also the WDD liaison to LWDB staff to serve as the grant resource, review program and fiscal reports, make recommendation on corrective actions, perform program monitoring, provide training and orientation to LWDB staff and board members, review annual budget plans and local area plans, draft contracts with local areas, and ensure compliance with those contracts. WDD staff also prepare and submit required fiscal and program reports and respond to requests for information. WDD program staff conducts annual on-site program and financial management monitoring of the LWDBs.

Other offices supporting the state's WIOA administrative functions are the DLIR Fiscal Office for financial management, reporting, and monitoring; Attorney General's Office for reviewing proposed contracts and addressing legal issues; Unemployment Insurance for wage matches; used in plans and allocations. The WDD will pay an appropriate share for these services.

The Governor's reserve also funds the Statewide Rapid Response Coordinator position. The Coordinator is responsible for drafting and implementing the State's Rapid Response Policy; coordinating Rapid Response sessions, tracking results of the sessions, reviewing Rapid Response budget and expenditures of the local areas as well as the cost per participant and is accountable for the effectiveness of the program.

WDD staff also write responses to discretionary grants, submit reports, review budget, financial, and expenditure reports. During the legislative session, WDD staff monitors workforce-related measures, presents, and submits testimonies at hearings.

Rapid Response and Layoff Aversion

Statewide rapid response activity for dislocated workers is supported by American Job Centers (AJCs) located on Oahu, Maui, Kauai, and Hawai'i Island. Local area AJC rapid response teams (Team) and WDD collaborate to plan and conduct rapid response activities that help dislocated workers return to work as quickly as possible following layoff or job loss.

Statewide Rapid Response Activity

The DLIR and WDD received 24 Worker Adjustment and Retraining Notification (WARN) letters from Oahu businesses between July 1, 2018 and June 30, 2019. Between January 2020 and December 2020, during the heart of the COVID-19 pandemic, WDD captured information submitted to DLIR and WDD (see tables below). During this time 169 WARN letters were received statewide.

During PY 22, forty-two (42) WARN notices were submitted to DLIR, down from a high of 144 in PY 20, at the height of the pandemic. At that time, 30,462 workers were affected throughout the State. Six RR events were held in PY 20. In PY 21, thirty (30) employers issued WARN notices. Of the forty-two (42) notices issued in PY 22, only twenty-one (21) companies had more than 50 employees. One company later canceled their layoffs. Fourteen of the employers who issued WARN information included data about sales of the business to other entities which had intentions to hire or offer employment to employees facing layoff, rather than wholesale business closures. Overall, 4,355 workers were potentially affected in PY 22.

Statewide Breakout of Employees Laid-Off or Furloughed (January 2020 – December 2020)

	Temporary	Permanent	Both	Total
Oahu	28	41	9	78
Hawai'i	9	6	0	15
Maui	21	13	2	36
Kauai	12	7	1	20

Statewide	1,028	0	0	

Out-of-State	0	1	0	
	34,007	12,306	372	

Rapid Response Policy

Under the Rapid Response policy issued in August 2020 Rapid Response funds will be distributed to WDD to provide layoff aversion and RR services. The WDD staff will coordinate RR services with Title I DW Service Providers, UI, and TANF.

Rapid Response teams are comprised of staff from various programs from the AJCs and other partner programs which may not be co-located at the centers. Once a rapid response session is scheduled, a unique code is used in HireNet Hawai'i to track the attendees/companies that utilize rapid response services. This tracking system allows the AJCs to collaborate with AJC partners to co-enroll dislocated workers into all WIOA programs for which they are eligible. Attendees at rapid response sessions are asked to sign in with their contact information allowing AJCs to follow up. Rapid response recipients can also be tracked through Unemployment Insurance services.

WDD issued WIOA Bulletin 39-20 announcing the Statewide Rapid Response Standard Operating Procedure Manual issued on August 24, 2020, rescinding WIOA Bulletin No. 31-19, Statewide Rapid Response/Layoff Aversion Policies and Procedures, issued July 3, 2019. See this link: <https://labor.hawaii.gov/wdc/files/2020/08/Rev-Final-Signed-WIOA-Bulletin-39-20-Rapid-Response-Standard-Operating-Procedures-Manual-8.25.2020.pdf> for the bulletin.

The link to the Manual is found here: <https://labor.hawaii.gov/wdc/files/2020/08/Attachment-1-RapidResponse-SOPManual-v1.2.0-8.24.2020.pdf>

Layoff Aversion

WDD's Statewide Business Services Framework plan recognizes that establishing relationships with employers is essential to developing ongoing, consistent, and sought-after services with them. Developing business services teams at the AJCs is in its beginning stages. The strategy for layoff aversion is for the business services teams to develop relationships with employers in their local areas; use the networks of the private sector employers on their local boards to expand their contacts and to provide information on industry trends and identify potential red flags; to develop other sources of early information on potential issues within their local areas; and to develop responses to address the identified issues. The private sector employers on the LWDBs serve as mentors to the business services team.

LWDBs have started to establish Employer Engagement committees of their boards. These Committees will help develop the teams, provide guidance and recommendations, ensure professional development, establish specific goals for the teams, and track progress.

HRS §127A Emergency Management is Hawai'i's policy and procedure for responding to disasters, establishes local organizations, confers emergency powers to the Governor and county mayors, and provides programs, in cooperation with other governmental agencies, the private sector, and nonprofit organizations.

In the instances of natural disasters, the Governor, the Mayors of the four counties, the

State's Department of Defense, Hawai'i Emergency Management Agency (HI-EMA) and the counties' Emergency Management Departments assess damages, coordinate and deploy local and state services, including as necessary, the Hawai'i National Guard, DLIR, DHS, DOH, local emergency responders, and also coordinate with non-governmental agencies and service providers such as the American Red Cross, local community groups, and churches. Request for assistance is generally initiated at the county level. The Red Cross determines with HI-EMA needed shelters and their locations and necessary staffing. The Federal Emergency Management Agency (FEMA) sends staff to those locations along with participating state and local agencies to provide needed services.

The State of Hawai'i Office of Planning issued "Natural Disaster Economic Recovery Strategy" (December 2014) which outlined existing plans (page 12) at the federal, state, county, and community levels (http://files.hawaii.gov/dbedt/op/spb/2014_unders_final.pdf). The recovery strategy was developed by a diverse advisory group and stakeholders from governmental, non-governmental, community, and private sector organizations. Within the defined goal of "Forge partnerships between large and small businesses with government agencies to promote coordinated efforts for disaster preparedness, response, and recovery;" there is an opportunity for WDD's State Rapid Response Coordinator and for the County level coordinator to engage employers and employer groups by partnering with this preparedness effort to develop relationships prior to disasters and to provide information on employment services, layoff aversion and incumbent worker training, and as part of disaster recovery, provide Rapid Response services and funds in the local area where businesses are forced to lay off workers. WDD or the affected county, in consultation with the Mayor, the Director of DLIR and the Governor, may apply for a Disaster Dislocated Worker Grant (DDWG) during the recovery period. One of the implementation recommendations is that the State expand the use of USDOL Emergency Grants to support economic recovery and design recovery programs to maximize efficient use of those funds.

The FEMA Disaster Declaration includes the availability of public assistance funding for the affected counties.

Use of Funds:

1. The DDWG creates temporary employment to perform demolition, cleaning, repair, renovation, and reconstruction of damaged and destroyed public structures, facilities, and lands located within the designated disaster area. Work on private property may only be performed if workers from units of local government are also authorized to conduct, and currently perform, such work.
2. The duration of temporary employment must be established and is limited to public and private non-profit agencies. The maximum level of wages paid to a participant is established, excluding the cost of fringe benefits.

Eligible Individuals:

1. Workers temporarily or permanently dislocated (unemployed) because of the disaster (dislocated workers as defined by WIOA as those who are unemployed and do not receive

UI compensation or any other type of income support); and

2. Individuals who are long-term

unemployed. Actions:

1. When State and County partners decide to submit a DDWG, the State Rapid Response Coordinator (SRRC) will apply which includes a fully documented work plan and budget based on:
 - a. Identification of the temporary jobs and worksites which were or will be created;
 - b. Timeframes for project activities; and
 - c. SRRC monitoring and oversight of the grant.
2. Local staff working with Local Boards of the affected counties develop aspects of the plan.
3. After the DDWG is awarded, the State must provide a fully documented work plan for the assistance within 60 days.

Disaster Unemployment Assistance (DUA)

1. The SRRC will also coordinate with Unemployment Insurance (UI). When coordinating with UI, the SRRC will ensure that UI knows the event is being planned as a response to a natural disaster. This information will be provided in the notification. If there is a Presidential declaration for Disaster Unemployment Assistance (DUA), it may impact the information UI provides at a Rapid Response event.
2. DUA provides UI benefits to individuals who are dislocated (unemployed) due to a natural disaster.
3. The FEMA Disaster Declaration will support justification for implementing DUA.
4. UI Telephone Claims Center (TCC) staff are refreshed on DUA procedures so that they may assist customers calling the center with questions related to filing for benefits.
5. The availability of DUA aligns with any previous claims currently on file.

Rapid Response

1. Options for meeting places across Hawai'i will depend on the type and severity of the natural disaster along with the location of the affected workers. If there is a Presidential declaration for Individual Assistance (IA), FEMA will open Disaster Recovery Centers (DRCs). These centers may not be ideal for holding a formal presentation but will likely be a gathering place for those affected by the natural disaster. Other location options where the Rapid Response event may take place include Red Cross Stations, community buildings not affected by the disaster, and the nearest American Job Center. Each county has a Rapid Response Team which is deployed to respond to emergency situations. Honolulu's Rapid Response Team is available for deployment to supplement the county team if necessary.

When layoff events impact sufficient numbers (amounts vary from one local area to another) of employees, the locally assembled Rapid Response Teams provide on-site employee meetings that provide workers with information and access to unemployment compensation benefits, comprehensive AJC services, and employment and training activities including information on the Trade Adjustment Assistance program (TAA) and DDWG.

2. When appropriate, the Rapid Response Team will provide additional services on-site to employees, which may include:

- a. Group or Individual Registration
- b. Job Search Workshops
- c. Individual Assessment/Counseling
- d. Job Search Strategies and Techniques
- e. Resume Writing
- f. Interviewing
- g. TAA Orientations
- h. Job fairs/Company matching
- i. Other services as necessary

3. The Team(s) visit community locations in significantly impacted areas (i.e., shelters, libraries, schools, etc.) to assist businesses and impacted individuals, and to provide on-the-ground information and support regarding state-level efforts.

4. Staff does the following for impacted businesses and individuals:

- a. Register them in HireNet Hawai'i to facilitate eligibility for program services;
- b. Connect impacted workers with appropriate employment opportunities through the DDWG.
- c. Assist impacted workers to apply for DUA benefits; and post links and emergency phone numbers where businesses and workers can contact appropriate agencies for services.

Employers will send notices of closings and layoffs under the federal WARN Act and a state plant closing law to the DLIR Director. Upon receipt, the Director's Office will forward them to WDD, DLIR Unemployment Insurance Division. Companies also will transmit a notice required under WARN to the Mayor of the county in which a closing will occur.

WDD will immediately initiate contact with the affected employer to obtain details about the impending event and share information about AJC services for affected workers. If a union represents affected workers, a labor-management committee will be formed, if feasible, to jointly assess needs and implement Rapid Response services, with the understanding that services will not be a forum for any collective bargaining issues. Information about Trade Adjustment Act (TAA) benefits and qualifying conditions will be provided to the

employer/Labor-Management Committee. As of July 2022, the TAA program is in termination status, so that only workers covered under previously approved petitions will be served. If and when the TAA program is reinstated, the employer or union will be encouraged to file a TAA petition for employees who may be eligible for TAA. If they do not file a petition, the AJC or WDD will submit one to ensure that eligible workers receive TAA benefits.

Rapid Response Team: If the number of workers to be laid off is 50 or more, WDD will mobilize a Rapid Response Team for deployment at the employer's site or another site that is convenient for affected workers.

Core members will consist of the following:

- DLIR Unemployment Insurance Division
- AJC Operator
- Title I DW Services Provider
- Workforce Development Division

Depending on needs of the workers, other Rapid Response Team members will include, but not be limited to, the following:

- State Department of Human Services
- Training Providers
- Banks/Credit Unions
- Consumer Credit Counseling Center
- Community Based Organizations
- State Department of Health

Group orientations on AJC services will be planned and scheduled with the employer or Labor-Management Committee, during or around work hours and prior to layoffs, to the extent possible. Each local area has dedicated laptops to use during Rapid Response sessions to enable employees to register in HireNet Hawai'i at each session when assistance is available from Rapid Response staff.

Topics to be covered during Rapid Response group sessions will be customized for each layoff and generally will include the topics below. Approaches will depend on type of employer and educational and skill levels of employees.

- Unemployment Insurance benefits and eligibility requirements.
- Work registration requirements and jobs listed in HireNet Hawai'i.

- Labor market information and trends.
- Job counseling and job training programs, including remedial/literacy education.
- Priority of services and additional services for veterans.
- TAA benefits (if eligible).
- Financial assistance such as welfare, Supplemental Nutrition Assistance Program (formerly called Food Stamps), childcare subsidies, and subsidized health insurance; and
- Survey of training needs. (This survey will be used to determine the kinds of services needed and projected costs, which will help plan training and other services and assist in determining whether formula funds are sufficient or WIOA National Emergency Grant funds should be requested.)
- Other Rapid Response topics, such as the following, will be included for group sessions, as appropriate:
 - COBRA.
 - Credit counseling and loan assistance.
 - Grief/trauma counseling, or other mental health services.
 - Housing assistance, and/or
 - Social services provided by Community-Based Organizations.

Because of the breadth of topics covered during Rapid Response sessions, only those staff members who are experienced and knowledgeable will participate as presenters. Services for individuals, such as filing for UI (after layoff), registration in HireNet Hawai'i, and applying for financial assistance may be provided immediately following group sessions, if workers need assistance for these services. Job fairs also will be scheduled, as appropriate, specifically for the laid-off workers in conjunction with, or shortly after Rapid Response sessions. In addition, job search workshops and literacy or skills training may be provided for the workers to prepare them for the job market prior to or shortly after layoff.

In addition to reacting to layoff notices, Rapid Response will include business service teams to expand the rapid response infrastructure in each local area so that Rapid Response becomes pro-active and on-going to serve businesses and their workers more effectively. Prior to layoffs occurring, during which businesses are in crisis management mode, closer working relationships with local businesses will be developed to support workforce needs of employers in a more consistent and comprehensive manner through their cycles of growth and decline.

More services and tools of the One-Stop system will be made available to businesses on a continuing basis through an aggressive outreach effort, and businesses will make better use of these services to improve the capacity of their workforce. These strategies give businesses more opportunities to avert layoffs by sustaining a resilient and competitive workforce. AJC staff will be trained to detect early warning signs of possible financial difficulties of businesses

and provide advance assistance and information to ease any difficulties should a plant closure occur. The improved collaborations with businesses will enable AJC staff to quickly recognize re-employment opportunities for laid off workers. In addition, stronger collaborations with more partners will be developed to expand and better coordinate the network of resources for more assistance toward employers and workers.

B. ADULT AND DISLOCATED WORKERS PROGRAM REQUIREMENTS

1. WORK-BASED TRAINING MODELS

With the low-unemployment rate the State is experiencing, but also with major skills gaps in different sectors, apprenticeships and work-based training will be an important method to narrow the gap and fill those jobs with employees with the requisite skills. The WDC Board members representing training and trade organizations and the Board's Employer Engagement and Sector Strategies and Career Pathways committees are tasked with creating the linkages necessary to increase work-based training and apprenticeship opportunities and to expand those programs to new sectors and industries that are not thought of as traditional sponsors of work-based training and apprenticeships; but who cannot meet their employment needs because of skill gaps in the workforce. The committees will also ensure that participants earn industry recognized certifications; that employers have input into the content of the training programs; that the programs are designed to provide high quality training; and that the outcomes of the programs result in highly skilled employees and employers have a qualified pool of applicants.

The committees' goals also include increasing high-quality, work-based learning opportunities for secondary and postsecondary students that lead to industry recognized credentials; and identifying new industry-recognized credentials or work-based programs that give companies confidence in skills of new hires and provide workers with more mobility.

The appropriateness of work-based training for participants is made after a needs assessment. The business services team in each AJC develops work-based training opportunities in the local community. These opportunities include internships, transitional jobs, paid and unpaid work experience, on-the-job training, customized training, and incumbent worker training. An assessment of needs of employers also determines the need to establish incumbent worker training and customized training. The business services team and the career counselor for the participant are responsible for obtaining feedback and review of the program from both employers and participants on the quality of the experience to use for continuing improvement of work-based training.

The LWDB's Employer Engagement Committee will review the work-based training offered in the local area to ensure that the trainings are aligned to industry and workforce development standards and needs, including those occupations and occupational clusters that are in-demand in the local area. LWDBs will prioritize those trainings that lead to jobs with a living wage. The Employer Engagement Committees can also serve as mentors to members of the business services team and connectors to local employers for potential work-based training.

In addition, the Employment and Training Fund (ETF) is funded by the State through an assessment of .01 percent of taxable wages. It was established by the Legislature in 1992 (HRS §383-128). ETF's purpose is to create a more diversified job base with an emphasis on small businesses by serving the training needs for industries included in the State's economic development strategy as recommended by DEBDT, and training needs identified by the local boards, employer organizations, industry or trade associations, and labor organizations.

ETF funds three programs:

1) Statewide and Countywide Training Grants through ETF's Macro Program

The Macro Program provides grants to business associations and consortia to develop customized training projects where there are critical skill shortages. The program enhances the State's employer engagement efforts by outreaching, enrolling, and facilitation of contacts with employers and training providers for the delivery of incumbent worker training. These grants provide "seed money" for innovative education and training curricula and program design. Each plan must include, but is not limited to, a needs assessment, project guidelines, marketing and delivery plan, and a self-sufficiency component to ensure the continuation of training beyond the grant period. Business and industry consortia are required to provide at least 50% cash and/or in-kind contribution to strengthen their commitment to the project.

2) Employer Referral Program also known as the Micro Program offers training opportunities to individual businesses.

This program enables employers to register their workers for existing short-term, non-credit training courses offered by ETF-approved public and private training providers to upgrade employees' skills and capabilities to meet the competitive demands of the workplace. The program is open to all within a company: owners, managers, supervisors, and workers. The ETF will pay 50% of the cost (up to a \$800 tuition cap) for any course taken that meets its eligibility criteria. Employees must be referred by their employer.

3) Volunteer Internship Program (VIP)

Developed by DLIR in January 2011, the Volunteer Internship Program (VIP) was created to stimulate job growth in Hawai'i. Initial funding for VIP was derived through the Reed Act in early 2010 in response to significant job loss at the time. It is funded through the States' ETF program. VIP allows job seekers, especially those receiving unemployment insurance (UI) benefits, to volunteer at businesses to explore a career field, exposure to the career, and workforce training. During the internship, claimants are exempt from their three weekly job searches and continue to receive their UI benefits. Upon successful completion of training, interns receive certification of the job skills acquired and consideration for employment. Benefits to businesses include pre-screening of qualified individuals, ability to assess the intern's readiness for employment and limited medical coverage for injuries sustained by an intern. The opportunity to train through VIP is limited to 16-32 hours per week for 4-8 weeks. In PY 2016 there were 123 intern-employer matches in the State of Hawai'i.

DVR's Summer Youth Program which places youth in work-based employment is described in other parts of the plan.

Work-based learning is a statewide component throughout an individual's learning pathways.

Hawai'i's Career Pathway System, described in Section (c) (1), the Career and Technical Education System, and Perkins V are aligned to provide high-quality grades 6-16 formal learning experiences paired with work-based learning experiences that provide all learners the knowledge, skills, and competencies to fully participate in, contribute to, and benefit from Hawai'i's economy.

2. REGISTERED APPRENTICESHIP

Hawai'i has adopted standards that conform to federal regulations and apprenticeship sponsors that meet the standards of apprenticeship may seek approval and registration by the DLIR Director (HRS §372-3). The legislatively established State Apprenticeship Council (SAC), an advisory body to the DLIR Director on matters concerning apprenticeship programs, consists of an equal number of businesses and labor organization members, DLIR Director, and community college, to review proposed new apprenticeship programs and their modifications and to promote the expansion of apprenticeship programs (HRS §372-4).

Three (3) federal grants were awarded to DLIR to promote the expansion of apprenticeship programs into other occupations and industries and encourage diversity in the apprentice population. As a time-honored workforce strategy, apprenticeship programs can now benefit more employers, industries, and occupations with the use of these grants to support the development of new programs. The American Apprenticeship Initiative grant originally targeted apprenticeship programs in Information Technology, and healthcare occupations were added later. Under the State Expansion Grant, apprenticeship programs primarily in healthcare and culinary occupations were developed. This grant used an intermediary, Kapiolani Community College, to perform most of the paperwork involved in developing and reporting apprenticeship programs for employers. This has proven to be an appealing feature for businesses and has succeeded in finalizing the participation of many more employers. The Accelerator grant was used mainly to promote development of apprenticeship programs and encourage diversity in apprenticeship programs through forums for businesses, educators, and workforce development professionals. It was used to convert internal manual records into electronic records to streamline reports and access data more quickly. Although these grants ended in 2021, they built the groundwork for the future growth in the Registered Apprenticeship program, which seeks to include more non-traditional apprenticeship programs.

The WDC board's Sector Strategies and Career Pathways and Employer Engagement Committee will invite input from the SAC and to be part of a sub-committee to provide input on apprenticeships, skill gaps, industry needs, industry recognized certification, and best practices.

WDC members include those conducting workforce training and apprenticeship programs within their organizations. Efforts to increase employer engagement will encourage employers to take a proactive role in defining training standards and shaping training curriculum and program design so program graduates will be more likely to succeed in the employer's workplace.

Notices of recruitments for apprentices are shared with One-Stop Centers so they can refer suitable individuals to apprenticeship sponsors; lists of active apprenticeship programs and their minimum requirements are maintained on the DLIR WDD website; and coordination between AJC services and apprenticeship programs are supported to the extent possible.

All AJCs and providers are then notified when or if Registered Apprenticeship Programs are added to the Eligible Training Provider (ETP) List.

Notices of recruitments for apprentices are shared with the AJCH's so they can refer suitable individuals to apprenticeship programs; lists of active apprenticeship programs and their minimum requirements are maintained on the DLIR WDD website; and coordination between AJC services and apprenticeship programs are supported to the extent possible.

All Registered Apprenticeship Programs are eligible to be Eligible Training Providers (ETP) and can be added to the ETP List if they agree and request to be. All AJCs and providers are then notified when or if Registered Apprenticeship Programs are added to the Eligible Training Provider (ETP) List

3. TRAINING PROVIDER ELIGIBILITY PROCEDURE

WDD issued a Change 1 to the ETP policy on July 3, 2018. This new policy replaced the Kumuao website, which was in on a separate site with a site accessible from the WDD homepage. The ETP module has been added. so that the ETP list will be accessible from that system (HireNet) starting in 2022.

The new Eligible Training Provider module will give authorized training providers a secure portal to register and apply for recognition as an Eligible Training Provider. Providers will be able to create or modify course information guided by a wizard that prompts providers to provide key data on their institution and to create and submit programs for WIOA certification. The system will also allow providers to report participant enrollment and outcomes. In WIOA Bulletin 38-20, a policy was established for the submission of Student Data by Eligible Training Providers for Program Years 2018 and 2019, allowing for the establishment of a secure data collection tool and data submission guidelines.

The current policy, including appendices is posted at:

<https://labor.hawaii.gov/wdc/files/2016/06/SN-10-WIOA-Bulletin-10-16-Eligible-Training-Provider-Policies-and-Procedures.pdf>

<https://labor.hawaii.gov/wdc/files/2018/07/Final-Signed-Change-1-WIOA-Bulletin-10-16-ETP-policies-7.3.18.pdf>

Attachment-1-ETP-ReportingTool-UsersGuide-v1.2.2-8.6.2020.pdf (hawaii.gov)

In the policy, WDD established criteria, information requirements and procedures regarding the eligibility of training providers to receive funds. This guidance provides criteria and procedural instruction on transitional, initial, and subsequent eligibility requirements, establishes enforcement and appeal procedures, and outlines the roles and responsibilities of the State and Local Boards for maintaining the integrity of the ETPL and the quality of the

training programs offered on it. All providers are required to submit information on performance outcomes to determine eligibility for listing and to facilitate informed customer choice. It is important to note that eligibility for listing is based on the performance outcomes achieved by the entire cohort of students in each program. The policy provides the minimum requirements for Local Boards to use in establishing their own policies and procedures for soliciting and approving training provider programs and classes for inclusion on the ETPL. Local standards may be stricter than those of the State Board.

Providers apply to the LWDB where the training is to be provided. The LWDB reviews the applications for compliance with the established criteria, including whether the training meets the in-demand industry or in-demand job in the local area. The LWDB recommend approval to the provider and forwards the application for approval by the WDD. If approved, WDD adds the provider and their program to the ETP list which is posted on the WDD website.

The State and Local Boards shall use the following procedures to establish the eligibility of Training Providers to receive WIOA funds before WIOA participants are enrolled into their programs:

Eligibility for New Providers

1. New providers must be evaluated based on the requirements set forth in WIOA, as follows:
 - a. Providers must apply to the LWDBs for the training program(s) they wish to offer. In addition to any local requirements, providers must provide the information outlined in "Business and WIOA Requirements" and any other information required by the LWDB; and agree to submit required student and performance data. Training Providers must submit training participant records by August 31st or the next business day following the end of the most recent program year.
 - b. Providers are eligible only for programs that are only approved and on the ETPL.
 1. Providers must submit evidence of accreditation and/or licensure from the appropriate state or other governing body.
 2. Distance learning programs are eligible only when offered by institutions that are fully accredited by a recognized accrediting body.
 3. Initial eligibility is limited to a 12-month period commencing on the date when initial eligibility is approved for the applicable program. [WIOA Section 122(a)(4)(B), TEGL 41-14]
 4. Once the training program is on the ETPL, the State must terminate eligibility if the eligibility requirements are no longer met, or the institution commits a substantial violation.
 5. A "substantial violation" is when the ETPL: (1) fails to meet the State's procedure for timely and accurately submitting required information for annual ETP performance reporting; (2) fails to meet the State's procedure for timely and accurately submitting all required information for initial or continued eligibility; (3) intentionally provides

false information; or (4) violates any provision of WIOA Title I or its regulations, including the nondiscrimination and equal opportunity provisions.

6. The State will consider exceptional circumstances beyond the ETP's control, such as natural disasters, unexpected personnel transitions, and unexpected technology-related issues, when determining if an ETP committed a substantial violation for failing to timely and accurately submit required information. If it is determined that exceptional circumstances existed, then a substantial violation did not occur. If it is determined that an ETP committed a substantial violation, the ETP is prohibited from having its program published on the ETPL for a minimum of two years and it is liable to repay any WIOA Youth, Adult, and Dislocated Worker Program funds it received during the period of noncompliance.

7. Registered Apprenticeship Programs

In Hawai'i, for apprenticeship program to be considered "Registered", all programs must go through a process of approval to be registered with the State DLIR. Only programs registered with the State DLIR will be recognized by the United States Department of Labor (USDOL) Office of Apprenticeship. The USDOL is responsible for apprenticeship programs on federal property such as Pearl Harbor Naval Shipyard, and WDD as part of the State DLIR is responsible for other registered apprenticeship programs in the state as the SAA. For a list of construction and non-construction apprenticeship programs and their sponsors that are registered (approved) with the DLIR, go to: <https://labor.hawaii.gov/wdd/how-do-i-join-an-apprenticeship/>

1. Registered Apprenticeship programs are automatically qualified for the ETPL as long as the program remains registered with the USDOL, Office of Apprenticeship; the State DLIR or until the program asks to be removed from the ETPL by notifying WDD by email at: dliir.workforce.council@hawaii.gov.
2. Registered Apprenticeship sponsors who wish to be listed on the ETPL will send a completed application to WDD by email at dliir.workforce.develop@hawaii.gov. The application may be found at: <https://labor.hawaii.gov/wdc/add-a-registered-apprenticeship-program-to-the-eligible-training-provider-list/>. The following information is needed:
 - a. Occupations included within the Registered Apprenticeship program.
 - b. The name and address of the Registered Apprenticeship program sponsor.
 - c. The name and address of the Related Technical Instruction provider, and the location of instruction if different from the program sponsor's address.
 - d. The method and length of instruction; and,
 - e. The number of active apprentices.

1. At the end of each program year, all Registered Apprenticeship Programs that were either voluntarily or involuntarily deregistered. will be removed from the list.
2. Registered Apprenticeship Program sponsors that do not provide the Related Technical Instruction (RTI) portion of the program may be required to submit additional information about their educational provider, including the cost of instruction.
3. Pre-apprenticeship programs do *not* automatically qualify for the ETPL. They are subject to the same requirements as regular ETPs.

Apprenticeship Programs

In Hawai'i, the apprenticeship program and its sponsor must be registered (approved) by the United States Department of Labor (USDOL) Office of Apprenticeship or the State Department of Labor and Industrial Relations Workforce Development Division (WDD). The federal DOL is responsible for apprenticeship programs on federal property such as Pearl Harbor Naval Shipyard, and WDD is responsible for other apprenticeship programs. For a list of construction and non-construction apprenticeship programs and their sponsors that are registered (approved) by WDD, go to: <http://labor.hawaii.gov/wdd/home/job-seekers/apprenticeship/type-of-apprenticeships-available//>

1. Registered Apprenticeship programs are automatically qualified for the ETPL as long as the program remains registered with the United States Department of Labor, Office of Apprenticeship; WDD or until the program asks to be removed from the ETPL by notifying WDD by email at: dliir.workforce.develop@hawaii.gov.
2. Registered Apprenticeship sponsors who wish to be listed on the ETPL will send a completed application to WDD by email atdliir.workforce.develop@hawaii.gov. The application may be found at: <https://labor.hawaii.gov/wdc/add-a-registered-apprenticeship-program-to-the-eligible-training-provider-list/>. The following information is needed:
 - a. Occupations included within the Registered Apprenticeship program.
 - b. The name and address of the Registered Apprenticeship program sponsor.
 - c. The name and address of the Related Technical Instruction provider, and the location of instruction if different from the program sponsor's address.
 - d. The method and length of instruction; and,
 - e. The number of active apprentices.
4. At the end of each program year, a list of all Registered Apprenticeship programs that were either voluntarily or involuntarily deregistered will be created. These programs will be removed from the list.
5. Registered Apprenticeship program sponsors that do not provide the Related Technical Instruction portion of the apprenticeship program may be required to submit additional information about their educational provider, including the cost of

instruction.

6. Pre-apprenticeship programs do *not* automatically qualify for the ETPL. They are subject to the same requirements as regular ETPs.

University of Hawai'i System

1. The University of Hawai'i (UH) System is exempt from the Hawai'i Compliance Express, proof of liability insurance and proof of accreditation requirements.
2. All programs proposed by the UH System must meet the criteria set by the LWDBs and WDD; and the required information for each must be provided. Programs must also meet all performance criteria and standards set by the LWDBs and WDD.
3. All programs are responsible for submitting performance reports or for ensuring that the program is participating a system that submits reports to WDC.
4. A sample UH System application is provided on the website. LWDBs may adopt this application or develop a local area specific application.

Criteria to become an ETP.

A. Types of Training Providers

1. Training providers must meet one of the following criteria to be eligible for the ETPL:
 - a. Higher education institutions that provide a program that leads to a recognized postsecondary credential.
 - b. Registered Apprenticeship programs under the National Apprenticeship Act.
 - c. Public or private training providers, which may include:
 - i. joint labor-management organizations; and adult education and literacy providers - if services are provided with occupational skills training.
 - d. Local Boards if they meet the conditions of WIOA § 107(g)(1); and
 - e. Community Based Organizations (CBOs) or private organizations of demonstrated effectiveness under contract with the Local Board

B. Licensing

Hawai'i requires significant consumer protection through its licensing requirements. Training providers must be licensed by the appropriate Hawai'i or Federal licensing authority, as required by law.

1. Training providers must be licensed or certified by the appropriate governing board or agency. Specific occupations have governing boards that issue licenses, such as the Hawai'i Board of Barbering and Cosmetology or the Hawai'i Motor Vehicle Repair Industry Board. Other occupations such as Nurse Aide are certified through entities contracted by the State Department of Commerce and Consumer Affairs and pilots or aviation schools are approved by the Federal Aviation Administration (FAA).
2. Trade, vocational, or technical schools are usually licensed by the Hawai'i Department of

Education (HIDOE) unless they are exempt or accredited by another recognized entity. Accredited postsecondary institutions with a physical presence in the state are authorized by the Hawai'i Postsecondary Education Authorization Program (HPEAP), see the HPEAP website and Hawai'i Administrative Rules Title 8 Chapter 101.

3. Private postsecondary training providers, who apply for a Hawai'i Private Postsecondary license and are denied due to a determination that the training program is not vocational in nature, are not eligible to be listed on the ETPL.

4. Training providers that provide adult education and literacy activities in combination with occupational skills training are not required to be licensed. However, the provider of the occupation skills training must be licensed if a training license is required by law.

5. Training providers that provide adult education and literacy activities in combination with occupational skills training are not required to be licensed. However, the provider of the occupation skills training must be licensed if a training license is required by law.

6. Apprenticeships are not licensed but must be registered with the Workforce Development Division in the State of Hawai'i, Department of Labor and Industrial Relations.

C. Training Courses Exempt from State Department of Education Licensure

1. Schools maintained or classes conducted by employers for their own employees where no fee or tuition is charged.
2. Courses of instruction given by fraternal society, benevolent order, or professional organization to its members, and which are not operated for profit.
3. Flying schools qualified under the Federal Aviation Administration.
4. Classes conducted for fewer than five students at one time and the same time.
5. Classes or courses of instruction which are conducted for twenty or fewer class sessions during any twelve-month period.
6. A vocational, hobby, recreation, or health classes or courses.
7. Courses of instruction on religious subjects given under the auspices of a religious organization; or
8. Schools registered by the State Department of Commerce and Consumer Affairs. [Eff 12/1/87; comp 3/15/01] (Auth: HRS §302A-101, §302A-424, §302A-427) (Imp: HRS §302A-1112, §302-A-101, §302-A-424, §302A-425)

D. Business and WIOA Requirements

Training providers must:

1. Meet the requirements of the Hawai'i Post-Secondary Education Authorization Program (HPEAP), Hawai'i Revised Statutes Chapter 305. Refer to: <http://cca.hawaii.gov/hpeap/>
2. Be a legal entity, registered to do business in Hawai'i.

3. Be current with tax obligations as required by Hawai'i Revised Statutes 103D-310(c) and verified by a "Certificate of Vendor Compliance" issued by Hawai'i Compliance Express, <https://vendors.ehawaii.gov/hce/splash/welcome.html>.
4. Obtain from a company authorized by law to issue such insurance in the State of Hawai'i, commercial general liability insurance in an amount of at least two million dollars (\$2,000,000) coverage for bodily injury and property damage resulting from the provider's performance as a training provider. The provider shall maintain in this liability insurance in effect until the provider is removed from the ETPL AND WIOA participants have exited all programs sponsored by the provider.

The provider shall provide to the LWDB a certificate of liability insurance with the provider's ETPL application. The certificate shall provide that the State of Hawai'i, Department of Labor and Industrial Relations, the City and County of Honolulu, the County of Hawai'i, the County of Maui, the County of Kauai and their officers and employees are Additional Insureds.

1. Not be associated with occupations that pay commission only and not be debarred by the state or the federal government as they would not be eligible to be included on the ETPL.
2. Have provided training for at least one year at the time of application and have a proven track record of students successfully completing the programs and meeting all state performance standards. Training providers that have been training in another state for more than a year and have recently opened a new campus in Hawai'i do not need to train a year in Hawai'i to be listed on the ETPL. Registered Apprenticeships do not need to complete a year of training participants to be eligible for the ETPL.
3. Have at least five (5) students enrolled in a program for the minimum performance standards to be used in determining eligibility.
4. Have refund policies specifying when refunds for tuition and other costs associated with the training program will be allowed. Refund policies that indicate that no refunds will be made are not acceptable. Refund policies must be written and published so that students are aware of how to request a refund.
5. Have a grievance policy which provides for due process for students to file complaints with an organization against faculty, staff, or other college employees. Grievance policies must be written and published so that students are aware of how to file a complaint.
6. Agree to payment policies and procedures determined by the LWDBs.
7. Offer training programs that:
 - a. Relate to in-demand industry sectors and occupations in Hawai'i.
 - b. Are aligned with industry sector strategies and career pathways; and Are job driven.
12. Comply with all non-discrimination and equal opportunity provisions of WIOA Section 188 and all other applicable federal and state laws.

13. Provide the information and documentation requested on the “Eligible Provider List Application Form.”

E. Technology-Based Learning

LWDBs must ensure access to training services throughout the state, including rural areas, by approving programs that use technology-based learning and meet all state and local requirements. Training providers using technology-based learning, also referred to as distance, online, web-based, or computer-based learning, must meet the following requirements:

1. Have a mechanism for student interaction with an instructor or instructors.
2. Ensures periodic assessment of each student.
3. Because the student and teacher are not place-or time-bound in distance learning/on-line training programs, the provider must have a policy describing the responsibilities of each party in the distance learning experience.
4. Has a mechanism to track students’ participation in the ETPL training program.
5. Complies with any additional requirements of the LWDB.

