- **A bigger network means more opportunities.**

Marketing Tools

Tips for Completing an Application

Your first contact with employers is with your resume/application.

IF they are still taking physical applications, make a good first impression by:

- **Making minimal corrections**
Draw one or two lines through errors (ask for 2 applications just in case!)
- **Keeping the application clean**
- **Following instructions**
- **Use complete words and avoid abbreviations**
- **Filling in all information and answering all questions**
- **Being positive**
Keep your responses positive. If asked why you left a job, explain that you were looking for a more challenging opportunity rather than complain about that job
- **Being accurate**
Be sure all information you give is correct. Employment dates, addresses, and reference contacts must be accurate because they will be checked.

Basic Resume Writing Rules

1. **Make it your own -**
You can get someone to help you, but you will need to write it yourself.
2. **Make sure it looks good -**
Clean, clear and well-typed
3. **No errors!**
Have someone proofread it for grammar and spelling mistakes.
4. **No lies -**
Do not include jobs you did not hold or degrees you have not earned
5. **Be brief -**
One page is plenty
6. **Be positive -**
Emphasize your accomplishments
7. **Be specific –**
Do not say “I am a good typist,” instead say “I type 60 words a minute.”

Understanding Your Personal Style

Think about your own personal style by answering the following questions:

- What unique quality would you bring to the workplace?
- List several words or phrases that describe how you would do your work.
- If you were to observe yourself from a distance, what is the most interesting thing you would notice about how you work?
- Imagine yourself working with others. How would your co-workers describe you and your way of working with them?
- Again, imagine yourself on the job. How would your supervisor describe you and the way you complete your work?

Preparing for the Interview

Here are some tips for preparing for the interview:

- Do a mock interview several days before your scheduled interview. Practice more than one time.
- Make sure your outfit is clean and neatly pressed and lay out your clothes the night before.
- Gather all the important materials that you will need into a folder or portfolio. Place them where you will not forget them. Include things like your resume, letter of reference, directions, identification cards, etc.
- Make sure that you eat something before the interview.
- Make sure that you know how to get to the interview in advance. Allow enough time for driving and parking or public transportation.
- Find out exactly where you will need to go when you get there.
- Be courteous and professional to everyone that you meet, from the security guard to the receptionist.

Your goal should be as specific as possible and answer the questions: What is your goal? How often or how much? Where will it take place?

How will you measure your goal? Measurement will give you specific feedback and hold you accountable.

Goals should push you, and it is important that they are achievable. Are your goals attainable?

Is your goal and timeframe realistic for the goal you have established?

Do you have a timeframe listed in your SMART goal? This helps you be accountable and helps in motivation.
