

Jill Takasaki Canfield, Executive Director

Our Mission

To empower Hawaii's children and adults with essential reading, writing, and lifelong learning skills to strengthen themselves, families and communities.

Hawaii Literacy fills gaps in literacy services through core programs and innovative pilots in Underserved Communities for Educational, Economic, Health & Digital Equity.

1 in 6 adults struggles to read and write

We help address one of the most significant underlying challenges for our community, that 1 in 6 adults struggles to read and write, which impacts every aspect of their lives and closely relates to increased poverty, negative health outcomes, government dependence, lower graduation rates, less civic engagement, houselessness– for themselves and future generations.

For over 50 years, Hawaii Literacy has worked with communities disproportionately affected by high illiteracy and poverty and helped connect people to resources they need -- whether books, a tutor, technology, digital skills training or support -- so they can empower themselves to succeed, **ending generational cycles of poverty and under-education** and helping our communities to thrive.

Quick Facts About Illiteracy

43% of adults with the lowest literacy levels live in poverty

02

Children of parents with low literacy skills have a 72% chance of being at the lowest reading levels themselves

The single greatest indicator of a child's future success is the literacy level of his or her parents

04

²/₃ of students who cannot read proficiently by the end of 4th grade end up in jail or on welfare

Reaching Effects of Illiteracy

- One in six adults have low literacy skills and are <u>not able to access many work and</u> <u>educatioal opportunties</u> (155,000 adults)
- **43 million people** in the U.S. cannot read or write above a 3rd grade level (very basic reading and writing skills)
- Education and reading level is the **single strongest predictor of future income**, and 90% of people who do not have reading comprehension will require state assistance and are more likely to experience homelessness in their lives.
- Nationally, illiteracy costs local communities <u>over \$225 billion a year in low workforce</u>
 <u>capacity</u>, lost tax revenue and increased crime, as well as an overburdened school system
 and increased costs for healthcare (\$106-238B in health care costs linked to low literacy)
- 70% of people with the **lowest literacy skills have no full or part-time job**, and even those who work **earn only 44%** of what a literate adult earns, a loss of over \$800,000 in a lifetime.

Benefits of Improving Adult Literacy

- Bringing all adults in the USA to the equivalent of a sixth grade reading level would generate an additional **\$2.2 trillion or 10% of GDP** in annual income for the country.
- Every important social issue is impacted by low literacy including educational, digital, health, economic and social equity.
- Impacts future generations: 50% of children from low-income communities start first grade up
 to two years behind their peers. The link between socioeconomic status and the loss of
 reading skills contributes to a more pronounced opportunity gap over time, and third
 graders who cannot read on grade level today are four times more likely to drop out
 our high school and be on track to be our lowest income, least skilled citizens.
- 75% of incarcerated individuals can be classified as low literate. Incarcerated individuals participating in education program are 43% less likely to recidivate than inmates who do not. (proliteracy.org). Model at Waiawa: 1-2 skill level jump in 4 months.
- Less than 10% of adults in need are receiving services so more capacity is critical.

Hawaii Literacy Programs

Each year, Hawaii Literacy serves 5000-8000 adults and youth in need on O'ahu, Kaua'i and Hawaii Island through five proven programs. We also currently serve adults on Maui and Molokai through online classes and 1:1 tutoring.

Demographics:

- Over 94% of those we served are considered very low-income
- 67% currently live in public housing
- 12% unsheltered
- Over 84% are low-income children
- Over 60% are Hawaiian or Part-Hawaiian and 30% are Pacific Islanders

Programs

Digital Literacy (DL)

Basic computer classes for adults related to real-life skills.

Culturally informed digital skills training and access to technology and connectivity to provide our most vulnerable residents with the skills, confidence, and access they need to succeed

English Language Learner (ELL)

English Language classes facilitated by TESOL certified instructor

1:1 Tutoring

Adult Literacy (AL)

1:1 Tutoring with trained tutors for the 1 in 6 adults with low literacy.

Programs

Bookmobiles

Our 3 Bookmobiles serve the Wai'anae Coast to Kalihi-Palama and Kona to provide access to books, educational material to develop a life-long love of learning. We visit afterschool programs, affordable housing developments, transitional housing, and shelters.

Family Literacy Libraries: Serving Keiki to Kupuna at the Towers at Kuhio Park & Mayor Wright Homes

In addition to co-currcular programs for children and youth, ELL, DL and AL and Parents Acheiving Literacy (PALs) programs are offered on-site at Family Literacy Libraries to create a one-stop shop and resource center.

In a survey, public housing residents stated that **low English skill was the top employment barriers** and the greatest challenge in finding a job.

Participating in any of the programs for adults to **increase literacy skills develops workforce readiness** and will increase job opportunities for low-income learners.

LISC Pilot: Expand Access to Core Literacy Services & Workforce Development Model Pathways include more capacity in adult programs, expansion of financials literacy and the integration of adult program components and alignment of workforce development pathways to living wage careers, including healthcare, technology and the trades.