F. Other Eligibility Factors

At a minimum, eligibility criteria must include performance expectations. Standards for performance are set by WDD and the LWDBs. Providers must submit accurate and timely data as listed on Appendices C and D of WIOA Bulletin 10-16 Change 1 for all students, not just WIOA participants, in their classes. Program-specific performance data will be verified by WDD at these points:

- when reviewing an application for initial eligibility; and
- every twenty-four (24) months following a determination of continued eligibility (*i.e.*, when reviewing an application for renewal of continued eligibility).

WDD will also consider the following factors when determining the eligibility of training providers:

1. Information reported to state agencies on federal and state training programs other than those provided under WIOA.
2. Record of submitting timely and accurate performance reports; and
3. Other factors as needed.

G. ETPL Performance Standards

The following performance measures will be used in determining the standards for training programs to be included on the ETPL. LWDBs may identify additional measures and/or may propose standards that are higher than the State standards. The State will issue standards at a later date.

1. unsubsidized employment during the second (2nd) quarter after exit.
2. unsubsidized employment during the fourth (4th) quarter after exit; median earnings of students who are in unsubsidized employment during the 2nd quarter after exit; and
3. the credential attainment rate.

H. Evaluation Period

The evaluation period is the last two program years, which begins July 1st and ends June 30th of the second year.

I. ETPL Performance Reports

Training providers must annually submit performance data to WDD. Details on the process to submit the data and the specific data will be provided later. It is suggested that providers begin to develop a process to collect student data.

Beginning July 1, 2018, the provider must compile required student demographic information and performance data for submission by September 30 after the first full year for performance calculation.

Performance results will be made available for all programs on the ETPL to provide customer choice information for WIOA participants. At a minimum, the following levels of performance achieved by all students in all programs on the ETPL will be made available for public distribution. Data must include all WIOA and non-WIOA students who participated in each training program [WIOA § 116(d)]:

1. The percentage of students in unsubsidized employment during the 2nd quarter after exit from the program.
2. The percentage of students in unsubsidized employment during the 4th quarter after exit from the program.
3. The median quarterly earnings of students in unsubsidized employment during the 2nd quarter after exit from the program.
4. The percentage of students who obtain a recognized postsecondary credential or a secondary school diploma or its equivalent (GED or HiSet) during participation or within a year after exit (a secondary school diploma or its equivalent is only counted if the student is also employed or enrolled in another education or training program leading to a recognized postsecondary credential within one (1) year after exit); and
5. The total number of individuals that successfully complete the program of study or equivalent.

J. Notification of Ineligibility or Termination

In rare cases, providers can be or become ineligible and not placed on or is taken off the ETPL for reasons, such as failure to meet standards, submitting inaccurate information, or other violations of WOIA requirements.

K. Application or Initial Eligibility Denials

A training provider or program may be denied initial eligibility for the following reasons:

1. The application is not complete, or information was not provided in a timely manner.
2. The training program does not meet the WIOA definition of training services, which is a program of one or more courses or classes or a structured regimen that leads to:
 - a. A recognized postsecondary credential, secondary school or equivalent.
 - b. Employment, or
 - c. A measurable skill gain toward such a credential or employment.
3. The training program does not result in a federally or locally recognized credential.
4. Performance data is not included with the application or does not meet the minimum performance measures.
5. The training program does not support occupations in demand within the local area.
6. The training provider is not in compliance with the WIOA statute, regulations, or any agreement executed under the WIOA.
7. The State or Local Board determines that the training provider intentionally supplied inaccurate information.

L. Reapplication

When a training provider or program is denied for any reason other than lack of documentation or information, the provider must wait six months to reapply.

M. Denial or Termination Notice

Within ten days after a LWDB determines that a training provider's application does not meet the eligibility criteria, or that a provider's eligibility should be terminated, the LWDB shall issue a denial or termination notice to the training provider. A notice shall be issued listing each training program denied or terminated.

1. The notice shall be mailed to the training provider at the address listed on the application and to the attention of the contact person identified on the application. The notice shall clearly:
 - a. Display the "date mailed".
 - b. Identify the program that was denied or terminated.
 - c. State specific reason(s) for the action; and
 - d. State that the training provider has the right to appeal to the LWDB within 14 calendar days of the date the notice is mailed.

1. The LWDB shall send a copy of the notification to WDD.

N. Training Provider/Program Removals from the ETPL

1. Removal of Training Programs

A training program may be removed from the ETPL for the following reasons:

- a. WDD or LWDB determines that the training provider supplied inaccurate information.
- b. The training program no longer meets the WIOA definition of occupational skills training.
- c. The program does not meet minimum performance standards. If there were no WIOA participants in the training program during the past year, there will be no performance data to review for continued eligibility. The Local Board must examine the demand for the related occupation to determine if there is still local demand for it and decide whether to keep the program on the ETPL for another year. If no WIOA participants enroll in the training program for more than two years, it must be removed from the ETPL.

1. Removal of Training Providers

2. Training providers determined by the LWDB to have intentionally supplied inaccurate information or to have substantially violated any provision of Title I of WIOA or WIOA regulations, including 29 CFR Part 38, must be removed from the ETPL and in accordance with the enforcement provisions of WIOA Section 122(f). A provider who is terminated under these conditions must be terminated for no less than two (2) years and is liable to pay all Youth, Adult and Dislocated Worker training funds it received during the period of non-compliance. [20 CFR

§ 680.480]

Training providers may also be removed for the following reasons:

1. All a training provider's programs have been removed.
2. The training provider has not maintained required licenses and liability insurance or is found to be noncompliant with the training providers' assurances.
3. The training provider is found knowingly to make false claims to prospective participants about costs or WIOA eligibility.

3. Removal Due to Higher Performance Standards

Local areas that have implemented higher performance standards may remove programs that have not met requirements based on their local ETPL policy for removal of programs.

O. Appeal Procedure

To appeal a termination or denial of eligibility, the training provider must file the written appeal with the LWDB within 14 calendar days of the date the notice was mailed. Throughout this appeal procedure, "LWDB" refers to "the LWDB or its designee."

1. Administrative Reconsideration

Within 10 working days of receiving the appeal, the LWDB shall review the appeal and may reverse the original decision if an administrative error was made, or if additional information from the training provider changes the basis of the original decision.

1. If the LWDB reverses its prior decision of termination or denial of eligibility, the LWDB shall:
 - a. Forward the written decision, with the basis for the decision, and a copy of the appeal file to WDD.
 - b. Notify the training provider in writing of the decision and its basis and that the LWDB has notified WDD; and
 - c. Return the provider to the Initial or Renewal Eligibility process.
2. If the LWDB determines to continue to deny eligibility, the LWDB shall:
 1. Inform the training provider in writing of its decision to deny reversal of the original decision, including a basis for that denial.
 2. Provide the training provider with information regarding the formal appeals process.
 1. Formal Appeal
 1. Within 14 calendar days from the date the decision from 2.a. above was mailed; the training provider may file a formal appeal with the DLIR's Employment Security Appeals Referees' Office (ESARO).
 2. Within 30 calendar days of the receipt of the formal appeal, a hearing officer from the ESARO will
 3. Conduct a hearing at which the training provider and the LWDB will be allowed to present their cases; no new information will be allowed.
 - a. Decide the case based on the review of the written record and the hearing arguments; and
 - b. No later than 30 working days of the conclusion of the hearing, issue a written decision to the training provider and the LWDB. The hearing officer's decision will be final and conclusive.
 4. If the hearing officer reverses the denial, the LWDB shall comply with the decision in a prompt and efficient manner. Procedures shall be followed for designating the training provider as eligible, inclusion of the training provider's program on the statewide list, and written notification to the training provider.

P. Roles and

Responsibilities LWDB

Responsibilities

LWDBs have the following responsibilities for the training provider eligibility process:

1. Issuing ETPL policies and procedures.
2. Developing a local area specific ETPL application or adopting the sample application provided by WDD (Appendix A).
3. Assisting in determining the initial eligibility of training providers.
4. Ensuring distribution and appropriate use of the ETPL through the local area One-Stop system.
5. Coordinating with WDD and training providers to ensure that training provider programs that are approved are placed on the statewide ETPL in a timely manner.
6. Determining whether proposed programs are training programs or are career services or pre-vocational training programs.
7. Monitoring training providers for compliance and performance.
8. Reviewing training programs for initial eligibility.
9. Collecting performance and cost information and any other required information related to programs from training providers.
10. Executing procedures prescribed by the State to assist in determining the continued eligibility of all training programs.
11. Evaluating performance data of all training providers during the continued eligibility review to verify that the training programs meets minimum performance standards.
12. Consulting with the State ETPL Coordinator in cases where termination of an eligible provider is considered.
13. Coordinating with WDD to ensure the removal of training programs that are found to not meet ETPL requirements and performance levels and/or are out of compliance with provisions of the WIOA.
14. Issuing written notices of acceptance or rejection of an initial application to applying entities within thirty (30) calendar days of receipt of the application and notifying the State ETPL Coordinator of denial of programs at the local level.
15. Working with the State ETPL Coordinator to ensure there are a sufficient number and types of training services, including eligible training providers with expertise in assisting individuals with disabilities and other providers with expertise in assisting adults in need of adult education and literacy activities and serving the local area; and
16. Working with the State ETPL Coordinator to ensure there are a sufficient number and types of training services, including eligible training providers with expertise in assisting individuals with disabilities and other providers with expertise in assisting adults in need of adult education and literacy activities and serving the local area; and

17. Establish policy for determining circumstances under which reconsideration of an application may be afforded to an entity whose initial application was denied.
18. Giving training providers an opportunity to appeal a denial or termination of eligibility of programs that includes an opportunity for a hearing at the local level, a timely decision and a right to appeal to WDD.

Training Provider Responsibilities

Training providers have the following responsibilities:

1. Completing and submitting the appropriate application to the LWDB where the training will take place, according to the LWDB's requirements.
2. Submitting student data and performance information as instructed.
3. Collecting information about all students attending a training program as required for reporting of performance measures.
4. Submitting updated information or changes to a training program to the appropriate LWDB as soon as the change occurs.
5. Providing periodic updates on WIOA training participants, including copies of credentials and transcripts received by WIOA participants as required and requested by the LWDB.
6. Notifying WDD and LWDB(s) of impending school move, sale, or closure; and
7. Notifying WDD and LWDB(s) of change in point of ETPL contact.
8. Complying with the provisions of Title I of WIOA and WIOA regulations, including 29 CFR Part 38.

IMPLEMENTING AND MONITORING PRIORITY WIOA RECIPIENTS

Hawai'i's workforce development system is committed to a priority of service system where the individuals most in need, with additional barriers to employment will be served first. This WIOA priority of service policy is in alignment with the second goal of the workforce development system in Hawai'i, which is to: "prioritize services to vulnerable populations with barriers to employment as described under WIOA, including homeless individuals and Native Hawaiians, which are currently in critical concern in the State."

WDD's policy was issued on October 4, 2016. The policy requires local boards to issue their own policy on priority of service by January 1, 2017, that may include other populations with additional barriers to employment. The local board has the discretion to identify populations in the local area who are not low-income, basic skills deficient, or recipients of public assistance, but who are individuals documented as having other barriers to employment. Further guidance was issued on May 24, 2021, in WIOA Bulletin No. 14-16 Change 1 naming priority of services to include recipients of public assistance, low-income individuals, and those who are basic skills deficient. Veterans and other covered persons were also to

continue priority of service.

This bulletin also established the Employment and Training Administration (ETA) minimum benchmark or 50.1 percent of all participants to be from a priority of service category.

The success in achieving priority of service for the targeted groups within the Adult program will be measured by a state-established formula comparing the percentage of individuals in the five statutory priority targeted groups (public assistance recipients, other low-income individuals, basic skills deficient, both underemployed and low-income and individuals with a disability), who were enrolled in the Adult program versus the percentage of all other individuals who were enrolled in the program.

WDD will utilize the results from the HireNet Hawai'i as well as a file review to monitor adherence to the priority of service policy on a quarterly basis.

The goal of the workforce system is to serve a greater percentage of adult customers from the priority targeted groups than all other individuals (at least 51% of Adult participants from priority groups). If it is determined that a Title, I program operator is not meeting this goal the program operator will be expected to have a corrective action plan to conduct active outreach to recruit the priority groups.

The State has determined that unless the funds allocated to a local area for WIOA Adult employment and training activities are sufficient to provide adequate services to at least 25% of that area's adult poverty population, the funds will be considered limited. Currently, the funds are considered limited in all the local areas, therefore, priority of service will be given to recipients of public assistance and those meeting the definition of low-income.

They are identified when accessing AJC core services as well as through referrals from agencies serving this target population. Public assistance recipients are identified through coordination with the Department of Human Services (DHS), which administers the Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP) and other federal and state-funded assistance programs. The Work Opportunity Tax Credit is also available to employers as an inducement to hire this target group.

In addition to training, supportive services such as work clothes, transportation assistance, housing and child-care may be provided. Where possible, alternate funding is sought to provide other services.

STATE CRITERIA REGARDING LOCAL AREA TRANSFER OF FUNDS BETWEEN ADULT AND DISLOCATWD WORKER PROGRAM

WDC issued WIOA Bulletin No. 15-17 on September 20, 2017, Policy on Transfer of Funds Between Adult and Dislocated Worker Allocations.

GUIDELINES FOR TRANSFER REQUESTS

a) The transfer must not adversely impact an area's capacity to adequately provide appropriate services to individuals in need of such services provided by the program subject to the reduced funding.

b) The transfer must not adversely impact the area's ability to achieve program performance measures established for the current or subsequent years.

c) The local area must obligate, at a minimum 80% of all funds budgeted to the receiving funding stream by the end of the first program year. Funds must be 100% expended by the end of the second program year.

d) Funds not eligible for transfer requests: Youth program funds; Adult or Dislocated Worker funds re-allocated by WDC; Rapid Response funds; and other discretionary dislocated worker grants. Funds may not be transferred between program years.

e) Transfer requests may be submitted anytime during the first year of the life of the funds but must be submitted at least 30 days before the end of the second year.

f) If a local area transfers 100% of its Dislocated Worker formula funds allocation, and a dislocation event occurs in the area, the request for Rapid Response funds will be considered on a case-by-case basis.

g) Program costs must not be shifted to or from another federal program to overcome fund deficiencies or avoid restrictions imposed by law, regulations, or agreements.

h) All transfers of funds are subject to the priority of service requirement. Section 134(c)(3)(E) requires that priority of service be given to recipients of public assistance, other low-income individuals, and individuals who are skills deficient. Additionally, TEGL 3-15 further emphasizes that Local Areas must give priority of services regardless of the levels of funds.

Transfer requests must include the following information:

a) WIOA program year.

b) the amount of the proposed transfer.

c) an impact analysis describing the impact to the program from which funds are being moved and the impact to the program which will receive the funds.

The impact analysis must include the following:

1) The situation necessitating the transfer, including local conditions, labor market, economic, etc.

2) How the funds transfer will impact participant levels in both programs.

3) A description of how the receiving program's participants will benefit from the transfer as well as how the impact on the contributing program will be mitigated, including how the remaining participants will be served.

4) The transfer's effect on current providers on training and other services.

5) A description of the expected impact on WIOA performance outcomes for both programs.

C. WITH RESPECT TO YOUTH WORKFORCE INVESTMENT ACTIVITIES AUTHORIZED IN SECTION 129 OF WIOA—

1. IDENTIFY THE STATE-DEVELOPED CRITERIA TO BE USED BY LOCAL BOARDS IN AWARDING GRANTS OR CONTRACTS FOR YOUTH WORKFORCE INVESTMENT ACTIVITIES AND

DESCRIBE HOW THE LOCAL BOARDS WILL TAKE INTO CONSIDERATION THE ABILITY OF THE PROVIDERS TO MEET PERFORMANCE ACCOUNTABILITY MEASURES BASED ON PRIMARY INDICATORS OF PERFORMANCE FOR THE YOUTH PROGRAM AS DESCRIBED IN SECTION 116(B)(2)(A)(II) OF WIOA IN AWARDING SUCH GRANTS OR CONTRACTS.[11]

The provider should be familiar with the local area; have a demonstrated record of success in provision of youth services and running youth programs. If the provider operates youth programs in other locations, the local area is advised to request the provider's history of performance results to assess the provider's ability to meet performance goals. In evaluating the service providers, certain criteria such as the ability to meet performance goals should be weighted more heavily.

The criteria to be used in awarding grants for youth workforce investment activities.

Program management and organizational capacity; past outcomes; program design; program components; collaboration with other youth serving agencies; budget; leveraged resources and sustainability; employer and educational institution collaboration or partnerships; ability to meet the performance accountability measures based on performance indicators for youth.

The provider must have established fiscal policies and a system of internal controls and meet federal financial requirements.

In addition to ensure quality job-driven training programs, the Youth Program must be designed to:

a) Provide an objective assessment of the academic levels, skill levels, and service needs of each youth which shall include a review of basic skills, occupational skills, prior work experience, employability, interests, aptitudes (including interests and aptitudes for nontraditional jobs), supportive service needs, and developmental needs of such youth, for the purpose of identifying appropriate services and career pathways. A new assessment of a youth shall not be required if it is appropriate to use a recent assessment conducted by another education or training program.

b) Develop service strategies for each youth that are directly linked to one or more of the indicators of performance described in section 116(b)(2)(A)(ii) of WIOA, and that will identify career pathways that include education and employment goals (including, in appropriate circumstances, nontraditional employment), appropriate achievement objectives, and appropriate services for the youth taking into account the assessment conducted, except that a new service strategy it is appropriate to use a recent service strategy developed for the youth under another education or training program.

c) Provide the following:

i. activities leading to the attainment of a secondary school diploma or its recognized equivalent or recognized postsecondary credential.

ii. preparation for postsecondary educational and training opportunities.

iii. strong linkages between academic instruction and occupational education that led to the attainment of recognized postsecondary credentials.

- iv. preparation for unsubsidized employment opportunities, in appropriate cases; and
- v. effective connections to employers, including in-demand industry sectors and occupations of the local and regional labor market.

Required Program Elements: To support the attainment of a secondary school diploma or its recognized equivalent, entry into postsecondary education, and career readiness for youths, the program shall provide elements consisting of:

- a) Tutoring, study skills training, instruction, and evidence-based dropout prevention and recovery strategies that lead to completion of the requirements for a secondary school diploma or its recognized equivalent (including a recognized certificate of attendance or similar document for individuals with disabilities) or for a recognized postsecondary credential.
- b) Alternative secondary school services, or dropout recovery services, as appropriate.
- c) Paid and unpaid work experiences that have as a component academic and occupational education, which may include:
 - 1. summer employment opportunities and other employment opportunities available throughout the school year.
 - 2. pre-apprenticeship programs internships and job shadowing; and
 - 3. on-the-job training opportunities.
- d) Occupational skill training, which include priority consideration for training programs that lead to recognized postsecondary credentials that are aligned with in-demand industry sectors or occupations in the local area.
- e) Education offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster.
- f) Leadership development opportunities, which may include community service and peer-centered activities encouraging responsibility and other positive social and civic behaviors, as appropriate.
- g) Supportive services.
- h) Adult mentoring for the period of participation and a subsequent period, for a total of not less than 12 months.
- i) Follow-up services for not less than 12 months after the completion of participation, as appropriate.
- j) Comprehensive guidance and counseling, which may include drug and alcohol abuse counseling and referral, as appropriate.
- k) Financial literacy education.
- l) Entrepreneurial skills training.
- m) Services that provide labor market and employment information about in-demand industry sectors or occupations available in the local area, such as career awareness, career

counseling, and career exploration services; and

n) Activities that help youth prepare for and transition to postsecondary education and training.

Required Information and Referral: the youth provider shall ensure that each youth shall be provided:

a) Information on the full array of applicable or appropriate services that are available by the provider or other eligible providers; and

b) Referral to appropriate training and educational programs that have the capacity to serve the youth either on a sequential or concurrent basis.

Additionally, to meet the basic skills and training needs of all youths, youths not meeting the enrollment requirements of a particular training program shall be referred for further assessment, as necessary, and to other appropriate programs which may be able to serve them on a sequential or concurrent basis.

Youth providers are required to negotiate performance goals with WDD under WIOA (which was also required under WIA) to assess the effectiveness in achieving continuous improvement of workforce investment activities funded under the WIOA and to optimize the return on investment of federal funds in workforce investment activities.

The primary indicators of performance for the youth program shall include, but are not limited to:

1. The percentage of program participants who are in education or training activities, or in unsubsidized employment, during the second quarter after exit from the program.
2. The percentage of program participants who are in education or training activities, or in unsubsidized employment, during the fourth quarter after exit from the program.
3. The median earnings of program participants who are in unsubsidized employment during the second quarter after exit from the program.
4. The percentage of program participants who obtain a recognized postsecondary credential, or a secondary school diploma or its recognized equivalent, during participation in or within one year after exit from the program; and
5. The percentage of program participants who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains toward such a credential or employment.

Monitoring and Evaluation: The local board and the provider shall implement sufficient procedures for annually monitoring this award to ensure the proper and effective expenditure of funds and the achievement of program goals.

Data and Reporting Requirements: The provider is required to submit separate program data and written monthly fiscal reports for the Youth Program to the DLIR, WDD.

2. DESCRIBE THE STRATEGIES THE STATE WILL USE TO ACHIEVE IMPROVED OUTCOMES FOR OUT-OF-SCHOOL YOUTH AS DESCRIBED IN 129(A)(1)(B), INCLUDING HOW IT WILL LEVERAGE AND ALIGN THE CORE PROGRAMS, ANY COMBINED STATE PLAN PARTNER PROGRAMS INCLUDED IN THIS PLAN, REQUIRED AND OPTIONAL ONE-STOP PARTNER PROGRAMS, AND ANY OTHER RESOURCES AVAILABLE.

Hawai'i supports the federal vision focusing efforts on out-of-school-youth and those with the most difficult barriers to their becoming contributing members of society. The State's strategy for providing comprehensive, integrated services to eligible youth is to ask that LWDB's, as part of their local planning process, to prepare a comprehensive youth plan that (a) identifies the percentage of youth funds allocated for older youth, (b) concentrates on the neediest youth described at the end of this section, and (c) formalizes coordination of local agencies, which could include:

- Adult Education and Family Literacy,
- Vocational Rehabilitation,
- Department of Education, Special Education Services Branch,
- Community Services Block Grant recipients,
- Housing & Urban Development employment and training programs,
- Job Corps,
- State Office of Youth Services,
- Family Court,
- Department of Human Services -Foster Care,
- TANF (Temporary Assistance for Needy Families),
- ALU LIKE, Inc.,
- faith-based organizations and community-based organizations,
- University of Hawai'i Community College System, and
- State of Hawai'i, Department of Defense (Youth Challenge and About Face).

Items covered in an interagency agreement will include a description of each agency's role in achieving the following for youth with disabilities, Youth in and aging out of Foster Care, Youth Offenders, Children of Incarcerated Parents, Homeless Youth, Pregnant and Parenting Teens:

1. Partners' recruitment of out-of-school youth from housing projects, welfare families, entry level jobs, and malls,
2. Delivery of appropriate services to ameliorate risks,
3. GED test preparation,
4. Employment preparation,

5. Post-secondary education preparation,
6. Access to financial resources and support services to assist transition into post- secondary education, and
7. Follow up with mentoring and course correction.

As discussed before, Hawai'i's apprenticeship programs, work-based learning, pre-apprenticeship programs will be included in the planning of Sector Strategies and Career Pathway committee. The information on these programs is available to all case managers at AJCs and core partners so that those programs may be considered for the individual's plan. Information is also posted on the WDD website. Cross-training for staff of AJCs, Adult Education, and Vocational Rehabilitation will help to ensure participant access to these programs.

The Local Boards are responsible for the performance outcomes of their service providers. Quarterly reports will be generated by the HireNet Hawai'i. Consistent management will help providers and the Local Boards respond to low performance in a timely manner. The provider and the Local Board should identify the causes of the underperformance and determine if technical assistance, training, or other assistance is necessary and identify a course of action. Follow up evaluations and performance goals should also be set. Written assessments of progress and of the performance issues should also be sent to the WDD. WDC's Performance Measures and Accountability committee will be reviewing the performance outcomes for each local area. This committee will also ensure that corrective action is taken, and that performance improves.

3. DESCRIBE HOW THE STATE WILL ENSURE THAT ALL 14 PROGRAM ELEMENTS DESCRIBED IN WIOA SECTION 129(C)(2) ARE MADE AVAILABLE AND EFFECTIVELY IMPLEMENTED, INCLUDING QUALITY PRE-APPRENTICESHIP PROGRAMS UNDER THE WORK EXPERIENCE PROGRAM ELEMENT. [12]

Although individual youth participants need not participate in all 14 program service elements. Participation in the program service elements is based on a youth's objective assessment and individual service strategy. Local grant recipients do not need to provide all 14 program service elements with WIOA funds if certain services are already accessible for all eligible youth in the local area. Local areas should identify the extent to which the 14 program service elements are available or already being provided in the local area through a combination of resource mapping, competitive selection of providers, or through community partnerships.

Each local board will be responsible for mapping the 14 program service elements and how and where the programs are provided. The information will be available to AJC case managers and to all core partners and AJC Partners. Cross-training for staff of AJCs, Adult Education, and Vocational Rehabilitation will help to ensure participant access to all program elements. Through monitoring, analyzing quarterly reports, and periodic review of case files, WDD will provide program oversight to ensure that participants are able to access the required program elements.

Individual youth participants will be slated to participate in all 14 program service elements upon enrollment in youth services. Scheduled delivery of the program service elements is based on a youth's objective assessment and individual service strategy. Local grant recipients do not need to provide all 14 program service elements with WIOA funds if certain services are already accessible for all eligible youth in the local area. Local areas should identify the extent to which the 14 program service elements are available or being provided in the local area through combination of resource mapping, competitive selection of providers, or through community partnerships.

Each local board will be responsible for mapping the 14 program service elements and how and where the programs are provided. The information will be available to AJC case managers and to all core partners and AJC partners. Cross-training for staff of AJCs, Adult Education, and Vocational Rehabilitation will help to ensure participant access to all program elements. Through monitoring, analyzing quarterly reports, and periodic review of case files, WDD will provide program oversight to ensure that participants are able to access the required program elements.

Quality pre-apprenticeship programs will be available through the State's Registered Apprenticeship Program.

4. PROVIDE THE LANGUAGE CONTAINED IN THE STATE POLICY FOR “REQUIRING ADDITIONAL ASSISTANCE TO ENTER OR COMPLETE AN EDUCATIONAL PROGRAM, OR TO SECURE AND HOLD EMPLOYMENT” CRITERION FOR OUT-OF-SCHOOL YOUTH SPECIFIED IN WIOA SECTION 129(A)(1)(B)(III)(VIII) AND FOR “REQUIRING ADDITIONAL ASSISTANCE TO COMPLETE AN EDUCATION PROGRAM, OR TO SECURE AND HOLD EMPLOYMENT” CRITERION FOR IN-SCHOOL YOUTH SPECIFIED IN WIOA SECTION 129(A)(1)(C)(IV)(VII). IF THE STATE DOES NOT HAVE A POLICY, DESCRIBE HOW THE STATE WILL ENSURE THAT LOCAL AREAS WILL HAVE A POLICY FOR THESE CRITERIA.

Local Boards are responsible for establishing local definitions and eligibility documentation requirements for “requires additional assistance” as it relates to both out-of-school youth (OSY) and in-school youth (ISY). The local policy must be reasonable, quantifiable, and based on evidence that the specific characteristic of the youth identified in the policy objectively requires additional assistance. Examples could include, but are not limited to, the following:

- Has repeated at least one secondary grade level or are one year over age for grade.
- Has a core grade point average (GPA) of less than 1.5.
- For each year of secondary education, are at least two semester credits behind the rate required to graduate from high school.
- Is an emancipated youth.
- Has aged out of foster care.
- Is a dropout or has been suspended five or more times or has been expelled.
- Has received court/agency referrals mandating school attendance.

- Is deemed at risk of dropping out of school by a school official.
- Has been referred to or are being treated by an agency for a substance abuse related problem.
- Has experienced recent traumatic events, are victims of abuse, or reside in an abusive environment as documented by a school official or other qualified professional.
- Has serious emotional, medical, or psychological problems as documented by a qualified professional.
- Is gang affiliated.
- Is a refugee/immigrant.
- Has a family history of chronic unemployment.
- Has a substance abuse problem or has a history of having such a problem?
- Has a parent or legal guardian who is incarcerated?

5. INCLUDE THE STATE DEFINITION, AS DEFINED IN LAW, FOR NOT ATTENDING SCHOOL AND ATTENDING SCHOOL AS SPECIFIED IN WIOA SECTION 129(A)(1)(B)(I) AND SECTION 129(A)(1)(C)(I). IF STATE LAW DOES NOT DEFINE “NOT ATTENDING SCHOOL” OR “ATTENDING SCHOOL,” INDICATE THAT IS THE CASE AND PROVIDE THE STATE POLICY FOR DETERMINING WHETHER A YOUTH IS ATTENDING OR NOT ATTENDING SCHOOL.

Hawai‘i State Statute: §302A-1132 Attendance compulsory; exceptions.

(a) Unless excluded from school or excepted from attendance, all children who will have arrived at the age of at least five years on or before July 31 of the school year, and who will not have arrived at the age of eighteen years, by January 1 of any school year, shall attend either a public or private school for, and during, the school year, and any parent, guardian, or other person having the responsibility for, or care of, a child whose attendance at school is obligatory shall send the child to either a public or private school. Attendance at a public or private school shall not be compulsory in the following cases:

Where the child is physically or mentally unable to attend school (deafness and blindness excepted), of which fact the certificate of a duly licensed physician shall be sufficient evidence.

Where the child, who has reached the fifteenth anniversary of birth, is suitably employed and has been excused from school attendance by the superintendent or the superintendent’s authorized representative, or by a family court judge.

Where, upon investigation by the family court, it has been shown that for any other reason the child may properly remain away from school, Where the child has graduated from high school.

Where the child is enrolled in an appropriate alternative educational program as approved by the superintendent or the superintendent’s authorized representative in accordance with the plans and policies of the department, or notification of intent to home school has been

submitted to the principal of the public school that the child would otherwise be required to attend in accordance with department rules adopted to achieve this result; or

Where: (A) The child has attained the age of sixteen years; (B) The principal has determined that: (i) The child has engaged in behavior which is disruptive to other students, teachers, or staff; or (ii) The child's non-attendance is chronic and has become a significant factor that hinders the child's learning; and (C) The principal of the child's school, and the child's teacher or counselor, in consultation with the child and the child's parent, guardian, or other adult having legal responsibility for or care of the child, develops an alternative educational plan for the child. The alternative educational plan shall include a process that shall permit the child to resume school. The principal of the child's school shall file the plan made pursuant to subparagraph (C) with the child's school record. If the adult having legal responsibility for or care of the child disagrees with the plan, then the adult shall be responsible for obtaining appropriate educational services for the child. Any employer who employs a child who is excused from school attendance in accordance with subsection (a)(2) shall notify the child's school within three days upon termination of the child's employment.

(b) Beginning with the 2016-2017 school year, any parent, guardian, or other person having the responsibility for, or care of, a child who will be at least five years of age on or before July 31 of the school year shall enroll the child in a public-school kindergarten unless the child is enrolled at a private school or the child's attendance is otherwise exempt under this section.

[L 1996, c 89, pt of §2 and am c 162, §2; am L 2014, c 76, §3]

In addition to the State statute, WDD uses the following criteria for out-of-school youth: Out of School youth means an individual who is: not attending any school (as defined under State law); not younger than age 16 or older than age 24; and one or more of the following: a school dropout; a youth who is within the age of compulsory school attendance but has not attended school for at least the most recent complete school year calendar quarter; a recipient of a secondary school diploma or its recognized equivalent who is a low-income individual and is either basic skills deficient or an English language learner; an individual who is subject to the juvenile or adult justice system; a homeless individual (as defined in section 41403(6) of the Violence Against Women Act of 1994); a homeless child or youth (as defined in section 725(2) of the McKinney-Vento Homeless Assistance Act), a runaway, in foster care or has aged out of the foster care system, a child eligible for assistance under section 477 of the Social Security Act, or in an out-of-home placement; an individual who is pregnant or parenting; a youth who is an individual with a disability; a low-income individual who requires additional assistance to enter or complete an education program or to secure or hold employment.

6. IF USING THE BASIC SKILLS DEFICIENT DEFINITION CONTAINED IN WIOA SECTION 3(5)(B), INCLUDE THE STATE DEFINITION WHICH MUST FURTHER DEFINE HOW TO DETERMINE IF AN INDIVIDUAL IS UNABLE TO COMPUTE OR SOLVE PROBLEMS, OR READ, WRITE, OR SPEAK ENGLISH, AT A LEVEL NECESSARY TO FUNCTION ON THE JOB, IN THE INDIVIDUAL'S FAMILY, OR IN SOCIETY. IF NOT USING THE PORTION OF THE DEFINITION CONTAINED IN WIOA SECTION 3(5)(B), INDICATE THAT IS THE CASE.

Hawai'i uses the Basic Skill Deficient definition in WIOA Section 3(5): an individual who is a

youth that has an English reading, writing, or computing skills at or below the 8th grade level on a generally accepted standardized test; or who is a youth or adult that the individual is unable to compute or solve problems, or read, write, or speak English, at a level necessary to function on the job, in the individual's family, or in society.

Basic skills deficient participants are determined by comprehensive and specialized assessments of the skill level using diagnostic testing and other assessment tools; in-depth interview and evaluation; school records, a referral or records from a Title II Basic Adult Education program or English Language Learner program; results of academic assessment, case notes documenting recent previous evidence of such (from another education or training program). In alignment with HDOE and their Title II providers, Title I providers will use basic skills and English language assessments, including use of assessment systems, the Test of Adult Basic Education (TABE) or the Comprehensive Adult Student Assessment System (CASAS).

D. SINGLE-AREA STATE REQUIREMENTS

1. ANY COMMENTS FROM THE PUBLIC COMMENT PERIOD THAT REPRESENT DISAGREEMENT WITH THE PLAN. (WIOA SECTION 108(D)(3).)

2. THE ENTITY RESPONSIBLE FOR THE DISBURSAL OF GRANT FUNDS, AS DETERMINED BY THE GOVERNOR, IF DIFFERENT FROM THAT FOR THE STATE. (WIOA SECTION 108(B)(15).)

3. A DESCRIPTION OF THE TYPE AND AVAILABILITY OF WIOA TITLE I YOUTH ACTIVITIES AND SUCCESSFUL MODELS, INCLUDING FOR YOUTH WITH DISABILITIES. (WIOA SECTION 108(B)(9).)

Not applicable to Hawai'i

4. A DESCRIPTION OF THE ROLES AND RESOURCE CONTRIBUTIONS OF THE ONE-STOP PARTNERS.

N/A

5. THE COMPETITIVE PROCESS USED TO AWARD THE SUBGRANTS AND CONTRACTS FOR TITLE I ACTIVITIES.

N/A

6. HOW TRAINING SERVICES OUTLINED IN SECTION 134 WILL BE PROVIDED THROUGH INDIVIDUAL TRAINING ACCOUNTS AND/OR THROUGH CONTRACTS, AND HOW SUCH TRAINING APPROACHES WILL BE COORDINATED. DESCRIBE HOW THE STATE WILL MEET INFORMED CUSTOMER CHOICE REQUIREMENTS REGARDLESS OF TRAINING APPROACH.

N/A

7. HOW THE STATE BOARD, IN FULFILLING LOCAL BOARD FUNCTIONS, WILL COORDINATE TITLE I ACTIVITIES WITH THOSE ACTIVITIES UNDER TITLE II. DESCRIBE HOW THE STATE BOARD WILL CARRY OUT THE REVIEW OF LOCAL APPLICATIONS SUBMITTED UNDER TITLE II CONSISTENT WITH WIOA SECS. 107(D)(11)(A) AND (B)(I) AND WIOA SEC. 232.

N/A

8. COPIES OF EXECUTED COOPERATIVE AGREEMENTS WHICH DEFINE HOW ALL LOCAL SERVICE PROVIDERS WILL CARRY OUT THE REQUIREMENTS FOR INTEGRATION OF AND ACCESS TO THE ENTIRE SET OF SERVICES AVAILABLE IN THE ONE-STOP DELIVERY SYSTEM, INCLUDING COOPERATIVE AGREEMENTS WITH ENTITIES ADMINISTERING REHABILITATION ACT PROGRAMS AND SERVICES. N/A

E. WAIVER REQUESTS (OPTIONAL) TITLE I-B ASSURANCES The State Plan must include	Include
1. The State has implemented a policy to ensure Adult program funds provide a priority in the delivery of training services and individualized career services to individuals who are low income, public assistance recipients and basic skills deficient;	Yes
2. The State has implemented a policy to ensure local areas have a process in place for referring veterans and other covered persons with significant barriers to employment to career services provided by the JVSG program's Disabled Veterans' Outreach Program (DVOP) specialist;	Yes
3. The State established a written policy and procedure that set forth criteria to be used by	Yes

The State Plan must include	Include
chief elected officials for the appointment of local workforce investment board members;	
4. The State established written policy and procedures to ensure local workforce investment boards are certified by the governor every two years in accordance with WIOA section 107(c)(2);	Yes
5. Where an alternative entity takes the place of a State Board, the State has written policy and procedures to ensure the alternative entity meets the definition under WIOA section 101(e) and the legal requirements for membership;	Yes
6. The State established a written policy and procedure for how the individuals and entities represented on the State Workforce Development Board help to determine the methods and factors of distribution, and how the State consults with chief elected officials in local areas throughout the State in determining the distributions;	Yes

7. The State will not use funds received under WIOA Title I to assist, promote, or deter union organizing in accordance with WIOA section 181(b)(7);	Yes
8. The State distributes adult and youth funds received under WIOA equitably throughout the State, and no local area suffers significant shifts in funding from year-to-year during the period covered by this plan;	Yes
9. If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser services, Adult and Dislocated Worker programs and Youth Programs under Title I;	Yes
10. The State agrees to report on the impact and outcomes of its approved waivers in its WIOA Annual Report.	Yes
11. The State has taken appropriate action to secure compliance with the Uniform Guidance at 2 CFR 200 and 2 CFR 2900, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the Uniform	Yes

The State Plan must include	Include
Guidance under section WIOA 184(a)(3);

B. Program-Specific Requirements For Title II: Adult Education and Family Literacy Act Programs

ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAMS

A. ALIGNING OF CONTENT STANDARDS

The Hawai'i State Department of Education (HIDOE) is the eligible agency for the Adult Education Family Literacy Act (AEFLA) grant funds, Title II of the Workforce Innovation and Opportunity Act (WIOA) for Hawai'i. The state director for adult education is responsible for administering funds and providing oversight to grantees and is in the Office of Curriculum and Instructional Design.

The Hawai'i State Board of Education Policy 800-1 Content Standards for Adult Community Schools requires programs where learners are working to attain a high school diploma equivalency; the Community Schools for Adults should address the Board of Education approved statewide content and performance standards.

Hawai'i State Board of Education Approved Statewide Content and Performance Standards	Approved
Hawai'i Common Core Standards for English Language Arts and Mathematics	June 2010
Next Generation Science Standards	February 2016
Hawai'i Core Standards for Social Studies	October 2018

The HIDOE also supports the College and Career Readiness Standards (CCRS) for Adult Education. The CCRS are content standards selected from the K-12 Language Arts and Mathematics Common Core Standards that are most applicable to adult learners and chosen by a panel of experts. The CCRS is recommended in a 2013 report commissioned by the U.S. Department of Education, Office of Career, Technical, and Adult Education.

B. LOCAL ACTIVITIES

ADULT EDUCATION AND LITERACY ACTIVITIES (SECTION 203 OF WIOA)

Local Activities Funding

The HIDOE will use a U.S. Department of Education, Office of Career, Technical and Adult Education, approved competitive four-year grant award process subject to renewal or continuation annually.

The award process will meet the requirements of 34 CFR 463 Subpart C, *How Does a State Make an Award to Eligible Providers?* And evaluate the eligible provider's ability to address the considerations in section 231(e) of WIOA. It will be available to all eligible providers in Hawai'i as defined in 34 CFR § 463.23 *Who is eligible to apply for a grant or contract for adult education and literacy activities?*

Applicants must meet the demonstrated effectiveness determination in 34 CFR § 463.24 *How must an eligible provider establish that it has demonstrated effectiveness?* to be eligible for an award.

Applicants who meet the demonstrated effectiveness determination will continue with the application process to provide Adult Education and Literacy Activities in Section 203 of WIOA and address the remaining application requirements, including the following.

- How will AEFLA funds be expended for adult education services in the state?
- Submission of Cooperative Agreements
- Alignment with Hawai'i Workforce Development Board Plans
- American Job Center Hawai'i (One-Stop) Responsibilities
- Alignment with the Hawai'i State WIOA Plan
- Aligning of College and Career Readiness Standards
- Aligning of English Language Proficiency Standards for English Learners
- How will the Adult Education Program (AEP) Objectives in the Hawai'i State WIOA Plan be addressed?
- Addressing the Considerations in section 231(e) of WIOA
- Budget Proposal

- Personnel to Provide Adult Education Services

Applications will be evaluated by a committee of representatives from core partners trained in using a rubric included with the application. The workforce development boards of each region will review the applications for alignment with their local plan.

82.5% of AEFLA funds received by HIDOE will be awarded to provide adult education services as required by 29 USC §3302 *State distribution of funds; matching requirement*.

Local Activities - Scope, Content and Organization

Adult Education and Literacy Activities (Section 203 of WIOA) funded by a competitive four-year grant award have the following scope, content, and organization in common.

Scope

Adult education and literacy activities consist of academic instruction and education services below the postsecondary level.

Content

Adult education and literacy activities use HIDOE-approved content standards in English Language Arts, Mathematics, and English Language Acquisition.

Organization

Instruction and assessment in adult education and literacy activities are organized into six educational functional levels. Each level corresponds roughly to two grade levels, in K-12 terms, except for Level E of the CCR Standards and Level 5 of ELP Standards, which combines the critical concepts of grades 9 through 12.

English Language Arts and Mathematics	
National Reporting System Educational Functioning Level Descriptors	Corresponding College and Career Readiness (CCR) Standards for Adult Education
Level 1: Beginning Literacy	Level A of the CCR Standards
Level 2: Beginning Basic	Level B of the CCR Standards
Level 3: Low Intermediate	Level C of the CCR Standards
Level 4: High Intermediate	Level D of the CCR Standards
Level 5: Low Adult Secondary	Level E of the CCR Standards
Level 6: High Adult Secondary	

English as a Second Language	
National Reporting System Educational Functioning Level Descriptors	Corresponding English Language Proficiency (ELP) Standards for Adult Education

Level 1: Beginning ESL Literacy	K, 1, 2–3, 4–5, 6–8, and 9–12.
Level 2: Low Beginning ESL	ELP Standards for AE Level 1
Level 3: High Beginning ESL	ELP Standards for AE Level 2
Level 4: Low Intermediate ESL	ELP Standards for AE Level 3
Level 5: High Intermediate ESL	ELP Standards for AE Level 4
Level 6: Advanced ESL	ELP Standards for AE Level 5

Adult Education and Literacy Activities (Section 203 of WIOA) funded by a competitive four-year include the following.

Adult education

Adult education means academic instruction and education services below the postsecondary level that increase an individual’s ability to read, write, and speak in English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its recognized equivalent; transition to postsecondary education and training; and obtain employment.

Literacy

Literacy means an individual’s ability to read, write, and speak in English, compute, and solve problems at levels of proficiency necessary to function on the job, in the family of the individual, and in society.

Workplace adult education and literacy activities

Workplace adult education and literacy activities mean adult education and literacy activities offered by an eligible provider in collaboration with an employer or employee organization at a workplace or an offsite location that is designed to improve the productivity of the workforce.

Family literacy activities

Family literacy activities mean activities that are of sufficient intensity and quality to make sustainable improvements in the economic prospects for a family and that better enable parents or family members to support their children’s learning needs, and that integrate all the following activities:

- Parent or family adult education and literacy activities that lead to readiness for postsecondary education or training, career advancement, and economic self-sufficiency.
- Interactive literacy activities between parents or family members and their children.
- Training for parents or family members regarding how to be the primary teacher for their children and full partners in the education of their children.
- An age-appropriate education to prepare children for success in school and life experiences.

English language acquisition activities

English language acquisition activities mean an English language acquisition program of instruction designed to help eligible individuals who are English language learners achieve competence in reading, writing, speaking, and comprehension of the English language, and that leads to—

- (I) attainment of a secondary school diploma or its recognized equivalent, and
- (II) transition to postsecondary education and training or Employment.

Integrated English literacy and civics education.

Integrated English literacy and civics education means education services provided to English language learners who are adults, including professionals with degrees and credentials in their native countries, that enable such adults to achieve competency in the English language and acquire basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States. Such services shall include instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation and may include workforce training.

Workforce preparation activities

Workforce preparation activities mean activities, programs, or services designed to help an individual acquire a combination of basic academic skills, critical thinking skills, digital literacy skills, and self-management skills, including competencies in utilizing resources, using information, working with others, understanding systems, and obtaining skills necessary for a successful transition into and completion of postsecondary education or training, or employment.

Integrated education and training

Integrated education and training mean a service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement.

Workforce preparation activities means activities, programs, or services designed to help an individual acquire a combination of basic academic skills, critical thinking skills, digital literacy skills, and self-management skills, including competencies in utilizing resources, using information, working with others, understanding systems, and obtaining skills necessary for successful transition into and completion of postsecondary education or training, or employment.

Training services may include-

- occupational skills training, including training for nontraditional employment.
- on-the-job training.
- incumbent worker training in accordance with subsection (d)(4) 29 USC §3174.
- programs that combine workplace training with related instruction, which may include cooperative education programs.
- training programs operated by the private sector.
- skill upgrading and retraining.
- entrepreneurial training.

C. CORRECTIONS EDUCATION AND OTHER EDUCATION OF INSTITUTIONALIZED INDIVIDUALS

The HIDEOE will use a U.S. Department of Education, Office of Career, Technical and Adult Education, approved competitive four-year grant award process subject to renewal or continuation annually.

The award process will meet the requirements of 34 CFR 463 Subpart C, *How Does a State Make an Award to Eligible Providers?* And evaluate the eligible provider's ability to address the considerations in section 231(e) of WIOA. It will be available to all eligible providers in Hawai'i as defined in 34 CFR § 463.23 *Who is eligible to apply for a grant or contract for adult education and literacy activities?*

Applicants must meet the demonstrated effectiveness determination in 34 CFR § 463.24 *How must an eligible provider establish that it has demonstrated effectiveness?* to be eligible for an award.

Applicants who meet the demonstrated effectiveness determination will continue with the application process to provide corrections education services identified in section 225 of WIOA and address the remaining application requirements, which include the following.

- How will AEFLA funds be expended for corrections education services in the state to serve felony offenders in all jails and prisons in Hawai'i?
 - Including 29 USC §3305 (c) Priority - Each eligible agency that is using assistance provided under this section to carry out a program for criminal offenders within a correctional institution shall give priority to serving individuals who are likely to leave the correctional institution within 5 years of participation in the program.
- Submission of cooperative agreements
- Alignment with Hawai'i Workforce Development Board plans
- American Job Center Hawai'i (One-Stop) responsibilities
- Alignment with the Hawai'i State WIOA Plan
- Aligning of College and Career Readiness Standards
- Aligning of English Language Proficiency Standards for English Learners
- How will the Adult Education Program (AEP) objectives in the Hawai'i State WIOA plan be addressed?
- Addressing the considerations in section 231(e) of WIOA
- Budget proposal
- Personnel to provide correction education services.

Applications will be evaluated by a committee of representatives from core partners trained in using a rubric included with the application. The workforce development boards of each region will review the applications for alignment with their local plan.

82.5% of AEFLA funds received by the HIDEOE will be awarded to provide adult education services as required by 29 USC §3302. *State distribution of funds; matching requirement.* Up to 20% of the 82.5% of AEFLA funds will be awarded for Corrections Education according to 34 CFR § 463.61 *How does the eligible agency award funds to eligible providers under the program for Corrections Education and Education of other Institutionalized Individuals?*

D. INTEGRATED ENGLISH LITERACY AND CIVICS EDUCATION PROGRAM

Describe how the eligible agency will, using the considerations specified in section 231(e) of WIOA and in accordance with 34 CFR 463 subpart C, fund eligible providers to establish or operate Integrated English Literacy and Civics Education (IELCE) programs under section 243 of WIOA. Describe how adult English language learners, including professionals with degrees and credentials in their native countries, are served in IELCE programs.

Describe how the Integrated English Literacy and Civics Education program under section 243(a) of WIOA will be offered in combination with integrated education and training activities found in 34 CFR section 463.36.

Describe how the Integrated English Literacy and Civics Education program under section 243(a) of WIOA will include instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation.

The HIDOE will use a U.S. Department of Education, Office of Career, Technical and Adult Education, approved competitive four-year grant award process subject to renewal or continuation annually.

The award process will meet the requirements of 34 CFR 463 Subpart C, *How Does a State Make an Award to Eligible Providers?* And evaluate the eligible provider's ability to address the considerations in section 231(e) of WIOA. It will be available to all eligible providers in Hawai'i as defined in 34 CFR § 463.23 *Who is eligible to apply for a grant or contract for adult education and literacy activities?*

Applicants must meet the demonstrated effectiveness determination in 34 CFR § 463.24 *How must an eligible provider establish that it has demonstrated effectiveness?* to be eligible for an award.

Applicants who meet the demonstrated effectiveness determination will continue with the application process to provide an Integrated English Literacy and Civics Education (IELCE) program under section 243 of WIOA and address the remaining application requirements, which include the following.

- How will AEFLA IELCE funds be expended for an IELCE program and services in the state consistent with 34 CFR § 463.73 What are the requirements for eligible providers that receive funding through the Integrated English Literacy and Civics Education program?
 - An IELCE under section 243 of WIOA is defined as having the following.
 - Education services provided to English language learners who are adults, including professionals with degrees or credentials in their native countries. 34 CFR § 463.33 What are integrated English literacy and civics education services?
 - Educational services must be delivered in combination with integrated education and training activities. 34 CFR § 463.70 What is the Integrated English Literacy and Civics Education program?

- Education services must include instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation and may include workforce training. 34 CFR § 463.33
What are integrated English literacy and civics education services?
 - Education services must be designed to:
 - (1) Prepare adults who are English language learners for, and place such adults in, unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency; and
 - (2) Integrate with the local workforce development system and its functions to carry out the activities of the program. 34 CFR § 463.73
What are the requirements for eligible providers that receive funding through the Integrated English Literacy and Civics Education program?
- Submission of cooperative agreements
 - Alignment with Hawai'i Workforce Development Board plans
 - American Job Center Hawai'i (One-Stop) responsibilities
 - Alignment with the Hawai'i State WIOA Plan
 - Aligning of College and Career Readiness Standards
 - Aligning of English Language Proficiency Standards for English Learners
 - How will the Adult Education Program (AEP) objectives in the Hawai'i State WIOA plan be addressed?
 - Addressing the considerations in section 231(e) of WIOA
 - Budget proposal
 - Personnel to provide an IELCE.

Applications will be evaluated by a committee of representatives from core partners trained in using a rubric included with the application. The workforce development boards of each region will review the applications for alignment with their local plan.

E. STATE LEADERSHIP

1. DESCRIBE HOW THE STATE WILL USE THE FUNDS TO CARRY OUT THE REQUIRED STATE LEADERSHIP ACTIVITIES UNDER SECTION 223 OF WIOA

The HIDOE will use 55% of the 12.5% of AEFLA grant funds allowable for leadership activities under WIOA section 222(a)(2) for the salary and fringe benefits for a HIDOE educational specialist to carry out the required and permissible State Leadership activities. The remaining leadership funds will be used for multi-year contracts to support the required and permissible leadership activities.

The HIDOE will support the implementation of the Hawai'i WIOA unified state plan strategies to achieve the strategic vision for Hawai'i's workforce through the development of aligned activities with required partners as described in section 223(1)(a)

Aligned activities include but are not limited to the following.

- The HIDOE will engage in one-stop activities and meetings and co-develop joint training opportunities with required partners across the state.
- Continue to develop written AEFLA guidance and processes for the local program, including establishing a HIDOE-approved IET and its required components, such as a career pathway.
- Continue to work with required partners to improve data sharing for program improvement purposes and National Reporting System requirements.
- Utilize market research services to identify vulnerable populations statewide eligible for AEFLA services and their proximity to local programs.

The HIDOE will utilize the information from three program evaluations of the local program completed in December 2023 to develop a high-quality and multi-year professional development plan described in section 223(1)(b) to support the following areas.

- Full implementation of the academic standards.
- Implementation of an IET program.
- Improvement and best practices in digital literacy.

The plan will also include a second program evaluation to determine the effectiveness of the multi-year professional development.

The HIDOE will continue to develop written guidance and procedures accompanied by technical assistance in all areas related to the AEFLA program, as described in section 223(1)(c). This includes but is not limited to the following.

- Data quality and data system requirements
- Assessment procedures and requirements
- Fiscal procedures and requirements
- One-stop responsibilities and requirements
- Procedures and requirements for monitoring the local program.

The HIDOE will develop and implement guidelines and processes for monitoring and evaluating local programs as required under section 223(1)(d). In addition, through a multi-year contract, an exit survey will be developed for all local program participants, resulting in an annual report to determine if required AEFLA services were provided to participants.

2. DESCRIBE HOW THE STATE WILL USE THE FUNDS TO CARRY OUT PERMISSIBLE STATE LEADERSHIP ACTIVITIES UNDER SECTION 223 OF WIOA, IF APPLICABLE

The HIDOE will use available leadership funds for permissible activity (L) Outreach to instructors, students, and employers under section 223(a)(2). A multi-year contract with a Hawai'i-based media company will continue an AEFLA services outreach campaign through television, digital platforms, and social media.

F. ASSESSING QUALITY

Describe how the eligible agency will assess the quality of providers of adult education and literacy activities under title II. Describe how the eligible agency will take actions to improve such quality, including providing the activities described in section 223(a)(1)(B) of WIOA.

Describe how the eligible agency will use evaluations, data analysis, program monitoring, or other methods to improve the quality of adult education activities in the State.

The HIDOE will conduct a U.S. DOE Office of Career, Technical, and Adult Education-approved competition for AEFLA funds in 2024 to select a service provider for adult education and literacy services, corrections education services, and an IELCE program. The commitments and assurances required by the selected service provider will be the basis for assessing the quality of the provider.

The grant award recipient will be subject to all compliance requirements from the U.S. Department of Education award to the HIDOE that are pertinent to the recipient, all regulations that apply to the Adult Education and Family Literacy Act programs, and 2 CFR part 200 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards).

Fulfilling grant award commitments and assurances will be assessed through desk and onsite monitoring and through processes established through written guidance, including regular fiscal expenditure reports for reimbursement, budget reviews, data reviews, program implementation evaluations, and reports for National Reporting System requirements.

The HIDOE will take action to improve quality by developing written guidance, supplementary support material in different forms as necessary, utilizing technical assistance sessions, and professional development programs, including online delivered programs.

The HIDOE will utilize a variety of methods to improve quality. Program monitoring will determine improvements for the local program in meeting its AEFLA commitments and assurances as a service provider. Program evaluations will be used for specific purposes such as content standards implementation progress. Other methods for improvement in program quality will be the development of a participant exit survey resulting in an annual report to determine if AEFLA services were received.

ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAM CERTIFICATIONS

The State Plan must include	Include
1. The plan is submitted by the State agency that is eligible to submit the plan;	Yes
2. The State agency has authority under State law to perform the functions of the State under the program;	Yes

3. The State legally may carry out each provision of the plan;	Yes
4. All provisions of the plan are consistent with State law;	Yes
5. A State officer, specified by title in the certification, has authority under State law to receive, hold, and disburse Federal funds made available under the plan;	Yes
6. The State officer who is submitting the plan, specified by the title in the certification, has authority to submit the plan;	Yes
7. The agency that is submitting the plan has adopted or otherwise formally approved the plan; and	Yes
8. The plan is the basis for State operation and administration of the program;	Yes

ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAM ASSURANCES

The State Plan must include	Include
The State Plan must include	Include
1. The eligible agency will expend funds appropriated to carry out title II of the Workforce Innovation and Opportunity Act (WIOA) only in a manner consistent with fiscal requirements under section 241(a) of WIOA (regarding the supplement-not-supplant requirement);	Yes
2. The eligible agency will ensure that there is at least one eligible provider serving each local area, as defined in section 3(32) of WIOA;	Yes
3. The eligible agency will not use any funds made available under title II of WIOA for the purpose of supporting or providing programs, services, or activities for individuals who are not “eligible individuals” within the meaning of section 203(4) of WIOA, unless it is providing programs, services or activities related to family literacy activities, as defined in section 203(9) of WIOA;	Yes

4. Using funds made available under title II of WIOA to carry out a program for criminal offenders within a correctional institution, the eligible agency will give priority to serving individuals who are likely to leave the correctional institution within five years of participation in the program.	Yes
5. The eligible agency agrees that in expending funds made available under Title II of WIOA, the eligible agency will comply with sections 8301 through 8303 of the Buy American Act (41 U.S.C. 8301-8303).	Yes

SECTION 427 OF THE GENERAL EDUCATION PROVISIONS ACT (GEPA)

Describe how your entity's existing mission, policies, or commitments ensure equitable access to, and equitable participation in, the proposed project or activity.

The HIDEOE ensures equitable access and participation in public education through administrative rules, policies, and the distribution of informational materials.

Hawai'i Administrative Rules Title 8 Subtitle 2 Part 1 Chapter 19 addresses discrimination, harassment, bullying, and/or retaliation.

Hawai'i Board of Education Policy 305-10 Anti-Harassment, Anti-Bullying, and Anti-Discrimination Against Student(s) By Employees strictly prohibits discrimination, including harassment, by any employee against a student based on the following protected classes: race, color, national origin, sex, physical or mental disability, and/or religion. In addition to the above protected bases, the Department of Education strictly prohibits any form of harassment and/or bullying based on the following: gender identity and expression, socio-economic status, physical appearance and characteristic, and sexual orientation.

The HIDEO distributes the following information, which is available in 15 languages.

- An Annual Notice of Non-Discrimination and Anti-Harassment Statement
- Equal Educational Opportunity brochure
- Interim Grievance Procedures for Sexual Harassment
- Guidance on Supports for Transgender Students

The HIDEO also complies with federal non-discrimination laws.

- Title IX of the Educational Amendments of 1972 prohibits discrimination based on sex in schools and colleges receiving federal funding.
- Title VI of the Civil Rights Act of 1964 prohibits discrimination based on race, color, or national origin in programs or activities in federal funding.
- The Americans with Disabilities Act (ADA) is a comprehensive civil rights law that prohibits discrimination and guarantees that people with disabilities have the same rights and opportunities as everyone else.
- Section 504 is a civil rights law that ensures that a student with a disability has equal access to an education.

Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?

Barriers to equitable access and participation in adult education and literacy activities may include individuals with barriers to employment defined in USC Title 29 § 3102 and barriers such as geography and access to high-speed internet.

Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?

The HIDEO AEFLA funds competition application for eligible providers includes a grant requirements section describing the applicable federal regulations and 34 CFR part 81 of the General Education Provisions Act (GEPA). The application also requires submitting the GEPA 427 form and responses to 34 CFR 463.20 (d) Considerations in Awarding Grants or Contracts for Adult Education and Literacy Activities to Eligible Providers that address barriers to equitable access and participation in adult education and literacy activities.

What is your timeline, including targeted milestones, for addressing these identified barriers?

Addressing the identified barriers will be monitored through data collection and analysis and regular monitoring of the eligible provider of adult education and literacy activities as required by 2 CFR § 200.303 Internal Controls.

ADULT EDUCATION AND LITERACY PROGRAM PERFORMANCE INDICATORS

Performance Indicators	PY 2024 Expected Level	PY 2024 Negotiated Level	PY 2025 Expected Level	PY 2025 Negotiated Level

C. Program-Specific Requirements For Title III: Wagner-Peyser Program (Employment Services)

EMPLOYMENT SERVICE STAFF

1. DESCRIBE HOW THE STATE WILL STAFF THE PROVISION OF LABOR EXCHANGE SERVICES UNDER THE WAGNER-PEYSER ACT, SUCH AS THROUGH STATE EMPLOYEES, INCLUDING BUT NOT LIMITED TO STATE MERIT STAFF EMPLOYEES, STAFF OF A SUBRECIPIENT, OR SOME

COMBINATION THEREOF.

Pursuant to the Wagner-Peyser Act Staffing Final Rule issued by the US DOL on November 24, 2023, Hawai'i will continue to utilize state merit staff employees to provide the provision of labor exchange services under the Wagner-Peyser Act.

2. DESCRIBE HOW THE STATE WILL UTILIZE PROFESSIONAL DEVELOPMENT ACTIVITIES FOR EMPLOYMENT SERVICE STAFF TO ENSURE STAFF IS ABLE TO PROVIDE HIGH QUALITY SERVICES TO BOTH JOBSEEKERS AND EMPLOYERS

A minimum percentage amount of the total funds allotted for Wagner-Peyser will be used for capacity building to ensure staff has the necessary tools and training to provide high-quality of basic career services to job seekers and services to employers. In addition, leveraged funds will be used to increase training for AJC staff to ensure that job seekers are dually enrolled in programs for wrap-around services to successfully secure gain and/or retain employment. Joint training will be conducted at least twice per year between the core programs and other partner agencies, which include the National Farmworker Jobs Program.

3. DESCRIBE STRATEGIES DEVELOPED TO SUPPORT TRAINING AND AWARENESS ACROSS CORE PROGRAMS AND THE UNEMPLOYMENT INSURANCE (UI) PROGRAM AND THE TRAINING PROVIDED FOR EMPLOYMENT SERVICES AND WIOA STAFF ON IDENTIFICATION OF UI ELIGIBILITY ISSUES AND REFERRAL TO UI STAFF FOR ADJUDICATION

UI staff will provide training to core program staff, including Employment Services and WIOA staff, about UI eligibility issues so that AJC staff will have basic knowledge about key eligibility items such as being able and available for work. As changes occur, UI will provide update training to staff. Regular communications and quarterly meetings will take place among core partners and UI contacts to assess any issues and implement corrective actions, as needed.

A. EXPLAIN HOW THE STATE WILL PROVIDE INFORMATION AND MEANINGFUL ASSISTANCE TO INDIVIDUALS REQUESTING ASSISTANCE IN FILING A CLAIM FOR UNEMPLOYMENT COMPENSATION THROUGH ONE-STOP CENTERS, AS REQUIRED BY WIOA AS A CAREER SERVICE

The Wagner-Peyser (WP) staff are co-located at each of the four (4) American Job Centers (AJC) in Hawai'i, Kauai, and Maui Counties and the City and County of Honolulu to provide meaningful assistance to individuals requesting assistance in filing a claim for unemployment compensation. The staff are trained to assist customers with completing an application for Unemployment Insurance (UI) benefits through on-line, in person or telephone. The WP staff works collaboratively with the UI Division (UID) to continuously improve services to UI claimants. UID trains the WP staff to ensure that the WP staff can provide meaningful assistance to individuals with filing their claims and answering common questions to manage their claims. In situations where it requires a more technical response and WP has exhausted the knowledge or the resources available at <http://labor.hawaii.gov/ui>, the WP staff will refer the UI claimants to UID for additional assistance.

The training by the UID allows WP staff the ability to identify possible eligibility issues and refer those issues to the UI staff for adjudication or follow-up. UI claimants who are required to seek work are directed to register within seven (7) days in the state's labor exchange system, HireNet Hawai'i at www.hirenethawaii.com. In the event that a UI claimant requires assistance with a work registration issue on their claim, WP staff utilize a formalized communication process to verify with UI that a claimant has successfully registered in Hirenet as defined in Chapter 383-12, HRS.

WP staff provides UI claimants with the necessary wrap-around services to assist UI claimants with their reemployment efforts by leveraging the resources available at the AJC, which include but are not limited to, developing individual reemployment plans, job search and preparation assistance, referring them to job openings and job readiness workshops, guiding UI claimants toward established career pathways and providing UI claimants guidance to navigate Hawai'i's labor market information through Hawai'i Workforce Infonet (HIWI), to make informed decisions about their career choice.

B. DESCRIBE THE STATE'S STRATEGY FOR PROVIDING REEMPLOYMENT ASSISTANCE TO UI CLAIMANTS AND OTHER UNEMPLOYED INDIVIDUALS

Since September 2008, the staff of the DLIR, Workforce Development Division (WDD), had been conducting Reemployment and Eligibility Assessment (REA) services in coordination with the UI Division to facilitate the transition of initial UI claimants to employment.

Effective January 2016, the Reemployment Services and Eligibility Assistance (RESEA) program superseded REA. In Fiscal year 2018, amendments to the Social Security Act permanently authorized the RESEA program with formula-based funding and requirements to increase the use of evidence-based reemployment interventions and strategies.

The initial UI claimants selected for the program are separating military veterans and those claimants most likely to exhaust UI benefits. The selection of those most likely to exhaust is automated, based on an analysis of characteristics associated with exhaustion in consultation with US DOL. The required components of RESEA are similar to REA, with an increased emphasis on more in-depth and individualized services to a population that has traditionally experienced higher unemployment rates than the general population.

In addition to RESEA services, which are funded by UI Division, Wagner-Peyser staff provides on-going assistance to UI claimants and other unemployed job seekers through the electronic job board (HireNet Hawai'i), special recruitment services, and job search workshops. Due to social distancing requirements caused by the COVID-19 Pandemic in 2020, the RESEA Program converted services to on-line scheduling of virtual group orientation sessions and one-on-one meetings. In 2022, the RESEA Program reinstated in-person sessions to provide its participants greater accessibility, support, and options to participate in RESEA. UI claimants selected for the RESEA Program are now able to self-schedule their group orientation appointment on-line via Zoom or in-person at their local office.

Most UI claimants are required to register in the Wagner-Peyser program, and have at least one online resume posted in HireNet Hawai'i, the State's electronic job bank, to qualify for UI benefits. Thus, UI claimants are currently part of the workforce system in the State, and UI claimants will have access to other workforce programs operated by WDD offices and other agencies that are part of the WIOA system.

C. DESCRIBE HOW THE STATE WILL USE W-P FUNDS TO SUPPORT UI CLAIMANTS, AND THE COMMUNICATION BETWEEN W-P AND UI, AS APPROPRIATE INCLUDING THE FOLLOWING:

1. COORDINATION OF AND PROVISION OF LABOR EXCHANGE SERVICES FOR UI CLAIMANTS AS REQUIRED BY THE WAGNER-PEYSER ACT.

WDD will continue to utilize Wagner-Peyser funds to provide labor exchange services to UI claimants and other individuals interested in seeking employment. The Wagner-Peyser non-administrative staff who are responsible for providing direct services are co-located in the AJCs and are available to provide basic career services to UI claimants. These services include, but are not limited to, resume-preparation services, assistance to job listings, labor market information and referral to Title I services and other services available from the core partners and other agencies, as needed.

WDD will continue to use an inter-agency communication system with UID to relay information to UID regarding UI claimants enrolled in training or placed in a job. The same communication system also enables WDD to inform UID about restrictions on a claimant's availability for work.

2. REGISTRATION OF UI CLAIMANTS WITH THE STATE'S EMPLOYMENT SERVICE IF REQUIRED BY STATE LAW

UI claimants are required to register for work and post an online resume in HireNet Hawai'i within seven (7) days of filing their initial claim for benefits.

3. ADMINISTRATION OF THE WORK TEST FOR THE STATE UNEMPLOYMENT COMPENSATION SYSTEM, INCLUDING MAKING ELIGIBILITY ASSESSMENTS (FOR REFERRAL TO UI ADJUDICATION, IF NEEDED), AND PROVIDING JOB FINDING AND PLACEMENT SERVICES FOR UI CLAIMANTS

As explained in (2) above, UI claimants are required to register and post a resume in HireNet Hawai'i to be eligible for UI benefits. In addition to RESEA services described in c. above, Wagner-Peyser non-administrative staff assists UI claimants by assisting them in becoming familiar with the job search and other features in HireNet Hawai'i through the RESEA program, and other services, as needed. To the extent possible, Wagner-Peyser funded non-administrative staff also refers UI claimants to jobs, training, and other resources that would enhance their employability and improve their opportunities for work. Any issues identified regarding the claimant's eligibility for UI benefits are reported to the UID through the UI-WDD 1 form.

Whether a claimant has fulfilled the resume and work registration requirement in HireNet

Hawai'i is electronically determined and UID is made aware of any non-compliant claimants. As explained in (B) above, if a UI claimant requires assistance with a work registration issue on their claim, WP staff utilize a formalized communication process to verify with UI that a claimant has successfully registered in Hirenet as defined in Chapter 383-12, HRS.

4. PROVISION OF REFERRALS TO AND APPLICATION ASSISTANCE FOR TRAINING AND EDUCATION PROGRAMS AND RESOURCES.

UI claimants and other job seekers are provided information about training and resources available to improve their skills and become more acquainted with other careers. Claimants served through the RESEA program receive a comprehensive orientation to services available and are referred to at least one service offered in the One-Stop Center. Potential claimants addressed through Rapid Response sessions are also notified of education and training opportunities in WIOA, Adult Education, DVR, and community colleges.

E. AGRICULTURAL OUTREACH PLAN (AOP). EACH STATE AGENCY MUST DEVELOP AN AOP EVERY FOUR YEARS AS PART OF THE UNIFIED OR COMBINED STATE PLAN REQUIRED UNDER

SECTIONS 102 OR 103 OF WIOA. THE AOP MUST INCLUDE AN ASSESSMENT OF NEED. AN ASSESSMENT NEED DESCRIBES THE UNIQUE NEEDS OF FARMWORKERS IN THE AREA BASED ON PAST AND PROJECTED AGRICULTURAL AND FARMWORKER ACTIVITY IN THE STATE. SUCH NEEDS MAY INCLUDE BUT ARE NOT LIMITED TO: EMPLOYMENT, TRAINING, AND HOUSING.

1. ASSESSMENT OF NEED. PROVIDE AN ASSESSMENT OF THE UNIQUE NEEDS OF FARMWORKERS IN THE AREA BASED ON PAST AND PROJECTED AGRICULTURAL AND FARMWORKER ACTIVITY IN THE STATE. SUCH NEEDS MAY INCLUDE BUT ARE NOT LIMITED TO: EMPLOYMENT, TRAINING, AND HOUSING.

Hawai'i	269,188
Honolulu	151,383
Kauai	61,025
Maui	82,206
State Total	563,803

The State of Hawai'i is not a significant State for MSFW. There are four Local Office Monitor Advocates (LOMA's) assigned to the four local areas in the state. The LOMA is responsible for coordinating agriculture employer services and farmworker outreach activities within his or her respective service delivery area, as needed, in conjunction with farmworker service providers. The WDD Maui County Branch Manager is serving as the part-time the State Monitor Advocate (SMA).

Monitor Advocate (SMA). The SMA provides technical assistance to LOMA staff ensuring they

have the tools needed to properly implement outreach service strategies at the local level. The Wagner-Peyser Program provides funding for .25 FTE for the SMA and LOMAs to conduct outreach services to the MSFW population.

The prevailing employment service need of Hawai'i's migrant seasonal farmworkers is staff assisted service with Wagner-Peyser registration and job referrals when the customer is filing for unemployment insurance (UI) benefits. Since farm work opportunities are available year-round due to Hawai'i's acclimate weather, the great majority of MSFW who files for UI benefits plan to return to their farming jobs and generally has no interest in pursuing other types of employment opportunities. For MSFW who seeks other job opportunities or interested in pursuing a vocational change, the Wagner-Peyser staff provides individualize services and refers the MSFW to the NFJP grantee, Adult Program, under Title I of WIOA or other services in the community.

These services are targeted to individuals inquiring about better paying jobs or jobs that are less demanding physically.

LOMAs economize their limited resources and focus their outreach efforts in collaboration with the NFJP at critical junctures in the crop production and harvesting seasons when workers experience layoff or reduced work hours. Priority of resources is rapidly committed to farmworkers and their employers during these vulnerable periods to preempt gaps in worker transition and to ensure a rapid segue to unemployment insurance, employment, and partner services.

Information presentations on AJC and partner services are available to all farmworkers and are customized to the needs of the individual or small group. AJC program brochures, large group briefings, and web-based tools are incorporated as required. As resources permit, LOMAs register workers in the AJC labor exchange system at the job site.

Electronic service delivery is permissible, encouraged, and carried out via the internet-based labor exchange system, www.HireNetHawaii.com. Access to bilingual staff or telephonic interpreting services is available at AJCs across the state. When identified by staff, migrant seasonal workers receive appropriate interpreter services.

1. ASSESSMENT OF THE AGRICULTURAL ACTIVITY IN THE STATE MEANS: 1) IDENTIFYING THE TOP FIVE LABOR-INTENSIVE CROPS, THE MONTHS OF HEAVY ACTIVITY, AND THE GEOGRAPHIC AREA OF PRIME ACTIVITY; 2) SUMMARIZE THE AGRICULTURAL EMPLOYERS' NEEDS IN THE STATE (I.E. ARE THEY PREDOMINANTLY HIRING LOCAL OR FOREIGN WORKERS, ARE THEY EXPRESSING THAT THERE IS A SCARCITY IN THE AGRICULTURAL WORKFORCE); AND 3) IDENTIFYING ANY ECONOMIC, NATURAL, OR OTHER FACTORS THAT ARE AFFECTING AGRICULTURE IN THE STATE OR ANY PROJECTED FACTORS THAT WILL AFFECT AGRICULTURE IN THE STATE

Top Five Labor Intensive Crops

Type of Crop	Months of heavy activity	Prime Geographic Areas and Acres
Taro	March to July- Year-round	Hilo, Hawai'i- 76 Acres
Macadamia Nuts	Begins July 1st ends June 30 of following year	Hilo, Hawai'i-18,170 Acres
Coffee	August to December	Hilo, Hawai'i- 5,491Acres
Papaya	March to November	Hilo, Hawai'i- 1,019 Acres
Pineapples	April to September	Hilo, Hawai'i- 98 Acres

Agricultural Employers Need

53% of the States farmworkers sustained employment in farming 150 days or more, the other 47% of farmworkers worked less than 150 days. The Department of Economic Development and Tourism (DBEDT) employment and wages data reveals the average employment for labor farmworkers in 2021 was 5,902 with an average annual wage of \$42,629. While in 2022, the average employment for farmworkers was 5,787 with an average annual wage of \$45,813. This indicates that the agriculture industry experienced an increase in wages of 7.5% while the number of employed farmworkers declined by 1.5%. Employers are more likely to thrive in their business if employees are steady during the off seasons and employees can return to the same employer during the prime harvesting season. Therefore, it's essential for employers to retain workers from season to season.

The American Job Center aids employers and their employees about labor market information and other services which include but are not limited to, Unemployment Insurance, licensures and certifications, occupational skills training, and other employment opportunities. The Maui Economic Opportunity, Inc. as the National Farmworker Jobs Program (NFJP) grantee can provide supportive services, such as housing and transportation assistance to eligible MSFW.

Agriculture employers may also be eligible to receive reimbursement for On-the-Job Training (OJT) services through the NFJP grantee. The OJT reimbursement helps to offset the employer's extraordinary costs during the time they spend training an employee to be proficient in their job.

An updated Memorandum of Understanding (MOU) between DLIR and Maui Economic Opportunity (MEO) was executed in 2021. The MOU outlines each agency's responsibilities for ensuring the coordination of services to the MSFW population. The plan details the collaborative efforts of the State Monitor (SMA), Local Monitor Advocates (LOMAs) and NFJP in their efforts to conduct outreach to the MSFW population. In addition, the strong partnership between DLIR and MEO continues to be strengthened through their participation at the AJC's quarterly meetings. To continue to increase the outreach efforts to farmworkers,

DLIR will continue to collaborate with the NFJP grantee to leverage the limited resources.

Economic, natural, or other actors affecting agriculture in the State or any projected factors that will affect agriculture in the State.

Farming Technology.

The agriculture industry is experiencing advances regarding the influence of machines and robotics. The trend in many States and throughout the Nation has revealed the popular use of robotics within the farming industry. In 2019 approximately 1,750 farms on Hawai'i were asked to complete a survey by the State Department of Agriculture. The survey revealed that the utilization of farming technology is lucrative because farming machines and robots offers the potential to decrease overall cost of production and cost per employee, thus, increasing revenues.

2017 Hawai'i Farm Technology Survey, Number used, Number Wanted, 2019	Number Used	Number Wanted + Number Used
Tablet for farm use (i.e. Apple iPad, Samsung Galaxy Tab)	1,210	1,512
Satellite Phones	634	737
Unmanned Aerial Vehicle for farm use (i.e., drone)	182	872
Video Surveillance	1,516	3,383
Hand Held Sensors (moisture, plant health, etc.)	364	1,085
Field Sensors (moisture, soil conditions, etc.)	251	1,153
GPS- Guided Equipment	148	414
GPS/RFD Livestock Tracking	69	2,778
Smart Phone Apps (field conditions, yield information etc.)	1,263	1,208
Computer Applications (budget, farm operations, etc.)	1,945	1,357
Third Party Service Application (i.e., fee for service plan)	322	266

The survey reveals that farmers in Hawai'i are advancing to farm technology. Based on the date, it shows that Hawai'i farmers will transition to the use of additional farm technology soon. Items such as Unmanned Aerial Vehicles (UAV) are in high demand, approximately 50%

of farmers on this 2019 survey would like to use this device. A device such as the UAV would allow farm owners to capture a large-scale aerial view. UAVs paired with editing software will allow the benefit of high-definition video's, still pictures, zoom and cropping. This technology replaces the activity of physically transporting employees in vehicles to capture the same data. This tool also allows farmers to collect data of their crops throughout the year and maintain a record for business analysis and projection. UAV capabilities also in collaboration with climate data will assist farmers with vital information that will not require dense human labor. As the popularity for farming technology and promotions continue, it would likely affect the farming labor workforce.

Economic Projection

Service	2016	2026 Projected
Office & Administrative Support	26.9%	27.8%
Management, Business & Financial	13.3%	12.4%
Education, Legal, Comm. Svc, Arts & Media	10.7%	10.8%
Sales & Related Occupations	9.5%	9.1%
Transportation & Material Moving	6.3%	6.4%
Construction & Extraction	6.0%	6.0%
Healthcare Practitioners & Technical	4.6%	4.9%
Computer, Engineering, & Science	4.0%	4.0%
Installation, Maintenance & Repair	3.7%	3.7%
Production	2.4%	2.3%
Farming, Fishing & Forestry	0.6%	0.5%

Hawai'i's economy represents a strong service-oriented industry. The service industry will continue to show an increase in employment and thrives as a backbone to the States economic sustainability. The farming industry serves less than 1% of the economic traits in Hawai'i and will show some decrease in the next ten years. This decline includes the popularity for farming technology and the broad options for farmers to gain revenue on machines instead of output cost per human capita. This could create a negative effect on individuals who rely on farming employment for a steady income. It also shows the need to upgrade the skillset of these individuals to ensure sustainability in their employment.

To counter the booming of robotics, CTAHR led a trial with the support of HDOA, and USDA to partner with Greenwell Farms to conduct research regarding methods of coffee pruning in Hawai'i.

Research discovered that single or double vertical hand-hedged trees provide approximately 1.5 times more harvest. However, this method requires twice the labor force which thus far can only be accomplished by the human touch. The State is enthusiastic and determined to promote locally grown food to obtain local sustainability and food source self-sufficiency. This effort will also support the States local economy, will sustain our farming industry, and further enhance farming employment. DLIR will support the farming workforce and agriculture employers by further implementing the AJC’s services and outreach efforts.

2. ASSESSMENT OF THE UNIQUE NEEDS OF FARMWORKERS MEANS SUMMARIZING MIGRANT AND SEASONAL FARM WORKER (MSFW) CHARACTERISTICS (INCLUDING IF THEY ARE PREDOMINANTLY FROM CERTAIN COUNTRIES, WHAT LANGUAGE(S) THEY SPEAK, THE APPROXIMATE NUMBER OF MSFWS IN THE STATE DURING PEAK SEASON AND DURING LOW

SEASON, AND WHETHER THEY TEND TO BE MIGRANT, SEASONAL, OR YEAR-ROUND FARMWORKERS). THIS INFORMATION MUST TAKE INTO ACCOUNT DATA SUPPLIED BY WIOA SECTION 167 NATIONAL FARMWORKER JOBS PROGRAM (NFJP) GRANTEES, OTHER MSFW ORGANIZATIONS, EMPLOYER ORGANIZATIONS, AND STATE AND/OR FEDERAL AGENCY DATA SOURCES SUCH AS THE U.S. DEPARTMENT OF AGRICULTURE AND THE U.S. DEPARTMENT OF LABOR (DOL) EMPLOYMENT AND TRAINING ADMINISTRATION

U.S. DOL Migrant Indicators of Compliance (MIC) report period from 1 July 2023 to 30 September 2023 reveals:

Reporting Element MIC Performance Indicators	Actual Number Accomplished for Total MSFW’s	Actual Number Accomplished for All Non-MSFW Applicants
Total Active Participants	68	9,230
Referred to Employment	9	502
Referred to Support Services	0	0
Received Staff Assisted Services	19	6,352
Complete Applications	50	6,532
Job Development Contact	0	41
Career Guidance	10	722

The State of Hawai’i is not a significant State for MSFW. There are four Local Office Monitor Advocates (LOMA’s) assigned to the four local areas in the state. The LOMA is responsible for coordinating agriculture employer services and farmworker outreach activities within his or her respective service delivery area, as needed, in conjunction with farmworker service

providers. The Maui County Branch Manager at the WDD Maui Office is the Part-time State Monitor Advocate (SMA). The SMA provides technical assistance to LOMA staff ensuring they have the tools needed to properly implement outreach service strategies at the local level. The Wagner-Peyser Program provides funding for .25 FTE for the SMA and LOMAs to conduct outreach services to the MSFW population.

The prevailing employment service need of Hawai'i's migrant seasonal farmworkers is staff assisted service with Wagner-Peyser registration and job referrals when the customer is filing for unemployment insurance (UI) benefits. The great majority of MSFW who files for UI benefits plan to return to their farming jobs and generally has no interest in pursuing other types of employment opportunities. For MSFW who seeks other job opportunities or interested in pursuing a vocational change, the Wagner-Peyser staff provides individualize services and refers the MSFW to the NFJP grantee, Adult Program, under Title I of WIOA or other services in the community. These services are targeted to individuals inquiring about better paying jobs or jobs that are less demanding physically.

LOMAs economize their limited resources and focus their outreach efforts in collaboration with the NFJP at critical junctures in the crop production and harvesting seasons when workers experience layoff or reduced work hours. Priority of resources is rapidly committed to farmworkers and their employers during these vulnerable periods to preempt gaps in worker transition and to ensure a rapid segue to unemployment insurance, employment, and partner services.

Information presentations on AJC and partner services are available to all farmworkers and are customized to the needs of the individual or small group. AJC program brochures, large group briefings, and web-based tools are incorporated as required. As resources permit, LOMAs register workers in the AJC labor exchange system at the job site.

Electronic service delivery is permissible, encouraged, and carried out via the internet-based labor exchange system, www.HireNetHawaii.com. Access to bilingual staff or telephonic interpreting services is available at AJCs across the state. When identified by staff, migrant seasonal workers receive appropriate interpreter services.

3. TREACH ACTIVITIES

1. Contacting Farmworkers who are not being reached by normal intake.

Correspondence, brochures, presentations, job fairs, rapid response outreach, partnership resources, and worksite visits are examples of outreach activities and methods used by AJCs to locate and contact farmworkers. The successful achievement of outreach relies on the availability of staff resources to perform outreach but more importantly, it is staff having awareness of the location of farms and farmworker populations in each service delivery area. AJC managers and their Local Office Monitor Advocates (LOMA) will rely on their agriculture service provider partners, who are well connected to the farming community, to gain essential information on how best to access farmworkers.

DLIR WDD manages the MSFW program and partners with Maui Economic Opportunity, Inc.,

the NFJP grantee, to conduct outreach and offer services statewide. Four LOMAs are assigned to the four local areas who provide comprehensive employment services to the agriculture industry in their respective service delivery areas. LOMAs are the primary staffs involved with consistent contacts with the agriculture community. All LOMAs are funded by the Wagner-Peyser program. In partnership with the NFJP and other agriculture service providers, LOMAs offer workers and employers a comprehensive menu of state and federally funded services. Site visits are vital due to the demographics and the existing barriers of transportation and distance to job centers.

An existing MOU with MEO provides WDD a key partner in its outreach efforts to the MSFW community. MEO provides employment and training services statewide targeting low-income farm workers and their families. WDD's continued ties with the State Department of Agriculture and the Hawai'i Farm Bureau Federation helps maintain an integral link to the agricultural community. WDD will continue to leverage the knowledge and relationships that these agencies have within the local farming communities to promote services available to the MSFW population.

Correspondence, brochures, presentations, job fairs, rapid response outreach, partnership resources, and worksite visits are examples of outreach activities and methods used by AJCs to locate and contact farmworkers. The successful achievement of outreach relies on the availability of staff resources to perform outreach but more importantly, it is staff having awareness of the location of farms and farmworker populations in each service delivery area. WDD's continued ties with the State Department of Agriculture and the Hawai'i Farm Bureau Federation helps maintain an integral link to the agricultural community. WDD will continue to leverage the knowledge and relationships that these agencies have within the local farming communities to promote services available to the MSFW population.

To provide the best Technical Assistance to Outreach workers a thorough study of the labor market will target proper strategies and core competencies within the farming industry. SMA's will produce strategies such as conducting an analysis of businesses to collect key needs,

concerns and a data that will determine the number of employed farmworkers in that area. This will establish a current understanding of the industry and transfer the proper provisions to outreach workers. Currently Hilo has the most farming acreage, and employee's, TA will be focused on Hilo to enhance overall performance compliance.

Administrative support will be provided to outreach workers for continuity of federal compliance, policies, and guidelines. WDD will provide coordination of services and implement best practices relating to service delivery through One-stop delivery systems. Technical assistance will address all farmworker rights, the complaint system, and all key issues to establish articles of significant challenges such as under-enrollment within specific Counties or programs and the identification of Unemployment Insurance (UI) eligibility issues.

SMA and LOMA's are State Merit staff that are available to participate in professional development activities as they become available to ensure high quality of services are provided to both jobseekers and employers.

LOMA's will be required to arrange quarterly site visits which allow farmworkers and employers to feel comfortable in their own environment allow them to give more time to LOMA's. Transportation for workers is a significant barrier to receiving services, information, intake etc. Site visits help to increase opportunities and awareness of programs available to help enhance the lives of participants and their families. LOMA's will present options to workers regarding assistance on transportation to training, planning, scheduling, labor market information and referrals to any additional services clients may be eligible for. Bringing the information to clients will help to enhance the opportunities for services. The LOMAs regular site visits help to establish a connection between the farmworker and the agriculture industry.

LOMA's will be required to arrange quarterly site visits which allow farmworkers and employers to feel comfortable in their own environment allow them to give more time to LOMA's. Transportation for workers is a significant barrier to receiving services, information, intake etc. Site visits help to increase opportunities and awareness of programs available to help enhance the lives of participants and their families. WDD will provide coordination of services and implement best practices relating to service delivery through One-stop delivery systems. Technical assistant will address all key issues to establish articles of significant challenges such as under- enrollment within specific Counties and the identification of UI eligibility issues.

SMA and LOMA's are State Merit staff that are available to participate in professional development activities as they become available to ensure high quality of services are provided to both jobseekers and employers.

The SMA is located on the island of Maui and is accessible to the LOMAs located in the four

Counties. The SMA will travel to the outreach staff as needed without unnecessary delay.

The goal established for each program year by the State for the total number of farmworkers who will be contacted, include the following considerations: the ambitious aim to reach out to as many farmworkers as possible based on historical estimated total farmworker population data; the number of LOMAs and MEO staff dedicated to outreach; LOMAs and MEO will rely on its resources to perform most outreach activities. The SMA, LOMAs and NFJP will continue to collaborate its outreach efforts as outlined in the MOU between DLIR and MEO. In addition, the partnership with MEO continues to be strengthened through their participation at the AJC's quarterly meetings.

4. COORDINATION OUTREACH EFFORTS WITH NFJC GRANTEES AS WELL AS WITH PUBLIC AND PRIVATE COMMUNITY SERVICE AGENCIES AND MSFW GROUPS.

DLIR WDD manages the MSFW program and partners with Maui Economic Opportunity, Inc., the NFJP grantee, to conduct outreach and offer services statewide. Four LOMAs are assigned to the four local areas who provide comprehensive employment services to the agriculture industry in their respective service delivery areas. LOMAs are the primary staffs involved with consistent contacts with the agriculture community. All LOMAs are funded by the Wagner-Peyser program. In partnership with the NFJP and other agriculture service providers, LOMAs offer workers and employers a comprehensive menu of state and federally funded services. Site visits are vital due to the demographics and the existing.

An existing MOU with MEO provides WDD a key partner in its outreach efforts to the MSFW community. MEO provides employment and training services statewide targeting low-income farm workers and their families. WDD's continued ties with the State Department of Agriculture and the Hawai'i Farm Bureau Federation helps maintain an integral link to the agricultural community. WDD will continue to leverage the knowledge and relationships that these agencies have within the local farming communities to promote services available to the MSFW population.

5. SERVICES PROVIDED TO FARMWORKERS AND AGRICULTURAL EMPLOYERS THROUGH THE ONE-STOP DELIVERY SYSTEM

i. How career training services required under WIOA Title I will be provided to MSFWs through the one-stop centers.

The WIOA Title 1 section 167 grantee in Hawai'i, Maui Economic Opportunity, (MEO), and the DLIR WDD will coordinate to assess the effectiveness of the statewide outreach strategy on an annual basis. For example, they will assess whether outreach efforts are sufficient to locate and contact farmworkers. The partnership will evaluate its efforts in recruiting agriculture service providers which include public and private community service agencies and MSFW groups and encourage their participation to continue the collaborative partnership to increase the outreach efforts to the MSFW population.

Title I services are provided at each of the American Job Centers in Hawai'i through the City and County of Honolulu, Goodwill Industries, and the State. Employment services staff for both Title I and III will be provided technical assistance and other training to ensure employment services are improved and best practices are shared.

ii. How the State serves agricultural employers and how it intends to improve such services.

Farmworkers have unique service needs. A variety of employment services is customized to meet their specific concerns. DLIR WDD will continue to utilize the expertise of the Agricultural Boards to share information on AJC services. Further, as part of the Wagner-Peyser Program, staff continually conduct employer engagement to share information about HireNet Hawai'i which is the State Job Board. Staff continues to provide group presentations, distribute outreach materials, and conducts Job Fairs to meet the employers' workforce needs.

A common service need in the migrant population is language assistance.

Whether it is at outreach events or at the AJC, staff are trained to identify when interpretation services are needed. In Hawai'i, the common languages spoken in addition to English within the MSFW population Ilocano, Spanish, Thai, and to a lesser extent; Mandarin, Lao, and Khmer.

The AJC has access to interpreter services that is facilitated through its partnership with the DLIR's Office of Language Access (OLA). OLA provides centralized oversight, coordination, and technical assistance to State agencies and organizations that receive state funding, regarding the implementation requirements of the Hawai'i Language Access Law. The goal of the OLA is to ensure that no person is denied access to State or State-funded services due to their limited ability to speak, read, write, or understand the English language.

Staff is trained to brief the rule on priority of employment and training services to veterans and other covered persons. Having individuals aware of the priority of service rule prepares them to understand that military veterans and covered persons will receive staff assisted services ahead of non-veterans when seeking assistance at the Centers. On the other hand, if a farmworker is identified by staff as a veteran, the individual will be aware that he or she is able to access staff assistance ahead of other farmworkers and non-veterans.

Information on the job service complaint system is included in the informational briefings to customers at outreach events or during orientation of services at the AJCs. Information about the MSFW complaint system is now available on Hawai'i's web-based labor exchange information system, HireNet Hawai'i (www.hirenethawaii.com) and a brochure was developed to specifically promote services to farmworkers and agriculture employers. The brochure will include information about the complaint system, farmworker rights, language assistance, career guidance, National Farmworker Jobs Program, other relevant employment services, and contact information for all WDD local offices.

Because it is common for job seekers to browse the internet to learn about government services, DLIR WDD, will continually update its website and inform partner agencies of these updates. Further, DLIR WDD created banners for each local area for use at job fairs and other employer events to promote awareness of employment services provided by the AJC. Customers will have a choice on how they will access government services as more and more jobseekers feel comfortable to access services through the internet. In promoting the full array of services at the AJCs, outreach staff is trained to highlight the computer resources at the Centers. Not only are the computers connected to the internet, but software tools and

staff assistance is available to assist farmworkers with creating a resume.

Presently, most employers use the ARS system as part of the H-2A program. With designated LOMA's in each county and an increased emphasis on agricultural outreach and field checks, WDD plans to enhance the integrity of the domestic worker recruitment, referral and hiring process.

6. OTHER REQUIREMENTS

A current MOU has been executed between DLIR and MEO which shows the commitment to collaborate and leverage its resources to serve the agriculture community with a focus on the Migrant Seasonal Farmworker population and economically disadvantaged farmworkers and their dependents.

DLIR and MEO will leverage their public, private, and non-profit community network of agriculture stakeholders to grow a coalition of service providers serving the interests of the MSFW community. New partners will be encouraged to cement its commitment to the coalition with a formal MOU. Upon consent by partners to participate in an MOU, DLIR will post newly implemented MOUs on the DLIR website within 30 days after the MOU is signed by any participating party.

WDD and its AJC network partners deliver services to agricultural employers through outreach; at the AJC; via the internet labor exchange system, HireNet Hawai'i; marketing information; job fairs, etc. Employers utilize HireNet Hawai'i (www.hirenethawaii.com) in posting job openings within their company. Staff provide customized information products according to the needs of the employers and to the needs of the migrant seasonal farmworkers. Key services include orienting employers to the H-2A Foreign Labor Certification of temporary and seasonal agriculture workers program, referral of qualified U.S. citizens to farm job openings, and timely agriculture labor market information.

A. REVIEW AND PUBLIC COMMENT

Copies of this plan will be provided to the following agencies:

Maui Economic Opportunity Inc. (National Farmworker Job Program Grantee)
99 Mahalani Street
Wailuku, HI 96793
(808) 243-4365

USDA NASS PRO Hawai'i Field Office
1428 South King Street Honolulu, HI 96814
(808) 973-9588

Further, the plan is posted for review and comments on the State of Hawai'i Department of Labor and Industrial Relations, Workforce Development Division web site at www.labor.hawaii.gov/wdd. Any comments and/or recommendations may be submitted to the State Monitor Advocate (SMA) as provided below:

Mr. Kevin Kimizuka

State Department of Labor and Industrial Relations, Workforce Development Division
Kevin.K.Kimizuka@hawaii.gov.
(808) 984-2091

As of May 26, 2022, no public comment has been received by the DLIR.

B. DATA ASSESSMENT

The ETA Migrant Indicators of Compliance reveals that the State met at an average of 4 out of the 8 performance areas. The areas met regularly include referred to employment, received staff assisted services, job development contact, and individualized career guidance. In the last 4-years, the State has met the MSFW federal *performance indicators approximately 41% of the time. The American Job Centers has a quarterly average of 53 MSFW participants as compared to an average of 6,017 of non-MSFW participants.

Hawai'i is not a significant State, however, MSFW services are established at each of the American Job Centers and employment specialist are trained to provide services to eligible participants. Hawai'i is not a significant State, however, MSFW services are established at each of the American Job Centers and employment specialist are trained to provide services to eligible participants.

The State Monitor Advocate reports on progress toward meeting equity and minimum service level indicators on a quarterly and annual basis. The equity measures compare key services delivered to MSFWs compared to non-MSFWs while the minimum service indicators require reporting on key measures such as outreach contacts per staff, timely processing of complaints, number of MSFWs placed in a job, etc.

C. ASSESSMENT OF PROGRESS

Although Hawai'i had minimal physical outreach efforts in PY 2019, information about MSFW services is available at each of the four AJCs. Hawai'i intended to expand its outreach efforts in PY 2020. Due to challenges with the pandemic and face to face/physical contact restrictions, Wagner-Peyser staff were available to provide basic and individualized career services, via phone or virtually, at each of the AJCs. In addition, Wagner-Peyser staff continue to screen records in the State's data system, HireNet Hawai'i, for MSFW population and provide outreach to the MSFW population.

In PY 2021, a part-time SMA (Maui) was assigned to oversee the statewide MSFW outreach and service delivery, and a LOMA was designated to represent each of the other islands (Hawai'i, Oahu, Kauai).

In PY 2022, outreach efforts included two virtual technical assistance meetings and in-person technical assistance visits to local offices in Hawai'i county, the largest Ag producer in the State. The first meeting included all line staff and reiterated the parameters and responsibilities for MSFW outreach and services delivered through the AJCs. The second meeting was specific to the LOMA's and Local Office Managers, covering the duties of the LOMA's and the outreach goals for each of the Counties. The plan was challenged by a shortage of staffing and hiring restrictions at the local level in PY 2022. However, an increase

in staffing at the local level in PY 2023 will now provide an opportunity to dedicate more staffing resources towards outreach efforts to Hawai'i's farmworkers and provide more direct services to those in need. Hawai'i intends to continue expanding its outreach efforts in PY 2024 with an assigned staff person from each of the local offices in addition to the LOMA. In addition, the SMA will provide in-person technical assistance to each local office including visits to local area farms.

The SMA, LOMAs, and local office staff will increase collaborative efforts with MEO's NFJP staff to expand on the present outreach and direct services to MSFWs statewide. Strategically planned efforts will increase the service delivery effort by interacting with additional MSFW employers and workers.

D. STATE MONITOR ADVOCATE

The State Monitor Advocate has provided oversight of this plan and has reviewed and approved it.

WAGNER-PEYSER ASSURANCES

The State Plan must include	Include
1. The Wagner-Peyser Act Employment Service is co-located with one-stop centers or a plan and timeline has been developed to comply with this requirement within a reasonable amount of time (sec 121(e)(3));	Yes
2. If the State has significant MSFW one-stop centers, the State agency is complying with the requirements under 20 CFR 653.111, State Workforce Agency staffing requirements;	Yes
3. If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser Act services, Adult and Dislocated Worker programs and Youth Programs under Title I; and	Yes

<p>4. SWA officials:</p> <ol style="list-style-type: none"> 1) Initiate the discontinuation of services. 2) Make the determination that services need to be discontinued. 3) Make the determination to reinstate services after the services have been discontinued. 4) Approve corrective action plans. 5) Approve the removal of an employer’s clearance orders from interstate or intrastate clearance if the employer was granted conditional access to ARS and did not come into compliance within 5 calendar days. 6) Enter into agreements with State and Federal enforcement agencies for enforcement-agency staff to conduct field checks on the SWAs’ behalf (if the SWA so chooses); and 7) Decide whether to consent to the withdrawal of complaints if a party who requested a hearing wish to withdraw its request for hearing in writing before the hearing. 	<p>Yes</p>
--	------------

WAGNER PEYSER PROGRAM PERFORMANCE INDICATORS

Performance Indicators	PY 2022 Expected Level	PY 2022 Negotiated Level	PY 2023 Expected Level	PY 2023 Negotiated Level

1 “Effectiveness in Serving Employers” is still being developed and this data will not be entered in the 2022 State Plan modifications

D. Program-Specific Requirements For Title IV: Vocational Rehabilitation (Combined or General)

TITLE IV: VOCATIONAL REHABILITATION

The Vocational Rehabilitation (VR) Services Portion of the Unified or Combined State Plan must include the following descriptions and estimates, as required by sections 101(a) and 606 of the Rehabilitation Act of 1973, as amended by title IV of WIOA.

a. State Rehabilitation Council.

1. ALL VR AGENCIES, EXCEPT FOR THOSE THAT HAVE AN INDEPENDENT CONSUMER-CONTROLLED COMMISSION, MUST HAVE A STATE REHABILITATION COUNCIL (COUNCIL OR SRC) THAT MEETS THE CRITERIA IN SECTION 105 OF THE REHABILITATION ACT. THE DESIGNATED STATE AGENCY OR DESIGNATED STATE UNIT, AS APPLICABLE, HAS:

Select A or B:

(A) is an independent State commission

(B) has established a State Rehabilitation Council

(B) has established a State Rehabilitation Council

2. IN ACCORDANCE WITH ASSURANCE (A)(1)(B), IF SELECTED, PLEASE PROVIDE INFORMATION ON THE CURRENT COMPOSITION OF THE COUNCIL BY REPRESENTATIVE TYPE, INCLUDING THE TERM NUMBER OF THE REPRESENTATIVE, AS APPLICABLE, AND ANY VACANCIES, AS WELL AS THE BEGINNING DATES OF EACH REPRESENTATIVE’S TERM.

Council Representative	Current Term Number/Vacant	Beginning Date of Term Mo./Yr.
Statewide Independent Living Council (SILC)	1	7/2022

Parent Training and Information Center	2	7/2022
Client Assistance Program	1	Exempt
Qualified Vocational Rehabilitation (VR) Counselor (Ex Officio if Employed by the VR Agency)	1	7/2023
Community Rehabilitation Program Service Provider	1	7/2021
Business, Industry, and Labor	1	7/2021
Business, Industry, and Labor	1	7/2023
Business, Industry, and Labor	Vacant	
Business, Industry, and Labor	Vacant	
Disability Advocacy Groups	2	7/2022
Current or Former Applicants for, or Recipients of, VR services	1	7/2021
Section 121 Project Directors in the State (as applicable)	NA	
State Educational Agency Responsible for Students with Disabilities Eligible to Receive Services under Part B of the Individuals with Disabilities Education Act (IDEA)	1	7/2023

State Workforce Development Board	1	7/2023
VR Agency Director (Ex Officio)	1	Exempt
Disability Advocacy Groups	2	7/2022

3. IF THE SRC IS NOT MEETING THE COMPOSITION REQUIREMENTS IN SECTION 105(B) OF THE REHABILITATION ACT AND/OR IS NOT MEETING QUARTERLY AS REQUIRED IN SECTION 105(F) OF THE REHABILITATION ACT, PROVIDE THE STEPS THAT THE VR AGENCY IS TAKING TO ENSURE IT MEETS THOSE REQUIREMENTS.

NA

4. IN ACCORDANCE WITH THE REQUIREMENTS IN SECTION 101(A)(21)(A)(II)(III) OF THE REHABILITATION ACT, INCLUDE A SUMMARY OF THE COUNCIL'S INPUT (INCLUDING HOW IT WAS OBTAINED) INTO THE STATE PLAN AND ANY STATE PLAN REVISIONS, INCLUDING RECOMMENDATIONS FROM THE COUNCIL'S ANNUAL REPORTS, THE REVIEW AND ANALYSIS OF CONSUMER SATISFACTION AND OTHER COUNCIL REPORTS.

The Hawai'i State Rehabilitation Council (SRC) is the advisory and oversight body for the Hawai'i Division of Vocational Rehabilitation (DVR). The SRC partners with DVR to establish agency priorities; analyze effectiveness of, and consumer satisfaction with, VR services; and to make recommendations for improving services. SRC members are nominated by the Governor and confirmed by the state legislature.

At SRC quarterly meetings, DVR provides the SRC with agency performance data as well as other information. DVR provides the Consumer Satisfaction Survey report along with a presentation of the results, including a question & answer session to ensure understanding. In addition, DVR provides the Triennial Comprehensive Statewide Needs Assessment Report. The SRC State Plan Committee convenes and presents their recommendations to DVR. DVR takes such recommendations into consideration when revising policies and procedures and incorporates agreed-upon recommendations in its State Plan. The SRC is provided with a DVR Liaison to provide any other additional information and assistance as needed.

Based on its review of the draft DVR portion of the PY 2024-2027 Unified State Plan, the SRC's State Plan Committee provided feedback for DVR administration supporting the draft of the Unified State Plan PY 2024-2027 with the Goals, Priorities and Strategies. The SRC thanked DVR for responding and including the recommendations that the Needs Assessment Committee provided on the most

recent CSNA at the SRC 3rd Quarterly Meeting on May 19, 2023. Following are DVR's priorities, along with associated SRC recommendations:

DVR Priority 1: Increase Employer Engagement

- SRC's Recommendation: #3: Increase Employer Engagement and services for DVR Consumers during employment.

DVR Priority 2: Provide Supported Employment services to individuals with most significant disabilities.

- SRC's Recommendation: #1: Consumer access and engagement with DVR services.

DVR Priority 3: Provide Pre-Employment Transition Services.

- SRC's Recommendation: #4: Empowering transition youth with disabilities to develop self-advocacy skills and access services in underserved areas.

DVR Priority 4: Develop common data collection for Unified State Plan.

- SRC's Recommendation: # 5: Additional Training and Support Needs to include financial literacy, benefits planning, digital literacy assessments and training, and technology resources.

The SRC understands this process will be a joint effort with other state stakeholders. The SRC supports DVR in ensuring that the priorities are presented and implemented, and that it is genuinely a shared statewide plan.

Hawai'i's SRC members are dedicated to working with DVR to develop strategic elements of planning to ensure DVR is focusing on the correct targets, and that the partnership is proactive to support community needs. SRC wants DVR to understand that the SRC plays a supportive role for planning services while also being an advocate for individuals with disabilities.

5. PROVIDE THE VR AGENCY'S RESPONSE TO THE COUNCIL'S INPUT AND RECOMMENDATIONS, INCLUDING AN EXPLANATION FOR THE REJECTION OF ANY INPUT AND RECOMMENDATIONS.

List each recommendation/input followed by the VR agency response.

DVR continues to have a productive working relationship with the SRC. DVR historically has not rejected any SRC input and appreciates all their feedback, recommendations, and advocacy to improve VR services for individuals with disabilities.

b. Comprehensive Statewide Needs Assessment (CSNA).

Section 101(a)(15), (17), and (23) of the Rehabilitation Act require VR agencies to provide an assessment of:

1. THE VR SERVICES NEEDS OF INDIVIDUALS WITH DISABILITIES RESIDING WITHIN THE STATE, INCLUDING:

A. Individuals with the most significant disabilities and their need for Supported Employment.

The Triennial Comprehensive Statewide Needs Assessment (CSNA) is jointly conducted by DVR, the SRC, stakeholders, and the Interwork Institute at San Diego State University (SDSU). Supporting access, awareness, and participation in the CSNA by people with disabilities and stakeholders is a top priority of the SRC. The purpose of the CSNA is to provide DVR and the SRC with information pertinent to the allocation of resources, to the development of VR Section of the Unified State Plan (USP), and to comply with the needs assessment mandate in the Rehabilitation Act of 1973, as amended.

The most current CSNA for FFY 2018-2020 which covers the period of October 1, 2018 - September 30, 2020, was completed in September 2022. DVR and the SRC utilized information from the assessment to address the VR service needs of individuals with disabilities statewide in the Goals and Priorities section in the Program Year (PY) 2024-2027 USP which covers the period of July 1, 2024 – June 30, 2027.

The next CSNA will be for FFY 2021-2023 which covers the period of October 1, 2021 - September 30, 2023. This contract is currently under review by the state Attorney General (AG) and SDSU with an expected execution date of February 1, 2024, with the Final Report completed by December 31, 2024. DVR will work with the SRC and other stakeholders to review the findings and determine Goals and Priorities to implement into the modified USP, July 1, 2026.

The CSNA for PY 2021-2023 will be completed in calendar year 2024, which ensures DVR's compliance with 34 C.F.R. 361.29.

The CSNA seeks to provide information on:

1. The overall performance of DVR as it relates to meeting the rehabilitation needs of individuals with disabilities in the State.
2. The rehabilitation needs of individuals with the most significant disabilities, including their need for supported employment services.
3. The rehabilitation needs of individuals with disabilities who are minorities, and those who have been unserved or underserved by the VR program.
4. The rehabilitation needs of youth and students with disabilities in transition, including their need for pre-ETS.
5. The rehabilitation needs of individuals served through other components of the statewide workforce development system.
6. The need to establish, develop and/or improve CRPs within the State; and

7. The needs of businesses in recruiting, hiring, accommodating, and retaining employees with disabilities.

DVR is no longer in an active Order of Selection (OOS) (HAR 17-401.1-5). While in OOS, DVR examined expenses, staffing, and instituted quality assurance and accountability methods to reduce the recommendations documented in the 2018 CSNA report (covering PYs 2015-2017). DVR's program services associated with annual statewide Consumer Satisfaction Surveys (CSS) administered to exited participants and RSA's on-site monitoring in 2019, in compliance with section 107 of the Rehabilitation Act, as amended by WIOA, and findings RSA has required DVR to address through corrective actions have also informed DVR's assessment of service needs for Hawai'i's residents with the most significant needs.

The 2019 RSA Monitoring, 2020-2021 Consumer Satisfaction Survey (CSS), and 2022 CSNA report (covering PYs 2018-2020) identified process improvement opportunities for individuals with the most significant disabilities in the following areas:

- DVR responsiveness to and engagement with participants to fulfill participant employment goals to increase successful rehabilitation rates.
- Compliance with timeliness of determining eligibility, developing Individualized Plans for Employment (IPE), and service delivery.
- Identification and strengthening of long-term supports for Supported Employment (SE) services for those with the most significant disabilities.
- Strengthening staff planning, use of labor market information, assessment skills for individualized services for participants with most significant disabilities, and utilization of comparable benefits.
- Increasing the number of individuals in career-technical and vocational training to obtain higher percentage rates of measurable skills gains and credentials attainment for reporting required performance measures; and
- Enhance community outreach utilizing alternative methods such as electronic platforms, including social media to underserved groups, including females, Hispanics, Hawai'ians, and Veterans.

The data from DVR is used in conjunction with RSA-911 case services reports from the Rehabilitation Services Administration (RSA) for the most recent CSNA. The data was separated and is reported according to the content areas that most closely align with the topic areas as included in the CSNA. The data was gathered and analyzed with a summary of key findings for each required section listed below.

Needs identified in this area included the following:

1. Education and career-technical training, soft skills and transportation are common rehabilitation needs for individuals with the most significant disabilities.
2. The needs of individuals with the most significant disabilities were greatly magnified on the neighbor islands.

3. There continues to be a need for supported employment services and qualified vendors to provide the service.
4. The need to secure ongoing support services and secure long-term support for employment in competitive, integrated employment. This was an overwhelming rehabilitation need identified in this study and supports the common performance measures in WIOA.
5. DVR made progress in SSA reimbursements prior to the previous CSNA. It was identified that ticket holders were not identified until UI data reviews started in 2019, reducing opportunities for cost reimbursement. DVR will continue to work on capturing accurate information with Ticket Holders to maximize program income and participants successful transition to permanent competitive integrated employment.

Strategies:

1. DVR will continue to work with federal technical assistance centers (VRTAC-QM) on revisions to policies and procedures related to supported employment and ensure that they are compliant with WIOA and the accompanying regulations.
2. DVR intends to maximize its approach to benefits counseling for participants to promote financial literacy and empowerment. Fear of losing benefits is a major barrier for individuals with the most significant disabilities to maintain employment in a competitive, integrated setting.
3. DVR will provide staff training on the provision of ongoing support services and how to secure long-term support for these participants to maintain employment.
4. DVR has trained additional staff members dedicated to tracking SSA Ticket to Work recipients and SSA reimbursements.
5. DVR to promote higher education and career pathways in IPEs to receive the necessary training and skills to be marketable in today's workplace that augments employment 2nd quarter and 4th quarter after exit from the VR program.
6. DVR to provide training to employers on disability awareness of individuals with the most significant disabilities to help combat discrimination and increase diversity, equity, and inclusion across the State.

B. Individuals with disabilities who are minorities and individuals with disabilities who have been unserved or underserved by the VR program.

The Triennial Comprehensive Statewide Needs Assessment (CSNA) provides DVR and the SRC with information regarding the rehabilitation needs of individuals with disabilities statewide. Supporting access, awareness, and participation in the CSNA by people with disabilities and stakeholders and utilizing the information from the assessment to address VR service needs of the community is a top priority of the SRC. The CSNA for the period of 2018-2020 was completed in September 2022, as delayed by the pandemic. Once the data was gathered from the CSNA covering the period 2018-2020 (triennial 2018-2020), DVR worked with the SRC and other stakeholders to address the findings in the CSNA and determined goals and strategies to address the rehabilitation and service needs of any identified minorities with most significant disabilities. The CSNA for PY 2021-2023 will be completed in calendar year 2024, which will ensure DVR is in compliance with 34 C.F.R. 361.29.

DVR has continued to address the needs identified in the CSNA for the triennial period 2018-2020 which included the following needs of individuals with disabilities from different ethnic groups:

1. Hispanics and Native Hawaiians were cited as potentially underserved groups.
2. Language barriers are a common challenge of individuals with disabilities in minority groups in Hawai'i.
3. The need to increase education and training was identified by staff and partners as a rehabilitation need for those who are from minority populations.
4. Improving mental health, "soft" skills and increasing job skills are important needs for minority populations.

Strategies:

a. DVR will increase its outreach to individuals who are native Hawaiian at Native Hawaiian community centers, healthcare facilities, and schools. DVR will continue to identify resources for mental health services and substance abuse treatment in collaboration with community partners to increase the likelihood of successful participation in a rehabilitation program.

b. DVR staff will continue to work with families using an `Ohana Nui (3-generation) approach with these individuals, when possible, to ensure there are support systems in place.

c. DVR will focus on recruiting bilingual staff. Staff who speak Spanish and other local languages can contribute to increasing the number of participants accessing VR services from these respective demographics' groups.

d. DVR will increase outreach and marketing of services to minority populations in general. The pandemic and subsequent office closures and isolation resulted in many individuals having limited access to government services. DVR will actively market their services to all individuals with disabilities in Hawai'i, especially those in traditionally underserved areas like rural Hawai'i, and to traditionally underserved populations.

DVR works with the SRC and other stakeholders to address the results of the CSNA completed in September 2022 and determine goals and strategies to address the rehabilitation and service needs of any identified minorities with the most significant disabilities. Additionally, DVR leverages recommendations from the annual consumer satisfaction survey (CSS) reports for FFY2020 and FFY2021 which have been shared with the SRC and stakeholders, along with the highlights summarizing results and recommendations for improvements provided to DVR on the effectiveness of VR program services associated with RSA's on-site monitoring in 2019, in compliance with section 107 of the Rehabilitation Act, as amended by WIOA, and findings RSA has required DVR to address through corrective actions.

The State of Hawai'i has mandated all state-funded agencies to offer language access services in the native language of an individual requiring these services; there are currently over sixty languages in addition to Spanish and ASL available through interpreter supports for community members to access and ensure effective communication is provided when accessing government services in the

state. As such, in the absence of having bilingual staff, DVR can secure non-English language translators and interpreters as requested by individuals with disabilities throughout the VR process.

C. Individuals with disabilities served through other components of the workforce development system; and

DVR conducts the Triennial Comprehensive Statewide Needs Assessment (CSNA). The purpose of the assessment is to provide current and relevant information on the needs of individuals with disabilities so that DVR can develop programs and allocate resources that will address the identified needs. DVR worked with San Diego State University to complete the CSNA for PYs 2018-2020, which was completed in September 2022, due to delays with the pandemic. Once the data was gathered from the CSNA covering the period 2018-2020, HDVR works with the SRC and other stakeholders to address the findings in the CSNA and determine goals and strategies to address the rehabilitation and service needs of identified eligible individuals also being served through other components of the statewide workforce development system and identified in the CSNA. The CSNA for PY 2021-2023 will be completed in calendar year 2024, which ensures DVR's compliance with 34 C.F.R. 361.29. HDVR continues to address the needs identified in this area from the CSNA for PYs 2018-2020 which included the following:

1. The American Job Centers (AJC) in Hawai'i continue to struggle to effectively meet the needs of individuals with disabilities. There are still programmatic accessibility issues that need to be resolved to ensure that all individuals can access services. The virtual nature of service delivery at the AJCs during the pandemic has exacerbated the access issues for many individuals with disabilities.
2. The perspective of consumers, partners, and staff of the effectiveness of the AJCs varies by island, with Kauai expressing the highest level of effectiveness for the AJCs and Oahu expressing the most concerns. The AJCs are particularly challenged in meeting the needs of individuals who are deaf as they continue to struggle to have interpreters available and generally refer these individuals to DVR to get assistance.
3. DVR's relationship to the Title I and III programs was described as a positive one but lacking in service integration and alignment. Service to individuals with disabilities by the AJCs remain primarily one of referring them to DVR.
4. The AJCs are particularly challenged in meeting the needs of individuals who are deaf as they continue to struggle to have interpreters available and generally refer these individuals to DVR to get assistance.
5. There is no hard data available on co-enrollment and shared funding of consumers across partners. Data sharing between the core partners has been a challenge as agreements must be signed and systems established and put in place for reporting across multiple programs. DVR needs to implement a tracking and reporting system for consumers that have been referred to or are co-enrolled in the core partner programs.

Recommendations to DVR in this area include the following:

1. DVR is encouraged to provide training to AJC staff on how to effectively accommodate and work with individuals with disabilities trying to access services. This training is especially

important for individuals who are blind or deaf and for those with mental health impairments.

2. DVR needs to develop a reporting and tracking system that will allow them to readily access and analyze data on individuals with disabilities who are co-enrolled in partner programs.
3. DVR is encouraged to identify and replicate best practices from those areas of the State where there are examples of braided funding that leads to the acquisition of in-demand job skills and high-wage employment, and DVR is encouraged to share these practices with the rest of the State.
4. DVR should try and work in partnership with the Title I program to develop customized training, apprenticeships, and other on-the-job training opportunities that are inclusive of individuals with disabilities.

Strategies:

1. DVR is working with VR TAC-QM to assist in the development and updating of MOUs with core partners, and to help create career services that benefit all customers of the AJCs, including individuals with disabilities.
2. DVR completed a service alignment plan with WINTAC assistance in October 2020. DVR and WINTAC completed an assessment on the level of service alignment in each of the 4 counties and developed a plan to enhance service alignment for Hawai'i VR services in the AJCs. Work plan activities completed thus far include DVR staff training on WIOA Vision and Requirements for Core and Required Program participation and customer service and AJC Partnership Profiles for all islands. Activities on-going and pending completion: create an integrated resource team per county led by DVR staff, provide Joint Programmatic Access Training outlined in WIOA Section 188, in AJCs with VR expertise contributions, working with core partners to identify expertise and resources available through partner agencies that will benefit VR clients. Activities for service integration were slowed down due to the COVID-19 pandemic but DVR continues to monitor opportunities to work with partners on aligning services at the AJCs.
3. DVR and the other core partners, especially Titles I and III, continue to engage in service planning and delivery to ensure that career services at the AJCs are inclusive of all individuals, including those with disabilities.
4. Given the limited resources and OOS, the practice of braided funding with the core partners will benefit all the core partners. DVR and the AJCs will try to replicate best practices from those areas of the State where there are examples of braided funding that leads to the acquisition of in-demand job skills and high-wage employment, and DVR is encouraged to share these practices with the rest of the State.
5. DVR has established a log for staff scheduled to visit the AJC, and/or drop in with VR participants to develop a relationship with partners and learn more about services and share resources.
6. DVR has developed a referral and application form that can be easily accessed through the DVR website to encourage sharing of consumers and resources.
7. DVR provides disability awareness training to AJC staff on how to effectively accommodate and work with individuals with disabilities trying to access services with emphasis on

working with the deaf and the blind. More trainings are planned regarding individuals with mental health impairments.

DVR works with the SRC and other stakeholders to address the results of the CSNA completed in September 2022 and determine goals and strategies to address the rehabilitation and service needs of any identified eligible individuals also being served through other components of the statewide workforce development system. Additionally, DVR leverages recommendations from the annual consumer satisfaction survey (CSS) reports for FFY 2019-2021 which are shared with the SRC and stakeholders, along with the highlights summarizing results and recommendations for improvements provided to DVR on the effectiveness of VR program services associated with RSA's on-site monitoring in 2019, in compliance with section 107 of the Rehabilitation Act, as amended by WIOA, and findings RSA has required DVR to address through corrective actions.

D. Youth with disabilities, including students with disabilities and their need for pre-employment transition services. Include an assessment of the needs of individuals with disabilities for transition career services and pre-employment transition services, and the extent to which such services are coordinated with transition services provided under IDEA.

DVR worked with San Diego State University to complete the Triennial Comprehensive Statewide Needs Assessment (CSNA) for PYs 2018-2020, which was completed in September 2022, due to delays associated with the COVID-19 pandemic. The purpose of the assessment is to provide current and relevant information on the needs of individuals with disabilities so that DVR can develop programs and allocate resources that will address the identified needs. Once the data was gathered from the CSNA covering the period 2018-2020, DVR identified the ongoing need to work with the SRC and other stakeholders to address the findings in the CSNA report and determine goals and strategies to address the rehabilitation and service needs of identified youth and students with disabilities, including their need for pre-employment transition services or other transition services. The CSNA for PY 2021-2023 will be completed in calendar year 2024, which ensures DVR's compliance with 34 C.F.R. 361.29. DVR continues to address the needs identified in this area from the CSNA report completed for PYs 2018-2020 which included the following:

1. The most cited rehabilitation needs of transition-age youth with disabilities and students with disabilities in Hawai'i is the lack of job skills and work experience.
2. Youth and students with disabilities need education and training to be competitively employed and to become self-sufficient. Students in Hawai'i have a need to receive pre-ETS, including instruction on self-advocacy, job exploration counseling, work readiness skills, counseling on post-secondary opportunities and work-based learning experiences.
3. Youth and students with disabilities need to develop their soft skills, social skills, and job search skills with the understanding of the labor market to determine which careers are a good fit for them.
4. Transportation in rural areas and neighbor islands remains a major barrier to employment for youth and students with disabilities.

Recommendations to DVR in this area include the following:

1. DVR should continue to try and expand work-based learning opportunities for students with disabilities served in the pre-ETS program.
2. DVR is encouraged to promote the use of labor market information and career pathways in the planning process for youth transition from secondary school to postsecondary education and work. One possibility is the [Career Index Plus LMI tool](https://thecareerindex.com/dsp_intro.cfm).
https://thecareerindex.com/dsp_intro.cfm
3. DVR is encouraged to consult with the National Technical Assistance Center on Transition: The Collaborative (NTACT:C) to identify resources on [self-advocacy training for students with disabilities](https://transitionta.org/topics/pre-ets/self-advocacy/). <https://transitionta.org/topics/pre-ets/self-advocacy/>
4. DVR is encouraged to consider developing a peer mentoring program for youth with disabilities in Hawai'i. One possibility is an [online peer mentoring program](https://disabilitypolicyworks.org/peer-mentoringworks-2/) <https://disabilitypolicyworks.org/peer-mentoringworks-2/> available through Policy Works. A key component of this mentoring program is the development of self-advocacy skills in youth and students with disabilities.
5. DVR should continue to actively recruit for more contracted pre-ETS providers, especially in the rural areas and the neighbor islands, where there are fewer providers than on Oahu.

Strategies:

1. DVR will engage in planning with school districts and community providers to develop and implement programs that will create and promote competitive integrated employment opportunities for youth and students with disabilities.
2. DVR will do outreach to pursue referrals of students with a disability under Section 504 ages 14-21 on the diploma track (typically only students with an IEP on the certificate track have been referred to DVR by HIDOE). DVR will also do outreach to pursue referrals for youth with a disability targeting Foster Care, justice diversion programs, and incarceration facilities.
3. DVR will expand the delivery of pre-ETS to the potentially eligible student population statewide including work-based learning experiences provided through pre-employment transition services (pre-ETS).
4. DVR is consulting with the National Technical Assistance Center on Transition: The Collaborative (NTACT:C) to identify resources on self-advocacy training for students with disabilities.
5. DVR will disseminate information and strategies to improve the transition to postsecondary activities of those who are traditionally unserved. The need for all the required pre-ETS was noted by numerous participants in the assessment. Work-based learning opportunities and any type of work experience was cited as the greatest need for students with disabilities and all youth in transition.
6. DVR will engage with the VR TAC-QM Pre-ETS team in an intensive technical assistance agreement to develop and implement strategies for the delivery of pre-ETS that will include authorized activities and leverage resources to reach PE students with disabilities in all the islands.
7. DVR completes an annual fiscal forecasting model for pre-ETS program services and will allocate resources available for authorized activities. This model has been reviewed and approved by the RSA.

DVR works with the SRC and other stakeholders to address the results of the CSNA completed in September 2022 and determine goals and strategies to address the rehabilitation and service needs of identified youth and students with disabilities, including their need for pre-employment transition services or other transition service. Additionally, DVR leverages recommendations from the annual consumer satisfaction survey (CSS) reports for FFY 2019-2022 which are shared with the SRC and stakeholders, along with the highlights summarizing results and recommendations for improvements provided to DVR on the effectiveness of VR program services associated with RSA's on-site monitoring in 2019, in compliance with section 107 of the Rehabilitation Act, as amended by WIOA, and findings RSA has required DVR to address through corrective actions.

2. IDENTIFY THE NEED TO ESTABLISH, DEVELOP, OR IMPROVE COMMUNITY REHABILITATION PROGRAMS WITHIN THE STATE.

Needs identified in this area include the following:

1. There is a need to develop providers in the rural areas of all the islands.
2. There is a need to develop customized employment as a service option for some consumers in Hawai'i. Most of the current providers do not understand all the elements of Customized Employment and rely on the elements of supported employment as the primary strategy for individuals with the most significant disabilities.
3. Contracts with clear and measurable objectives are needed to increase the awareness of expectations and accountability.
4. The need for more providers of pre-ETS was noted by some of the participants in the focus groups and individual interviews.
5. The pandemic has affected the number of Community Rehabilitation Programs (CRP), available staff at the existing CRPs, and the wait time to receive services. There is a need for more providers in all areas, especially on the neighbor islands.
6. The availability of assistance to help individuals with disabilities find affordable housing was cited repeatedly. The pandemic impacted the cost of purchasing and renting in Hawai'i, which was already a very expensive place to live.
7. The high turnover in providers has resulted in an inexperienced provider network that needs significant training to effectively work with multiple populations served by DVR.
8. DVR needs to develop financial literacy and empowerment training for consumers.
9. Service providers need to be able to effectively work with highly educated individuals that need intervention and advocacy with employers to help them obtain professional level positions in high paying jobs as opposed to entry level positions.

10. Some CRPs take too long to find employment once they begin working with consumers. There was a recurring theme that unless the job the individual wanted was entry-level and readily available, progress in finding employment was slow and could take many months.

Recommendations to DVR in this area include the following:

1. To help address the shortage of service providers, DVR should work to recruit and expand the number of individual service providers that can help address the need for employment services in the rural areas and in neighbor islands with limited CRP resources.
2. As resources allow, DVR should include their service providers in all training that they provide to staff if it relates to understanding and effectively serving consumers. The inclusion of providers will help build the competency and capacity of CRPs and help build trust between providers and DVR.
3. DVR should try to develop customized employment as an option for their consumers.
4. DVR should ensure that their counselors and all CRPs and individual service providers have affordable housing resources readily accessible for the consumers they serve. A list of online affordable housing resources, as well as the agencies that administer the affordable housing programs in each County, is available at <https://affordablehousingonline.com/housing-search/Hawaii>.

Strategies:

1. DVR will ensure that all contract providers have clear and measurable outcomes and deliverables noted in the contract language so that there is no confusion about the expectations and deliverables for each agency. The inclusion of clear and measurable outcome expectations will increase accountability for providers and is anticipated to have a positive impact on employment outcomes for individuals with disabilities served by these providers. In addition, DVR will have regular contract review meetings with CRPs to monitor progress on contracted services.
2. DVR continues to investigate expanding the number of providers that offer pre-ETS program services statewide. DVR has expended the majority of its pre-ETS dollars to enhance work-based learning experiences (WBLE) and will consider the benefits cost-ratio from providers that offer the additional four pre-ETS required services.
3. DVR is looking to expand training opportunities for the CRP network and their Business Service Representatives on customized employment and entrepreneurial work-based learning experiences. DVR is researching the Association of Community Rehabilitation Educators (ACRE) which has recently developed a national certification in CE that may be helpful for DVR and their provider network as they collaborate to serve individuals with the most significant disabilities.
4. DVR continues to expand the use of individual service providers in the rural areas and in neighbor islands with limited CRP resources. DVR has expanded to the use of a Managed Service Provider (MSP) contract to enhance the number of CRPs statewide.

c. Goals, Priorities, and Strategies

Section 101(a)(15) and (23) of the Rehabilitation Act require VR agencies to describe the goals and priorities of the State in carrying out the VR and Supported Employment programs. The goals and priorities are based on (1) the most recent CSNA, including any updates; (2) the State's performance under the performance accountability measures of Section 116 of WIOA; and (3) other available information on the operation and effectiveness of the VR program, including any reports received from the SRC and findings and recommendations from monitoring activities conducted under Section 107 of the Rehabilitation Act. VR agencies must—

1. DESCRIBE HOW THE SRC AND THE VR AGENCY JOINTLY DEVELOPED AND AGREED TO THE GOALS AND PRIORITIES AND ANY REVISIONS; AND

The goals and priorities were agreed to by the DVR and the SRC, with jointly agreed upon revisions as indicated.

The Triennial Comprehensive Statewide Needs Assessment (CSNA) is jointly conducted by DVR, the SRC, stakeholders, and the Interwork Institute at San Diego State University (SDSU). Supporting access, awareness, and participation in the CSNA by people with disabilities and stakeholders is a top priority of the SRC. The purpose of the CSNA is to provide DVR and the SRC with information pertinent to the allocation of resources, to the development of VR Section of the Unified State Plan (USP), and to comply with the needs assessment mandate in the Rehabilitation Act of 1973, as amended.

The most current CSNA for Federal Fiscal Year (FFY) 2018-2020 which covers the period of October 1, 2018 - September 30, 2020 was completed in September 2022. DVR and the SRC utilized information from the assessment to address the VR service needs of individuals with disabilities statewide in the Goals and Priorities section in the Program Year (PY) 2024-2027 USP which covers the period of July 1, 2024 – June 30, 2027.

The next CSNA will be for FFY 2021-2023 which covers the period of October 1, 2021 - September 30, 2023. This contract is currently being reviewed by the state Attorney General (AG) and SDSU with an expected execution date of February 1, 2024, with the Final Report completed by December 31, 2024. DVR will work with the SRC and other stakeholders to review the findings and determine Goals and Priorities to implement into the modified USP, July 1, 2026.

2. IDENTIFY MEASURABLE GOALS AND PRIORITIES IN CARRYING OUT THE VR AND SUPPORTED EMPLOYMENT PROGRAMS AND THE BASIS FOR SELECTING THE GOALS AND PRIORITIES (E.G., CSNA, PERFORMANCE ACCOUNTABILITY MEASURES, SRC RECOMMENDATIONS, MONITORING, OTHER INFORMATION). AS REQUIRED IN SECTION 101(A)(15)(D), (18), AND (23), DESCRIBE UNDER EACH GOAL OR PRIORITY, THE STRATEGIES OR METHODS USED TO ACHIEVE THE GOAL OR PRIORITY, INCLUDING AS APPLICABLE, DESCRIPTION OF STRATEGIES OR METHODS THAT—

A. Support innovation and expansion activities.

B. Overcome barriers to accessing VR and supported employment services.

C. Improve and expand VR services for students with disabilities, including the coordination of services designed to facilitate the transition of such students from school to postsecondary life (including the receipt of VR services, post-secondary education, employment, and pre-employment transition services); and

D. Improve the performance of the VR and Supported Employment programs in assisting individuals with disabilities to achieve quality employment outcomes.

List and number each goal/priority, noting the basis, and under each goal/priority, list, and number the strategies to achieve the goal/priority.

A. Support innovation and expansion activities.

Priority 1: Increase Employer Engagement .

DVR needs to develop and increase employer engagement. Employer engagement contributes to economic growth and business expansion by ensuring the workforce system is job-driven – matching employers with skilled individuals. Under WIOA, DVR is required to consult with stakeholders and receive public comment on proposed approaches to successful employer engagement activities. Based on the consultations, DVR established the following goals and priorities:

Employer Engagement Goals:

Goal 1.1 Annually increase the number of employers who provide opportunities for individuals with disabilities to participate in work-based learning experiences and internships.

Goal 1.2 Annually increase the number of employers who provide permanent employment for individuals with disabilities.

Goal 1.3 Annually increase the repeat/retention rates for employers who provide opportunities for individuals with disabilities to participate in work-based learning experiences and internships leading to permanent employment.

DVR Strategies:

1. Cultivate Employment First initiative policies and procedures to ensure that employment is the focus for education, training, or support services for anyone with a disability who is eligible to work.
2. Provide disability sensitivity training to employers throughout Hawai'i that helps businesses understand disability and increases their comfort levels in working with employees with disabilities. Customize the curriculum to address the needs of the company.
3. Provide training to employers on disability law and the responsibilities of employers under the ADA, the Workforce Innovation and Opportunities Act (WIOA), and any other applicable laws. Support employers in addressing reasonable accommodations, as well as workplace accommodations for recruitment and retention of qualified employees with disabilities.

Providing this kind of educational activity for employers establishes DVR as an expert resource and can increase the likelihood that employers will be ready to recruit DVR participants when they have job openings.

4. Support the sustainability of disability efforts in Hawai'i.
5. Increase work experience opportunities customized to meet the needs of the employers and to increase the pool of qualified applicants for permanent employment.
6. Support annual award recognition for employees with disabilities and the employers who hire them.
7. Collaborate with community providers to develop marketing materials aimed at re-branding the service provision of DVR to be an Employment First agency for people with disabilities.
8. Work cooperatively with DLIR WDD and County AJCs to facilitate outreach to businesses as partners in training and placement for individuals with disabilities seeking competitive integrated employment in Hawai'i's workforce.

B. Overcome barriers to accessing VR and supported employment services.

Priority 2: Provide Supported Employment (SE) Services to Individuals with the Most Significant Disabilities.

DVR addresses the needs of individuals with the most significant disabilities, including their need for supported employment. The rate of unemployment among individuals with developmental disabilities or other most significant disabilities is largely due to the limited employment opportunities available to them. Given that individuals with developmental disabilities or other significant disabilities are capable of filling employment positions in the general workforce population, supported employment is an effective way of integrating such individuals into the general workforce population. Supported employment programs can increase the types and availability of employment positions for individuals with developmental disabilities or other most significant disabilities.

SE is defined as employment for individuals with developmental disabilities or other most significant disabilities who require on-going, long- term supports to fulfill their job duties successfully and retain competitive integrated employment. SE offers the same competitive and customary wages and benefits as similar non-supported competitive integrated employment positions.

Target Population: Youth with the most significant disabilities served under DVR's SE program services who are not under a 504 or IEP plan.

Supported Employment Goals:

Goal 2.1 Annually increase the percentage of individuals with significant disabilities who during a program year participate in Work-Based Learning Experiences (WBLE) and internships.

Goal 2.2 Annually increase the number of individuals with most significant disabilities engaged in competitive integrated employment during the fourth quarter after exit.

Goal 2.3 Annually increase the percentage of employers providing customized employment to individuals with significant disabilities. Customized employment means, in general, competitive integrated employment designed to meet both the specific abilities of the individual with a most significant disability and the business needs of an employer.

DVR strategies:

1. Provide regular training to staff on SE and how the model can be used for populations other than just individuals with intellectual or other developmental disabilities. This is especially important with the passage of WIOA, as DVR can be the source of extended services for youth with significant disabilities, according to 34 C.F.R. 361.5(c) (19), which states that youth with most significant disabilities may receive extended services for up to 4 years, or until the age of 25 when an individual no longer meets the definition of a "youth with a disability", whichever comes first.
2. Ensure participants have access to self-advocacy training.
3. Provide benefits planning resources for all DVR participants that are also SSA beneficiaries. VRS and community partners will ensure that they are discussing the full range of options for work with these individuals, including striving towards self-sufficiency through work.
4. Complete agreement between the Hawai'i DOH Developmental Disabilities Division and DVR regarding the provision of support in post-secondary training that may provide the momentum for the more robust MOU to be developed.

C. Improve and expand VR services for students with disabilities, including the coordination of services designed to facilitate the transition of such students from school to postsecondary life (including the receipt of VR services, post-secondary education, employment, and pre-employment transition services).

Priority 3: Provide Pre-Employment Transition Services (Pre-ETS).

DVR investigated the needs of students with disabilities in the most recent CSNA. Survey results indicated students with disabilities (SWD) in Hawai'i have a need to receive pre-ETS. All the Pre-ETS categories of activities were noted as a need on a recurring basis.

Target Population:

1. Students with a Disability receiving transition services pursuant to IDEA or a student who is an individual with a disability under Section 504 of IDEA and aged 14-21.
2. Receiving services via an IEP or 504 Plan or has a medical or psychological documentation with diagnosis by a licensed professional.

Required Activities under the Workforce Innovation & Opportunity Act (WIOA):

1. Job exploration counseling includes information on in-demand industry sectors and occupations, as well as non-traditional employment, local labor market information, administration of vocational interest inventories, and identification of career pathways of

interest. This also includes administration and discussion of the student's vocational interest inventory results, career counseling and career assessments in a group or individually and may be provided in a classroom or community setting.

2. Work-based learning experiences, which may include in-school or after school opportunities, or experience outside the traditional school setting (including internships), that is provided in an integrated setting in the community to the maximum extent possible.
 - a. Explore career options and identify career pathways of interest.
 - b. Uncover vocational interests using inventories.
 - c. Learn about skills needed in the workplace and for specific jobs.
 - d. Understand the labor market including in-demand industries and occupations.
 - e. Learn about non-traditional employment options.
3. Counseling on opportunities for enrollment in comprehensive transition or postsecondary educational programs at institutions of higher education. Explore career options and identify career pathways of interest.
 - a. Uncover vocational interests using inventories.
 - b. Learn about skills needed in the workplace and for specific jobs.
 - c. Understand the labor market including in demand industries and occupations,
 - d. Learn about non-traditional employment options.
4. Workplace readiness training to develop social skills and independent living. Workplace readiness traits describe several skills that employers expect from most employees. Workplace readiness skills are a set of skills and behaviors that are necessary for any job, such as how to interact with supervisors and co-workers and the importance of timeliness. These skills are sometimes called soft skills, employability skills, or job preparation skills. These skills help students learn and build an understanding of how we are perceived by others. Employers value employees who can communicate effectively and act professionally. No matter what technical skills a job may require, every job requires good social skills/interpersonal skills. In addition to developing social and independent living skills, workplace readiness training may also include:
 - a. financial literacy,
 - b. Orientation and mobility skills,
 - c. Job-seeking skills, and
 - d. Understanding employer expectations for punctuality and performance.

5. Instruction in self-advocacy (including instruction in person-centered planning). Self-Advocacy is an individual's ability to effectively communicate, convey, negotiate, or assert his/her own interests and/or desires. Schools also work with students to develop self-determination which means that students with disabilities have the freedom to plan their own lives, pursue the things that are important to them and experience the same life opportunities as other people in their communities. These acquired skills will enable students to advocate for any support services, including auxiliary aids, services, and accommodations that may be necessary for training or employment. Self-advocacy skills are developed when students are provided with experiences to develop:

- a. Knowledge of self.
- b. Knowledge of rights and responsibilities.
- c. Communication skills.
- d. Leadership skills.
- e. Peer mentoring from individuals with a disability, and
- f. Working in competitive integrated employment.

Pre-ETS Goals:

Goal 3.1 Annually increase the percentage of participants who obtain a postsecondary credential or high-school diploma (subject to special rule), for participants with IPEs, including pre-ETS activities.

Goal 3.2 Annually increase the percentage of participants who during a program year achieve a measurable skill gain for participants with IPE's, including pre-ETS activities.

Goal 3.3 Annually increase the percentage of participants who during a program year participate in WBLE and internships.

Goal 3.4 Annually increase the number of participants employed a minimum of 90 days for participants with IPE's, including pre-ETS activities.

DVR Strategies:

- 1. DVR will ensure that 504 students are aware of DVR services and that DVR is conducting targeted outreach to these students in addition to those served by Special Education.
- 2. Complete agreement between the DVR and the HODOE to provide Pre-Employment Transition Services to students with disabilities, program services to support students with disabilities to explore vocational options, training in soft-skills to engage in work-based learning experiences and paid and unpaid work experience both on- and off- campus.
- 3. DVR will promote strategies to participate in work experiences and post-secondary educational experiences by partnering with CRPs, the State WDD, and the Honolulu, Maui,

Kauai, and Hawai'i Counties. The Summer Youth Employment Program is a program that provides paid WBLE, internships, and employment for students and youth.

4. DVR will develop programs that focus on the main obstacles affecting SWD, including soft skills training in communication, self-awareness, accountability, and respect for oneself; and provide training on communication with coworkers, unhelpful thinking patterns, motivation for work, and will encourage peer supports to work through personal barriers that may prevent youth and students from maintaining work.
5. DVR will create a Pilot Transition Program that is employer-based for one year of a school-to-work program with work-based learning experiences.

D. Improve the performance of the VR and Supported Employment programs in assisting individuals with disabilities to achieve quality employment outcomes.

Priority 4: Develop common data collection for Unified State Plan.

Section 101(a)(23) requires Designated State Units (DSU) to assure that the State will submit to the Secretary reports required by Section 101(a)(15) at such time and in such manner as the Secretary may determine to be appropriate. The VR services portion will be submitted with all other components of the Unified or Combined State Plan every four years with modifications submitted every two years.

WIOA describes six primary indicators of performance for core programs at the state and local levels:

1. Percentage of program participants employed during the second quarter after exit will increase annually.
2. Percentage of program participants employed during the fourth quarter after exit will increase annually.
3. Median earnings of program participants will increase annually.
4. Percentage of participants who obtain a postsecondary credential or high school diploma (subject to special rule) will not decrease annually.
5. Percentage of participants who during a program year achieve a measurable skill gain will increase annually.
6. Effectiveness in serving employers will be measured annually.

Data Collection Goals:

Goal 4.1 Continue to collaborate with the core partners to identify an automated data collection system that collects the data for each of the six primary indicators of performance statewide which is user-friendly and affordable. Collaborative data collection goals from PYs 2024-2027. DVR will continue to focus on data collection and validation for the VR program and will continue to engage with core partners to define the parameters collectively and pursue best practices of other core partners to improve upon or share DVR data collection methodologies. This goal is still in progress for PY 2024-2027.

Goal 4.2 DVR will continue to use its own internal data collection system to collect the data for each of the six primary indicators of performance and report to their federal funder, Rehabilitation Services Administration (RSA) and the Hawai'i Department of Human Services (DHS).

Goal 4.3 Annually increase the percentage of each of the six primary indicators of performance within DVR.

Goal 4.4 Provide additional training for staff on proper data collection on DVR's internal data management system to ensure accurate data reporting to RSA and DHS. No new automated data system has been installed for information collection since 2020.

DVR Strategies:

1. DVR will continue to work with the Vocational Rehabilitation Technical Assistance Center-Quality Management (VR TAC-QM) to ensure accurate data reporting on the six primary indicators of performance to RSA and DHS.

d. Evaluation and Reports of Progress: VR and Supported Employment Goals

For the most recently completed program year, provide an evaluation and report of progress for the goals or priorities, including progress on the strategies under each goal or priority, applicable to that program year. Sections 101(a)(15) and 101(a)(23) of the Rehabilitation Act require VR agencies to describe—

1. PROGRESS IN ACHIEVING THE GOALS AND PRIORITIES IDENTIFIED FOR THE VR AND SUPPORTED EMPLOYMENT PROGRAMS.

List the goals/priorities and discuss the progress or completion of each goal/priority and related strategies.

FFY2023 funds expended.

Salaries and benefits	4,610,837
Admin	3,980,319
VR Case Services	2,276,680
Pre-ETS	1,246,980

Supported Employment	107,908
TOTAL	12,222,724

Priority 1: Provide Pre-Employment Transition Services (Pre-ETS)

GOAL: to increase the resources and available services across the state for students with disabilities to engage in pre-ETS provided by DVR. A joint assessment completed by DVR and HIDOE revealed areas for further consideration in the development of pre-ETS as needed in rural communities across the state.

Goal 1.1 Annually increase the percentage of participants who obtain a postsecondary credential or high-school diploma by 1% (subject to special rule).

Strategy: Monthly check-in meetings with staff support subject matter experts and each branch/section to discuss concerns, questions and increase counselor awareness of their role, responsibility, and system requirements in documenting the progression of VR-eligible students in receipt of VR-services that lead to a credential. DVR will continue to strengthen partnership with HIDOE high schools through assigned VR Specialist and transition coordinators at their assigned schools. DVR is also developing strategies to collect data regularly throughout the program year to monitor CA progress such as but not limited to the following: activity due reminders, mass entry for MSG, limiting educational goal options for HS diploma goal, checking in at least twice per year for progress, and entering CA attainment progress notes and documentation upon closure to validate credential attainment. DVR will continue to partner with Hawai'i Department of Education (HIDOE), Developmental Disability Division (DDD), Developmental Disabilities Council (DD Council), and Center on Disability Studies (CDS) to conduct quarterly transition meetings to share agency updates and provide an arena for presentations from community providers, community resources partners to HIDOE, DDD, and DVR staff to promote awareness, partnership, and sharing of resources such as transition toolkits for families of students with disabilities when they transition out of school and into post-secondary education and/or employment.

Goal 1.2 Annually increase the percentage of participants who during a program year achieve a measurable skill gain by 1%.

Strategy: Monthly check-in meetings with staff support subject matter experts and each branch/section to discuss concerns, questions and increase counselor awareness of their role, responsibility and system requirements in documenting the progression of VR-eligible students in receipt of VR-services that lead to a MSG. Meetings will provide the forum to share current and projected MSG data, discuss participant progress and strategies on how to promote MSG achievement, actively look into Akamai-Aware case management system to evaluate case progress

and data capturing. DVR will continue to strengthen partnership with HIDOE high schools through assigned VR Specialist and transition coordinators at their assigned schools. DVR is also developing strategies to collect data regularly throughout the program year to monitor progress on MSG such as but not limited to the following: activity due reminders, mass entry for MSG, documenting MSG progress at least twice per year, and limiting educational goal options for HS diploma goal. DVR will continue to partner with Hawai'i Department of Education (HIDOE), Developmental Disability Division (DDD), Developmental Disabilities Council (DD Council), and Center on Disability Studies (CDS) to conduct quarterly transition meetings to share agency updates and provide an arena for presentations from community providers, community resources partners to HIDOE, DOH DDD, and DVR staff promote awareness, partnership, and sharing of resources such as transition toolkits for families of students with disabilities when they transition out of school and into post-secondary education and/or employment.

DVR overall agency MSG rates for PYs 2019-2022:

PY 2022: 38.3%

PY 2021: 30.7%

PY 2020: 30.2%

PY 2019: 13.3%

Since PY 2020, DVR has been working as an agency to ensure that MSGs are being achieved and data is being captured properly. DVR has successfully corrected counselor data entry recording for the recording of MSG attainment for participants. Check-in meetings with Branch staff and regular discussions in weekly management meetings has increased counselor awareness and understanding in the intent of this measure, their role to meet this goal, and strategies needed to provide counseling and guidance on the achievement of educational and/or training goals in pursuit of obtaining competitive integrated employment. DVR will continue to include the achievement of MSG for students with disabilities as a regular discussion point to increase the percentage of participants who are students with disabilities that achieve a MSG. As noted above, in program year 2020, DVR exceeded the negotiated MSG rate of 20% ending the program year at a 30.2% MSG rate.

Goal 1.3: Annually increase the percentage of participants who during a program year participate in WBLE and internships by 1%.

Strategies: DVR will encourage VR counselor outreach for employer engagement activities (including memberships in various organizations i.e., Rotary, Chamber of Commerce, Lion's Club, etc.) to increase DVR presence and networking opportunities with these organizations and other community partners.

Outreach to employers through these networking partnerships provides for relationship building to engage with a variety of employers without the pressure of committing to an immediate partnership.

Achievements: DVR has experienced some successes with creating WBLE opportunities through these partnerships. DVR has partnered with various community partners and businesses with the CRP to provide job readiness workshops and information sessions to students with disabilities. DVR is also partnering with Olomana School, Hawai'i Youth Correctional Facility (HYCF) and CRP to work with students with disabilities while incarcerated for them to obtain certificate track workforce training, gain work experience, and give these individuals the confidence needed to apply what they have learned for a better chance at success when they leave HYCF and need to transition into the community and workforce.

Goal 1.4 Annually increase the number of participants employed a minimum of 90 days (by1%).

Strategies: DVR's participating and in support of the AJC's One-Stop Single Sign-On registration system to increase access to the services of HIDOE's Adult Education, the WDD, and other partners for DVR clients on the deferred list to meet their training and job placement needs using comparable benefits when applicable.

DVR has been going to the AJC, 2 times per week for 4 hours at a time, from the start of the pandemic in March 2020 and helping in the resource room and has attended 2 in-person job fairs open to all core partner participants. DVR staff continue to meet with AJC partners to explore how DVR can work with AJC partners to help participants of DVR learn how to use the resources at the AJC. One strategy is to give AJC tours to DVR participants.

AJC's Work Hawai'i Youth program has also been beneficial to DVR students with disabilities. They gave the participants opportunities to help with the AJC move of office location and even hired one of the DVR participants. These participants were present in all the logistics meetings, in-person job fairs and helped with setup, manned the doors to ensure that people were following the COVID protocols, and helped with break down.

DVR plans to continue to build on partnerships such as these and those mentioned for Goal 1.3 to increase WBLE experiences and job opportunities for Students with Disabilities to build skills and confidence for employment. DVR also plans to seek opportunities for participants to transition to career pathway types of job, opportunities for upskilling and remote work.

The number of students included in successful rehabilitations (actuals and projected for PY 2022) for DVR are as follows:

PY 2022 (projected): 3 out of 75

PY 2021 (as of quarter 2, PY 21): 1 successful rehab out of 35

PY 2020: 2 out of 59

PY 2019: 0 out of 58

Priority 2: Provide Supported Employment Services to individuals with the Most Significant Disabilities. (See section p.2.A)

Priority 3: Increase Employer Engagement

Employer Engagement Goals and Priorities

Goal 3.1 Annually increase the number of employers who provide opportunities for individuals with disabilities to participate in work-based employment experiences and internships (by 1%).

As Hawai'i re-opens and employers are seeking to fill their vacancies, DVR Program and Employment Specialists have re-engaged with employers to highlight their business' employment opportunities. Since 2017, DVR in partnership with HIDOE and DOH/DD Council, has established several schoolyear long internship opportunities with local hotels and hospitals. Through these experiences offered by the host businesses in partnership with HIDOE, we have found success in transitioning students from the HIDOE into the local community workforce. The students who participated and were successful in securing competitive integrated employment resulting from these internship experiences prior to the pandemic continued to maintain their employment despite the statewide shutdown. As host businesses are slowly re-opening, students who have completed their respective internships are currently being considered for vacancies, as appropriate. DVR, HIDOE and DOH DD Council continue to collaborate on expanding these work-readiness and work-based learning opportunities for students across the state. In addition, DVR will be expanding contract scope of services to support job coaching services available for VR-eligible SWD to receive the support needed for successful progression in their internship placements available through work-based learning experiences. The recent clarification of allowing the utilization of pre-ETS funds for the purpose of job coaching services will reduce the burden on employers to provide these needed supports for students with disabilities learning about the workplace.

Strategies: Create work-based learning opportunities in the community with employers through Cooperative Agreements, Memorandums of Understanding and other collaborative partnerships/efforts.

Current strategies to increase employers providing WBLE for individuals with disabilities include the utilization of CRPs, advocating VR Specialist's participation in monthly Business Highlights where DVR's employment team invite employers to present to DVR staff featuring vacancies and opportunities for VR Specialists to directly engage with HR personnel regarding hiring processes, company culture, accommodations, etc.

DVR Program Specialists are actively engaged in discussions with community health care facilities to increase WBLE opportunities located in rural communities across the state. In addition, collaborative efforts are on-going between DVR and HIDOE as we seek to increase employer sponsored WBLE across the state.

Achievements: Opportunities for job shadowing and work-based learning opportunities have expanded through contracted services with CRPs.

Goal 3.2 Annually increase the number of employers who provide permanent employment for individuals with disabilities (by 1 %).

Strategies: Engage in employer outreach activities through the Workforce Development Council and Local Boards, memberships in professional organizations, employer presentations and technical assistance, career fairs and other hiring events.

Achievements: DVR's Statewide Employment Staff Specialist continues to be engaged with the WDC and the OWDB Employer Engagement and Sector Strategies Committees with a focus on the needs of business in the State, including opportunities for special populations which include persons with disabilities.

DVR Statewide Employment Specialists are local chapter members of nationally recognized organizations including Disability: IN, Society for Human Resource Management (SHRM), and CSAVR The NET.

DVR has executed an MOA (2021) with the State of Hawai'i Department of Business, Economic Development, and Tourism (DBEDT) to participate in the Hawai'i Remote Work Project, a demonstration project in partnership with the State Department of Labor and Industrial Relations' WDC and Workforce Development Division, and the AJCs in 4 Counties across the state. This project is designed to complement the employment and re-employment services offered at the AJC's, the WDC, and Hawai'i's official public job board, HireNet Hawai'i and to provide job opportunities for Hawai'i's unemployed and under-employed. Through this MOU, DVR has acquired 100 memberships for FlexJobs Corporation services to provide remote work opportunities for unemployed and under-employed persons with disabilities in Hawai'i. These memberships will expand the scope of employment possibilities for DVR participants to include remote, flexible employment both in Hawai'i and on a national level.

DVR Employment Specialists are members of the Council of State Administrators of Vocational Rehabilitation (CSAVR) The NET (National Employment Team) - a national network of the 78 public VR programs "one company" approach to working with business customers. Hawai'i VR participants have applied to the ACT – Virtual Academy – a video based, instructor lead and supported learning environment through a private-public sector partnership that includes Microsoft, State VR agencies, disabled person Inc., CSAVR's NET and Cielo – the world's leading strategic Recruitment Process Outsourcing (RPO) partner. The ACT-V Academy offers online video instructor lead training focused on high demand skill sets that support candidates in their career path in Technology. The platform will provide candidates access to a variety of career tracks in Technology through a series of stackable credentials. This will enable students to pursue and obtain the skill sets and credentials aligned within their area of interest and fill a gap in Hawai'i's labor market in the field of Technology.

DVR's Employment Specialists will continue to be a resource to employers by providing training and education on the skills and abilities of persons with disabilities, reasonable accommodations, work accommodations including assistive technology to enhance performance outcomes, tax incentives, and tax incentives.

Goal 3.3 Annually increase the repeat/retention rates for employers who provide opportunities for individuals with disabilities to participate in work-based learning experiences and internships leading to permanent employment (by 1%).

Strategies: In relationship to goal 3.1: Build strong relationships with employers by providing them with the best customer service.

Achievements: Increase in opportunities to participate in Federal Workplace Readiness Programs (WRP) that lead to permanent, competitive integrated employment have expanded. In addition to PHNSY and NAVSUP, to include U.S. Pacific Fleet and Pacific Missile Range Facility. In addition, the WRP program is now being discussed for launch on Kauai due to the success on Oahu.

To accomplish this goal, DVR has partnered with multiple CRPs across the state to offer community placements for paid and unpaid work-based learning experiences. In addition, DVR partnered with the HIDOE to expand a pilot internship program at a local hospital. However, in PYs 19, 20, and 21 the internship sites were shut down due to the pandemic. Although creative alternatives were provided for students ensuring their continued exposure to learning industry standards, these students had limited options for competitive integrated employment opportunities due to the statewide shutdown. DVR and HIDOE have actively re-engaged with host businesses to re-establish these internship opportunities for the students with anticipated re-start in PY22. Furthermore, a recent commitment has been made by a local hospital to focus on hiring successful interns.

The need to increase employer opportunities in rural communities across the state is acknowledged by both DVR and HIDOE. Collaboration in our efforts and strategies to reach untapped employer resources are currently underway as to not duplicate efforts in establishing community-based opportunities for students. On-going employer discussions include CVS, Target, Embassy Suites, Kaiser Moanalua, Hawai'i Primary Care Association, and the Hyatt Regency.

Priority 4: To develop common data collection for Unified State Plan

Data Collection Goals:

Goal 4.1 In collaboration with the core partners, define the parameters for each of the six primary indicators of performance. Collaborative data collection goals from 2020 are still in progress and carried forward to 2021-2023.

Strategies: DVR will continue on-going collaboration with core partners to define the parameters collectively. DVR is also focused on data collection and validation for the DVR program and will pursue best practices of other core partners to improve upon and/or share DVR data collection methodologies.

Goal 4.2 In collaboration with the core partners, identify an automated data collection system that collects the data for each of the six primary indicators of performance which is user friendly and affordable. Collaborative data collection goals from 2020 are still in progress and carried forward to 2024-2027.

DVR will continue on-going collaboration with core partners to define the parameters collectively. DVR is also focused on data collection and validation for the DVR program and will pursue best practices of other core partners to improve upon and/or share DVR data collection methodologies.

Goal 4.3 Upon completion of goals 4.1 and 4.2, update or purchase and install automated data system for information collection. No automated data system has been installed for information collection since 2020. This goal is still in progress for 2024-2027.

Goal 4.4 Train core partner staff on the use of the automated data collection system. No automated data system has been installed for information collection since 2020. This goal is still in progress for 2024-2027.

2. PERFORMANCE ON THE PERFORMANCE ACCOUNTABILITY INDICATORS UNDER SECTION 116 OF WIOA FOR THE MOST RECENTLY COMPLETED PROGRAM YEAR, REFLECTING ACTUAL AND NEGOTIATED LEVELS OF PERFORMANCE. EXPLAIN ANY DISCREPANCIES IN THE ACTUAL AND NEGOTIATED LEVELS; AND

DVR's goal is to meet or exceed the negotiated levels of performance measures in accordance with Section 116 of WIOA as referenced in DVR's Appendix 1 referred to as Performance Goals of Vocational Rehabilitation Program.

DVR Performance outcomes for PY2022:

Indicator	PY 22 Outcome
Employment (Second Quarter After Exit)	40%
Employment (Fourth Quarter After Exit)	30.2%
Median Earnings (Second Quarter After Exit)	\$5,446.79
Credential Attainment (CA) Rate	41.9%
Measurable Skill Gains (MSG)	38.3%

DVR met with RSA to negotiate levels of performance for PY 2022 and 2023 and agreed on the performance levels below:

Indicator	PY 2022 Negotiated Level	PY 2023 Negotiated Level
Employment (Second Quarter After Exit)	33%	37%

Employment (Fourth Quarter After Exit)	37.5%	39.5%
Median Earnings (Second Quarter After Exit)	\$4,400	\$4,500
Credential Attainment Rate	20%	22%
Measurable Skill Gains	35%	36%

3. THE USE OF FUNDS RESERVED FOR INNOVATION AND EXPANSION ACTIVITIES (SECTIONS 101(A)(18) AND 101(A)(23) OF THE REHABILITATION ACT) (E.G., SRC, SILC).

Funds are allocated for the operation of the SILC to meet the goals and objectives set forth in the SPIL. The mission of the Statewide Independent Living Council of Hawai'i is to promote independent living and the integration of persons with disabilities into the community, and to aid individuals in achieving their goals and basic human rights. The SILC works collaboratively with the DVR in strategic planning and development of the SPIL required in section 704 of the Rehabilitation Act as amended. SILC monitors, reviews, and evaluates the implementation of the approved SPIL by connecting with the Centers for Independent Living and other independent living providers. The SILC provides all services set forth in a contract agreement with DVR, indicated in the Scope of Services and Executive Order 11, State of Hawai'i.

The SILC coordinates activities with the SRC established under section 105 of the Rehabilitation Act, as amended, and with other councils that address the needs of specific disability populations and issues under another Federal Law.

The SRC is established in Section 105 of the Rehabilitation Act of 1973, as amended, and 34 CFR §361.16-361.17 of its implementing regulations. The SRC carries out its purpose by reviewing, analyzing, and advising DVR regarding performance that affects the ability of consumers to achieve employment outcomes. The SRC also assists in developing and reviewing State goals and priorities in the VR program, assists with preparation of the VR State plan and amendments, and preparation and submittal of VR annual report to the Governor and Commissioner of the RSA. The SRC coordinates its activities with the activities of other disability related councils within the State.

In FFY 2023, there was \$16,223 expended on SRC activities and \$362,916 expended for SILC operations.

e. Supported Employment Services, Distribution of Title VI Funds, and Arrangements and Cooperative Agreements for the Provision of Supported Employment Services.

1. ACCEPTANCE OF TITLE VI FUNDS:

(A) VR agency requests to receive title VI funds.

2. IF THE VR AGENCY HAS ELECTED TO RECEIVE TITLE VI FUNDS, SECTION 606(B)(3) OF THE REHABILITATION ACT REQUIRES VR AGENCIES TO INCLUDE SPECIFIC GOALS AND PRIORITIES WITH RESPECT TO THE DISTRIBUTION OF TITLE VI FUNDS RECEIVED UNDER SECTION 603 OF THE REHABILITATION ACT FOR THE PROVISION OF SUPPORTED EMPLOYMENT SERVICES. DESCRIBE THE USE OF TITLE VI FUNDS AND HOW THEY WILL BE USED IN MEETING THE GOALS AND PRIORITIES OF THE SUPPORTED EMPLOYMENT PROGRAM.

As identified in L.2 above, providing Supported Employment (SE) Services to individuals with most significant disabilities is the agency's priority 2 as re-stated below.

Priority 2: To provide Supported Employment Services to Individuals with Most Significant Disabilities

Goal 2.1 Annually increase the percentage of individuals with most significant disabilities who during a program year participate in Work-Based Learning Experiences (WBLE) and internships (by a minimum rate of 1%).

Goal 2.2 Annually increase the number of individuals with most significant disabilities engaged in competitive integrated employment during the fourth quarter after exit (by a minimum rate of 1%).

Goal 2.3 Annually increase the percentage of employers providing customized employment to individuals with most significant disabilities. Customized employment means, in general, competitive integrated employment designed to meet both the specific abilities of the individual with a most significant disability and the business needs of an employer (by a minimum rate of 1%).

Clients Receiving SE Services by Federal Fiscal Year:

PY 2023: 81 Projected

PY 2022: 74 Projected

FFY2021: 175 Projected, 67 served (33 Youth, 34 Adults)

FFY2020: 90 Projected, 74 served (36 Youth, 38 Adults)

PFY2019: 44 projected, 66 served (10 Youth, 56 Adults)

DVR continues to work to strengthen partnerships with the DOH, HODOE, DLIR, and employer networks for participants long-term supports, and enhance their resiliency for retaining satisfactory competitive integrated employment in Hawai'i's workforce.

3. SUPPORTED EMPLOYMENT SERVICES MAY BE PROVIDED WITH TITLE 1 OR TITLE VI FUNDS FOLLOWING PLACEMENT OF INDIVIDUALS WITH THE MOST SIGNIFICANT DISABILITIES IN EMPLOYMENT. IN ACCORDANCE WITH SECTION 101(A)(22) AND SECTION 606(B)(3) OF THE REHABILITATION ACT, DESCRIBE THE QUALITY, SCOPE, AND EXTENT OF SUPPORTED EMPLOYMENT SERVICES TO BE PROVIDED TO INDIVIDUALS WITH THE MOST SIGNIFICANT DISABILITIES, INCLUDING YOUTH WITH THE MOST SIGNIFICANT DISABILITIES; AND THE TIMING OF TRANSITION TO EXTENDED SERVICES.

DVR has a Managed Service Provider (MSP) statewide contract in place for supported employment services. The MSP provides sourcing, assignment, and management of assignments for services to DVR participants. The contractor is responsible for establishing, maintaining, and monitoring a network of subcontracted vendors (“Vendor Network”) for the provision of supported employment services. Participants have increased informed choice as they can select their provider from a larger Vendor Network. VR Specialists (VRS), VR participants and their guardians as appropriate, and other providers are part of the VR participant’s support team.

Steps in Supported Employment Provided by the VR Participant’s Selected Vendor:

1. The Intake plan development meeting is attended by the VR participant and their support team to determine service needs for supported employment and selection of an appropriate vendor. The team develops a plan which includes anticipated supports as outlined in the Individualized Plan for Employment.
2. Provision of support services and instruction necessary for the VR participant to develop the skills outlined in the intake plan.
3. Implementation of participant's IPE and supported employment services to include job development, job retention, job training, job coaching, observation, facilitation of natural supports at the worksite, and/or follow up services to reinforce and stabilize the employment.
4. Supported employment services are provided for up to twenty-four (24) months after the VR participant has obtained employment.
5. Extended services to maintain and achieve stability may be provided to youth with most significant disabilities for up to four (4) years or until the youth reaches the age of twenty-five (25).
6. Plan for participant's transition to ongoing or long-term supports through on-worksite monitoring and off-site work monitoring.
7. Close participant's DVR case and transition to ongoing or long-term supports.

Supported Employment services are provided to eligible VR participants through Community Service Providers statewide. The extent of services provided are identified in the Scope of Services in each Supported Employment contract. Contractors are compensated on a Milestone payment structure. Each milestone completed must be to the satisfaction of DVR, Participant, and other team members including the identified Long-Term Support.

Extended services are available to youth with most significant disabilities for up to 4 years, or until the youth turns 25 years old and no longer meets the definition of “youth with a disability”, whichever comes first. For youth who still require extended services, after they can no longer receive them from DVR, the VRS must identify another source of extended services for those youth to ensure there will be no interruption in services.

Supported employment means competitive integrated employment, including customized employment (if available), or employment in an integrated work setting in which an individual with a most significant disability, including a youth with a most significant disability, is working on a short-term basis toward competitive integrated employment that is individualized, and customized, consistent with the unique strengths, abilities, interests, and informed choice of the individual with ongoing support services.

Supported employment services begin after job placement, therefore all milestones prior to job placement are paid for with VR service funds and not through the Supported Employment Services Grant.

Supported employment services are available for a period not to exceed 24 months, unless under special circumstances where the eligible individual and the VRS jointly agree to extend the time to achieve the employment outcome in the Individualized Plan for Employment.

4. SECTIONS 101(A)(22) AND 606(B)(4) OF THE REHABILITATION ACT REQUIRE THE VR AGENCY TO DESCRIBE EFFORTS TO IDENTIFY AND ARRANGE, INCLUDING ENTERING INTO COOPERATIVE AGREEMENTS, WITH OTHER STATE AGENCIES AND OTHER APPROPRIATE ENTITIES TO PROVIDE SUPPORTED EMPLOYMENT SERVICES. THE DESCRIPTION MUST INCLUDE EXTENDED SERVICES, AS APPLICABLE, TO INDIVIDUALS WITH THE MOST SIGNIFICANT DISABILITIES, INCLUDING THE PROVISION OF EXTENDED SERVICES TO YOUTH WITH THE MOST SIGNIFICANT DISABILITIES IN ACCORDANCE WITH 34 C.F.R. § 363.4(A) AND 34 C.F.R. § 361.5(C)(19)(V).

As outlined in the previous response, DVR contracts with a Managed Services Provider to administer Supported Employment Services to VR participants statewide, including youth with the most significant disabilities.

In 2019, DVR and DOH-DDD reviewed and revised the draft MOA that identifies resources for SE and customized employment services, including extended services for dually eligible program participants. In support of this collaboration DVR and the DOH Developmental Disabilities Council co-sponsored customized employment training for staff and partners to improve supported employment outcomes using best practices for individuals with most significant disabilities to obtain and retain employment. Significant strides in program collaboration and initiatives have been made and updates to the MOA currently being reviewed with DOH and DVR attorney generals, is scheduled to be completed in 2024. Staff of these funding agencies will be trained in the use of the updated agreement and decision-making process. DVR’s Partnership Plus agreement, previously referenced, is also utilized for long-term supports for job skills maintenance and employment retention for participants identified as SSA disability beneficiaries with an assigned Ticket to Work.

Supported Employment services are currently being provided to individuals with most significant disabilities, including extended services for youth with the most significant disabilities through collaborative efforts by VRS counselors and Case Managers from DDD and Case Managers from Adult Mental Health Division. VRS counselors and Case Managers work as part of the Supported Employment Team when a DVR participant is a mutual client. Each team member, along with the participant contribute to the planning and service acquisition/delivery throughout the milestones (as indicated above) with the DVR SE contract provider. Each team member and VR participant also has a role in the successful employment and transition to the Extended Service provider.

DVR will continue to review and address provider quality services which include a review of the processes indicated in the scope of services, and as indicated in DVR contract monitoring reviews, or rules and regulations updated by the Rehabilitation Services Administration (RSA).

f. Annual Estimates

Sections 101(a)(15) and 101(a)(23) of the Rehabilitation Act require all VR agencies to annually conduct a full assessment of their resources and ability to serve all eligible individuals before the start of the Federal fiscal year. In accordance with 34 C.F.R. § 361.29(b), annual estimates must include the following projections:

1. ESTIMATES FOR NEXT FEDERAL FISCAL YEAR—

A. VR Program; and

Select 'Edit' to edit the narrative.

Note, please do not edit the table header or formatting. Only edit the table contents.

If you accidentally edit the table headers and structure, open this link to the blank table. You can copy and paste the table into the narrative field and start over if needed.

Priority Category (if applicable)	No. of Individuals Eligible for Services	No. of Eligible Individuals Expected to Receive Services under VR Program	Costs of Services using Title I Funds	No. of Eligible Individuals Not Receiving Services (if applicable)
MSD	282	2,422	\$1,927,683	NA
SD	118	1008	\$324,016	NA
NSD	8	57	\$47,428	NA

B. Supported Employment Program.

Priority Category (if applicable)	No. of Individuals Eligible for Services	No. of Eligible Individuals Expected to Receive Services under Supported Employment Program	Costs of Services using Title I and Title VI Funds	No. of Eligible Individuals Not Receiving Services (if applicable)
MSD	40	336	\$116,207	NA

g. Order of Selection

1. PURSUANT TO SECTION 101(A)(5) OF THE REHABILITATION ACT, THIS DESCRIPTION MUST BE AMENDED WHEN THE VR AGENCY DETERMINES, BASED ON THE ANNUAL ESTIMATES DESCRIBED IN DESCRIPTION (F), THAT VR SERVICES CANNOT BE PROVIDED TO ALL ELIGIBLE INDIVIDUALS WITH DISABILITIES IN THE STATE WHO APPLY FOR AND ARE DETERMINED ELIGIBLE FOR SERVICES.

* VR agencies may maintain an order of selection policy and priority of eligible individuals without implementing or continuing to implement an order of selection.

The VR agency is not implementing an order of selection and all eligible individuals will be served.

2. FOR VR AGENCIES THAT HAVE DEFINED PRIORITY CATEGORIES DESCRIBE—

A. The justification for the order

DVR can serve all eligible individuals and has not implemented an order of selection.

B. The order (priority categories) to be followed in selecting eligible individuals to be provided VR services ensuring that individuals with the most significant disabilities are selected for services before all other individuals with disabilities; and

DVR maintains a priority category classification of everyone determined eligible for VR services. All categories are currently open and being served.

HAR §17-401.1-5e defines how individuals who are found eligible for services shall be served under an OOS:

- Priority Category 1 (Individuals with Most Significant Disabilities) will be served first.
- Priority Category 2 (Individuals with Significant Disabilities) will be served second; and
- Priority Category 3 (Individuals with Non-Significant Disabilities) will be served third.

Definitions of Priority Categories:

- Priority Category 1: Individuals determined to have a most significant disability (MSD). These are individuals with severe physical or mental impairments that seriously limit two or more functional capacities and who require three or more substantial VR services for an extended period.
- Priority Category 2: Individuals determined to have a significant disability (SD). These are individuals with severe physical or mental impairments that seriously limit one or more functional capacities and who require multiple VR services over an extended period.
- Priority Category 3: Individuals determined to have a non-significant disability (NSD). All other VR eligible individuals.

The OOS shall not be based on any other factors, including:

- Any duration of residency requirement provided the individual is present in the State.
- Type of disability.
- Age, gender, race, color, or national origin.
- Source of referral.
- Type of expected employment outcome.
- The need for specific services or anticipated cost of services required by an individual; or
- The income level of an individual or an individual's family.

C. The VR agency's goals for serving individuals in each priority category, including how the agency will assist eligible individuals assigned to closed priority categories with information and referral, the method in which the VR agency will manage waiting lists, and the projected timelines for opening priority categories. NOTE: Priority categories are considered open when all individuals in the priority category may be served.

N/A. DVR resolved all OOS priority categories. All eligible individuals are being served.

3. HAS THE VR AGENCY ELECTED TO SERVE ELIGIBLE INDIVIDUALS OUTSIDE OF THE ORDER OF SELECTION WHO REQUIRE SPECIFIC SERVICES OR EQUIPMENT TO MAINTAIN EMPLOYMENT?

Yes. If the OOS is made active, DVR will allow for an exemption to the OOS to serve those eligible individuals with disabilities who require specific VR services to maintain employment. These services must be consistent with the individual's IPE and must be necessary to allow the individual to maintain employment, not for other services the individual may need for other purposes.

h. Waiver of State wideness.

The State plan shall be in effect in all political subdivisions of the State; however, the Commissioner of the Rehabilitation Services Administration (Commissioner) may waive compliance with this requirement in accordance with Section 101(a)(4) of the Rehabilitation Act and the implementing regulations in 34 C.F.R. § 361.26. If the VR agency is requesting a waiver of state wideness or has a previously approved waiver of state wideness, describe the types of services and the local entities providing such services under the waiver of state wideness and how the agency has complied with the requirements in 34 C.F.R. § 361.26. If the VR agency is not requesting or does not have an approved waiver of state wideness, please indicate “not applicable.”

Not applicable.

i. Comprehensive System of Personnel Development.

In accordance with the requirements in Section 101(a)(7) of the Rehabilitation Act, the VR agency must develop and maintain annually a description (consistent with the purposes of the Rehabilitation Act) of the VR agency’s comprehensive system of personnel development, which shall include a description of the procedures and activities the State VR agency will undertake to ensure it has an adequate supply of qualified State rehabilitation professionals and paraprofessionals that provides the following:

1. ANALYSIS OF CURRENT PERSONNEL AND PROJECTED PERSONNEL NEEDS INCLUDING—

A. The number of personnel currently needed by the VR agency to provide VR services, broken down by personnel category; and

B. The number and type of personnel that are employed by the VR agency in the provision of vocational rehabilitation services, including ratios of qualified vocational rehabilitation counselors to clients.

C. Projections of the number of personnel, broken down by personnel category, who will be needed by the VR agency to provide VR services in 5 years based on projections of the number of individuals to be served, including individuals with significant disabilities, the number of personnel expected to retire or leave the field, and other relevant factors.

Personnel Category	No. of Personnel Employed	No. of Personnel Currently Needed	Projected No. of Personnel Needed in 5 Years
Staff Services/Senior Leadership	5	4	3
Branch Administrators	5	2	2

Supervisors	7	3	2
Vocational Rehabilitation Specialists/Teachers for the Blind/Paraprofessionals	31.5	28.5	9
Clerical Support	11	13.5	5
Employment Specialists	1	2	5

D. Ratio of qualified VR counselors to clients:

E. Projected number of individuals to be served in 5 years:

The table below shows the number of VRS positions in DVR, number of vacancies for each level, number expected to retire, max workload, minimum VR case capacity, and maximum VR case capacity for DVR. Based on the estimated number of retirements compared to the maximum case capacities that HDVR expects to build toward in the next five years.

Position Title	# of positions	# of vacancies	# expected to retire	Workload	VR Case Capacity Min	VR Case Capacity Max
VRS I	7	3	0	40-50	280	350
VRS II	8	2	0	60-70	480	560
VRS III	21	10	0	80-120	1680	2520
VRS IV	10	1	1	80-120	800	1200
VRS V	8	5	2			
				Total Caseload	3240	4630

2. DATA AND INFORMATION ON PERSONNEL PREPARATION AND DEVELOPMENT, RECRUITMENT AND RETENTION, AND STAFF DEVELOPMENT, INCLUDING THE FOLLOWING:

A. A list of the institutions of higher education in the State that are preparing VR professionals, by type of program; the number of students enrolled at each of those institutions, broken down by type of program; and the number of students who graduated during the prior year from each of those institutions with certification or licensure, or with the credentials for certification or licensure, broken down by the personnel category for which they have received, or have the credentials to receive, certification or licensure.

The University of Hawai'i, Manoa Campus, College of Education, Kinesiology and Rehabilitation Sciences, Master of Science Degree, specialization in Rehabilitation Counselor Education Program. However, it is no longer accredited by the Commission on Rehabilitation Counselor Certification (CRCC), although they are accredited by a different body. Because DVR's current CSPD policy states that qualified VR Specialists must have a degree from a CRCC-accredited university program and become CRC-certified, UH is not a source for training qualified VR Specialists to be employed by Hawai'i DVR. As a result, Hawai'i DVR specialists are forced to seek training out of state. DVR is working to improve access to in-state training by revising its CSPD policy and associated HR minimum qualification requirements, as well as cultivating a working relationship with the UH College of Education.

Institute of Higher Education	Type of Program	No. of Students Enrolled	No. of Prior Year Graduates

B. The VR agency's plan for recruitment, preparation, and retention of qualified personnel, which addresses the current and projected needs for qualified personnel; and the coordination and facilitation of efforts between the VR agency and institutions of higher education and professional associations to recruit, prepare, and retain personnel who are qualified, including personnel from minority backgrounds and personnel who are individuals with disabilities.

DVR is extremely supportive of preparing, recruiting, hiring, and retaining individuals with disabilities and persons from minority backgrounds. Personnel at DVR represent culturally diverse backgrounds reflective of the culture in Hawai'i.

DVR is working closely with the Department's Human Resource (HR) office to advertise job announcements via listserv with professional organizations such as CSAVR, NRLI, CRCC, NCSAB, and exploring the use of social media to advertise job openings. Job openings are announced internally within the Department and on the State of Hawai'i/DHS website, statewide on-the-spot recruitment and hiring at job fairs has been utilized to fill vacancies, and VR Specialists who specialize in serving deaf participants are announced through partnerships with deaf organizations and in deaf publications. Positions at the Services for the Blind Branch are also announced with blind organizations to enhance recruitment efforts.

DVR is working to improve access to in-state training by revising its CSPD policy and associated HR minimum qualification requirements for VRS I, II, & III, to be able to recruit UH students as prospective VRS staff. DVR is also cultivating a working relationship with the University of Hawai'i at Manoa. This will improve preparation and retention of current qualified employees, as well as increase opportunities for recruitment of qualified VR Specialists, including those from minority backgrounds and those who have disabilities.

C. Description of staff development policies, procedures, and activities that ensure all personnel employed by the VR agency receive appropriate and adequate training and continuing education for professionals and paraprofessionals:

- i. Particularly with respect to assessment, vocational counseling, job placement, and rehabilitation technology, including training implemented in coordination with entities carrying out State programs under section 4 of the Assistive Technology Act of 1998; and
- ii. Procedures for the acquisition and dissemination of significant knowledge from research and other sources to VR agency professionals and paraprofessionals and for providing training regarding the amendments to the Rehabilitation Act made by the Workforce Innovation and Opportunity Act.

Effective July 1, 2016, HDVR implemented the use of training plans, with updates integrated in 2020 for CRC requirements and continuing education credits. DVR staff (professionals and paraprofessionals) are required to complete Training Plan Development Worksheets annually, or more frequently as indicated. The worksheets assist in the identification of individual staff training and development needs, supports the creation of a training plan, ensures follow up, and measures the results of training. From information on the individual worksheets, training activities are prioritized based on identified needs and submitted for implementation at the start of each State fiscal year. Adjustments to plans throughout the year may be considered and approved as indicated to address performance and/or community needs for best practices to be integrated into services. A statewide semi-annual review is conducted to ensure training needs are being met and costs are being planned with any approved adjustments. Statewide training initiatives include university training to support the Masters of Rehabilitation Counseling; formal contracts with San Diego State University, Vocational Rehabilitation Technical Assistance Center for Quality Management (VRTAC-QM) and qualified providers for statewide training and technical assistance to VR Specialists and VR management; and formal contracts to include training and technical assistance for the provision of services as mandated by the WIOA. Additionally, DVR provides staff with training on AWARE, a

records management system software system for VR staff. DVR also provides staff training on assistive devices for staff and clients. DVR management prioritizes comparable benefits for staff training costs to manage expenditures and maximize training opportunities for all staff.

Methods for staff training include weekly leadership meetings, monthly section/branch meetings, quarterly statewide meetings with follow up sessions in between to allow opportunities for application of new information and clarification of uncertainties. These meetings cover all aspects of the VR process as changes to policies and procedures are made. To date, focus of these meetings have been on referral, rapid engagement, application, eligibility determination, IPE development, MSG, and credential attainment, recording of the delivery of Pre-Employment Transition Services, post-exit employment and data collection strategies, and fiscal management, to include prior approval, period of performance, and other federal regulations related to allowable expenditures. Training has been provided to VR professional and paraprofessional staff via the VR Technical Assistance Centers, in-house training, conferences, webinars, and any other available means on an ongoing basis.

3. DESCRIPTION OF VR AGENCY POLICIES AND PROCEDURES FOR THE ESTABLISHMENT AND MAINTENANCE OF PERSONNEL STANDARDS CONSISTENT WITH SECTION 101(A)(7)(B) TO ENSURE THAT VR AGENCY PROFESSIONAL AND PARAPROFESSIONAL PERSONNEL ARE ADEQUATELY TRAINED AND PREPARED, INCLUDING—

A. Standards that are consistent with any national or State-approved or -recognized certification, licensing, registration, or other comparable requirements that apply to the profession or discipline in which such personnel are providing VR services; and

B. The establishment and maintenance of education and experience requirements, in accordance with section 101(a)(7)(B)(ii) of the Rehabilitation Act, to ensure that the personnel have a 21st century understanding of the evolving labor force and the needs of individuals with disabilities.

DVR is working to revise its current CSPD policy and associated HR minimum qualification requirements for VRS I, II, & III, to be able to recruit UH students as prospective VRS staff. DVR is also cultivating a working relationship with the University of Hawai'i at Manoa. This will improve preparation and retention of current qualified employees, as well as increase opportunities for recruitment of qualified VR Specialists, including those from minority backgrounds and those who have disabilities.

DVR currently requires all newly hired VRS counselors to obtain a master's degree in Rehabilitation Counseling from a CACREP accredited program, as well as to obtain and maintain Certified Rehabilitation Counseling (CRC) certification to continue employment with the agency. VRS counselors who seek advancement in DVR above the VRS III, will also be required to obtain and maintain CRC certification to qualify for higher level VRS IV and V positions.

DVR's personnel standard is currently aligned with CRC eligibility and certification. VR actively recruits personnel who meets standards and maintains a Comprehensive System of Personnel Development (CSPD) database. Newly hired VRS are required to apply for RSA long-term funding with qualified CACREP Rehabilitation Counseling programs to leverage funding and manage DVR

costs. DVR's personnel development includes ongoing annual continuing education opportunities paid by program income and Title I funds to ensure personnel have a 21st century understanding of the evolving labor force and needs of individuals with disabilities to successfully engage in Hawai'i's workforce.

DVR's Staff Support Office /Training Specialist maintains a database of each employee to ensure they meet CRCC standards. This database includes the employee's educational status, and if they have met the educational requirements for their position. We also track employees who need to obtain their CRC license and ensure they have their license by the agreed upon deadline at hiring. Finally, we ensure that all VRS staff meet the CSPD requirements within 5 years from the start of an individual's master's degree/rehabilitation program. DVR's Training Specialist will schedule annual training monitoring to keep up with the requirements of CSPD, the federal training grants, and other statewide and departmental training resources to ensure that DVR staff development and training programs adequately address the needs of all staff to maintain and update competencies considering changes in professional standards to better understand the evolving labor force and the needs of individuals with disabilities.

Standards for VRS went into effect May 2019 with approval of these class specifications by the Hawai'i State Department of Human Resources Development and Hawai'i Government Employees Association (HGEA). The State Rehabilitation Council members also approved these standards as indicated in this Unified Plan.

New VRS who do not meet CSPD standards must meet the CSPD requirements in 5 years from the start of an individual's master's degree/rehabilitation program with an accredited CACREP program. The individual's master's degree/rehabilitation program must commence on the earliest possible enrollment date after completing the 6-month probationary appointment with DVR. Details are described below:

- I. All VRS I position hired after the effective date of this standard who perform one or more Specialist functions must have a bachelor's degree from an accredited college or university, or verification of eligibility for admission to an accredited program in Rehabilitation Counseling.
- II. All VRS II positions hired (or reallocated to the II level) after the effective date of this standard who perform one or more Specialist functions, in addition to meeting the minimum requirement of the I level, must have completed 50% of graduate level semester credits in an accredited rehabilitation counseling program at an accredited college or university. All VRS III and IV positions hired and/or promoted after the effective date of this standard who perform one or more Specialist functions must have a master's degree or other post-graduate degree including coursework, internship, and experience verified by the Standards and Credentials Committee of the Commission on Rehabilitation Specialist Certification (CRCC) and obtain and retain their Certified Rehabilitation Specialist (CRC) certification to be acceptable for certification purposes.
- III. All VRS V, and Supervisors, who are hired or promoted into positions as first line supervisors of VRS I, II, and III levels, after the effective date (May 2019) of this standard, and perform one or more Specialist functions at any time, or have the authority to do so, must have a master's degree or other

post-graduate degree including coursework, internship, and experience verified by the Standards and Credential Committee of the CRCC to be acceptable for certification purposes, and must be a CRC. The new Specialist's training plans and their grade point averages are monitored during individual meetings with their supervisor during probation and annual reviews. Individual meetings with their supervisor may include but are not limited to reviewing progress on their coursework (areas of concerns), progress in their internships, practicums, and other areas such as time management and case documentation strategies. Individual meetings are held twice a month.

Each newly hired Vocational Rehabilitation Specialist is required to sign an agreement to comply with the Personnel Standards and Personnel Development Requirements of the Division of Vocational Rehabilitation consistent with CSPD requirements, as regularly reviewed with their supervisor.

DVR is actively recruiting to fill additional VRS vacant positions and working on outreach and recruiting strategies to fill these vacancies, including building more "internship" pipelines with accredited universities.

4. METHOD(S) THE VR AGENCY USES TO ENSURE THAT PERSONNEL CAN COMMUNICATE IN APPROPRIATE MODES OF COMMUNICATION WITH OR IN THE NATIVE LANGUAGE OF APPLICANTS OR ELIGIBLE INDIVIDUALS WHO HAVE LIMITED ENGLISH SPEAKING ABILITY.

Annual training via the DSE's HR office is provided to ensure that all VR personnel can communicate effectively with all VR participants. Language interpreters, including ASL and other non-English languages, are available via contract. All communications are provided to VR participants in their preferred formats via in-house or contracted services. Spoken language interpreters are obtained from a 24-hour telephone language service for communication with individuals who have limited English proficiency. DVR has designated staff to serve deaf participants and stakeholders. When needed, DVR obtains ASL interpreters from a contracted referral service. DVR provides alternative formats of written communication for participants and stakeholders needing transcription to braille, or large print.

5. AS APPROPRIATE, DESCRIBE THE PROCEDURES AND ACTIVITIES TO COORDINATE THE DESIGNATED STATE UNIT'S COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT WITH PERSONNEL DEVELOPMENT UNDER THE INDIVIDUALS WITH DISABILITIES EDUCATION ACT.

When appropriate HDVR will coordinate CSPD activities with those provided under the IDEA through the State Rehabilitation Council (SRC) representative for the State Educational Agency responsible for the public education of students with disabilities who are eligible to receive VR services.

j. Coordination with Education Officials.

In accordance with the requirements in Section 101(a)(11)(D) of the Rehabilitation Act—

1. DESCRIBE PLANS, POLICIES, AND PROCEDURES FOR COORDINATION BETWEEN THE DESIGNATED STATE AGENCY AND EDUCATION OFFICIALS RESPONSIBLE FOR THE PUBLIC EDUCATION OF STUDENTS WITH DISABILITIES, THAT ARE DESIGNED TO FACILITATE THE TRANSITION OF THE STUDENTS WITH DISABILITIES FROM THE RECEIPT OF EDUCATIONAL SERVICES IN SCHOOL TO THE RECEIPT OF VOCATIONAL REHABILITATION SERVICES, INCLUDING PRE-EMPLOYMENT TRANSITION SERVICES.

DVR is the designated State unit (DSU) within DHS responsible for partnering with the Hawai'i DOE(HIDOE) to implement an interagency agreement that defines necessary relationships, policies, and procedures between DVR and HIDOE, the State Educational Agency (SEA). The interagency SEA agreement provides both agencies with a common understanding of respective roles and responsibilities, and clarification on each partner's collaborative efforts regarding services which will ultimately improve employment outcomes for students with disabilities statewide. The SEA agreement is in the process of being updated which will be referred to as the SEA Agreement and include the statutory requirements under the Rehabilitation Act of 1973, as amended by the WIOA.

HIDOE is responsible for providing and paying for the services required for students with disabilities who are eligible for services under the Individuals with Disabilities Education Act (IDEA), and DVR is responsible for providing and paying for the services agreed to in an eligible individual's Individualized Plan for Employment (IPE) under Section 612(a)(11) of the IDEA and Section 101(a)(9) of the Rehabilitation Act. Potentially eligible students who have not applied for VR services may receive pre-employment transition services (pre-ETS) for their career exploration activities. Pre-ETS supports are available to students with disabilities who are potentially eligible and eligible for VR services. As such, pre-ETS supports are available prior to and after application, as well as under an IPE (34 C.F.R. 361.48.(b)(18)). Being determined eligible for VR services does not preclude a student from receiving pre-ETS, if the pre-ETS supports began prior to the student with disabilities being determined eligible for VR services.

When the responsibilities of HIDOE and DVR appear to overlap in the provision of required services for students with disabilities, the updated SEA Agreement delineates the parameters for resolving any interagency disputes. The updated SEA agreement allows for an on-going arrangement that best reflects current procedures, policies and protocols established to serve students with disabilities who need transition services and are referred to DVR for VR services.

1. DSU's Plans

The DSU's plans, policies, and procedures for coordination with education officials are designed to facilitate the transition of students with disabilities from school to the receipt of VR services, including pre-ETS, as well as timely development and approval of IPEs for students to fulfill their goals for competitive integrated employment.

Pre-ETS is offered to transition aged high-school students with disabilities (ages 14-21) using 15% of DVR's federal award on an annual basis. Students' determination of eligibility for VR services, development, and approval of an IPE for each eligible student, and ongoing monitoring of the effectiveness of the interagency SEA Agreement, are regularly reviewed as further described below.

DVR recommends HIDOE students with disabilities apply for VR services as soon as individualized needs for supports are identified, preferably two years prior to graduation to support their transition from school. Following receipt of referrals for students with disabilities, the Vocational Rehabilitation Specialists (VRS) counselor provides support with the completion of the student application for VR services. Students with disabilities may initially be referred as potentially eligible (PE) for the provision of VR's Pre-ETS program services, before completing an application for individualized VR services and eligibility determination.

Students with disabilities may also choose not to access Pre-ETS program services for career exploration and apply directly for individualized VR services which will preclude their receipt of Pre-ETS program services until they have been determined eligible for VR services, have been taken off the OOS deferred list, and have identified Pre-ETS program services along with other individualized VR services under an IPE (34 C.F.R. 361.48.(b)(18)). When a student is found eligible for VR services, the VR counselor will participate in the student's IEP meeting at the request of the HIDOE, student, and their family, whenever possible. Students participate in the discussion of all decisions associated with any amendments to their IPE for VR services. At the request of the IEP team, the VR counselor will review and make amendments to the IPE as approved by the student for their VR services.

Pre-ETS services include job exploration counseling; counseling on opportunities for enrollment in comprehensive transition or post-secondary educational programs; instruction in workplace readiness training to develop social skills; self-advocacy, peer mentoring; and Work-Based Learning Experiences (WBLE). The WBLE opportunities include after schoolwork outside the traditional school setting, and internships provided in an integrated setting.

VR counselors provide counseling in job exploration and transition or post-secondary training/education activities. Service providers (e.g., Community Rehabilitation Programs/CRP's, partnering public sector agencies) may be contracted for workplace readiness training and WBLE, as well as instruction in self-advocacy. Comparable resources will also be used when indicated with community providers for pre-ETS program services for students with IPE's.

DVR has five branches: two branches located on the island of Oahu, and one each on Maui, Kauai, and Hawai'i Island. DVR's branches provide transition services in coordination with stakeholders and the designated HIDOE high schools statewide. The VR counselors often carry a mixed caseload of students, youth, and adults with disabilities whom they support with implementation of their IPE for competitive integrated employment.

VR counselors in the Oahu Branch Deaf Services Section serve the Hawai'i School for the Deaf and Blind, however, VRS counselors are available to support all schools on Oahu based on community needs, with VRS counselors on neighbor islands supporting community needs on all islands. VRS counselors in DVR's Services for the Blind Branch are available to support all schools on Oahu with students who are visually impaired or blind. The remaining Oahu Branch VRS counselors are each designated liaisons to specific HIDOE schools for students with disabilities to access VR transition and pre-ETS program services on Oahu.

DVR staff use the `Ohana Nui approach when interacting with students and their families, as well as rapid engagement and motivational interviewing techniques to build rapport and engage students and stakeholders in the student's services.

As defined by the DHS initiative, `Ohana Nui is Hawaiian for "extended family." With the high cost of living and a demand for housing that far exceeds the supply, many local families are comprised of three and sometimes four generations under one roof. For DHS staff, `Ohana Nui is the mantra describing the way we do our work to support these multi-generational families.

The Department's `Ohana Nui initiative, adapted from the Aspen Institute's two-generation philosophy, aims to concurrently address the whole family's needs when providing services and supports. The name `Ohana Nui was thoughtfully developed by young adults who were formerly engaged with DHS as foster youth. In selecting the name, which translates from Hawaiian as "extended family", they intended to recognize and express gratitude for those who had contributed to their successful growth and development, such as teachers, coaches, spiritual advisors, aunts, and uncles, many of whom were not related to them by blood.

The `Ohana Nui initiative responds to research demonstrating that the well-being of parents and their children are highly interrelated; that improving the lives of parents has a marked positive impact on their children, and ensuring the success of children serves as a powerful motivator for parents. `Ohana Nui places the family at the center of the system, requiring that we listen to and involve them when providing services and supports for all family members in concert, and not in a piecemeal fashion. The result is better outcomes for the whole family and the best chance of breaking the inter-generational cycle of poverty in which many of the families DHS serves find themselves.

Responding to the collective needs of parents and children, as well as grandparents and sometimes even great grandparents in the home, requires DHS to develop integrated approaches to service delivery, both within DHS and externally, in collaboration with partner providers and the business community. Pivoting away from providing services based solely on where someone "signs up" in the system, DHS is transforming its services by actively creating processes to address all family members' potential needs at any given entry point.

DVR neighbor island branches have designated VRS counselors serving the Counties of Hawai'i, Kauai, and Maui, inclusive of the islands of Molokai and Lanai as points of contact for all schools. The role of the VRS is to have a presence at their designated schools to engage with students and educators. They provide consultation and technical assistance to school staff, students, and their families with information regarding DVR's goals and mission, access to pre-ETS supports, eligibility criteria, scope of services, rights, remedies, and connect the HODOE students with disabilities to community paid work-based learning experiences through DVR's contracted Community Rehabilitation Providers (CRPs).

VRS counselors receive direct referrals of students with disabilities from the school, at any time during the school year. They provide consultation and technical assistance to school staff during their school visits, and during IEP meetings for students who are seeking pre-ETS program services

and/or were found eligible for VR services. When a student is found eligible for VR services the VRSA will attend IEP meetings, at the request of the HIDOE, as available and agreed to with stakeholders. If unable to attend, VR information is provided by the VRS to the IEP team. The VRS will review the student's IPE and allow for amendments at the request of the student and their IEP team.

In addition, the role of the VRS is to provide introduction and guidance to post-school alternatives, support planning and coordination for work experiences in a competitive integrated setting to improve employment outcomes.

DVR continues to collaborate with the HIDOE to deliver paid and unpaid community-based work-based learning experiences (WBLE) in competitive integrated settings for students with disabilities. DVR is updating the inter-related components for students with disabilities to access career exploration services, including classroom experiences, in-school integrated unpaid WBLE, and integrated community unpaid or paid WBLE, workplace readiness and self-advocacy services to expand inclusion of Perkins V programming (Career Technical Education) opportunities. The HIDOE classroom experience is designed with a workplace readiness component for students to explore career pathways. HIDOE in-school experiences are designed to continue workplace readiness training with integrated WBLE (unpaid) at the HIDOE school. Integrated community WBLE, workplace readiness and self-advocacy activities are usually provided in the community. All paid WBLE are made available through DVR's CRP's and compensated at competitive wages, and in compliance with Department of Labor's Fair Labor Standards Act.

2. DESCRIBE THE STATUS AND SCOPE OF THE FORMAL INTERAGENCY AGREEMENT BETWEEN THE VR AGENCY AND THE STATE EDUCATIONAL AGENCY. CONSISTENT WITH THE REQUIREMENTS OF THE FORMAL INTERAGENCY AGREEMENT PURSUANT TO 34 C.F.R. § 361.22(B), PROVIDE, AT A MINIMUM, THE FOLLOWING INFORMATION ABOUT THE AGREEMENT:

A. Consultation and technical assistance, which may be provided using alternative means for meeting participation (such as video conferences and conference calls), to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities, including pre-employment transition services and other vocational rehabilitation services.

B. Transition planning by personnel of the designated State agency and educational agency personnel for students with disabilities that facilitates the development and implementation of their individualized education programs (IEPs) under Section 614(d) of the Individuals with Disabilities Education Act.

C. The roles and responsibilities, including financial responsibilities, of each agency, including provisions for determining State lead agencies and qualified personnel responsible for transition services and pre-employment transition services.

D. Procedures for outreach to and identification of students with disabilities who need transition services and pre-employment transition services. Outreach to these students should occur as early as possible during the transition planning process and must include, at a minimum, a description of the purpose of the vocational rehabilitation program, eligibility requirements, application procedures, and scope of services that may be provided to eligible individuals.

E. Coordination necessary to satisfy documentation requirements set forth in 34 C.F.R. part 397 regarding students and youth with disabilities who are seeking subminimum wage employment; and

F. Assurance that, in accordance with 34 C.F.R. § 397.31, neither the SEA nor the local educational agency will enter a contract or other arrangement with an entity, as defined in 34 C.F.R. § 397.5(d), for the purpose of operating a program under which youth with a disability is engaged in work compensated at a subminimum wage.

Currently, the formal interagency agreement (State Educational Agreement, or “SEA”) between VR and the Hawai’i State Department of Education (DOE) executed in June 2019 is under revision, reflecting the following within the scope of the agreement:

A. Consultation and technical assistance, which may be provided using alternative means for meeting participation (such as video conferences and conference calls), to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities, including pre-employment transition services and other vocational rehabilitation services.

DVR agrees to provide consultation and technical assistance to DOE district and school special education staff in planning for the transition of Students with Disabilities (SWD) from school to post-school activities, including pre-ETS (also provided to potentially eligible DVR participants) and other DVR services. Consultation and technical assistance are provided by the administrative, supervisory, and direct services staff of DVR and may occur formally or informally throughout the school year.

Consultation and technical assistance to DOE may include but is not limited to: information related to outreach, DVR application and referral procedures; eligibility criteria; development of the Individualized Plan for Employment (IPE); and available VR services, including pre-ETS and transition services. Assistance may be requested by phone, e-mail, mail, or in-person, and may be provided using alternative means such as video conference and conference calls.

General Consultation and Technical Assistance

DVR's Vocational Rehabilitation Specialists assigned to high schools, and Branch Administrators or Section Supervisory staff assigned to collaborate with the DOE Complex Areas, shall be responsible for providing consultation and technical assistance on an on-going basis to the DOE special education and transition personnel at the school level and Complex level in planning activities for SWD. The general areas of consultation and technical assistance provided by the VRS shall include, but are not limited to:

1. DVR pre-ETS, transition services, and other VR services.
2. Assistive Technology (AT) evaluations as they pertain to the needs for vocational rehabilitation and employment purposes upon the SWD exiting high school (see Section X. C. 5. below for more information).
3. Community work experience development.
4. Strategies for successful job placement.
5. Career exploration.
6. Local providers and resources to supplement transition services in addition to DVR; and
7. Federal financial aid available for postsecondary education.

Annual Consultation and Technical Assistance

DVR Branch Administrators and Section Supervisors, or their designees, shall be responsible for providing annual consultation and technical assistance on transition activities and pre-ETS to DOE

special education and transition personnel at the district and school levels, to include but not limited to, information related to the following:

1. DVR service description including pre-ETS, transition services and other DVR services outreach procedures.
2. DVR eligibility criteria.
3. AT assessments as they pertain to DVR.
4. Social Security Disability Benefits.
5. DVR referral and application procedures for SWD who are potentially eligible and seeking eligibility for VR services; and
6. Scope of Services available through the DVR process.

B. Transition planning by personnel of the designated State agency and educational agency personnel for students with disabilities that facilitates the development and implementation of their individualized education programs (IEPs) under section 614(d) of the Individuals with Disabilities Education Act.

Pre-Employment Transition Services and Transition Services Planning

1. DVR is responsible for fulfilling the requirements authorized by the Rehabilitation Act and shall collaborate with DOE in the planning, provision, and arrangement of pre-ETS to potentially eligible and eligible SWD beginning at age 14 through the age of 21.
2. DVR is responsible for individualized DVR services, including transition services and other services authorized by the Rehabilitation Act and identified on an IPE. The provision of DVR services shall be consistent with current DVR policies and procedures.
3. DVR Financial Responsibilities: DVR is responsible for DVR services authorized by the Rehabilitation Act and identified on DVR's PE Agreement or an approved IPE.

To fulfill its responsibilities, DVR shall:

1. Plan for the statewide provision of pre-ETS and transition services in accordance with the Agreement, DVR policies, procedures, and guidelines pursuant to requirements under the Rehabilitation Act. The DVR State Program Specialist for Transition shall assist DVR staff with issues and concerns related to coordination and the provision of transition services and pre-ETS in schools.
2. Have DVR State Program Specialist for Transition and VRS staff collaborate to support contact with the appropriate DOE staff to provide clarification on the roles and responsibilities of each entity if roles and responsibilities for the provision of pre-ETS and transition services are unclear after evaluating the purpose of the service, who customarily provides the service, and who is eligible for the service.
3. Collaborate, arrange, provide, and pay for pre-ETS for SWD in need of such services, including SWD who may be potentially eligible for DVR services, as well as DVR or employment-related services for DVR-eligible SWD as identified on the IPE for SWD, in accordance with DVR requirements for comparable services and benefits, and personal resources.

4. Provide DVR services to DVR-eligible SWD as authorized by the Rehabilitation Act including pre-ETS, individualized transition services, and other DVR services identified on an IPE.
5. Assist SWD to achieve CIE outcomes, including supported employment, as appropriate, consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.
6. Develop and support early work experiences, apprenticeships, and internships including summer work experiences, as appropriate.
7. Ensure the DVR services required to support SWD are included in the IPE and amendments, and that these services are provided to the SWD who may share them with the DOE transition team.
8. Provide information during intake to parent and student regarding the DVR referral and application processes, DVR eligibility requirements, the purpose of the DVR program, scope of the DVR services, and information related to the Client Assistance Program (CAP).
9. Share information regarding DVR policies, procedures, guidelines, programs, and services for the purpose of improving the access to and availability of pre-ETS and transition services.
10. Provide brochures and materials about the DVR process and services to the school districts for distribution to SWD, parent(s) or legal guardian(s), teacher(s), and others.
11. Participate with DOE on joint trainings of the school district staff, as new Federal or State requirements or initiatives are identified, as applicable.
12. When invited and available, VRS shall participate in the IEP and 504 Plan meetings that involve the development and implementation of the transition plan, in person or remotely. If unable to attend, prior to the scheduled IEP or 504 Plan meeting or as soon as possible after the meeting, the VRS shall provide information to the school team, which shall be considered in the development of the transition plan.
13. Have VRS inform their respective school contacts of community events, such as job fairs, transition fairs, comparable resources, and career days to introduce and expose SWD to possible career options.
14. Upon request and with written parental consent, have VRS provide a copy of the eligibility certification, IPE (including any amendments of the IPE) to the identified school contact (special education or transition teacher).

DVR shall be fiscally responsible for VR services identified on the DVR PE Agreement or an approved IPE and authorized by the Rehabilitation Act. Upon request and coordination, DVR shall provide training for school Districts on DVR financial responsibilities and DVR's responsibilities to encourage full participation in the process.

DOE Responsibilities:

1. DOE is responsible for fulfilling all the requirements set forth in Part B of the IDEA that are necessary for ensuring a FAPE to SWD and planning for the successful transition of SWD to postsecondary education, employment, and/or independent living, as appropriate. This includes the partnership with, and inclusion of, any outside entity, including agencies and employers likely to provide services to SWD.

2. DOE Financial Responsibilities: DOE shall be responsible for ensuring that FAPE is made available to eligible SWD, including special education services or related services included in the IEP, as authorized by the IDEA or Section 504 of the Rehabilitation Act.

To fulfill its responsibilities, DOE shall:

1. Provide information to SWD and their families on the purpose of the DVR program and the scope of services offered by DVR.

2. Provide documentation (digital or hard copy) and any relevant information for potentially eligible SWD. Provide copies of current (high school) medical, psychological, audiological assessments (within a year preferred), validation of measurable skills gains and certifications annually to include but not be limited to, certificates of completion, diplomas, grade transcripts for VRS to facilitate the eligibility determination, plan development and case monitoring processes for SWD who are applying for VR services and dually enrolled in DOE and DVR services.

3. Upon parental consent, identify SWD interested in transition services, pre-ETS, and/or other DVR services, and refer them to DVR. The DOE IEP Care Coordinator shall collaborate with the designated DOE Transition Coordinator at each high school to ensure timely referrals are submitted to the DVR assigned VRS.
4. Invite the VRS to participate in the IEP or 504 Plan meeting and transition planning process, with the permission of the parent(s) or legal guardian(s).
5. Ensure that the SWD transition plan is documented in their IEP for all IDEA identified SWD or their Personal Transition Plan (PTP) for all Section 504 identified SWD. If applicable, plans shall include for the individual SWD:

- a) A statement of transition services to be provided through DOE and DVR.

- b) A list of experiences that DVR shall make available to the SWD including pre-ETS group training, in-school work-based learning, and community work-based learning.

6. Upon receipt of written parental consent, provide a copy of the IEP or 504 Plan and/or PTP, most recent evaluation results, and current (within one year) medical reports as applicable, to the VRS for all SWD who were found eligible for DVR services. For SWD that shall be exiting, DOE includes transcripts, Summary of Progress (SOP) and referral data to VRS for all SWD who are referred to DVR.

7. Provide documentation of service delivery, to include Career and Technical Education (CTE) programming.

8. Provide and pay for the DOE special education and related services identified in the IEP, including transition services for eligible SWD under IDEA (34 C.F.R. §300.17) to ensure FAPE is made available to eligible SWD.

C. The roles and responsibilities, including financial responsibilities, of each agency, including provisions for determining State lead agencies and qualified personnel responsible for transition services and pre-employment transition services.

DVR and DOE both shall:

1. Collaborate to arrange for and co-facilitate quarterly transition meetings for DOE and DVR staff so they are fully informed of their responsibilities.
2. Assist the other party on issues and concerns related to the coordination and implementation of transition services and pre-ETS.
3. Meet regularly to address systems, policy, practice, and funding issues that facilitate or negatively impact the transition of SWD from school to work or postsecondary education.
4. Foster innovation in transition program design and service delivery strategies between DVR and DOE.
5. Utilize a common message when sharing information to local DVR offices and DOE's Districts and Complexes.
6. Post this SEA Agreement on their respective websites (or in a location readily available to each agency's staff).
7. Align policy and practice at the state and local levels to facilitate the seamless transition of SWD from school to work or postsecondary education; minimize redundant services; and maximize resources in both systems.
8. Develop and provide trainings and professional development opportunities to improve transition and employment results.
9. Provide a copy of the SEA Agreement to the following key stakeholders:
 - a. All Complex Area Superintendents.
 - b. All directors of Special Education.
 - c. All DVR administrative staff to include Branch Administrators, Supervisors, and policy and program staff.
 - d. The State Rehabilitation Council.
 - e. The Department of Health Developmental Disabilities Determination Branch.
 - f. The Department of Health Developmental Disabilities Council; and
 - g. other entities as identified by the parties.

10. Mutually develop and distribute notices, memorandums, and other information regarding transition to key stakeholders.

11. Give timely notice to key stakeholders of all proposed changes to rule or policy that relate to students and youth in transition.

12. Collaborate toward meeting the unique needs of DVR, DOEs Districts and Complex offices and facilitate seamless transition for SWD from a FAPE to the provision of DVR services.

13. Collaborate with DOEs Districts and Complexes to provide or arrange for the provision of pre-ETS for all SWD in need of such services who are eligible or potentially eligible for services under the WIOA.

D. Procedures for outreach to and identification of students with disabilities who need transition services and pre-employment transition services. Outreach to these students should occur as early as possible during the transition planning process and must include, at a minimum, a description of the purpose of the vocational rehabilitation program, eligibility requirements, application procedures, and scope of services that may be provided to eligible individuals.

DVR utilizes a variety of outreach methods at the State, local, and family or individual levels for the identification of and outreach to SWD, including students who qualify under IDEA or Section 504 of the Rehabilitation Act. These procedures are detailed below.

A. Outreach at the State level

In collaboration with other WIOA core and for additional outreach opportunities, DVR's administrative level staff serve on boards and councils to address the joint responsibilities under the Rehabilitation Act. These partnerships include, but are not limited to:

1. State Council on Developmental Disabilities.
2. State Council on Mental Health.
3. Special Education Advisory Council (SEAC).
4. University of Hawai'i, Rehabilitation Counselor Education Program's Advisory Board.
5. State Workforce Development Board.
6. Programs providing independent living supports and skills training.
7. City & County of Honolulu, Department of Transportation, Committee on Accessible transportation.
8. Ho`opono (Services for the Blind Branch) Advisory Council; and
9. Deaf & Hard of Hearing Advisory Board.

B. Outreach at the Local Level

1. DVR branch managers, section supervisors, and VRS shall assist Districts and Complexes and school staff with the identification of SWD who may be potentially eligible or are eligible for DVR services, including pre-ETS.

a. Referral and Application.

DVR shall: ensure referrals and applications are available to SWD and their families; describe the purpose of the DVR program and the scope of services available; describe the referral process, application procedures as well as timeliness for each procedure; provide informational literature; and explain eligibility requirements and the 60-day eligibility determination timeline.

b. Eligibility.

When an application is submitted, DVR shall make an eligibility determination within 60-days unless exceptional and unforeseen circumstances beyond DVRs control preclude making an eligibility determination within 60-days, DVR and the SWD (with parent(s) or legal guardian(s), if applicable) shall collaborate on an agreement for a specific extension of time.

c. IPE Development.

DVR shall collaboratively work with the SWD and their family, as appropriate, to develop the IPE (service plan) within 90-days of the eligibility determination. The provision of individualized DVR services shall commence upon the completion of the approved IPE, signed by the participant, their parent(s), or legal guardian(s), as appropriate, and the VRS.

2. DVR shall receive referrals of SWD for pre-ETS as well as potential DVR applicants by maintaining an active presence at the following DOE activities and events:

a. IEP and 504 Plan and transition planning meetings.

b. Parent support groups.

c. Parent forums hosted by assigned high schools.

d. Transition Fairs.

e. Programs providing independent living skills training.

f. Organizations serving youth who are blind, partially sighted, deaf, hard of hearing or deaf-blind; and

g. Job and career fairs.

E. Coordination necessary to satisfy documentation requirements set forth in 34 CFR part 397 regarding students and youth with disabilities who are seeking subminimum wage employment.

Documentation Requirements of Section 511

Under Section 511 of the Rehabilitation Act, 14(c) businesses, referred to as “employers,” are prohibited from employing any individual with a disability who is 24 years of age or younger at subminimum wage, unless the individual has received documentation from DVR upon completion of all the following activities:

a. Pre-employment transition services for transition services under IDEA.

b. Application for DVR services and the individual was determined:

i. Ineligible for DVR services; or

ii. Eligible for DVR services, had an approved IPE, and the individual was unable achieve an employment outcome in CIE after a reasonable period, and his or her case was unsuccessfully closed.

c. Career counseling, as well as information and referral services to federal and state programs to help the individual discover, experience, attain CIE, was provided for competitive employment and not for employment at subminimum wage. This information shall be shared by DOE with the SWD, parent(s) or legal guardian(s), and teacher(s). This information and process shall also be shared with participants during the IEP meetings for transition planning. DVR shall maintain the documentation and provide a copy to the SWD within the timelines as specified under 34 C.F.R. §397.

Documentation of any of these services provided by DOE must be provided to the SWD and DVR.

d. DVR, in consultation with DOE, must develop or use an existing process to document the completion of these subminimum wage employment requirements as well as the transmittal of documentation from DOE to DVR, consistent with the confidentiality requirements of the FERPA and the IDEA. DVR and DOE must retain copies of the documentation in a manner consistent with the requirements of 2 C.F.R. §200.334. At a minimum, this documentation must contain:

i. Name of SWD or Youth.

ii. Determination made, including a summary of reason for the determination or a description of the activity or service completed.

iii. Name of the individual making the determination or the provider of the service or activity.

iv. Date determination was made, or the required service or activity completed.

v. Applicable signatures and dates by DVR or DOE personnel making determination or completion of the required services or activity.

- vi. Signature of DVR personnel transmitting documentation to the SWD; and
- vii. Date and method by which the document was transmitted to the SWD, as required by 34 C.F.R. §397.10(a)(1).

2. When a SWD expresses interest in subminimum wage employment.

For students seeking sub-minimum wage employment opportunities in the contiguous United States, DVR and DOE shall coordinate the documentation as specified in 20 U.S.C. §794g and 34 C.F.R. §397 and summarized below:

a. The VRS shall share this information with the DOE IEP team, separately or at the IEP team meeting, to help in transition planning. DVR and DOE shall retain copies of the documentation in a manner consistent with the requirements of 2 C.F.R. §200.334.

b. DVR shall provide a copy of the subminimum wage agreement to the SWD and DOE representatives, inclusive of the following information:

i. Name of SWD.

ii. Provision by DOE of transition services, as documented and described in the IEP. Many of these services are defined in the transition section of the IEP and provided over the course of the year, not at a specific time. Therefore, the IEP year shall be considered the date the service was provided. The most current IEP shall be provided to DVR within 30 days of the request, as required. The name of the Care Coordinator listed on the IEP shall be the provider of the service, unless otherwise specified; no signature shall be present as the IEP is DOE's official record of the SWD educational plan; and

iii. Signature of the DVR personnel transmitting documentation to the SWD and the date and method of the transmission.

c. When a SWD (or their parent(s) or legal guardian(s)), through informed choice, refuses to participate in the activities required under Section 511 of the Rehabilitation Act or the implementation regulations of 34 C.F.R. §397, the following documentation shall be provided by DVR to the SWD within ten (10) calendar days of the refusal to participate:

i. Name of SWD.

ii. Description and reason for the refusal dated by the SWD or their parent(s) or legal guardian(s).

iii. Signature and date of the DVR VRS on the refusal document.

iv. Date and method of transmission of the documentation to the SWD; and

d. DVR VRS shall route the documentation to the administrative level for required retention of all documentation provided to the designated unit, in a manner consistent with the requirements of 2 C.F.R. §200.334.

e. If a SWD chooses not to participate in the activities required by Section 511 of the Rehabilitation Act and final regulation, 34 C.F.R. §397, or chooses to opt out of DVR services entirely, such a choice shall impact the permissibility of the SWD to work at subminimum wage and precludes the SWD from obtaining subminimum wage employment given the limitations imposed by Section 511 of the Rehabilitation Act and 34 C.F.R. §397. Accordingly, DVR shall inform the SWD and their parent(s) or legal guardian(s) of the SWD's ineligibility for subminimum wage employment if the SWD refuses to participate in the required activities. DVR shall provide the refusal document to the SWD within ten (10) calendar days of choosing to opt out of participation.

F. Assurance that, in accordance with 34 CFR 397.31, neither the SEA nor the local educational agency will enter a contract or other arrangement with an entity, as defined in 34 CFR 397.5(d), for the purpose of operating a program under which youth with a disability is engaged in work compensated at a subminimum wage.

A. Confidentiality Assurance.

The SEA Agreement requires the sharing of information, including required documentation and data between DVR and DOE. Information about SWD of DVR- and DOE-held data regarding SWD from Districts and Complexes shall be released in conformance with regulations governing confidentiality of personally identifiable information, including but not limited to the Federal Educational Rights and Privacy Act (34 C.F.R. Part 99) ("FERPA"); IDEA (34 C.F.R. Parts 300 and 303); HAR §8-34, as related to DOE; 20 C.F.R. Part 603; 34 C.F.R. Part 361, HAR §17-401.1 as related to DVR, and Chapter 487N, HRS, as related to security breaches of personal information.

B. Sub-Minimum Wage Assurance.

The State of Hawai'i prohibits employers from engaging in the practice of utilizing sub-minimum wages. In accordance with 34 C.F.R. §397.31, DOE Districts and Complexes, and DVR shall not enter a contract or arrangement with an entity, as defined in 34 C.F.R §397.5(d), for the purposes of operating a program under which a youth with a disability is engaged in work compensated at subminimum wage.

k. Coordination with Employers

In accordance with the requirements in Section 101(a)(11)(E) of the Rehabilitation Act, describe how the VR agency will work with employers to identify competitive integrated employment and career exploration opportunities to facilitate the provision of VR services; and transition services for youth and students with disabilities, including pre-employment transition services for students with disabilities.

DVR collaborates with the WIOA core partners statewide through established Memorandums of Agreements to engage with employers in addressing future workforce needs and expansion of business operations associated with skills development. DVR has implemented evidence-based practices and innovative strategies for addressing key challenges to strengthen employer engagement through employer outreach activities, job development and job negotiation tailored to the unique business needs of individual employers.

DVR works with employers and core partners to provide information on disability awareness, guidance on the ADA, reasonable accommodations, and rehabilitation and assistive technology. DVR has engaged in the following activities to create sustainable employment service models over time:

1. **AJC:** Co-located activities are regularly conducted with DVR participants and prospective referrals. Resource sharing is provided by staff to enhance AJC services and engagement of individuals with disabilities under the statewide MOA currently in place. DVR leadership participate in regular AJC partner meetings and sub-committees to support employer engagement and promote competitive integrated employment for individuals with disabilities.
2. **Hawai'i Employment First Taskforce:** Established with DVR as a core partner to analyze and promote changes in policies and procedures needed to increase opportunities for competitive integrated employment for all individuals with disabilities.
3. **Disability:In:** Disability:In is a national organization of businesses which empowers businesses to achieve disability inclusion and equality. DVR is an active member of Disability:In Hawai'i which has been created by business leaders to share best practices in hiring, retaining, and marketing strategies for individuals with disabilities.
4. **Legislative Forum:** Annually, the islands of Kauai, Maui and Hawai'i bring employers together to engage in dialogue with DVR, the Developmental Disabilities Council, and state legislators to share success stories of hiring individuals with disabilities, compliance with the ADA and ways to promote job recruitment and retention.
5. **Job Recruitment Fairs:** Participation by DVR staff in year-round events to promote the hiring of individuals with disabilities., meet employers and secure jobs for participants.
6. **HireNet:** A statewide, integrated, and interactive workforce portal used to track employment opportunities, contracts with employers and participants with disabilities utilizing the platform.

DVR's Employment Specialists and Vocational Rehabilitation Specialists meet with employers on a regular basis on and off the job site to promote DVR, develop relationships and provide to the needs of the business. Various forms of employment opportunities may be established such as internships, work-based learning experiences, apprenticeships, on the job training, all with the end goal of successful competitive integrated employment in mind. DVR also hosts "Business Highlights" throughout the year for staff and partners. Employers are invited to highlight their business and promote job openings for our job candidates.

Transition services for youth and students with disabilities, including pre-employment services for students with disabilities.

DVR continues collaboration efforts in partnership with the Hawai'i State Council on Developmental Disabilities and the Hawai'i Department of Education, engaging employers in providing students and youth with community work-based learning experiences. Currently, collaboration includes the development of internship opportunities for SWD in the health and hospitality industries.

To prepare Hawai'i's future workforce, DVRs Vocational Rehabilitation Specialists and Statewide Program Specialist for Transition work in conjunction with the DOE staff, Community Rehabilitation Providers, and employers to identify and implement a variety of industry opportunities for students and youth. These opportunities for students and youth with disabilities provide critical exposure for exploration of their interests and to develop skills, attitudes, and behaviors consistent with industry and employer-specific standards.

l. Interagency Cooperation with Other Agencies

In accordance with the requirements in Section 101(a)(11)(C) and (K), describe interagency cooperation with and utilization of the services and facilities of agencies and programs that are not carrying out activities through the statewide workforce development system to develop opportunities for community-based employment in integrated settings, to the greatest extent practicable for the following:

1. STATE PROGRAMS (DESIGNATE LEAD AGENCY(IES) AND IMPLEMENTING ENTITY(IES)) CARRIED OUT UNDER SECTION 4 OF THE ASSISTIVE TECHNOLOGY ACT OF 1998.

DVR does not carry out any programs under Section 4 of the Assistive Technology Act of 1998.

DVR competitively bids for services to provide Assistive Technology to DVR clients statewide, as funded by the federal Rehabilitation Services Award (RSA) and Hawai'i required state match. DVR's services for Assistive Technology for DVR participants do not come from the federal Administration for Community Living (ACL) award, and the services provided to DVR's participants are defined in Hawai'i Administrative Rules §17-401.1-28. From FFY 2016 through FFY 2018 DVR had two vendors for Assistive Technology Services, and both were able to provide services statewide. From FFY 2019 through FFY 2023 DVR has one vendor for Assistive Technology services providing all services statewide. DVR is planning to rebid for services in FFY 2024.

The separate funding for services exists because the state of Hawai'i has insufficient financial and infrastructure support for Assistive Technology needed to address the level of demand for the entire population of individuals with disabilities, not limited to DVR participants. By allowing the funds allocated under section 4 of the Assistive Technology Act of 1998 as amended to be available in their entirety to non-DVR participants, while DVR provides Assistive Technology services to DVR participants separately, the greatest number of individuals with disabilities can be served with the limited funds available and within the limited technology infrastructure available.

This funding approach is not related to the DVR's budget, but rather reflects the fact that Hawai'i is the only island State in the Union; a challenge we share with the Territories such as American Samoa and Puerto Rico. Many Assistive Technology Services cost more in Hawai'i due to a wide number of factors including but not limited to additional shipping costs, lack of competition among vendors, the need to transport vendors from Oahu to the neighbor islands or from the mainland to Hawai'i, and even the need to ship devices that require maintenance from Hawai'i back to the mainland for servicing. Some services simply are not available in Hawai'i at any price, for example certain vehicle modifications require the vehicle to be shipped to California because the only company in Hawai'i with authorization from any automobile manufacturer and vehicle modification manufacturer is not licensed by all such manufacturers.

2. PROGRAMS CARRIED OUT BY THE UNDER SECRETARY FOR RURAL DEVELOPMENT OF THE DEPARTMENT OF AGRICULTURE.

DVR does not have any programs carried out by the Under Secretary for Rural Development of the United States Department of Agriculture.

3. NON-EDUCATIONAL AGENCIES SERVING OUT-OF-SCHOOL YOUTH.

DVR does not have agreements with noneducational agencies serving out-of-school youth, however, VR counselors collaborate with several different partners to assist out-of-school youth with a variety of services, based on their needs, goals and abilities.

- American Job Center , Work Hawai'i Youth Program, is designed to assist young adults in achieving educational and employment goals through services such as study skills training, paid and unpaid work experiences, financial literacy, and post-secondary education.
- Job Corps services youth aged 16-24 years old with job training, obtaining their GED, and a residential program.
- Access to Independence and Aloha Independent Living have a Youth Transition Program that introduces youth with disabilities to independent living focused on areas such as self-care, social awareness, financial literacy, and housing resources.

4. STATE USE CONTRACTING PROGRAMS.

DVR does not have state-use contracting programs.

5. STATE AGENCY RESPONSIBLE FOR ADMINISTERING THE STATE MEDICAID PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT (42 U.S.C. 1396 ET SEQ.).

In 2016, the DHS MedQuest Division (designated state agency to administer the Hawai'i Medicaid program) and DVR entered into a Cooperative Agreement for Employment First with the State of Hawai'i, DLIR, State Workforce Development Board, Workforce Development Council, Hawai'i County Workforce Development Board, DOE Adult Education/Special Education, DOH-DDD, DOH Adult Mental Health Division (AMHD), DOH Developmental Disabilities Council, and the UH Center on Disability Studies.

Through this Cooperative Agreement, the Employment First Initiative seeks to shift public resources to be aligned with newly established policies that make competitive integrated employment the top priority for partner agencies when serving people with disabilities. To achieve the goals of Employment First and principles of WIOA, each member's role and collaborative responsibilities are outlined in the Cooperative Agreement.

The Hawai'i Employment First Taskforce (HEFT) Cooperative Agreement (CA) is in final draft form as an updated version of the original Employment First Agreement signed in 2016. It is the expectation that this CA further clarifies roles and strengthens collaboration amongst partners, having a direct impact on the number of individuals with significant disabilities in the community to have increased opportunities for competitive integrated employment. This CA is expected to be executed in 2025.

Supporting the authorization of this Executive Order continued to be a priority of HEFT, which is comprised of the DVR, DOH-DDD, DOH Developmental Disabilities Council, DOH Adult Mental Health Division (AMHD) and Child and Adolescent Mental Health Division (CAMHD), DOE Special Education, DLIR-WDD, UH Center on Disability Studies, and the City and County of Honolulu Disability Employment Initiative. The Counties of Kauai, Maui, and Hawai'i also have active chapters of HEFT to reinforce statewide employment opportunities for individuals with disabilities in Hawai'i's workforce. Partners meet monthly as the Employment First network hosted by the University of Hawai'i to collaborate on the development of opportunities statewide for competitive integrated employment for Hawai'i residents with disabilities.

DVR is collaborating with DHS MedQuest Division and DOH DDD to align fee schedules used in their Medicaid Waiver program. This will in turn broaden the Supported Employment services provider network allowing for more opportunities for informed choice for participants.

6. STATE AGENCY RESPONSIBLE FOR PROVIDING SERVICES FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES.

In 2019, DVR and DOH-DDD were able to review and revise the draft MOU that identifies resources for SE and Customized Employment services for dually eligible program participants. In support of this collaboration DVR and Hawai'i's DOH Developmental Disabilities Council co-sponsored Customized Employment training for staff and partners to improve supported employment outcomes using best practices for individuals with most significant disabilities to obtain and retain employment. Significant strides in program collaboration have been made since the Employment First Initiatives and strategic planning at the National Governors Association in 2018. The finalization of the MOU is expected to be completed in 2024.

DVR is implementing a new MOU with the DOH, Developmental Disabilities Division (DDD) as noted above. Hawai'i DOH's DDD is the State agency responsible for operating the 1915(c) Home and Community Based Services Medicaid Waiver for Individuals with Intellectual and Developmental Disabilities (Medicaid I/DD Waiver). This MOU provides mechanisms for collaboration at the State level that will increase opportunities for competitive integrated employment in the state and ensure the smooth transition of people mutually served by DVR and DOH-DDD without duplication of

services, as they progress from supported employment services to long-term supports. This MOU is expected to be executed in 2024.

DVR's collaboration with DHS MedQuest Division and DOH DDD to align fee schedules used in their Medicaid Waiver program will broaden the Supported Employment services provider network and allow for more opportunities for informed choice for participants.

DVR and DOH-DDD, DOH AMHD and CAMHD continue to work collaboratively through the HEFT partners, participating in monthly remote meetings to engage youth and adults with disabilities statewide in Hawai'i's workforce. DVR and these partners have also engaged with the Department of Labor and Industrial Relations Workforce Development Division and County American Job Centers to ensure Hawai'i residents with disabilities have access to resources for career exploration statewide. In addition, DVR has met with the DOH CAMHD staff to provide information on the VR program, specifically for pre-ETS for students with disabilities to strengthen program knowledge for line staff, and collaboration between agencies, including referrals to DVR. DVR is an active partner on the State Council on Mental Health, sharing updates on statewide services available to eligible residents, and DVR's related performance outcomes. VRS counselors are involved statewide with programs associated with DOH AMHD such as the Clubhouses, Peer Mentorship programs and statewide initiatives involving competitive integrated employment. VRS staff on Oahu are engaged in a career exploration collaboration with the State's Hawai'i Youth Correctional Facility, RYSE (homeless youth outreach program), and Olomana High School on Oahu, working with youth having mental health diagnoses and other barriers to employment in support of their engagement in work-based learning experiences. DVR's Employment Team hosts and invites these partners to monthly remote employer engagement presentations on recruitment, hiring, qualifications for vacancies, and human resource supports offered by these employers.

7. STATE AGENCY RESPONSIBLE FOR PROVIDING MENTAL HEALTH SERVICES; AND

DVR and DOH-DDD, DOH AMHD and CAMHD continue to work collaboratively through the HEFT partners, participating in monthly remote meetings to engage youth and adults with disabilities statewide in Hawai'i's workforce. DVR and these partners have also engaged with the Department of Labor and Industrial Relations Workforce Development Division and County American Job Centers to ensure Hawai'i residents with disabilities have access to resources for career exploration statewide. In addition, DVR has met with the DOH CAMHD staff to provide information on the VR program, specifically for pre-ETS for students with disabilities to strengthen program knowledge for line staff, and collaboration between agencies, including referrals to HDVR. DVR is an active partner on the State Council on Mental Health, sharing updates on statewide services available to eligible residents, and DVR's related performance outcomes. VR counselors are involved statewide with programs associated with DOH AMHD such as the Clubhouses, Peer Mentorship programs and statewide initiatives involving competitive integrated employment. VRS staff on Oahu are engaged in a career exploration collaboration with the State's Hawai'i Youth Correctional Facility, RYSE (homeless youth outreach program), and Olomana High School on Oahu, working with youth having mental health diagnoses and other barriers to employment in support of their engagement in work-based learning experiences. HDVR's Employment Team hosts and invites these partners to monthly

remote employer engagement presentations on recruitment, hiring, qualifications for vacancies, and human resource supports offered by these employers.

8. OTHER FEDERAL, STATE, AND LOCAL AGENCIES AND PROGRAMS OUTSIDE THE WORKFORCE DEVELOPMENT SYSTEM.

DVR's interagency cooperative partnerships are guided by DVR's mission: VR exists to serve its participants. We work as a team so participants can achieve their hopes and aspirations for meaningful employment through timely and individualized vocational rehabilitation services.

DVR's interagency coordination, memorandums of understanding, and cooperative agreements may or may not involve funding contributions from DVR and may include a third-party cooperative agreement involving funding from another public agency when applicable.

DVR is primarily responsible for assuring that services within the Scope of Services (34 CFR 361.48) are available to assist eligible participants with developing and implementing an Individualized Plan for Employment (IPE) to achieve their employment goals. Additionally, DVR is responsible for providing career exploration supports for potentially eligible students with disabilities in collaboration with the Hawai'i State Department of Education (DOE), and accredited public or private educational institutions.

DVR has a Memorandum of Understanding (MOU) with the Department of Education (DOE) to facilitate the shared responsibility for preparing students with disabilities for a smooth and successful transition to achieve competitive integrated employment. The most current MOU was signed by DOE's State Superintendent and the Department of Human Services (DHS) Director in June 2019.

DVR has an updated 2019 Data Exchange Agreement that supersedes a prior agreement from 2010, between the Department of Labor and Industrial Relations (DLIR), Unemployment Insurance Division (UID), and DVR. This agreement establishes the conditions, safeguards, and procedures for the disclosure of unemployment insurance data to DVR from the UID. This data validates VR participants competitive integrated employment activities and allows DVR to request reimbursement with the Social Security administration (SSA) for costs of vocational rehabilitation (VR) services that have led to gainful employment for certain individuals with disabilities served by DVR. Additionally, the MOU supports reporting requirements for WIOA performance accountability. This MOU was signed in January 2019 by DLIR and DHS Directors. In an agreement with Hawai'i's Department of Labor and Industrial Relations and the Hawai'i DOE's Adult Education Program, DVR has access to the State Wage Interchange System (SWIS). This represents an opportunity for Hawai'i to exchange interstate quarterly wage records for individuals who received DVR services and obtained employment in other states and validate their job retention and employer information for DVR's performance accountability and effectiveness.

DVR also has established MOUs with the City and County of Honolulu, the Oahu Workforce Development Board (OWDB), and the American Job Center (AJC) One-Stop partners. The purpose of the AJC MOU is to establish a viable framework in which OWDB, and its partners will be able to provide one-stop services for employers and their employees in Hawai'i, those seeking employment, and other interested parties within the City and County of Honolulu. This MOU was signed in August 2018 by the Mayor of Honolulu, the Chair of the OWDB, and DVR Administrator. Signed MOUs have also been in place since August 2018 for the same purpose with the Counties of Hawai'i, Maui, and Kauai for neighbor island AJC services to be accessible for DVR participants. Separate MOUs for job readiness supports with the City and County of Honolulu are being updated to leverage comparable resources within the AJC partnership and support individualized job readiness training needs for clients with most significant disabilities.

DVR signed Infrastructure Funding Agreements (IFAs) with the City and County of Honolulu, OWDB, as well as Hawai'i, Maui, and Kauai Counties. The purpose of these IFAs is to establish terms and conditions of how services and operating costs of the local workforce system will be funded.

DVR has an MOA with the DOE, the Department of Health (DOH) – Developmental Disabilities Division (DDD), and the State Council on Developmental Disabilities (SCDD) for collaborating, creating, and changing system policies and practices, and promoting competitive integrated employment of individuals with Intellectual and Developmental Disabilities (I/DD). These collaborative efforts will include but not be limited to planning meetings, policy writing, development of procedures and best practices, and training/implementation of policies that effectively prepare and transition youth and young adults with I/DD from secondary or post-secondary education to competitive integrated employment. This MOA was signed by all parties in July 2012. DVR continues to be an active participant in this partnership.

DVR has an MOA with the University of Hawai'i (UH) system. The UH system includes all the public institutions (universities and community colleges) statewide. As the agreement is with the statewide system and not the individual institutions, only one MOA is needed. The agreement includes the roles and financial and programmatic responsibilities of both DVR and the UH system, to include basics of common understandings. The MOA was signed in April 2008 by the UH President and the Director of DHS. This MOA was reconfirmed by both UH and DVR in September 2017 with an update of procedures to provide appropriate supports to students with disabilities at all campuses statewide as well as procedures to ensure that there is no duplication of services. Review of this agreement was conducted in October 2021, with no identified changes at that time.

DVR's Services for the Blind Branch (SBB) entered an MOU in 2017 with the State Judiciary for adults/juvenile (clients) to provide work sites for community service associated with the client's sentence. SBB identifies work sites and approves referrals for meaningful work assignments in compliance with OSHA standards and provides adequate health and safety measures for the protection of clients and employees. SBB staff provide instruction, training, adequate supervision, and reporting as indicated for clients participating in work assignments under this MOU.

9. OTHER PRIVATE NONPROFIT ORGANIZATIONS.

DVR utilizes outcomes and competitive market rates or fee structures for commonly used and available services. Statewide rates and technical specifications established for services most purchased from qualified agencies or non-profit VR service providers include benefits planning, internship/temporary work, job coaching, job preparation, development, and placement, supported employment, vocational evaluation, and assistive technology and services.

DVR has entered contracts with seven private non-profit Community Rehabilitation Providers (CRPs) to provide:

- Evaluation and Training Services.
- Supported Employment (SE) Services.
- Vocational and Work Adjustment Services.
- Pre-Employment Transition Services; and
- Assistive Technology Services.

The services are procured competitively through the Hawai'i State Procurement process. Multiple awards are granted from the single procurement, based upon geographic area, vendor quality and capacity, and documented VR participant need. This process ensures state-wideness of service provision.

Upon award, the CRPs are required to sign contracts with DVR, prior to providing services to participants. These services are paid for by a milestone or on an outcome's basis, not to exceed a set contracted amount and timeframe. Potential CRPs with accreditation by the Commission and Accreditation of Rehabilitation Facilities (CARF) are given preference for contract awards. The contracted CRP's facilities must meet the Americans with Disabilities Act (ADA) requirements as well. The Vocational and Work Adjustment Services contracts have been modified to include the provision of pre-ETS mandatory services both to DVR participants and PE students with disabilities, without reducing services to adults.

Additionally, under the Ticket to Work Program with SSA, which provides employment services to most of those receiving Social Security benefits, the SSA issues tickets to eligible beneficiaries. They have the choice to assign their tickets to an Employment Network (EN) of their choice (representative of CRP's) to obtain employment services or DVR, for vocational rehabilitation services and other support services necessary to achieve their vocational goals.

With Hawai'i's Partnership Plus Agreement, DVR partners with ENs that have passed suitability clearance with SSA. The purpose of the Partnership Plus Agreement is to provide the ticket holder access to a coordinated and seamless service transition between DVR and the EN's employment retention services. The agreement strengthens the existing partnership between DVR and the ENs around the provision of VR services for participants needing long-term supports.

Annually, DVR contracts services for the completion of the consumer satisfaction survey (CSS). The CSS, administered by the University of Hawai'i, Pacific Disabilities Center in Honolulu, Hawai'i, elicits

answers regarding satisfaction from clients whose cases closed during the past federal fiscal year, to quantify DVR participant satisfaction. Additionally, DVR conducts a Community Statewide Needs Assessment (CSNA) every three years to address current and relevant information on needs of individuals with disabilities for DVR to develop programs, improve services, and allocate resources that address the identified needs. Once the data is gathered from the CSNA covering the period 2018-2023 (triennial 2018-2020 and 2021-2023), DVR will work with the SRC and other stakeholders to address the findings in the CSNA and determine goals and strategies to address the rehabilitation and service needs of any identified minorities with most significant disabilities and inform the goals and priorities of Hawai'i's VR services. The CSNA due for PY 2024-2026 will be completed in the calendar year 2026.

Assurances

The designated State agency or designated State unit, as appropriate and identified in the State certifications included with this VR services portion of the Unified or Combined State Plan and its supplement, through signature of the authorized individual, assures the Commissioner, that it will comply with all of the requirements of the VR services portion of the Unified or Combined State Plan and its supplement, as set forth in sections 101(a) and 606 of the Rehabilitation Act. The individual authorized to submit the VR services portion of the Unified or Combined State Plan and its supplement makes the following assurances:

The VR agency must select the "Edit" button to review and agree to the VR State plan Assurances.

The State Plan must include

1. Public Comment on Policies and Procedures: The designated State agency assures it will comply with all statutory and regulatory requirements for public participation in the VR Services Portion of the Unified or Combined State Plan, as required by section 101(a)(16)(A) of the Rehabilitation Act.

2. Submission of the VR services portion of the Unified or Combined State Plan and Its Supplement: The designated State unit assures it will comply with all requirements pertaining to the submission and revisions of the VR services portion of the Unified or Combined State Plan and its supplement for the State Supported Employment Services program, as required by sections 101(a)(1), (22), (23), and 606(a) of the Rehabilitation Act; section 102 of WIOA in the case of the submission of a Unified State plan; section 103 of WIOA in the case of a submission of a Combined State Plan; 34 CFR 76.140.

3. Administration of the VR services portion of the Unified or Combined State Plan: The designated State agency or designated State unit, as appropriate, assures it will comply with the requirements related to:

3.a. the establishment of the designated State agency and designated State unit, as required by section 101(a)(2) of the Rehabilitation Act.

3.b. either a State independent commission or State Rehabilitation Council, as required by section 101(a)(21) of the Rehabilitation Act.

3.c. consultations regarding the administration of the VR services portion of the Unified or Combined State Plan, in accordance with section 101(a)(16)(B) of the Rehabilitation Act.

3.d. the financial participation by the State, or if the State so elects, by the State and local agencies, to provide the amount of the non-Federal share of the cost of carrying out the VR program in accordance with section 101(a)(3).

3.e. as applicable, the local administration of the VR services portion of the Unified or Combined State Plan, in accordance with section 101(a)(2)(A) of the Rehabilitation Act.

3.f. as applicable, the shared funding and administration of joint programs, in accordance with section 101(a)(2)(A)(ii) of the Rehabilitation Act.

3.g. statewideness and waivers of statewideness requirements, as set forth in section 101(a)(4) of the Rehabilitation Act.

3.h. the requirements for cooperation, collaboration, and coordination, as required by sections 101(a)(11) and (24)(B); and 606(b) of the Rehabilitation Act.

3.i. all required methods of administration, as required by section 101(a)(6) of the Rehabilitation Act.

3.j. the requirements for the comprehensive system of personnel development, as set forth in section 101(a)(7) of the Rehabilitation Act.

3.k. the compilation and submission to the Commissioner of statewide assessments, estimates, State goals and priorities, strategies, and progress reports, as appropriate, and as required by sections 101(a)(15), 105(c)(2), and 606(b)(8) of the Rehabilitation Act.

3.l. the reservation and use of a portion of the funds allotted to the State under section 110 of the Rehabilitation Act for the development and implementation of innovative approaches to expand and improve the provision of VR services to individuals with disabilities, particularly individuals with the most significant disabilities as set forth in section 101(a)(18)(A).

3.m. the submission of reports as required by section 101(a)(10) of the Rehabilitation Act.

4. Administration of the Provision of VR Services: The designated State agency, or designated State unit, as appropriate, assures that it will:

4.a. comply with all requirements regarding information and referral services in accordance with sections 101(a)(5)(E) and (20) of the Rehabilitation Act.

4.b. impose no duration of residence requirement as part of determining an individual's eligibility for VR services or that excludes from services under the plan any individual who is present in the State in accordance with section 101(a)(12) of the Rehabilitation Act.

4.c. provide the full range of services listed in section 103(a) of the Rehabilitation Act as appropriate to all eligible individuals with disabilities in the State who apply for services or, if implementing an order of selection, in accordance with criteria established by the State for the order of selection as set out in section 101(a)(5) of the Rehabilitation Act.

4.d. determine whether comparable services and benefits are available to the individual in accordance with section 101(a)(8) of the Rehabilitation Act.

4.e. comply with the requirements for the development of an individualized plan for employment in accordance with section 102(b) of the Rehabilitation Act.

4.f. Comply with requirements regarding the provisions of informed choice for all applicants and eligible individuals in accordance with section 102(d) of the Rehabilitation Act

4.g. provide vocational rehabilitation services to American Indians who are individuals with disabilities residing in the State, in accordance with section 101(a)(13) of the Rehabilitation Act.

4.h. comply with the requirements for the conduct of semiannual or annual reviews, as appropriate, for individuals employed either in an extended employment setting in a community rehabilitation program or any other employment under section 14(c) of the Fair Labor Standards Act of 1938, as required by sections 101(a)(14) and 511 of the Rehabilitation Act.

4.i. meet the requirements in sections 101(a)(17) and 103(b)(2) of the Rehabilitation Act if the State elects to construct, under special circumstances, facilities for community rehabilitation programs.

4.j. With respect to students with disabilities, the State,

4.j.i. has developed and will implement,

4.j.i.A. strategies to address the needs identified in the assessments; and

4.j.i.B. strategies to achieve the goals and priorities identified by the State, to improve and expand vocational rehabilitation services for students with disabilities on a statewide basis; and

4.j.ii. has developed and will implement strategies to provide pre-employment transition services (sections 101(a)(15), 101(a)(25) and 113).

4.j.iii. shall reserve not less than 15 percent of the allocated funds for the provision of pre-employment transition services; such funds shall not be used to pay for the administrative costs of providing pre-employment transition services.

5. Program Administration for the Supported Employment Title VI Supplement to the State plan:

5.a. The designated State unit assures that it will include in the VR services portion of the Unified or Combined State Plan all information required by section 606 of the Rehabilitation Act.

5.b. The designated State agency assures that it will submit reports in such form and in accordance with such procedures as the Commissioner may require and collects the information required by section 101(a)(10) of the Rehabilitation Act separately for individuals receiving supported employment services under title I and individuals receiving supported employment services under title VI of the Rehabilitation Act.

6. Financial Administration of the Supported Employment Program (Title VI):

6.a. The designated State agency assures that it will expend no more than 2.5 percent of the State's allotment under title VI for administrative costs of carrying out this program; and, the designated State agency or agencies will provide, directly or indirectly through public or private entities, non-Federal contributions in an amount that is not less than 10 percent of the costs of carrying out supported employment services provided to youth with the most significant disabilities with the funds reserved for such purpose under section 603(d) of the Rehabilitation Act, in accordance with section 606(b)(7)(H) and (I) of the Rehabilitation Act.

6.b. The designated State agency assures that it will use funds made available under title VI of the Rehabilitation Act only to provide supported employment services to individuals with the most significant disabilities, including extended services to youth with the most significant disabilities, who are eligible to receive such services; and, that such funds are used only to supplement and not supplant the funds provided under Title I of the Rehabilitation Act, when providing supported employment services specified in the individualized plan for employment, in accordance with section 606(b)(7)(A) and (D), of the Rehabilitation Act.

7. Provision of Supported Employment Services:

7.a. The designated State agency assures that it will provide supported employment services as defined in section 7(39) of the Rehabilitation Act.

7.b. The designated State agency assures that the comprehensive assessment of individuals with significant disabilities conducted under section 102(b)(1) of the Rehabilitation Act and funded under title I of the Rehabilitation Act includes consideration of supported employment as an appropriate employment outcome, in accordance with the requirements of section 606(b)(7)(B) of the Rehabilitation Act an individualized plan for employment that meets the requirements of section 102(b) of the Rehabilitation Act, which is developed and updated with title I funds, in accordance with sections 102(b)(3)(F) and 606(b)(7)(C) and (E) of the Rehabilitation Act.

Do you attest that these assurances will be met?

Yes

Vocational Rehabilitation (Combined or General) Certifications

States must provide written and signed certifications that:

1. THE (ENTER THE NAME OF DESIGNATED STATE AGENCY OR DESIGNATED STATE UNIT, AS APPROPRIATE,) IS AUTHORIZED TO SUBMIT THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN UNDER TITLE I OF THE REHABILITATION ACT OF 1973 (REHABILITATION ACT), AS AMENDED BY TITLE IV OF WIOA^[1], AND ITS STATE PLAN SUPPLEMENT UNDER TITLE VI OF THE REHABILITATION ACT;

^[1] Public Law 113-128.

Enter the name of designated State agency or designated State unit, as appropriate.

Hawai'i Division of Vocational Rehabilitation

2. IN THE EVENT THE DESIGNATED STATE AGENCY IS NOT PRIMARILY CONCERNED WITH VOCATIONAL AND OTHER REHABILITATION OF INDIVIDUALS WITH DISABILITIES, THE DESIGNATED STATE AGENCY MUST INCLUDE A DESIGNATED STATE UNIT FOR THE VR PROGRAM (SECTION 101(A)(2)(B)(II) OF THE REHABILITATION ACT). AS A CONDITION FOR THE RECEIPT OF FEDERAL FUNDS UNDER TITLE I OF THE REHABILITATION ACT FOR THE PROVISION OF VR SERVICES, THE (DESIGNATED STATE AGENCY OR THE DESIGNATED STATE UNIT WHEN THE DESIGNATED STATE AGENCY HAS A DESIGNATED STATE UNIT)[2] AGREES TO OPERATE AND IS RESPONSIBLE FOR THE ADMINISTRATION OF THE STATE VR SERVICES PROGRAM IN ACCORDANCE WITH THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN[3], THE REHABILITATION ACT, 34 CFR 361.13(B) AND (C), AND ALL APPLICABLE REGULATIONS[4], POLICIES, AND PROCEDURES ESTABLISHED BY THE SECRETARY OF EDUCATION. FUNDS MADE AVAILABLE TO STATES UNDER SECTION 111(A) OF THE REHABILITATION ACT ARE USED SOLELY FOR THE PROVISION OF VR SERVICES AND THE ADMINISTRATION OF THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN.

[2] All references in this plan to "designated State agency" or to "the State agency" relate to the agency identified in this paragraph.

[3] No funds under title I of the Rehabilitation Act may be awarded without an approved VR services portion of the Unified or Combined State Plan in accordance with section 101(a) of the Rehabilitation Act.

[4] Applicable regulations, in part, include the Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 76, 77, 79, 81, and 82; 2 CFR part 200 as adopted by 2 CFR part 3474; and the State VR Services program regulations at 34 C.F.R. part 361.

Enter the name of designated State agency.

Hawai'i Division of Vocational Rehabilitation

3. AS A CONDITION FOR THE RECEIPT OF FEDERAL FUNDS UNDER TITLE VI OF THE REHABILITATION ACT FOR SUPPORTED EMPLOYMENT SERVICES, THE DESIGNATED STATE AGENCY, OR THE DESIGNATED STATE UNIT WHEN THE DESIGNATED STATE AGENCY HAS A DESIGNATED STATE UNIT, AGREES TO OPERATE AND IS RESPONSIBLE FOR THE ADMINISTRATION OF THE STATE SUPPORTED EMPLOYMENT SERVICES PROGRAM IN ACCORDANCE WITH THE SUPPLEMENT TO THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN[5], THE REHABILITATION ACT, AND ALL APPLICABLE REGULATIONS[6], POLICIES, AND PROCEDURES ESTABLISHED BY THE SECRETARY OF EDUCATION. FUNDS MADE AVAILABLE UNDER TITLE VI ARE USED SOLELY FOR THE PROVISION OF SUPPORTED EMPLOYMENT SERVICES AND THE ADMINISTRATION OF THE SUPPLEMENT TO THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN.

[5] No funds under title VI of the Rehabilitation Act may be awarded without an approved supported employment supplement to the VR services portion of the Unified or Combined State Plan in accordance with section 606(a) of the Rehabilitation Act.

^[6] Applicable regulations, in part, include the citations in footnote 4, as well as Supported Employment program regulations at 34 C.F.R. part 363.

4. THE DESIGNATED STATE UNIT OR, IF NOT APPLICABLE, THE DESIGNATED STATE AGENCY HAS THE AUTHORITY UNDER STATE LAW TO PERFORM THE FUNCTIONS OF THE STATE REGARDING THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN AND ITS SUPPLEMENT AND IS RESPONSIBLE FOR THE ADMINISTRATION OF THE VR PROGRAM IN ACCORDANCE WITH 34 CFR 361.13(B) AND (C).

5. THE STATE LEGALLY MAY CARRY OUT EACH PROVISION OF THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN AND ITS SUPPLEMENT.

6. ALL PROVISIONS OF THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN AND ITS SUPPLEMENT ARE CONSISTENT WITH STATE LAW.

7. THE (ENTER THE NAME OF AUTHORIZED REPRESENTATIVE BELOW) HAS THE AUTHORITY UNDER STATE LAW TO RECEIVE, HOLD, AND DISBURSE FEDERAL FUNDS MADE AVAILABLE UNDER THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN AND ITS SUPPLEMENT.

Enter the name of authorized representative below.

Hawai'i Vocational Rehabilitation Administrator, Lea Dias

8. THE (ENTER THE TITLE OF AUTHORIZED REPRESENTATIVE BELOW) HAS THE AUTHORITY TO SUBMIT THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN AND THE SUPPLEMENT FOR SUPPORTED EMPLOYMENT SERVICES.

Enter the title of authorized representative below.

Hawai'i Vocational Rehabilitation Administrator

9. THE AGENCY THAT SUBMITS THE VR SERVICES PORTION OF THE UNIFIED OR COMBINED STATE PLAN AND ITS SUPPLEMENT HAS ADOPTED OR OTHERWISE FORMALLY APPROVED THE PLAN AND ITS SUPPLEMENT.

Vocational Rehabilitation Program Performance Indicators

Each State VR program must submit expected levels of performance in its Unified or Combined State Plan and in the two-year modification of that plan. Expected levels of performance for the first two years of a state plan must be submitted in the initial submission of the Unified or Combined State Plan and in the initial submission of the two-year modification of that Plan, for years three and four, as described in 34 CFR § 361.170(a). Expected levels of performance must be stated to the nearest tenth of a percent (XX.X %) or to the nearest whole dollar for median earnings. State VR programs are reminded that the expected levels of performance must be published for public comment prior to plan submission in accordance with state law, regulation, and policy.

After the Unified or Combined State Plan submission, each State VR program must reach agreement with RSA on the negotiated levels of performance for the indicators for each of the first two years of the Unified or Combined State Plan (or for the third and fourth years of the Unified or Combined State Plan during the required two-year modification process) in accordance with WIOA section 116(b)(3)(A)(iv).

RSA will use its statistical adjustment model to derive pre-program year estimated levels of performance for each indicator. Each State VR program and RSA will consider the negotiation factors outlined in WIOA section 116(b)(3)(A)(v) during the negotiation process. Once negotiated levels of performance are agreed upon, each State VR program must incorporate the negotiated levels of performance into the Unified or Combined State Plan and the two-year modification of that plan prior to the plan's approval (section 116(b)(3)(A)(iv) of WIOA).

Effectiveness in Serving Employers

In the final rule implementing WIOA, the Departments indicated that they would initially implement this indicator in the form of a pilot to test the feasibility and rigor of three proposed approaches. During Program Year (PY) 2022, the Departments initiated the rulemaking process to establish a standard definition of Effectiveness in Serving Employers. States will continue to report two of three proposed approaches until the Departments issue the final rule and implement the indicator.

Performance Indicators	PY 2024 Expected Level	PY 2024 Negotiated Level	PY 2025 Expected Level	PY 2025 Negotiated Level
Employment (Second Quarter After Exit)				
Employment (Fourth Quarter After Exit)				
Median Earnings (Second Quarter After Exit)				
Credential Attainment Rate				
Measurable Skill Gains				
Effectiveness in Serving Employers	Not Applicable ¹	Not Applicable ¹	Not Applicable ¹	Not Applicable ¹

¹

The Departments have not issued the final rule defining Effectiveness in Serving Employers. As a result, states will not submit expected levels of performance for this indicator and the Departments will not establish negotiated levels of performance for PYs 2024 and 2025.

EQUITY FOR STUDENTS, EDUCATORS, AND OTHER PROGRAM BENEFICIARIES

Section 427 of the General Education Provisions Act (GEPA) ([20 U.S.C. 1228a](#)) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

GEPA Section 427 Form Instructions for State Applicants

State applicants must respond to the following four questions:

1. Describe how your entity's existing mission, policies, or commitments ensure equitable access to, and equitable participation in, the proposed project or activity.
2. Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?
3. Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?
4. What is your timeline, including targeted milestones, for addressing these identified barriers?

- Applicants identify any barriers that may impede equitable access and participation in the proposed project or activity, including, but not limited to, barriers based on economic disadvantage, gender, race, ethnicity, color, national origin, disability, age, language, migrant status, rural status, homeless status or housing insecurity, pregnancy, parenting, or caregiving status, and sexual orientation.
- Applicants use the associated text box to respond to each question. However, applicants might have already included some or all this required information in the narrative sections of their applications or their State Plans. In responding to this requirement, for each question, applicants may provide a cross-reference to the section(s) in their State Plans that includes the information responsive to that question on this form or may restate that information on this form.
- Applicants are not required to have mission statements or policies that align with equity to apply.
- Applicants that have already undertaken steps to address barriers must still provide an explanation and/or description of the steps already taken in each text box, as appropriate, to satisfy the GEPA Section 427 requirement.
- Applicants that believe no barriers exist must still provide an explanation and/or description to each question to validate that perception, as appropriate, to satisfy the GEPA Section 427 requirement.

Please refer to [GEPA 427 - Form Instructions for Application Package](#)

1. DESCRIBE HOW YOUR ENTITY’S EXISTING MISSION, POLICIES, OR COMMITMENTS ENSURE EQUITABLE ACCESS TO, AND EQUITABLE PARTICIPATION IN, THE PROPOSED PROJECT OR ACTIVITY.

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

[GEPA 427 - Form Instructions for Application Package](#)

State applicants must respond to four questions.

The first of four questions are:

Describe how your entity’s existing mission, policies, or commitments ensure equitable access to, and equitable participation in, the proposed project or activity.

The DSA (Hawai’i Department of Human Services) with its DSU (Hawai’i Division of Vocational Rehabilitation) has an existing mission, as well as policies and commitments, which ensure equitable access to, and equitable participation in, all activities and services provided by Hawai’i DVR. We abide by all Federal and State laws which ensure equitable access and participation for all programs and activities. Our entity has no barriers related to economic disadvantage, gender, race, ethnicity, color, national origin, disability, age, language, migrant status, rural status, homeless status or housing insecurity, pregnancy, parenting, or caregiving status, and sexual orientation.

2. BASED ON YOUR PROPOSED PROJECT OR ACTIVITY, WHAT BARRIERS MAY IMPEDE EQUITABLE ACCESS AND PARTICIPATION OF STUDENTS, EDUCATORS, OR OTHER BENEFICIARIES?

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

[GEPA 427 - Form Instructions for Application Package](#)

State applicants must respond to four questions.

The second of four questions are:

Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?

No barriers are identified.

3. BASED ON THE BARRIERS IDENTIFIED, WHAT STEPS WILL YOU TAKE TO ADDRESS SUCH BARRIERS TO EQUITABLE ACCESS AND PARTICIPATION IN THE PROPOSED PROJECT OR ACTIVITY?

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

[GEPA 427 - Form Instructions for Application Package](#)

State applicants must respond to four questions.

The third of four questions are:

Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?

Not applicable. No barriers are identified.

4. WHAT IS YOUR TIMELINE, INCLUDING TARGETED MILESTONES, FOR ADDRESSING THESE IDENTIFIED BARRIERS?

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

[GEPA 427 - Form Instructions for Application Package](#)

State applicants must respond to four questions.

The final of four questions is:

What is your timeline, including targeted milestones, for addressing these identified barriers?

Not applicable. No barriers are identified.

[GEPA 427 Form Instructions for Application Package - Supported Employment](#)

EQUITY FOR STUDENTS, EDUCATORS, AND OTHER PROGRAM BENEFICIARIES

OMB Control Number 1894-0005 Expiration 02/28/2026

Section 427 of the General Education Provisions Act (GEPA) ([20 U.S.C. 1228a](#)) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

GEPA Section 427 Form Instructions for State Applicants

State applicants must respond to the following four questions:

1. Describe how your entity's existing mission, policies, or commitments ensure equitable access to, and equitable participation in, the proposed project or activity.
2. Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?
3. Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?
4. What is your timeline, including targeted milestones, for addressing these identified barriers?

- Applicants identify any barriers that may impede equitable access and participation in the proposed project or activity, including, but not limited to, barriers based on economic disadvantage, gender, race, ethnicity, color, national origin, disability, age, language, migrant status, rural status, homeless status or housing insecurity, pregnancy, parenting, or caregiving status, and sexual orientation.
- Applicants use the associated text box to respond to each question. However, applicants might have already included some or all this required information in the narrative sections of their applications or their State Plans. In responding to this requirement, for each question, applicants may provide a cross-reference to the section(s) in their State Plans that includes the information responsive to that question on this form or may restate that information on this form.
- Applicants are not required to have mission statements or policies that align with equity to apply.
- Applicants that have already undertaken steps to address barriers must still provide an explanation and/or description of the steps already taken in each text box, as appropriate, to satisfy the GEPA Section 427 requirement.
- Applicants that believe no barriers exist must still provide an explanation and/or description to each question to validate that perception, as appropriate, to satisfy the GEPA Section 427 requirement.

Please refer to [GEPA 427 - Form Instructions for Application Package](#)

1. DESCRIBE HOW YOUR ENTITY’S EXISTING MISSION, POLICIES, OR COMMITMENTS ENSURE EQUITABLE ACCESS TO, AND EQUITABLE PARTICIPATION IN, THE PROPOSED PROJECT OR ACTIVITY.

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

[GEPA 427 - Form Instructions for Application Package](#)

State applicants must respond to four questions.

The first of four questions are:

Describe how your entity’s existing mission, policies, or commitments ensure equitable access to, and equitable participation in, the proposed project or activity.

The DSA (Hawai’i Department of Human Services) with its DSU (Hawai’i Division of Vocational Rehabilitation) has an existing mission, as well as policies and commitments, which ensure equitable access to, and equitable participation in, all activities and services provided by Hawai’i DVR. We abide by all Federal and State laws which ensure equitable access and participation for all programs and activities. Our entity has no barriers related to economic disadvantage, gender, race, ethnicity, color, national origin, disability, age, language, migrant status, rural status, homeless status or housing insecurity, pregnancy, parenting, or caregiving status, and sexual orientation.

2. BASED ON YOUR PROPOSED PROJECT OR ACTIVITY, WHAT BARRIERS MAY IMPEDE EQUITABLE ACCESS AND PARTICIPATION OF STUDENTS, EDUCATORS, OR OTHER BENEFICIARIES?

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

[GEPA 427 - Form Instructions for Application Package](#)

State applicants must respond to four questions.

The second of four questions are:

Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?

No barriers are identified.

3. BASED ON THE BARRIERS IDENTIFIED, WHAT STEPS WILL YOU TAKE TO ADDRESS SUCH BARRIERS TO EQUITABLE ACCESS AND PARTICIPATION IN THE PROPOSED PROJECT OR ACTIVITY?

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.

[GEPA 427 - Form Instructions for Application Package](#)

State applicants must respond to four questions.

The third of four questions are:

Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?

Not applicable. No barriers are identified.

4. WHAT IS YOUR TIMELINE, INCLUDING TARGETED MILESTONES, FOR ADDRESSING THESE IDENTIFIED BARRIERS?

Section 427 of the General Education Provisions Act (GEPA) (20 U.S.C. 1228a) applies to a State applicant submitting a state plan for a formula grant from the US Department of Education. The State applicant is responsible for completing the GEPA Section 427 form that provides a description of the steps the State proposes to take to ensure all program beneficiaries have equitable access to, and participation in, its Federally funded, State-level project or activity.
